**Save American Jobs** Abraham K. Turkson 2005-06 Hope has always said to Americans tomorrow will be better than today. Always, until now. Because if you are a computer programmer, engineer, accountant, manager or a factory worker, you are filled with fear, instead of hope, for your job may disappear overnight. If you are a small sized entrepreneur, the big company you've serviced from the beginning of your existence may call in the middle of the night to inform you they will no longer buy from you; they are buying from overseas. And these are the stories unfolding in communities across America. Fear, not hope, is stalking many an American. The information superhighway that was supposed to have been the road to high-paying jobs for Americans has instead turned into one on which offshore outsourcing is killing many jobs. If it is allowed to continue, America's foundation built over many generations will be weakened. To save existing jobs in America and create new ones, Dr. Abraham Turkson has suggested new ideas to reduce costs to make businesses in America more competitive, provide private healthcare for all Americans, and stop oil imports. And none of the suggestions involves raising taxes. Hope must be reborn across America.

**Opportunities in Business Management Careers** Irene Place 1998

**Shaping the Future of Work** Thomas A. Kochan 2015-12-01 *Shaping the Future of Work* lays out a comprehensive strategy for changing the course the American economy and employment system have been on for the past 30 years. The goal is to create more productive businesses that also provide good jobs and careers and by doing so build a more inclusive economy and broadly shared prosperity. This will require workers to acquire new sources of bargaining power and for business, labor, government, and educators to work together to meet the challenges and opportunities facing the next generation workforce. The book reviews what worked well for average workers, families, and the economy during the era of the post-World War II Social Contract, why that contract broke down, and how, working together, we can build a new social contract suitable to today's economy and workforce. The ideas presented here come from direct engagement with next generation workers who participated in a MIT online course devoted to the future of work and from the author's 40 years of research and active involvement with business, government, and labor leaders over how to foster innovations in workplace practices and policies.

**Youth Employment in American Industry** Robert Bernard Hill 1984-01-01 The persistent high level of unemployment among young people has become an issue of national concern. This study examines nationwide attitudes, practices, and policies of private employers toward hiring youth. A survey was conducted in 1981-82 among a random cross-sample of 535 private employers taken from the Equal Employment Opportunity Commission Employer Information Report list (EEO-1). The major findings and recommendations were as follows: (1) strategies are needed to facilitate young workers' moving into long-term, higher-paying occupations; (2) private industry should adopt more flexible guidelines to increase teenagers' securing full-time, entry-level positions; (3) advancement opportunities for young workers must increase, especially in service firms and medium-sized and large businesses; (4) most employers surveyed believe that young people perform as well as adults in most areas; (5) the number of private industry-initiated job programs for minority youth should increase; (6) employers need to be made more aware of government programs designed to increase employment opportunities for youth; (7) studies should be done to find out why nearly half of the employers surveyed do not think that a subminimum wage differential will increase young people's job opportunities; (8) employers' willingness to hire minority youths is based on their commitment to helping disadvantaged young people more than on the level of wage subsidy offered; (9) and teaching basic skills in school and skills training

on the job must be emphasized to increase youth employability. A description of the EEO-1 list, the sampling plan, the questionnaire, 17 tables, and a 37-item bibliography are appended. (CJS)

**The Good Jobs Strategy** Zeynep Ton 2014 Explains how today's workers are a company's greatest asset and should be treated as such and discusses the flaws in the trend that sent service, manufacturing and retail sector jobs overseas in an effort to stay competitive through reduced wages and benefits. 25,000 first printing.

**Outsourcing U.S. Jobs** Jacqueline Ching 2009-01-15 Outsourcing has become a commonplace practice thanks to the growth of broadband Internet connections, improved shipping, open borders, increasing education, and the spread of English as a common language of business. It's hard to find a company that doesn't outsource at least some small part of their business. Companies that have moved jobs overseas include household names such as MCI, Verizon, Delta Airlines, Microsoft,

Citigroup, Hewlett Packard, General Electric, Sprint, AT&T, and IBM. Outsourcing is not just for the private sector, however. Government agencies in forty states and Washington, DC, use foreign workers to handle their customer service needs. This can lead to job loss for many American workers and downturns in local economies. Outsourcing of U.S. jobs is not necessarily the problem, however, and other countries' hard workers are not the enemy. If the United States is to create jobs, services, and products that are so specialized, advanced, high-quality, and unique that they can be supplied by no other nation, it must invest in its citizens. It is innovation, skill, and know-how that have allowed the United States to become a world leader over the past hundred years. If it hopes to stay in front of the global pack, its commitment to fostering an educated, intelligent, hard-working, and creative citizenry must not slacken, but in fact be strengthened.

**How to Find Your Dream Sales Job - The Future is Yours to Create!** Susan A. Enns 2020-09-01  
Sales is considered to be one of the most recession proof careers. Why should you consider a sales career, how to know if you would be good at it, how to write a resume and a gender neutral cover letter, what to include in your LinkedIn profile, how to do interview prep, what to wear, how to access the hidden job market, how to evaluate a job offer, how to resign from your current job .... it's all in this book! More Details: A study published by Jobfox, identified Sales Representative/Business Development as the most recession-proof profession. Profit Magazine reported; "Finding the right sales talent was one of the biggest concerns facing sales organizations today." Similar studies conducted annually by Manpower Inc. report that the position of "sales representative" is consistently considered by management as one of the most difficult jobs to fill. According to the research in the book "How to Hire & Develop Your Next Top Performer - The Five Qualities That Make Sales People Great", 1 in 4 people have an aptitude and are well suited for a career in sales. So, if there are that many sales organizations always looking to hire sales people, and so many people have the ability to sell, why are so many sales people having difficulties finding their dream sales position? It's probably because few of us are ever taught how to actually find it. This eBook is going to fix that. "How to Find Your Dream Sales Job - The future is yours to create!" will ask and answer four basic questions: 1. Why should you consider a career in sales? 2. How to know if you would be good at it? 3. What does your dream job look like? 4. How do you go out into the job marketplace and find it? Why should you consider a sales career, how to know if you would be good at it, how to write a resume and a gender neutral cover letter, what to include in your LinkedIn profile, how to do interview prep, what to wear, how to access the hidden job market, how to evaluate a job offer, how to resign from your current job .... IT'S ALL IN THIS BOOK!  
Written by Susan A. Enns, a sales coach and author who has been in sales, in one form or another, for well over 3 decades. Over those 30 plus years, in all capacities at all levels of sales, sales management, and executive level management, she has interviewed hundreds, maybe even thousands of candidates for various sales and sales management positions. With that experience under her belt and a record of proven performance to her credit, she wrote this book. She started to write it the day she met a very enterprising young man who wanted to start a career in sales. He told her he found a company online and they were going to charge him more than \$3000 to teach him how to find a sales job. She thought at the time that was highway robbery, let alone questioning if it was even legal. She finished writing it shortly after the COVID-19 Pandemic of 2020 changed the world, and so many talented sales people were forced to change jobs and were hitting the job market on a moment's notice. As Confucius once said, "Choose a job you love, and you will never have to work a day in your life". Susan has had such a rewarding career in sales, she wants to help you explore the same

opportunity. So let's get started!
