**The Political Economy of Conflict in South Asia** M. Webb 2015-02-03 Destructive conflicts have thwarted growth and development in South Asia for more than half a century. This collection of multi-disciplinary essays examines the economic causes and consequences of military conflict in South Asia from a variety of perspectives embracing fiscal, social, strategic, environmental and several other dimensions.

*The Dynamics of Conflict and Peace in Contemporary South Asia* Minoru Mio 2020-12-23 This book engages with the concept, true value, and function of democracy in South Asia against the background of real social conditions for the promotion of peaceful development in the region. In the book, the issue of peaceful social development is defined as the conditions under which the maintenance of social order and social development is achieved – not by violent compulsion but through the negotiation of intentions or interests among members of society. The book assesses the issue of peaceful social development and demonstrates that the maintenance of such conditions for long periods is a necessary requirement for the political, economic, and cultural development of a society and state. Chapters argue that, through the post-colonial historical trajectory of South Asia, it has become commonly understood that democracy is the better, if not the best, political system and value for that purpose. Additionally, the book claims that, while democratization and the deepening of democracy have been broadly discussed in the region, the peace that democracy is supposed to promote has been in serious danger, especially in the 21st century. A timely survey and re-evaluation of democracy and peaceful development in South Asia, this book will be of interest to academics in the field of South Asian Studies, Peace and Conflict Studies and Asian Politics and Security.

*Civil Wars of the World [2 volumes]* Karl DeRouen Jr. 2007-05-10 This unique two-volume reference is the most authoritative, up-to-date resource available for information and data on the most volatile civil wars around the globe since World War II. At a time when historians are devoting more and more research to conflicts within nations, *Civil Wars of the World: Major Conflicts since World War II* is an invaluable addition to the available resources. In two volumes, it ranges around the globe to cover the most volatile and deadly civil wars of the past 60 years, including the bloody impasses in the Middle East; devastating tribal warfare in Africa; Cold War-fueled conflicts in Eastern Europe and Asia; the seemingly unbreakable cycle of rebellion and repression in some regions of Latin America; and more. *Civil Wars of the World* moves country by country to describe the causes, course, and consequences of internal conflicts within each nation. Coverage includes the historical background of each country, geographic and economic factors, descriptions of rebel groups and governments (e.g., regime type, size of military, capacity), terrorism, foreign and/or intergovernmental organization (IGO) intervention (UN, foreign support for rebels), foreign aid, and prospects for peace.

Empowering Subaltern Voices Through Education Urmee Chakma 2023-02-28 Based on a four-year-long empirical study, this book employs contemporary theories from the Global South to investigate the role of education in the experience of migration and settlement of the Chakma people of Bangladesh in the city of Melbourne, Australia. Exploring the migration opportunities taken up by the Chakma and their efforts to retain, promote, and enrich their ethnic identity in Australia, the book critically examines the importance of education for ethnic, linguistic, and religious minorities and the extent to which education helped the diasporic community in achieving a 'better' and 'more secure' life. It also positions education as a tool to help revive, maintain, and enrich the importance of culture and tradition, both in the home country and in the place of settlement and offers a theorisation of how the self-directed pursuit of education can create opportunities for minority peoples, to advocate human rights, Indigenous recognition and criticise a state's failure to provide safety and security. This book will be of interest to academics and postgraduate students researching in the fields of education, diaspora studies, Indigenous studies, and migration studies.

