

# Empowering Congregations Successful Strategies For 21st Century Leadership

*Leading from the Second Chair* Mike Bonem  
2005-09-01 LEADING FROM THE SECOND CHAIR will raise awareness of the need for strong leaders in secondary positions. It will describe the value they can bring to their organization and to primary leaders when they are serving at their full potential. It will reshape the way they view their role, with an emphasis on their own responsibility as leaders. It recognizes the unique challenges and frustrations of serving in a subordinate position and equips these leaders with the attitudes and skills that they will need to survive and thrive in this new paradigm. Because of the scarcity of resources for second chair leaders, particularly those in the church, this book will offer a

practical way to improve the performance of any organization. *Leading Congregational Change* discussed the importance of a "vision community"--a diverse group of key members who discern and implement the vision for a congregation--to guide the transformation of a church. This work will extend the theme of an empowered leadership team as we explore how individual clergy and laity can lead effectively. *Team Strategies for Success* Mary Ann Smialek  
2001-10-09 Break down the barriers within your school organization! Teaming is a collaborative educational model necessary for the increasingly sophisticated world of the Information Age. This book is a primer—containing both theory and practice—for the educator looking for team strategies and success. It is designed around the

principle that educational teams are composed of highly interrelated processes. From this book, you will learn how to bring your school together using seven steps for development and implementation which offer you a workable team empowerment design.

Leading Leaders Aubrey Malphurs 2005-04-01

The key to effective leadership in the vast majority of today's churches lies as much with their governing boards as it does with their pastor. But many churches are lead by those who volunteer to chair committees because there is a need, yet they have no leadership training to speak of. How can well-meaning but sometimes ill-prepared lay people guide the path of a church body? The secret lies in offering effective, practical training. Leadership expert Aubrey Malphurs provides this in *Leading Leaders*. Filling a gaping hole in leadership literature, Malphurs offers workable strategies to train laypeople to successfully lead their churches.

*Effective Church Leadership* Kennon L. Callahan 1997-08-25 Kennon Callahan shares a new understanding of leadership, and helps missionary pastors grow their leadership by cultivating new understandings and practices in seven key areas. Callahan guides pastors and key leaders in building on their creativity and imagination in order to revitalize their local churches and advance their missions.

**Leading Beyond the Pulpit** Sonya Privette-James 2012-03 Prestige, power, control, and position higher than God himself is not His will. It is yours, and that is what looses the heart of ministry. God is not pleased with whom He trusted to guide His people. God has a lot to say about the building of His kingdom. Pastors tend to take it personally, but it is building God's leaders up for His glory—not yours. How many leaders have to go from church to church for change because of disappointment? It grieves God's heart and spirit in man, but God knows that it is the struggle that brings out endurance.

Are you struggling as a pastor or leader in the church? Do you feel like giving up on ministry? Do you understand why pastors fail in ministry? Do you understand the importance of being a good leader? Sonya Privette-James shows you how to lead effectively. Learn creative ways to teach your leaders how to lead with excellence and how to have the pastor's heart. After reading the *Leading Beyond the Pulpit: Effective Leadership in the Twenty-First-Century Church*, your ministry will never be the same again. *Church Strategies: & Ministry Systems: The Essential Guide to Seeing Under the Hood of Urban Churches* Christopher J. Harris  
2018-10-30 Churches and Ministry Leaders want to win. What often challenges that desire are threats to the vision, people, leadership development, and even resources when the focus has less often been on effective strategies and solid systems. This challenge is exacerbated even more for urban churches where there is a lack of effective, balanced, and contextually

relevant resources available. *Church Strategies and Ministry Systems* is designed to fill this gap by offering practical information and solutions specifically for the urban church community. Presented as a primer for pastors who want to ensure that their churches are growing and healthy; Executive Pastors and Assistant Pastors who are tasked with leading the day-to-day operations of the church, leading people, and connecting vision and systems; and leaders who are called to serve their church, this resource is written from an experienced practitioner who has made the mistakes, done the heavy lifting, gathered the research, understands the challenges, and sees the theological foundation for strategy. It's an Executive Pastor for an Urban Church in a book. Rather than providing all of the answers that church systems thinkers are asking, this book helps you to ask the right questions and guides you towards healthy answers. Most importantly, it is written with a leaning towards leaders who desire to walk in

