**Imagine a Day** Sarah L. Thomson 2011-04-19 Imagine a day when your swing swings you higher than the highest treetops. Imagine a day when you can ride your bike up a path of falling leaves into the very tree they are falling from. Imagine a day when you release a handful of blue balloons into a cloudy, gray sky to create a postcard-perfect day. Imagine a day when the ordinary becomes the extraordinary...a day when anything is possible. **Imagine a Day** is the companion book to the critically acclaimed **Imagine a Night**, which *School Library Journal* declared "a fascinating foray into the imagination." Renowned Canadian artist Rob Gonsalves once again stretches the limits of visual exploration with his breathtaking paintings and encourages parents and children alike to look beyond the limits of the everyday world

and imagine.

**Generative Art** Matt Pearson 2011-06-29 Summary  
Generative Art presents both the technique and the beauty of algorithmic art. The book includes high-quality examples of generative art, along with the specific programmatic steps author and artist Matt Pearson followed to create each unique piece using the Processing programming language. About the Technology Artists have always explored new media, and computer-based artists are no exception. Generative art, a technique where the artist creates print or onscreen images by using computer algorithms, finds the artistic intersection of programming, computer graphics, and individual expression. The book includes a tutorial on Processing, an open source programming language and environment for people who want to create images,

animations, and interactions. About the Book Generative Art presents both the techniques and the beauty of algorithmic art. In it, you'll find dozens of high-quality examples of generative art, along with the specific steps the author followed to create each unique piece using the Processing programming language. The book includes concise tutorials for each of the technical components required to create the book's images, and it offers countless suggestions for how you can combine and reuse the various techniques to create your own works. Purchase of the print book comes with an offer of a free PDF, ePub, and Kindle eBook from Manning. Also available is all code from the book. The Face on the Wall Jane Langton 2012-03-06 Scholar/sleuth Homer Kelly comes to the aid of his artist niece, who's implicated in a death, in this "taut, suspenseful, and absorbing" whodunit (Kirkus Reviews). Life has not always been fair to Annie Swann. A bad marriage sullied her youth, but since her divorce she has made enough money illustrating children's books to add a wing to her house. The new addition's focal point will be a thirty-five-foot blank wall, where Annie plans

an elaborate mural of the fairy tale characters who pay her bills. But as she paints, mysterious markings appear on the mural: first splotches, then a woman's face, ringed with blond hair and covered in blood. It seems to point to the disappearance of Pearl Small, a Harvard student who took classes from Annie's aunt Mary. As Mary and her husband, professor and ex-cop Homer Kelly, look for Pearl, Annie continues painting, unaware that with each brushstroke, she marks her wall with another layer of evil.

**Magill's Literary Annual**

**2003** Salem Press 2003-06 Magill's Literary Annual, 2003, is the fiftieth publication in a

series that began in 1954. The philosophy behind the annual has been to evaluate critically 200 major examples of serious literature published during the previous year. Our focus is to provide coverage for works that are likely to be of particular interest to the general reader, that reflect the publishing trends of a given year, that add to careers of authors being taught and researched in literature programs, and that will stand the test of time. By filtering the thousands of books published each year down to two hundred notable titles, the editors have provided the busy librarian with an excellent reader's advisory tool and patrons with fodder for book discussion groups and a guide for selection. The essay-reviews in the Annual also provide a more academic, "reference" review of a work than is typically found in newspapers and other periodical sources. This year's works are drawn from such categories as anthropology, autobiography, biography, current affairs, diaries,

economics, environment, essays, history, language, literary criticism, medicine, memoirs, nature, philosophy, poetry, psychology, religion, science, short fiction, sociology, technology, travel, and women's issues. The articles are arranged alphabetically by book title. A complete list of included titles can be found at the beginning of volume 1. Each 2,000-word article begins with a block of top matter that indicates the title, author, publisher, and price of the work. When possible, the year of the author's birth is also provided. The top matter also includes the number of pages of the book, the type of work, and, when appropriate, the time period and locale represented in the text. Next comes a capsule description of the work. When pertinent, a list of principal characters or personages, with brief descriptions, introduces the review. These original essay-reviews analyze intent and relative success of the author and the work under discussion.

To assist the reader further, the articles are supplemented by a list of additional reviews for further study. Every essay includes a brief biography of the author or authors, and thumbnail photographs of the book covers and authors are included as available. At the end of volume 2 are four cumulative indexes listing works covered from the years 1977 to 2003: an index of Biographical Works by Subject, a Category Index, a Title Index, and an Author Index. The index of Biographical Works by Subject is arranged by subject rather than by author or title.

**Brody's Ghost** Mark Crilley

*The Breeder's Gazette* 1918  
*If Picasso Painted a Snowman*  
*(The Reimagined Masterpiece Series)* Amy Newbold

2017-10-03 Maryland Blue Crab Honor Book 2018 A big, brightly colored, playful introduction to various important painters and art movements. If someone asked you to paint a snowman, you would probably start with three white circles stacked one upon another. Then you would add black dots for eyes, an orange triangle for a nose, and a black dotted smile. But if Picasso painted a snowman... From that simple premise flows this delightful, whimsical, educational picture book that shows how the artist's imagination can summon magic from a prosaic subject. Greg Newbold's chameleon-like artistry shows us Roy Lichtenstein's snow hero saving the day, Georgia O'Keefe's snowman blooming in the desert, Claude Monet's snowmen among haystacks,

Grant Wood's American Gothic snowman, Jackson Pollock's snowman in ten thousand splats, Salvador Dali's snowmen dripping like melty cheese, and snowmen as they might have been rendered by J. M. W. Turner, Gustav Klimt, Paul Klee, Marc Chagall, Georges Seurat, Pablita Velarde, Piet Mondrian, Sonia Delaunay, Jacob Lawrence, and Vincent van Gogh. Our guide for this tour is a lively hamster who—also chameleon-like—sports a Dali mustache on one spread, a Van Gogh ear bandage on the next. "What would your snowman look like?" the book asks, and then offers a page with a picture frame for a child to fill in. Backmatter thumbnail biographies of the artists complete this highly original tour of the creative imagination that will delight adults as well as children. Fountas & Pinnell Level O