**Indigenous Identity in South Asia** Tamina M. Chowdhury 2016-11-10 In the immediate aftermath of the

creation of Bangladesh in 1971, an armed struggle ensued in its remote south-eastern corner. The hill people in the Chittagong Hill Tracts, more commonly referred to as paharis, demanded official recognition, and autonomy, as the indigenous people of the Tracts. This demand for autonomy was primarily based on the claim that they were ethnically distinct from the majority 'Bengali' population of Bangladesh, and thereby needed to protect their unique identity. This book challenges the general perception within existing scholarship that indigenous claims coming from the Tracts are a recent and contemporary phenomenon, which emerged with the founding of the Bangladesh state. By analysing the processes of colonisation in the Chittagong Hill Tracts, the author argues that identities of distinct ethnicity and tradition predate the creation of Bangladesh, and first began to evolve under British patronage. It is asserted that claims to indigeneity must be understood as an outcome of prolonged and complex processes of interaction between hill peoples – largely the Hill Tracts elites – and the Raj. Using hitherto unexplored archival sources, *Indigenous Identity in South Asia* sheds new light on how the concepts of 'territory', and of a 'people indigenous to it' came to be forged and politicised. By showing a far deeper historical lineage of claims making in the Tracts, it adds a new dimension to existing studies on Bangladesh's borders and its history. The book will also be a key resource for scholars of South Asian history and politics, colonial history and those studying indigenous identity.

**Routledge Handbook of Contemporary Bangladesh** Ali Riaz 2016-01-29 In the past decade, Bangladesh has achieved significant social and economic progress. Despite high population density, a limited natural-resource base, underdeveloped infrastructure, frequent natural disasters and political uncertainty, the country has recorded positive developments in terms of broad economic and social indicators. This Handbook presents a comprehensive and interdisciplinary resource on the politics, society and economy of Bangladesh today. Divided into six thematic sections, the Handbook focuses on relevant issues and trends on: History and the making of contemporary Bangladesh Politics and institutions Economy and development Energy and environment State, society and rights Security and external relations Written by a team of international experts in the field, the chapters provide an accessible and up-to-date insight into contemporary Bangladesh. The Handbook will be of interest to students and academics of South Asian studies, as well as policymakers, journalists and others who wish to learn more about this increasingly important country.

**Migration, Regional Autonomy, and Conflicts in Eastern South Asia** Amit Ranjan 2023-05-26 Delving into the past and present of various secessionist movements in Northeast India, political conflict in Chittagong Hill Tracts in Bangladesh, a political movement for autonomy in Darjeeling hills in Eastern India, and the Rohingya migration crisis affecting India and Bangladesh, this book examines the volatile co-existence of competing population groups in Eastern South Asia. Through the conceptual lens of the 'home' and feeling of 'homeland' in Eastern South Asia, the authors seek answers to three complex but interrelated questions: why is Eastern South Asia facing so many political movements and conflicts? How have the political movements affected the region and people? Why is the number of migrants in this region so high? Answers to these questions are vital to those studying South Asia and interested in understanding this region.

**Shifting Cultivation Policies** Malcolm Cairns 2017-11-13 Shifting cultivation supports around 200 million people in the Asia-Pacific region alone. It is often regarded as a primitive and inefficient form of agriculture that destroys forests, causes soil erosion and robs lowland areas of water. These misconceptions and their policy implications need to be challenged. Swidden farming could support carbon sequestration and conservation of land, biodiversity and cultural heritage. This comprehensive analysis of past and present policy highlights successes and failures and emphasizes the importance of getting it right for the future. This book is enhanced with supplementary resources. The addendum chapters can be found at: [www.cabi.org/openresources/91797](http://www.cabi.org/openresources/91797)

The Wartime Origins of Democratization Reyko Huang 2016-10-13 Why do some countries emerge from

civil war more democratic than when they entered into it, while others remain staunchly autocratic? Observers widely depict internal conflict as a pathway to autocracy or state failure, but in fact there is variation in post-civil war regimes. Conventional accounts focus on war outcomes and international peacebuilding, but Huang suggests that postwar regimes have wartime origins, notably in how rebel groups interact with ordinary people as part of war-making. War can have mobilizing effects when rebels engage extensively with civilian populations, catalyzing a bottom-up force for change toward greater political rights. Politics after civil war does not emerge from a blank slate, but reflects the war's institutional and social legacies. The *Wartime Origins of Democratization* explores these ideas through an original dataset of rebel governance and rigorous comparative case analysis. The findings have far-reaching implications for understanding wartime political orders, statebuilding, and international peacebuilding.

**Bangladesh, India & Pakistan** K. Jacques 1999-12-14 This book provides a broad, analytical study of Bangladesh's relationship with India and Pakistan between 1975 and 1990. Bangladesh's role in South Asian international relations has tended to be overlooked and underestimated. The book reveals the complexity of the relationship between Bangladesh, India and Pakistan.

