Adobe Illustrator CS3 How-Tos

David Karlins 2007-08-08

Adobe Illustrator CS3 is more than just the world's most popular and powerful illustration tool: As part of the

Adobe's Creative Suite 3, it's a key component of an overall design workflow that lets users work seamlessly among all of their graphics applications to create graphically rich content for print, Web, motion graphics, and mobile devices. This info-packed guide lets users get right down to work by focusing on the Illustrator CS3 features they're most likely to use and showcasing each in a stand-alone tip--complete with a relevant hint or two and a graphic example. In this fashion, readers learn just what they need to know, exploring the program in a way that makes sense to them. Before they know it, users will be using the new path eraser tool and making vivid artwork using the new Live Color feature and the updated recolor filters, as well as creating symbols and applying instances and exporting their work to Adobe Flash.

Exploring Adobe Illustrator

CS6 Toni Toland 2013-06-25

Packed with vivid illustrations and practical applications, EXPLORING ADOBE

ILLUSTRATOR CS6 delivers a design-driven exploration of the foundation features of the latest version of Adobe Illustrator CS6. Step-by-step tutorials derived from the kind of projects that a graphic designer might typically encounter and profiles of designers and their work in Illustrator are two of the hallmarks of this proven and popular text. The book examines the tools and features of Adobe Illustrator's newest release and shows how to create vector graphics and drawings for both print and the Web with fundamental design elements in mind. Rich pedagogy includes an Exploring On Your Own sidebar that encourages practice beyond the projects and tutorials in the book, and hundreds of new illustrations integrated throughout drives home key design concepts while demonstrating exceptional digital illustration. The Data Files used to complete the projects found in the book are now available online. For access information

Adobe Illustrator CS Idea Kit
Jerome Holder 2004 If you're ready to be inspired, you couldn't pick a better teacher than the team behind many of the design elements in the latest version of Illustrator. Using the templates that ship with the program as a starting point, this beautiful, full-color book teaches a wide range of Illustrator techniques through a series of fun and practical real-world projects--all developed by master illustrators Jerome D. Holder and Barbara J. Mulligan, who created much of the artwork that ships with Illustrator. After covering some Illustrator basics, Adobe Illustrator CS Idea Kit focuses

on a series of projects, each of which hones in on a particular aspect of Illustrator through step-by-step instructions, variations (which allow you to customize the projects), and special design tips and tricks. At every point along the way, you'll find an illustration, photo, or screenshot that illuminates the discussion and provides further inspiration. By the end of the kit, you will have created a logo, business card, Web site, 3D icons, photorealistic effects, dynamic type, and more!