wisdom, emotional health, and strategic insight. *The Necessary Nine* Bob Farr 2016-01-05  
Conventional wisdom is that leaders are born, not made. In reality, that is one small piece of the leadership puzzle. The fact is, approximately 10% of church leaders are naturally-gifted leaders who actually don't need any help. Another 10% of church leaders do not have the capacity to lead nor learn to lead with the skill set needed for the 21st century church. This means approximately 80% of church leaders have the possibility of becoming a more effective church leader. This book is for them. The *Necessary Nine* contains nine simple axioms for effective pastoral and lay leadership for the church. These axioms have the greatest potential for fruitful ministry. These strategies are straightforward and easy to use. The reader will have "that's true" moments and learn to put those insights into regular practice. It will help the reader with the simple leadership strategies that, if practiced over and over and over, will

change the effectiveness of their leadership, impacting the church and the world. "Bob Farr and Kay Kotan have captured some of the essential qualities of effective pastoral leadership. This book offers something practical and helpful for pastors at every age and stage of ministry. I heartily recommend it." -- Clayton Oliphint, Senior Pastor, First United Methodist Church, Richardson, TX

*Leading Leaders* Aubrey Malphurs 2005-04 How can well-meaning but sometimes ill-prepared laypeople guide the path of a church body? A leadership expert provides the secret, which lies in offering effective, practical training.

**Empowered Leaders** Hans Finzel 2002-09-28 Is leadership really about the rewards, excitement, and exhilaration? Or the responsibilities, frustrations, and exhausting nights? Hans Finzel takes readers on a journey into the lives of the Bible's great leaders, such as Moses, Abraham, Jesus, unearthing powerful principles for effective leadership in any situation. This

powerful guide to developing the skills needed to become a successful leader poses some penetrating questions that force us to take an honest look at ourselves and our intentions in being a leader.

**Youth Empowered** Sean Buono 2020-01-17 Millennials are disengaging themselves from the Christian faith at an alarming rate. With the culture changing at such a rapid pace, the church must now build a youth ministry that is as scalable, as adaptable, and as moldable as the ever-changing cultural landscape that today's youth live in. This practical book walks you through the steps of building a student-led youth ministry that equips your students to actively practice their faith and engage their peers. By challenging traditional models of youth ministry, this model can be implemented successfully in any size youth ministry as it encourages youth leaders and youth pastors to minister alongside their youth, rather than at their youth.

**The Leadership Baton** Rowland Forman 2004

A church-based biblical case and action-plan for developing leaders to fill the leadership vacuum. Includes inventories and practical implementation strategies from ideas tested by the Center for Church Based Training in their workshops around the country.

**Shape Up** Dr. Michael Thomas Scott, Sr. 2010-04-13 Shape UP: Strategies for Health Awareness Through Preaching and Empowerment by Dr. Michael Thomas Scott, Sr. is a must read for Pastors, Preachers, Health Educators and Community Leaders of all churches and denominations. There is a tremendous need for health awareness through preaching within the African-American community because many African-Americans continue to make bad choices that often lead to disease and infirmity. Preaching has always been and always will be the catalyst to motivate people and the source of inspiration to inspire people to continue to move forward when their progress has been impeded or stopped because

of some opposing opposition. Health Awareness Ministry is an application of the hands on approach. This insightful book is a practical resource tool for the implementation of an effective Health Awareness Ministry for the local church.

**Catching the Next Wave** Steven J. Goodwin 1999 Identifies characteristics of healthy, growing congregations and the warning signs of congregational decline, giving leaders strategies for revitalizing a congregation in need of direction.

**Advanced Strategic Planning** Aubrey Malphurs 2013-06-15 First published in 1999, Advanced Strategic Planning explains why planning is so important to carrying out the

church's mission. Now in its third edition, this classic resource offers •a nine-step strategic thinking and acting model •useful ideas for developing a ministry strategy •diagrams to help illustrate concepts •a new section on spiritual formation The methods in this book are proven to work, having already helped many churches articulate their vision and implement their mission.