*Separatist Violence in South Asia* Matthew J. Webb 2016-10-04 Since decolonization began in the late 1940s, a series of often lengthy and destructive separatist insurgencies have imposed severe financial, economic and human costs upon the states of South Asia. Whereas previous analyses of these conflicts have typically focussed upon the parent state or separatist group as the relevant unit of analysis, this book adopts a broader framework, arguing that separatism cannot be understood in isolation from the concept of state sovereignty. This book explores the motives, tactics, successes and failures of South Asia's separatist movements by deconstructing sovereignty into its constituent components and offers an explanation for why separatism, but not political violence, has recently declined in the region. Taking a comparative explanatory viewpoint, it offers a comprehensive review of relevant explanatory theories dominant in the scholarly literature on separatism and an examination of their application to the South Asian states of India, Pakistan, Sri Lanka and Bangladesh. As a thought-provoking discussion of statehood and sovereignty, this book will be of interest to students of political theory, comparative politics, international relations and South Asian politics.

*Children's Images of Identity* Jill Brown 2015-06-25 "The understandings which children have of Indigenous identity provide means by which to explore the ways in which Indigenous identity is both projected and constructed in society. These understandings play a powerful part in the ways in which Indigenous peoples are positioned in the mainstream society with which they are connected. The research presented in this edited collection uses children's drawings to illuminate and explore the images children, both mainstream and Indigenous, have of Indigenous peoples. The data generated by this process allows exploration of the ways in which Indigenous identity is understood globally, through a series of locally focussed studies connected by theme and approach. The data serves to illuminate both the space made available by mainstream groups, and aspects of modernity accommodated within the Indigenous sense of self. Our aim within this project has been to analyse and discuss the ways in which children construct identity, both their own and that of others. Children were asked to share their thoughts through drawings which were then used as the basis for conversation with the researchers. In this way the interaction between mainstream modernity and traditional Indigenous identity is made available for discussion and the connection between children's lived experiences of identity and the wider global discussion is both immediately enacted and located within broader international understandings of Indigenous cultures and their place in the world."

**Land Rights of the Indigenous Peoples of the Chittagong Hill Tracts, Bangladesh** Rajkumari Chandra Kalindi Roy 2000 Little is known about the Chittagong Hill Tracts of Bangladesh (CHT), an area of approximately 5,089 square miles in southeastern Bangladesh. It is inhabited by indigenous peoples, including the Bawm, Sak, Chakma, Khumi Khyang, Marma, Mru, Lushai, Uchay (also called Mrung, Brong,

Hill Tripura), Pankho, Tanchangya and Tripura (Tipra), numbering over half a million. Originally inhabited exclusively by indigenous peoples, the Hill Tracts has been impacted by national projects and programs with dire consequences. This book describes the struggle of the indigenous peoples of the Chittagong Hill Tracts region to regain control over their ancestral land and resource rights. From sovereign nations to the limited autonomy of today, the report details the legal basis of the land rights of the indigenous peoples and the different tools employed by successive administrations to exploit their resources and divest them of their ancestral lands and territories. The book argues that development programs need to be implemented in a culturally appropriate manner to be truly sustainable, and with the consent and participation of the peoples concerned. Otherwise, they only serve to push an already vulnerable people into greater impoverishment and hardship. The devastation wrought by large-scale dams and forestry policies cloaked as development programs is succinctly described in this report, as is the population transfer and militarization. The interaction of all these factors in the process of assimilation and integration is the background for this book, analyzed within the perspective of indigenous and national law, and complemented by international legal approaches. The book concludes with an update on the developments since the signing of the Peace Accord between the Government of Bangladesh and the Jana Sanghati Samiti (JSS) on December 2, 1997.

