*London Writing* Merlin Coverley 2012-06-28

What do writers such as Charles Dickens and Peter Ackroyd, Iain Sinclair and Robert Louis Stevenson have in common? The answer lies in the use these authors make of London as a fictional setting. Yet in these works and in those of other London writers the city is much more than merely a backdrop, instead becoming a character in its own right and creating a sense of place that is both a reflection and a reworking of the city. Here London is presented as a living organism, a huge and mysterious labyrinth, and the source of endless imagination. A whole world is contained by the city and within it the entire spectrum of human experience. From Bleak House to Hawksmoor, from Dr Jekyll and Mr Hyde to White Chappell Scarlet Tracings, London has continued to generate a series of fantastic visions. The humorous and the tragic, the grotesque and the bizarre, everything is possible here. In this book, Merlin Coverley examines the major themes in the development of the London novel from its origins in the Victorian metropolis and onward to the present day and the revival of London writing. On the way he explores the Occult Tradition and London Noir, the Disaster Novel and the rise of Psychogeography, and alongside the recognised classics of the genre he recovers some of those lost London writers whose works have been unjustly neglected.

**It's EZE London!** Tony Gibson 2009-11-07 An unusually comprehensive city travel guide, It's EZE London! provides the reader with up to date information on London's attractions, written in a light and pleasing style with contents grouped into logical chapters which make the reader's research fun and simple to achieve. Filled with useful details, essential background and historic information, it provides a well balanced view of each place described, allowing the reader to make informed decisions on what, when and how to visit their selected destinations in London. It's EZE London! does not feature hotels or other accommodation, nor does it list places to eat and drink. We believe that accommodation research is far better served by availability searches on the Internet and, with some 43,000 pubs and restaurants in London, just where do you start! Instead, we focus on providing useful information on London's many sights and attractions - as well as how to get there. Each attraction listed includes images and location maps which show clearly which other sights or places are located in the immediate vicinity - together with details on nearest Tube stations and, where appropriate, attraction opening times and dates. All in all, a very worthwhile publication.

**Occult London** Merlin Coverley 2017-11-23 London, more than any other city, has a secret history concealed from view. Behind the official façade promoted by the heritage industry lies a city of esoteric traditions, obscure institutions, and forgotten locations. Occult London rediscovers this history, unearthing the hidden city that lies beneath our own. From the Elizabethan magic of Dr Dee and Simon Forman to the occult designs of Wren and Hawksmoor; from the Victorian London of Spring-Heeled Jack to the fin de siècle heyday of Madame Blavatsky and Aleister Crowley. This book describes these practitioners of the occult and their unorthodox beliefs, alongside the myths and legends through which the city has always been perceived. The role of the occult within London's literary history is also outlined, while a gazetteer maps the sites of London's most resonant occult locations. Today we are experiencing a renewal of interest in the occult tradition, and Merlin Coverley examines the roots of this revival, exploring the rise of New Age philosophies and the emergence of psychogeography in shaping a new vision of the city

[John Banville's Narcissistic Fictions](#) M. O'Connell 2013-09-20 In reading Banville's novels through the work of key psychoanalytical theorists, John Banville's *Narcissistic Fictions* brings together apparently disparate thematic strands - missing twins, shame, false identities - and presents these as manifestations of a central concern with narcissism.

[London Perceived](#) Victor Sawdon Pritchett 2003 London of the mind, the heart and the eye is displayed, discussed and dissected with eloquence and understated wit in this classic work of 1962 that unites the elegant prose of V.S. Pritchett and the revealing photographs of Evelyn Hofer. Here is a pithy and knowledgeable distillation of the essential London - a panorama of its history, art, literature and daily life. Here is the city that Londoners know, a paradox of

grandeur and grime, the locus of bustling markets and tranquil parks, of palaces and pubs, of docks and railway depots, of the ancient and modern. Great Londoners of the past stalk these pages - Wren, Pepys, Defoe, Hogarth, Dickens and, of course, Samuel Johnson. And here, too, are the faces of the people inhabiting modern London - enigmatic and enduring. This stylish and evocative collaboration between text and image forms a loving tribute to a great city's past and present.

**Essential Oil Safety** Robert Tisserand 2013-12-02 The second edition of this book is virtually a new book. It is the only comprehensive text on the safety of essential oils and the first review of essential oil/drug interactions and provides detailed essential oil constituent data not found in any other text. Much of the existing text has been re-written, and 80% of the text is completely new. There are 400 comprehensive essential oil profiles and almost 4000 references. There are new chapters on the respiratory system, the cardiovascular system, the urinary system, the digestive system and the nervous system. For each essential oil there is a full breakdown of constituents, and a clear categorization of hazards and risks, with recommended maximum doses and concentrations. There are also 206 Constituent Profiles. There is considerable discussion of carcinogens, the human relevance of some of the animal data, the validity of treating an essential oil as if it was a single chemical, and the arbitrary nature of uncertainty factors. There is a critique of current regulations. The only comprehensive text on the safety of essential oils The first review of essential oil/drug interactions Detailed essential oil constituent data not found in any other text Essential oil safety guidelines 400 essential oil profiles Five new chapters 305 new essential oil profiles, including Cedarwood, Clary

sage, Lavender, Rose, Sandalwood, Tea tree 79 new constituent profiles Five new chapters: the respiratory system, the cardiovascular system, the urinary system, the digestive system, the nervous system. *Thinking in Cases* John Forrester 2017-05-23 What exactly is involved in using particular case histories to think systematically about social, psychological and historical processes? Can one move from a textured particularity, like that in Freud's famous cases, to a level of reliable generality? In this book, Forrester teases out the meanings of the psychoanalytic case, how to characterize it and account for it as a particular kind of writing. In so doing, he moves from psychoanalysis to the law and medicine, to philosophy and the constituents of science. Freud and Foucault jostle here with Thomas Kuhn, Ian Hacking and Robert Stoller, and Einstein and Freud's connection emerges as a case study of two icons in the general category of the Jewish Intellectual. While Forrester was particularly concerned with analysing the style of reasoning that was dominant in psychoanalysis and related disciplines, his path-breaking account of thinking in cases will be of great interest to scholars, students and professionals across a wide range of disciplines, from history, law and the social sciences to medicine, clinical practice and the therapies of the world.
