Beethoven's Century Hugh Macdonald 2008 Essays by the noted authority on nineteenth-century music, the topics ranging from Beethoven and Schubert to comic opera to Scriabin and Janáček. In *Beethoven's Century: Essays on Composers and Themes*, world-renowned musicologist Hugh Macdonald draws together many of his richest essays on music from Beethoven's time into the early twentieth century. The essays are here revised and updated, and some are printed in English for the first time. *Beethoven's Century* addresses perennial questions of what music meant to the composer and his audiences, how it was intended to be played, and how today's audiences can usefully approach it. Opening with a revealing analysis of Beethoven's not always generous regard for his listeners, the essays probe aspects of Schubert's musical personality, the brief friendship between Berlioz and Schumann, Liszt's abilities as a conductor, and Viennese views of Wagner as expressed by Hugo Wolf. Essays on comic opera and trends in French opera libretti in the late nineteenth century reflect the author's long-standing sympathy for French music, and strikingly

eccentric personalities in the world of music, such as Paganini, Alkan, Skryabin, and Janáček, are brought to life. *Beethoven's Century* concludes with a wry look at some startling developments in early twentieth-century music that have often been overlooked. Hugh Macdonald has taught music at the Universities of Cambridge, Oxford, and Glasgow, and since 1987 has been Avis H. Blewett Distinguished Professor of Music at Washington University, St. Louis. He has written books on Skryabin and Berlioz, and is a regular pre-concert speaker for the Boston and St. Louis Symphony Orchestras. Billboard 1968-11-09 In its 114th year, *Billboard* remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.
