Mixed Up Emma Hart 2017-04-19 Dirty cocktails, deadly enemies with a red-hot attraction, and one big, crazy, Greek family--what could possibly go wrong? Hiring my brother's best friend was not on my to-do list. Neither was he. Expanding my dirty cocktail bar into food was supposed to be easy, except finding a chef in my little town of Whiskey Key is anything but. Until Parker Hamilton comes home--bringing his Michelin starred chef's hat with him. He has no work. I need someone like him in my new kitchen. There's just one problem: I hate his cocky, filthy-mouthed, sexy-as-hell guts. Even if I might want him. Just a little... Working for my best friend's sister? Not on my to-do list. She's another story. Whiskey Key was supposed to be a relaxing vacation, except I haven't reached the heights I have by lying in a hammock drinking cocktails. So when Raven Archer is desperate for a chef, I offer up my skills. I'm bored. She needs what I can give her. Except there's a problem: I've always hated her. Her and her big, blue eyes, sassy mouth, and killer curves. If only I didn't want her.

Lesbian Cinema after Queer Theory Clara Bradbury-Rance 2019-01-30 The unprecedented increase in lesbian representation over the past two decades has, paradoxically, coincided with queer theory's radical transformation of the study of sexuality. In *Lesbian Cinema after Queer Theory*, Clara Bradbury-Rance argues that this contradictory context has yielded new kinds of cinematic language through which to give desire visual form. By offering close readings of key contemporary films such as *Blue Is the Warmest Colour*, *Water Lilies* and *Carol* alongside a broader filmography encompassing over 300 other films released between 1927 and 2018, the book provokes new ways of understanding a changing field of representation. Bradbury-Rance resists charting a narrative of representational progress or shoring up the lesbian's categorisation in the newly available terms of the visible. Instead, she argues for a feminist framework that can understand lesbianism's queerness. Drawing on a provocative theoretical and visual corpus, *Lesbian Cinema after Queer Theory* reveals the conditions of lesbian legibility in the twenty-first century.

When Emma arrives at North Lake, she realizes there are actually two very different communities there. But to her new family, she is Saylor, the name her mother always called her. Then there's Roo, the boy who was her very best friend when she was little. Roo holds the key to her family's history, and slowly, he helps her put the pieces together about her past. It's hard not to get caught up in the magic of North Lake—and Saylor finds herself falling under Roo's spell as well. For Saylor, it's like a whole new world is opening up to her. But when it's time to go back home, which side of her—Emma or Saylor—will win out?

Asphalt Carl Hancock Rux 2005-05-24 Already a celebrated performance artist, vocalist, poet, playwright, and visionary, Carl Hancock Rux now presents a brilliant debut novel—a profound and lyrical portrait of urban life that will take its place among the classics of American literature. Racine is a reserved young man, but his passion for music lights him up inside. He's just returned from Paris where he'd been invited by a friend to produce music, make recordings, and earn a living. The plan didn't quite pan out, and now he's back in New York, where fate, providence, or just plain chance leads him to a once-glorious brownstone turned into a squat by a few eccentric loners. There's Manny, who wears sarongs and glitter but has no trouble attracting beautiful women, and Couchette, a gorgeous second-generation dancer whose mother has gone to Bali to live and bear a child with a man who built her a house in the midst of a rice paddy. What binds the characters is a deep sense of loss. Each is like the city they live in--wounded and seeking healing and connection with and through the other housemates. Rux's poetic fiction blurs the lines between characters' dreams, memory, and reality. *Asphalt*--the name representing the essence of the city and the hard, layered, yet vulnerable sensibility of its inhabitants--is part post-modern parable, part urban mythology, and altogether relevant to contemporary reality. *Asphalt* is daring and unforgettable, marking the arrival of an original and astounding new voice in American literature.

Other People We Married Emma Straub 2012-02-07 The beloved story collection from the New York Times-bestselling author of *The Vacationers*, *All Adults Here* and *This Time Tomorrow* In *Other People We Married*, Straub creates characters as recognizable as a best friend, and follows them through moments of triumph and transformation with wit, vulnerability, and dazzling insight. In "Some People Must Really Fall in Love," an assistant professor takes halting steps into the awkward world of office politics while harboring feelings for a freshman student. Two sisters struggle with old assumptions about each other as they stumble to build a new relationship in "A Map of Modern Palm Springs." In "Puttanesca," two widows move tentatively forward, still surrounded by ghosts and disappointments from the past. These twelve stories, filled with sharp humor, emotional acuity, and joyful language, announce the arrival of a major new talent.

Emma's Stormy Summer Miranda Newbould 2011-07-01 "Dad thinks I'm a nuisance" It may be sunny but Emma's perfect world seems to be unravelling in front of her. First her friend Becca started being horrible

to EVERYONE and now Dad is ignoring her and acting weird. Emma can't help but worry that it is all her fault and as the storm clouds gather over her Dad she feels more and more guilty and responsible. If only she could get everything back to normal. This summer she realises that growing up can be a rollercoaster and maybe, just maybe, she should relax and enjoy the ride. A great read! Review ===== There is lots of good description of the girls' families and all their activities, which makes the story come alive, and we really feel we know them and what they are like. There are amazing birthday parties and a village carnival to enjoy, and the food they eat is described in loving detail (a la Enid Blyton). ... This is a story that girls will enjoy particularly, and the problems encountered - the bullying and Emma's father's illness - are handled at a level that is good for younger readers. A good, involving read. --www.healthybooks.org.uk

World Behind Walls Justine Hoepfner 2002-03 For protection from criminals, a city must relocate to an artificial world. But can life without reality truly bring happiness?

The Tides of Mind: Uncovering the Spectrum of Consciousness David Gelernter 2016-02-22 A "rock star" (New York Times) of the computing world provides a radical new work on the meaning of human consciousness. The holy grail of psychologists and scientists for nearly a century has been to understand and replicate both human thought and the human mind. In fact, it's what attracted the now-legendary computer scientist and AI authority David Gelernter to the discipline in the first place. As a student and young researcher in the 1980s, Gelernter hoped to build a program with a dial marked "focus." At maximum "focus," the program would "think" rationally, formally, reasonably. As the dial was turned down and "focus" diminished, its "mind" would start to wander,

and as you dialed even lower, this artificial mind would start to free-associate, eventually ignoring the user completely as it cruised off into the mental adventures we know as sleep. While the program was a only a partial success, it laid the foundation for *The Tides of Mind*, a groundbreaking new exploration of the human psyche that shows us how the very purpose of the mind changes throughout the day. Indeed, as Gelernter explains, when we are at our most alert, when reasoning and creating new memories is our main mental business, the mind is a computer-like machine that keeps emotion on a short leash and attention on our surroundings. As we gradually tire, however, and descend the "mental spectrum," reasoning comes unglued. Memory ranges more freely, the mind wanders, and daydreams grow more insistent. Self-awareness fades, reflection blinks out, and at last we are completely immersed in our own minds. With far-reaching implications, Gelernter's landmark "Spectrum of Consciousness" finally helps decode some of the most mysterious wonders of the human mind, such as the numinous light of early childhood, why dreams are so often predictive, and why sadism and masochism underpin some of our greatest artistic achievements. It's a theory that also challenges the very notion of the mind as a machine—and not through empirical studies or "hard science" but by listening to our great poets and novelists, who have proven themselves as humanity's most trusted guides to the subjective mind and inner self. In the great introspective tradition of Wilhelm Wundt and René Descartes, David Gelernter promises to not only revolutionize our understanding of what it means to be human but also to help answer many of our most fundamental questions about the origins of creativity, thought, and consciousness.
