The Second Language Acquisition of French Tense, Aspect, Mood and Modality

Dalila Ayoun 2013-07-04 Temporal-aspectual systems have a great potential of informing our understanding of the developing competence of second language learners. So far, the vast majority of empirical studies investigating L2 acquisition have largely focused on past temporality, neglecting the acquisition of the expression of the present and future temporalities with rare exceptions (aside from ESL learners), leaving unanswered the question of how the investigation of different types of temporality may inform our understanding of the acquisition of temporal, aspectual and mood systems as a whole. This monograph addresses this question by focusing on three main objectives: a) to contribute to the already impressive body of research in the L2 acquisition of tense, aspect and mood/modality from a generative perspective, and in so doing to present a more complete picture of the processes of L2 acquisition in general; b) to bridge the gap between linguistic theory and L2 acquisition; c) to make empirical findings more accessible to language instructors by proposing concrete pedagogical applications.

French Sentences Vol.1 Nik Marcel FRENCH SENTENCES Vol.1: English & French THIS EDITION: The dual-language text has been arranged into sentences for quick and easy cross-referencing. The text can be used on its own. However, the content is ideal for reinforcing grammar, and as a precursor to more advanced bilingual editions. This digital edition contains the content in 'English to French' and 'French to English' formats. Once a student has studied the basics, a suitable book about basic grammar is helpful. The suggestion is that it be studied more with the intent of recognition and understanding, rather than memorising and obsessive rote learning. Go through as much of the book you feel you can digest — maybe even the whole book — skipping over what is not easily understood. Then, read through a portion of text in this book, looking for examples of what you have picked up (or gleaned) in your hopefully not so arduous study of grammar. Even repeatedly seeing a word that you remember seeing listed as a 'subject pronoun' or a 'third person plural' verb of some sort is a great help. Then, depending on your inclination, return to the grammar book (or your basic French book), or move on to lengthier bilingual text — like in 2Language Books texts containing news or stories, for example —, or find some suitable French

text: a simple novel, a French news website, etc. Grammar books will likely have some verb charts. However, there are currently good on-line resources that go further — dictionaries with a verb conjugation 'search' option. Many basic language books offer some form of audio support. Internet services — primarily news based radio stations — offer podcasts. Audio from television is an additional resource, and can be formatted for use on various digital platforms. However, if audio is an important component of your interest in languages, electronic devices that support quality text-to-speech (TTS) will likely be appealing. With a library card, TTS technology (in a device that supports the relevant content), and the above mentioned resources, an entire language learning system is available for not much more than a cup of coffee! There is no substantial financial outlay to get you started. Furthermore, there are no additional ongoing fees (and updates), and there are no expiry dates on 'premium' content and resources. En vacances Richard Scarry 1977 Text, drawings, and pertinent words introduce vacation areas and recreational activities. On board pages.

Bonnes Vacances! Rosie Millard 2011 'Looks like not many tourists visit St Pierre et Miquelon,' I mutter excitedly to Pip. 'That is why this trip is going to be so brilliant.' He looks at me questioningly. I am distracted by Gabriel's unusually pallid face. 'Oh my God, he's going to be sick.' Rosie set out on a tour of the French Overseas Departments and Territories (the 'Dom- Toms') with her husband and four young children, partly to make a documentary series but also to show the children it is possible to survive fourteen weeks without Hannah Montana. From Martinique to Réunion, crossing five continents, they eat stewed iguana, 400 croissants and - since the budget is small - copious amounts of Campbell's soup. Candid, darkly humorous and slightly mad, cut with a dash of French history, this memoir offers insights, amusement and hope for anyone who has ever travelled en famille.