*Technology Application in the Tourism and Hospitality Industry of Bangladesh* Azizul Hassan 2021-10-06

The tourism and hospitality industry of Bangladesh as a South Asian country has potential. Sustainable development of this industry in this country is on the move. Still, there are some hindrances which appear to be stymieing this industry's overall development potential. Overcoming such hindrances can be partly enabled by applying digital innovation and introducing more Internet based platforms in the country's tourism and hospitality industry. The country is believed to have emphasized innovative technology application in this industry, but technology applications in this industry in Bangladesh have so far attracted very few researchers, resulting in insufficient contributions and very limited knowledge. This book, therefore, can make a significant contribution towards the very limited knowledge in this identified research area. On the specific ground of technology application in the tourism and hospitality industry, the book covers concepts and context, the present scenario, product and service offers, and an analysis of the roles of public and private institutions. On related issues, the book also covers social media, networking and connectivity; sustainability practices and climate change effects; tourist experiences; developments; and challenges, suggestions, and future research directions. The book is expected to appeal to general readers, as well as researchers with an interest in technology applications in the tourism and hospitality industry. This book is also an essential read for the relevant policy planners and industry professionals.

*Climate Change, Migration and Conflict in Bangladesh* Md Rafiqul Islam 2023-08-18 This book explores the relationship between climate change-induced migration and conflict in Bangladesh - one of the most ecologically fragile countries in the world. It explores why people migrate from their original place of land and how the migration of people with a different background to an ethnically distinctive region due to environmental changes can become a source of conflict and violence between the host peoples and migrants. The volume focuses on the Chittagong Hill Tracts (CHT), which has experienced long-standing ethnopolitical conflict due to the settlement and migration of the Bengali people from the plain land of Bangladesh. This settlement and migration were mainly caused climatic events such as floods, cyclones, sealevel rise, and disasters. It traces the history of the ethnic conflict in the region and presents key findings from the field, as well as the dynamics of everyday politics in the region. This volume also highlights how internally climate-displaced people generate violence and civil strife in the major urban cities through their settlements in slums. The volume will be of great interest to scholars and researchers of environmental studies, human geography, migration and diaspora studies, public policy, social anthropology, and South Asian studies.

*Internal Colonialism* Michael Hechter 2017-07-05 Recent years have seen a resurgence of separatist

sentiments among national minorities in many industrial societies, including the United Kingdom. In 1997, the Scottish and Welsh both set up their own parliamentary bodies, while the tragic events in Northern Ireland continued to be a reminder of the Irish problem. These phenomena call into question widely accepted social theories which assume that ethnic attachments in a society will wane as industrialization proceeds. This book presents the social basis of ethnic identity, and examines changes in the strength of ethnic solidarity in the United Kingdom during the 19th and 20th centuries. As well as being a case study, the work also has implications, as it suggests that the internal colonialism of the kind experienced in the British Isles has its analogues in the histories of other industrial societies. Hechter examines the unexpected persistence of ethnicity in the politics of industrial societies by focusing on the British Isles. Why do many of the inhabitants of Wales, Scotland and Ireland continue to maintain an ethnic identity opposed to England? Hechter explains the salience of ethnic identity by analyzing the relationships between England, the national core, and its periphery, the Celtic fringe, in the context of two alternative models of core-periphery relations in the industrial setting. The "diffusion" model suggests that intergroup contact leads to ethnic homogenization, and the "internal colonial" model, suggests such contact heightens distinctive ethnic identification. His findings lend support to the internal colonial model, and show that, although industrialization did contribute to a decline in interregional linguistic differences, it resulted neither in the cultural assimilation of Celtic lands, nor the development of regional economic equality. The study concludes that ethnic solidarity will inevitably emerge among groups which are relegated to inferior positions in a cultural division of labour.

**Dr. Benu Prasad Barua** Banani Bably 2021-09-23 This is a biography of my father, Dr. Barua. I always wanted to read story books instead of textbooks when I was a little girl. One day I discovered that I can tell my feelings and my surroundings in writing to my friends. When I got married to a Muslim boy, I was disconnected from my family. For almost a decade and a half, I had no contact with my parents, siblings, or relatives. That at was a painful time in my life and in the meantime I heard my sister became depressed and suicidal. My husband helped me to reconnect with my family. To show my father and family that I care about them, I wrote this biography as a symbol of love.

