Why the Theatre Sidney Homan 2020-12-13 Why the Theatre is a collection of 26 personal essays by college teachers, actors, directors, and playwrights about the magnetic pull of the theatre and its changing place in society. The book is divided into four parts, examining the creative role of the audience, the life of the actor, director, and playwright in performance, ways the theatre moves beyond the playhouse and into the real world, and theories and thoughts on what the theatre can do when given form onstage. Based on concrete, highly personal examples, experiences, and memories, this collection offers unique perspectives on the meaning of the theatre and the beauty of weaving the world of the play into the fabric of our lives. Covering a range of practices and plays, from the Greeks to Japanese Butoh theatre, from Shakespeare to modern experiments, this book is written by and for the theatre instructor and theatre appreciation student.

The Theatre of Truth 2008-02-26 Doctoral Dissertation, University of California, Berkeley, 1995ABSTRACT: Jacob Moreno, MD (1889-1974) is known today as the founder of psychodrama, which he defined as "the science which explores the 'truth' by dramatic methods." This dissertation investigates Moreno primarily as a theatre artist. It starts with a philosophical analysis of the concepts of acting, improvisation and spontaneity and then consolidates the elements of Moreno's theory of the nature and function of theatre, which are dispersed throughout his writings and have never been thoroughly collected in one place. It also examines how Moreno discovered the healing power of drama while he directed his Theatre of Spontaneity in Vienna 1920s and in New York 1930s. The appendix contains Moreno's earliest theatrical text, *The Godhead as Comedian*, translated for the first time in its entirety from the 1919 German edition. When Life Gives You Risk, Make Risk Theatre Edwin Wong 2022-02-28 *Creators, Innovators, and Theatremakers: Defy the Smallness of the Stage With the Greatness of Your Daring* Wong's first book upended tragic literary theory by arguing that risk is the dramatic fulcrum of the action. It also launched an international playwriting competition (risktheatre.com). His second book expands on how chance directs the action, both on and off the stage. Inside you will find three risk theatre tragedies by acclaimed playwrights: *In Bloom* (Gabriel Jason Dean), *The Value* (Nicholas Dunn), and *Children of Combs and Watch Chains* (Emily McClain). From the poppy fields of Afghanistan to the motel rooms and doctors' offices lining interstate expressways, these plays—by simulating risk—will show you how theatre is a dress rehearsal for life. Six risk theatre essays round off this volume. In a dazzling display from Aeschylus to Shakespeare, Thomas Hardy, and Arthur Miller, Wong reinterprets theatre through chance and probability theory. After risk theatre, you will never look at literature in the same way. *Tomorrow, Whoever Says Drama will Say Risk*

The Necessity of Theater Paul Woodruff 2008-04-30 What is unique and essential about theater? What separates it from other arts? Do we need "theater" in some fundamental way? The art of theater, as Paul Woodruff says in this elegant and unique book, is as necessary - and as powerful - as language itself. Defining theater broadly, including sporting events and social rituals, he treats traditional theater as only one possibility in an art that - at its most powerful - can change lives and (as some peoples believe) bring a divine presence to earth. The Necessity of Theater analyzes the unique power of theater by separating it into the twin arts of watching and being watched, practiced together in harmony by watchers and the watched. Whereas performers practice the art of being watched - making their actions worth watching, and paying attention to action, choice, plot, character, mimesis, and the sacredness of performance space - audiences practice the art of watching: paying close attention. A good audience is emotionally engaged as spectators; their engagement takes a form of empathy that can lead to a special kind of human wisdom. As Plato implied, theater cannot teach us transcendent truths, but it can teach us about ourselves.

Characteristically thoughtful, probing, and original, Paul Woodruff makes the case for theater as a unique form of expression connected to our most human instincts. The Necessity of Theater should appeal to anyone seriously interested or involved in theater or performance more broadly.