A Vos Marques! Alison Andrews 2006-01-23 A Vos Marques! is an introductory course for students taking French as an option alongside their main degree course. It has been developed specifically for false beginners: students who have a slight acquaintance with the language. The course comprises a student's book, teacher's book and 180 minutes of audio (available for free download at <http://www.routledge.com/books/details/9780415157285/>) and, through fifteen chapters, follows the progress of an English-speaking student studying in Paris, whose achievements are designed to reflect those of the course user. Special features include: * activities involving pair and group work * an aid to self-assessment at the end of each chapter * hints on vocabulary learning * clear and accessible layout including integrated cartoons. The guidance offered by the teachers book is of particular importance, as lower-level classes in universities are often taught by native-speaking lecturers with little or no teaching training or experience.

approaches, methods and questions allows for comparisons between various segments of the tourism employment market in France and with other countries. French Phrases Vol.1 Nik Marcel 2015-07-23 French Phrases Vol.1: English & French THIS EDITION: French Phrases seeks to bridge the gap between knowing individual words and knowing how to create or understand sentences. Sentences are phrases or a combination of phrases, and phrases are a combination of words. The simplest phrases are the simplest ways of combining words. Exposure to a wide variety of phrases, especially in increasing complexity, provides the basis for obtaining a solid grasp of a new language. The reason being, phrases can be combined with other phrases to create endless possibilities in language. French Phrases contains a wide variety of phrases, but it also demonstrates how phrases can increase in complexity – through the inclusion of individual words or other phrases. The reader can choose between four formats: Section 1: English to French Section 2: French to English Section 3: English Section 4: French The text can be used to obtain a fundamental grasp of French grammar. An understanding of the rules that underpin the way words combine into phrases, or phrases combine into sentences, allows the language learner to expand their capacity exponentially simply by increasing vocabulary. With this in mind, the text includes an introductory section summarising the important aspects of French grammar. The dual-language text has been arranged for quick and easy cross-referencing. The text can be used on its own. However, the content is ideal for reinforcing and expanding on a basic grasp of the language. With an increasingly robust grasp of the language, the language learner can easily and fruitfully move on to more advanced bilingual text – like in 2Language Books editions –, or suitable French only text: a simple novel, a French news website, etc. Many basic language books offer some form of audio support. Internet services – primarily news based radio stations – offer podcasts. Audio from television is an additional resource, and can be formatted for use on various digital platforms. However, if audio is an important component of your interest in languages, electronic devices that support quality text-to-speech (TTS) will likely be appealing. With a library card, TTS technology (in a device that supports the relevant content), and the above mentioned resources (as digital content), an entire language learning system is available for not much more than a cup of coffee! Bringing French to Life Catherine Watts 2014-10-17 *Bringing French to Life* provides an innovative and refreshing cross-curricular approach to teaching languages in primary schools, combining art, design and foreign languages with various aspects of the National Primary Curriculum such as Literacy, Numeracy and PE. This unique practical resource comprises an engaging storyline about a day in the life of two French children and gives an opportunity for learners to re-enact their day, using finger puppets, handmade crafts and exciting games to practise new language. Each of the 14 sections begins with a short accessible dialogue in French and is followed by suggestions for using the new vocabulary in pairs, small groups or as a whole class. The main story is accompanied by fun craft activities linked to the story (one for each section, ie 14 in total) for children to create in class using the templates and instructions provided. A wide range of further activities follows, consisting of lively games, songs and opportunities to communicate simple ideas. Language extensions are suggested, focussing on imaginative writing and reading ideas linked to the theme of each section. Written to support the new foreign languages programme of study the book also includes: * Cross-curricular links to numerous subjects including Literacy, Numeracy, PE and ICT * Classroom games and activities * Photocopiable resources and templates for fun classroom activities and projects * Language extension activities. *Bringing French to Life* can be read on three levels to suit a variety of classroom situations. First, the story can be told 'straight' with the whole class participating in the dialogues. Second, the story can be combined with the craft activities after each main section. 14 doing and making activities match the storyline and provide a colourful, eye catching display and learning focus in the classroom or for Open Days or Assemblies. Teachers can use as many or as few as they wish. The resultant crafts can be used for very effective classroom displays/open days/assemblies etc. Finally, the language extension activities can be used alongside the art/craft/design activities as desired. The aim of these activities is to extend the target language in a relevant context through a variety of methods such as songs, playlets, simple communicative exchanges, games with numbers etc.