Migration, Land Alienation, and Ethnic Conflict Shapan Adnan 2004 "This is a study of the causes of poverty among the indigenous peoples of the Chittagong Hill Tracts (CHT) of Bangladesh - variously known as the Jumma people, the Paharis, or the Hill peoples. The work is based on research activities undertaken over 1998-2004, including several rounds of fieldwork in the CHT. The varied sites of fieldwork include Pahari village settlements, habitations of Bengali settlers, towns and urban centres, bazaars and market-places, the reserve forests, and the Kaptai lake and river networks." -- book cover.

Rethinking Displacement: Asia Pacific Perspectives Ruchira Ganguly-Scrase 2016-04-08 This book responds to the need to explore the multitude of interconnected factors causing displacements that compel people to move within their homelands or traverse various borders in the contemporary world that is characterised by extensive and rapid movements of people. It addresses this need by bringing together historical and contemporary accounts and critical examinations of the displaced, by articulating the commonalities in their lived experiences. It accomplishes the task of charting a new path in displacement studies by offering a number of studies from interdisciplinary and diverse methodological approaches comprising ethnographic and qualitative research and literary interpretations to emphasise that although the forms and conditions of mobility are highly divergent, individual experiences of displacement and placelessness offer a critical challenge to the artificial categorisations of people's movements. Each chapter adds insights into the different configurations of displacement and placement, and offers fresh interpretations of migration and dislocation in today's rapidly changing world. The contributors critically examine a variety of displacement processes and experiences in the context of war, tourism, neoliberal policies of development, and the impact of various agro-forestry policies. They focus on a range of countries, enabling a thorough comparative analysis in terms of scope and range of examples and methods of analysis. This book makes an original contribution to the growing body of literature on displacement, and will appeal to a wide readership including advanced undergraduates, and graduate students and professors in disciplines such as human geography, development studies, sociology and anthropology, regional studies and comparative impact assessment.

*Extremely Violent Societies* Christian Gerlach 2010-10-14 In this groundbreaking book Christian Gerlach traces the social roots of the extraordinary processes of human destruction involved in mass violence throughout the twentieth century. He argues that terms such as 'genocide' and 'ethnic cleansing' are too narrow to explain the diverse motives and interests that cause violence to spread in varying forms and intensities. From killings and expulsions to enforced hunger, collective rape, strategic bombing, forced labour and imprisonment he explores what happened before, during, and after periods of widespread bloodshed in countries such as Armenia, Indonesia, Bangladesh, Nazi-occupied Greece and in anti-guerilla wars worldwide in order to highlight the crucial role of socio-economic pressures in the generation of group conflicts. By focussing on why so many different people participated in or supported mass violence, and why different groups were victimized, he offers us a new way of understanding one of the most disturbing phenomena of our times.

*Ethnic Groups of South Asia and the Pacific* James B. Minahan 2012-08-30 This comprehensive guide to the Pacific and South Asia provides detailed and enlightening information about the many ethnic groups of this increasingly important region of the world. Ideally suited for high school and undergraduate students studying subjects such as anthropology, geography, and social studies, *Ethnic Groups of South Asia and the Pacific: An Encyclopedia* provides clear, detailed, and up-to-date information on each major group in South Asian and Pacific Island countries, including India, Nepal, Indonesia, Pakistan, Singapore, Australia, Tonga, Samoa, and the Solomon Islands. Organized alphabetically by ethnic group, each entry provides an introduction followed by accessible descriptions of the origins, early history, cultural life, political life, and modern history of the ethnicity. Alternate names, major population centers, primary languages and religions, and other important characteristics of each group are also covered. Beyond being a valuable resource for student research, this book will be enlightening and entertaining for general readers interested in South Asia and the Pacific.

**Lost Opportunities** S. P. Sinha (Brigadier.) 2007 Northeast India has been beset with insurgencies for more than fifty years. The Nagas rebelled in the early 1950s, and since then, insurgency in some form or the other has spread to all the states of the northeast, popularly known as the Seven Sisters. This book takes a critical look at the many insurgencies in this strategic region and reviews their genesis, motivations, and characteristics. Why have these persisted despite interventions by the state and civil society? Over the years, the insurgencies have developed external linkages, which have only complicated matters. The book also critically examines the government's response and traces the development of counter-insurgency strategies, from finding a military solution to winning the hearts and minds of the populace. It is a fascinating but sad story of missed opportunities.