*Servant Leadership* Samuel O. Enyia 2022-05-04  
The focus of this book is on how applying the principles, practices, strategies, and strengths of servant leadership can help leaders revolutionize their leadership culture and practices to maximize performance outcomes, whose core strength is in serving others first. It prepares and equips leaders aEUR" whether at the corporate, educational, church, community, NGOs, private, public, and family context aEUR" with the complete understanding of the spectrum of the model and to show why it is a viable leadership alternative, more efficient and

effective leadership model because it's humane, valueaEUR"based, moral, and relationshipaEUR"driven, which yields the best outcome for the organization, employees, and followers, who are empowered, valued, and respected for their gifts, expertise, and abilities. *Effective Line Management in Ministry* Sharon Prior 2017 A key aspect of leadership in churches and Christian organizations is helping individuals, both voluntary and paid, to grow in their roles and develop their God-given potential. This guide argues that effective line management can enable people to work out their own methods and solutions, transforming a disparate group into a motivated empowered and smoothly functioning team.--publisher.

*Empowering Leadership* Michael Fletcher  
2018-01-23 A major problem in the local church today is lack of leadership. Simply put, we have more needs than we have leaders to meet those needs. So, how do we train better leaders faster? The truth is, very few churches really have a well-thought-out leadership development plan. Growth requires continually adding healthy new leaders, who carry the church culture forward and embody its core values. Everyone knows it, but how do we achieve it? In *Empowering Leadership* author and leadership consultant Michael Fletcher says leaders like this can't simply be bought, nor can they be hired from someone else's leadership assembly line. Developing leaders at every level, to create an environment that attracts potential leaders, and to build better leaders faster, an organization needs more than a pipeline. It needs a culture that develops leaders organically. Finding the right kind of leaders to guide your church on a path of continual growth comes out of keeping

the right focus, and that focus is not just on the leaders. In fact, as Fletcher says, It isn't about the leader. It never was about the leader. It will never be about the leader. It will always and only be about Jesus and his people. It's about the people. True leadership development includes the often messy, but necessary, interaction of life upon life. So hiring pastors and key staff roles from within the church is the very best policy—people who "breathe" the culture of the church and who have helped create the culture you want to maintain. If your church or organization needs a good leadership development structure, then you're holding the right book. *Empowering Leadership* details Michael's greatest insights on how to build better leaders faster by creating a leadership development culture in your church or organization—naturally, organically, continually. Empower your church or organization through great leadership. This book will show you how!  
*Navigating Apostolic Change* Elaine Newton

2015-10-23 NAVIGATING APOSTOLIC CHANGE: Repositioning the Church for 21st Century Ministry offers a blueprint to aid leaders in transitioning from church as usual to a church positioned for apostolic change. It begins by challenging the leader to personal transformation and explains the paradigm shift needed to lead apostolic change efforts (Chapter 1: The Leader and Apostolic Change). In Chapter 2, the 10-step Apostolic Change Process is explained. This process includes leader transformation, church assessment, theme communication, formation of a change leadership team, preparing and envisioning the people, crystallizing and communicating vision, soliciting support and empowering people to act, strengthening church infrastructure, celebrating success, and sustaining change. Additional resources and tools are recommended to aid transformation process. Chapter 3 explores the Human Side of Change. To change organizations, people must change. The process

of personal change and its impact on organizational change efforts are delineated. Suggestions for empathically addressing such emotions as resistance, anger, grief, fear, and apathy toward change efforts are given. In addition, recommendations for creating a culture that supports change efforts and ultimately attainment of church vision are presented. Creating a new wineskin for apostolic ministry is imperative if ministry efforts are to be successful. Chapter 4, Organizing for Apostolic Ministry presents a theory of organizational design that facilitates a kingdom outreach strategy. Organism (operational) and structural views of organizing the church are presented. Both facilitate the five core functions of the church: evangelizing, nurturing, discipling, equipping, and sending. Suggestions for realigning ministry systems and activities are given. In Chapter 5, A Tactical Approach to Advancing the Kingdom in Community, I present a strategy for positioning the church to initiate,

