The Jungle Upton Sinclair 2010-08-19 A searing novel of social realism, Upton Sinclair's *The Jungle* follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore

Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

Things Are Not Falling Apart, They Are Falling Into Place! Phillip D. Wiginton 2004-03

Falling Into Place John Terpstra 2011-11-01 This book is what happens when one person becomes completely enamoured of the landscape in the city where he lives - especially if this person, like John Terpstra, engages the world with the imagination and curiosity of a poet. Terpstra's investigations centre around the Iroquois Bar, a giant glacial sandbar which lies beneath one of Hamilton's busiest transportation corridors. Combining history and geology with gumshoe work and poetic intuition, Terpstra puzzles out just how much the physical and social geography of the area has changed since the sandbar was formed. This close study is nested inside a broader consideration of modern society's constant and often ill-considered alteration of landscape. Terpstra's acute focus on his neighbourhood offers insights of global value in a book that is both provocative and entertaining. Listed as one of the Hamilton Spectator's "Best books of the year" in 2002 for its appeal to "aficionados of history, geography, geology, poetic language, fine prose and the landscape around us."

Falling into Place Catherine Reid 2015-07-14 Quietly powerful essays, weaving keenly observed insights into the mysteries of nature with those of family and community "It's not easy," Catherine Reid writes, "to love a person and a place in equal measure." Love she does, however, as described in these intimate, lyric essays about the land and people around her. With the inside perspective of a native New Englander combined with her outsider status as a lesbian, Reid explores such paradoxes as those that arise from harnessing wild rivers or legalizing same-sex marriage. Her fascination with natural phenomena—whether bird hibernation, the arrival of fishers in suburbia, or the explosion of amphibious life in the wet weeks of spring—is captured in writing that pays as much attention to the sounds of a sentence as to the rhythms of the landscapes she wanders. Ultimately, Reid finds herself having to choose between her farmhouse near the Berkshires and a job in the South, between her known role in the land's stories and a new story yet to be written. Solace comes from companions as varied as a praying mantis, an otter, and her hundred-year-old grandmother, while resilience shows up in the stories of streams recovering from toxic spills and in communities weathering floods and town meetings. Reid celebrates the joyous engagement that comes with developing a deep connection with the places we call home and the life—human, animal, botanical—that surrounds us. At the same time, she offers keen insights into the way nature ultimately remains mysterious, beyond our knowing. Sensuous and provocative, *Falling into Place* faces the beauty and challenges of our changing world head-on.

Nell Hawthorne is in love with her life-long best friend, Kyle Calloway. Things are great, and they're in love, young, full of promise. Then Kyle dies in a tragic accident and Nell is forever changed. She meets Kyle's older brother Colton at the funeral, and there's a spark, but it's wrong and they both know it. The moment passes, and they both move on with life. A couple years later, they meet again in New York City, and Colton realizes that Nell has never really gotten over Kyle's death, and seems to be harboring a deeply rooted pain, something like guilt, perhaps. He knows he shouldn't get involved, but he can't help himself. Trust doesn't come easily for either of them, and they both have demons, Colton especially. Together, they learn the purpose of pain and the meaning of healing, and the importance of forgiveness.

Told through the fictional experiences of Okonkwo, a wealthy and fearless Igbo warrior of Umuofia in the late 1800s, *Things Fall Apart* explores one man’s futile resistance to the devaluing of his Igbo traditions by British political and religious forces and his despair as his community capitulates to the powerful new order. With more than 20 million copies sold and translated into fifty-seven languages, *Things Fall Apart* provides one of the most illuminating and permanent monuments to African experience. Achebe does not only capture life in a pre-colonial African village, he conveys the tragedy of the loss of that world while broadening our understanding of our contemporary realities.