Adverbial Modification Reineke Bok-Bennema 2001 This volume contains a selection of papers presented at the Cinquième Colloque de

Linguistique Romane/Fifth Colloquium on Romance Linguistics, which was held at Groningen University in September 1998. The theme of the colloquium was 'adverbial modification in Romance languages'. Therefore, adverbial modification is the common denominator of the works in this volume. However, and interestingly enough, the viewpoints taken by the Various authors differ considerably: some of the works deal with traditional adverbs (Ocampo, Kampers-Manhe, Bok-Bennema, Molendijk), others with elements such as mood (de Jonge, Quer) or negation (de Swart). Degree modification is discussed by Cover and Doetjes. Modifying clauses are the topic of Le Draoulec's article and modifying nominals play a central role in Schroten's contribution. A special type of modification is the pragmatic one, which is represented by Montolio's article. Also, various theoretical approaches are represented in this volume, such as the generative approach (e.g. Kampers-Manhe, Bok-Bennema), formal semantics (Molendijk, De Swart) and functional-cognitive linguistics (Ocampo, De Jonge), among other ones. Moreover, the languages dealt with are Catalan, French, Rumanian and Spanish. Thus, this volume offers a wide perspective on adverbial modification in Romance languages both from a theoretical point of view as from the point of view of the different languages involved.

Negotiating the Livelihoods of Children and Youth in Africa's Urban Spaces M. F. C. Bourdillon 2012 This book deals with problems facing children and youth in African cities today. African populations have high growth rates and, consequently, relatively high proportions of young people. Population growth in rural areas has stretched resources leading to urban migration and a rapid growth of cities. Economies have not grown apace with the population; and in some countries, economies have even shrunk. The result is a severe lack of resources in cities to meet the needs of the growing populations, shown in high unemployment, inadequate housing, poor services, and often extreme poverty. All the essays in this book draw attention to such urban environments, in which children and youth have to live and survive. The title of this book speaks of negotiating livelihoods. The concept of 'livelihood' has been adopted to incorporate the social and physical environment together with people's responses to it. It considers not only material, but also human and social resources, including local knowledge and understanding. It, thus, considers the material means for living in a broader context of social and cultural interpretation. It, therefore, does not deal only with material and economic existence, but also with leisure activities, entertainments and other social forms of life developed by young people in response to the dictates of the environment. The book contains country-specific case studies of the problems faced by youths in many African cities, how they develop means to solve them, and the various creative ways through which they improve their status, both economically and socially, in the different urban spaces. It recognizes the potentials of young people in taking control of their lives within the constraints imposed upon them by the society. This book is a valuable contribution to the field of child and youth development, and a useful tool for parents, teachers, academics, researchers as well as government and non government development agencies.

At the Beach Jean-Didier Urbain 2003 Around the world, when people think of vacation it's the beach they want--even when long distances must be traversed, the seashore is the place to escape the rigors of modern life. How did this come to be, and what does our ongoing love affair with the beach mean? How do shore vacations differ from traditional tourism, and what does this tell us about our fears and dreams? In *At the Beach*, Jean-Didier Urbain offers witty and insightful answers to these questions. Urbain traces the transformation of the beach from a place of mythological threats and a demanding workplace fraught with danger to a destination for medical treatment and the pursuit of pleasure. He looks to the emergence of the modern vacation in the nineteenth century, examines representations of beachgoing in literature and the arts, and shows the transgressive side of beach culture--from nudism to hedonism to various "scandals" about costume, behavior, and sexuality that make the beach the site of social spectacle as well as leisure. Urbain's ultimate focus is the paradoxical enterprise of the residential seaside vacationer, who travels in order to stay in one place and who leaves the everyday world behind to reconstruct an idealized version of it at the shore. He argues that unlike tourists, who move from place to place, beach vacationers are not seeking to explore nature, to discover other cultures, or even to "get away from it all"; rather, they are attempting to re-create their own identities through a simplified community they can no longer find elsewhere. Blending history with social observation, Urbain presents an original, incisive, and entertaining account of this enduring ritual of escape and recreation.