lead or participate in community transformation efforts. Military metaphor is used to describe the activities of a local and regional church objective force and the critical success factors for strategy implementation. Lastly, a biblical case is made for the importance of measuring ministry effectiveness (Chapter 6) and how ministry evaluation can help churches realize its vision for transformation. The basic elements of performance management are explained and tools and techniques for measuring church effectiveness are recommended. Once you have read this book, you will be able to plot a course for change in your church. A note of caution, do not throw the baby out with the bath water! Jesus said, "Therefore every scribe instructed concerning the kingdom of heaven is like a householder who brings out of his treasure things new and old." (Matt. 13:52) The temptation is to initiate superficial change or simply wipe the slate clean and start over again. Apostolic change requires a proper balance of

the old and the new. Leaders must prayerfully seek God's guidance throughout this process to insure the process facilitates His specific mandate for the local and regional church. Now, get ready to participate (as co-laborers in Christ) in one of the most challenging and rewarding experiences in your Christian walk!

### **Revitalizing the Sunday Morning Dinosaur**

Ken Hemphill 1996 According to the leading church growth expert, Ken Hemphill, Sunday School is not only worth saving, it has the potential to revitalize your entire church. 'Revitalizing The Sunday Morning Dinosaur' gives you specific, detailed steps on how to lead your congregation in making it happen.

**The Leadership Factor** Jay Duane Driver 2021-08-17 The Leadership Factor "Leadership Dynamics for the 21st Century Church" provides a unique yet relative and much needed perspective on the challenges of the Church of the Lord Jesus Christ in the 21st century, both universally and locally as it relates to individual

congregations respectively. It speaks directly and passionately to the urgency of the hour as the Church of our Lord awaits His imminent return. At the heart of these challenges is the imperative for servant leadership. There has been a seismic shift in what is needed and expected of the Church in these closing days of grace, and to properly respond the church must deploy a new paradigm that incorporates strategies that will engage and focus its congregants on the need for servant leadership, as well as how the stewardship level for servant leadership must extend to every born-again believer. The book is a comprehensive read, easy to understand, and it reaches the pastor and the pew, the laity and the laborer, the servant and the seeker. The Leadership Factor meets each one at the point of their most direct level of spiritual maturity, with full consideration of the clarion call to further ensure and solidify the role of servant leadership in meeting the holistic needs of the 21st century church.

*For the Sake of the House* Steve W. Raimo  
2011-09 *For the Sake of the House* is written to heighten awareness of the organizational dynamics of the church and advance new strategies to meet the demands of this century. Despite the growing urgency on today's organizations to poise themselves for sustainability, many local congregations and religious organizations continue to function as they have for decades, seemingly oblivious to the vicissitudes of life experienced by their members, those who work and live in a world that is changing at an accelerating rate. My objective is to present challenges and perspectives overlooked or ignored by many church leaders. It is organized into four parts with three streams of ideas making up the first three parts and then converging in part four to unveil the integrated whole. An introductory chapter sets the stage with a challenge to traditional perspectives of church organizational structure and leadership. Part one stresses the

critical need to understand the church as an organization. Part two defines strategic leadership qualities essential to today's church. Part three addresses the significant advantages of strategic foresight. Part four deals with organizational leadership from a global perspective with local impact. You will be challenged to reevaluate conventional thinking patterns that, while comfortable for us, can get in the way of our mission and distort our vision. You will be challenged to rethink leadership styles and organizational structures the Church adopted years ago. We have changed our dress, our modes of transportation, our communication tools and access to information, our music, and many other things. Now it is time to ensure the organizational models and the leadership styles we adopt do not thwart the message. For the sake of the house and the Gospel upon which it is built, we must be strategic in our leadership, wise as serpents yet harmless as doves.

**Empowering Congregations** Denton L.

Roberts 2003 Why some religious congregations flourish while others straggle along is a question addressed in this remarkable book.

Congregations are communities of the devout who seek to discern and do the will of the divide, yet to accomplish this, individual members must develop empowering relationships with both the Creator and the created. This book weaves together principles gained from human development theory, quality management practice and the recovery movement and produces warm and empowering guidelines to help congregations and clergy be encouraged and, ultimately, grow in vitality, effectiveness and enjoyment.

*Leading the Team-Based Church* George Cladis 1999-05-12 A Leadership Network Publication In *Leading the Team-Based Church*, George Cladis issues a clarioncall for ministry teams to embrace a fresh leadership model that is not based on hierarchy, but on a process of collaboration that mirrors the relationship of

Father, Son, and Holy Spirit. Hereminds us that today's cultural environment--where authority has basis in trust, innovation reaps rewards, and spirituality takes root in life and work--has matured past the need for the hierarchy of traditional church leadership where the pastor had the final say. Through down-to-earth stories from his own experience and those of clergy in both mainline and evangelical churches, Cladis offers an exciting alternative to the traditional forms of church leadership, enabling pastors, congregational leaders, and staff to breathe the new life into their ministries and unleash the full potential of the entire ministry team. Cladis, pastor of a fast-growing mainline congregation, demonstrates how cultural changes affecting all our institutions--not just the church--are making it easier to adopt this new model of leadership. Cladis's practical advice will enable ministry teams to work together in ways that both embody the Christian message and call forth the full creativity and love of the

entire team. "Just when it seems that all that can be said has been said on the subject of 'teams', just when one has tired of the gumming of the label 'team' on everything in sight, along comes perhaps the most significant religious book on teams yet published. Cladis juxtaposes the theological and cultural context for team-based ministry in a model presentation of what a conversation between Bible, theology, and culture should look like."--Leonard Sweet, dean, The Theological School and vice president, Drew University

**Learning to Lead** Willard W. C. Ashley 2012  
The first comprehensive resource for teaching faith leadership development in the twenty-first century. America is changing. Technology, global economics, immigration, migration, social networking and multiculturalism scream for communities of faith to critique and expand our vision of how leaders are prepared to serve in congregations and communities. The comprehensive resource for lay persons and

clergy, seminaries, retreats, seminars and congregational leadership development identifies what we need to know to be effective faith leaders in the twenty-first century and how to teach it. It explains how stakeholders—congregational leaders, ordained religious leaders, educators, students and community leaders—learn how to do theology in context and why contextual education is important. It isolates the unique challenges and opportunities various faith expressions and demographics have in their quest to teach theology. It also mines the latest research on change to see how change impacts leadership style and provides strategies for how faith leaders can educate congregations in our fast-changing world.

**Leading Congregational Change: A Practical Guide for the Transformational Journey Set (Includes the Text and Workbook)** Jim

Herrington 2000-02-17 A Leadership Network Publication With this much-needed handbook,

the authors brilliantly combine their experience guiding dozens of churches through the change process with both the study of Christian disciplines and the sophisticated understanding of such important business thinkers as John Kotter on leading change and Peter Senge on learning organizations. In this eminently readable book the authors have distilled their insights and practices into simple but powerful concepts for leading congregations, whether long established or recently formed, through profound change. Leaders using this guide will also be interested in the companion *Leading Congregational Change Workbook*, which offers assessment questions, planning worksheets, activities, and case examples for each stage of the process.

*Advanced Strategic Planning* Aubrey Malphurs 1999 At a time of megachange, Malphurs offers churches and Christian organizations a practical strategic planning process to help leaders face the future wisely.

Transforming Your Church Mark Conner 2005  
*African American Church Leadership* Paul Cannings 2013 How can African American church leaders maximize their leadership potential? What are current models for effective leadership in the African American Christian community? This book answers those questions and more with up-to-date research and current best practices regarding leadership principles and strategies. African American church communities and those who interact with and work with these communities will find this book particularly useful. ParkerBooks are written to equip and encourage African American ministry leaders.

Developing a Vision for Ministry in the 21st Century Aubrey Malphurs 1992 Malphurs believes many churches have no clear vision for ministry--some have the wrong goal and some have too many. With practical principles and helpful worksheets, Malphurs shows how to define an organization, give it direction, and

build popular support.

**Toward a Twenty-First Century Biblical, Apostolic Church** SuYeon Yoon 2019-09-19

This book explores biblical values that critique the ecclesiology of the New Apostolic Reformation Church (NARC) and compares the ecclesiology to other missional movements in the North American context. A biblical exegesis of Ephesians 4:11-13 as well as C. Peter Wagner's conceptualization of an apostle and apostolic ministry allow the author to demonstrate the gap between the biblical perspective and Wagner's concept of an apostle. The biblical role of an

apostle is to make the church missional by emphasizing the concept of sending, whereas Wagner sees the apostle as a church leader. Based upon interviews and participant observation in three NARCs, SuYeon Yoon describes the leadership and ecclesiology based on their own self-descriptions. This book then demonstrates the gap between the biblical and conceptual ideals and the reality of ecclesial practice. The author argues that the NARC serves as a charismatic manifestation of a similar cultural response to establish a relational structure for church communities that can appropriately reflect upon and identify with the contemporary context. This implies that each movement needs to be biblically sound, faithful to its conceptualization, and relevant to the context in order to cultivate its own way of being the church.

*Balanced Leadership* Ralf Müller 2021-11-19 A new theory of balanced leadership in projects Leadership is not static. Instead, authority in

projects shifts dynamically between project managers, individual team members, and sub-teams, depending on the situation. Leadership may be exercised through a vertical, horizontal, shared, or distributed leadership approach. However, balanced leadership ensures the best suitable approach is used in any given situation. Based on an award-winning global program of research studies, *Balanced Leadership* is a thorough investigation of balanced leadership in projects. Ralf Müller, Nathalie Drouin, and Shankar Sankaran present a project-specific leadership approach as well as a theory of balanced leadership, and the situations in which different strategies are required. They also outline the five building blocks that enable balanced leadership: nomination of team members, identification of potential leaders, selection and empowerment of leaders, empowered leadership and its governance, and leadership transition. The book explains the coordination of these building blocks through

the socio-cognitive space shared by project manager and team. Using real-life case studies and clear examples, this book offers a new way of considering and utilizing dynamic leadership in project settings.

**The Empowered Leader** Calvin Miller

1997-04-01 God blessed King David as a leader only after David submitted himself to God's strength. In *The Empowered Leader*, Dr. Calvin Miller shows how following David's example can turn you into the leader you can be, the leader God wants you to be.

**Challenging the Church Monster** Douglas J.

Bixby 2007-09-01 The church monster--according to Bixby--is the personification of a wide variety of problems which have arisen in local churches as a result of the heightened levels of conflict and anxiety with which they are dealing. His goal is to help pastors--as well as laity--to challenge the church monster by dealing with conflict and working through issues that are causing stagnation, early dismissal of

pastors, and other discord that detracts from the mission and vision of the church. Bixby invites churches as well as shows them how to be open to the genuine and exciting possibilities that emerge from two core principles: downsizing and centralizing church government and developing a radical commitment to congregational decision making. This means fewer meetings, more ministry and less conflict, more community. He also offers fresh new ways for churches to function so that mission and ministry can once again become priorities, and people can begin to feel their time and energy are being used for something other than adding fuel to the fire of conflict within the congregation.

*The Ideal Leadership Handbook* Victor Mbah Njei 2023-03-24 This book provides an early case study in what I termed Agile/Grace transformational servant leadership strategy, leadership theory and biblical leadership. It describes major biblical leaders' utilization of

these primarily transformational leadership strategies and also offers contemporary Christian leaders an effective leadership role model. If you are a career person, leader or worker, it will armed you with an eclectic array of leadership strategies through which can be incorporated into the Church and contemporary workplace. To those who think that it is only the Rev/Pastor/CEO/HOD that is a leader, this piece will give you another perspective from the positional leadership you have been taught, that leadership is from the top, commonly known as the traditional waterfall/law system. You will understand that, you don't need a title to lead and as Christ ambassador, you must be a leader from your domain of operation whether you are a pastor or not.

*Servant Leadership Models for Your Parish* Dan R. Ebener 2010 *Servant Leadership Models for Your Parish* explores the practice of servant leadership in a church context. It presents seven behaviors practiced by leaders and members in

high-performing parishes and provides real-life examples of these practices. The unique contribution of this work to the national discussion about parish life and leadership is its description of servant leadership and its explanation of how it works in a parish. This work suggests that parish life can be viewed in light of business principles such as the organizational behaviors of leaders and members in a Christian parish, and religious teaching, particularly the message of Jesus, who taught leaders to be servants and members to be disciples. Intended for pastors and parish leaders, pastoral associates and deacons, parish staff and lay members of parishes who are interested in leadership, it is sure to be indispensable reading for anyone who is interested in changing or improving the leadership, the activities, and the culture of their parish. +
