Little Women - Louisa May Alcott - Large Print Edition Louisa May Alcott 2019-01-04 Now, more than 160 years after publication, this book is about to be made into ANOTHER Major Motion Picture. The latest movie stars Saoirse Ronan, Emma Watson, Florence Pugh, Timothée Chalamet, Meryl Streep and Laura Dern. The movie is in the can but is not scheduled to be released until December 25, 2019. The book has been adapted previously for cinema; twice as silent film and four times with sound in 1933, 1949, 1978 and 1994. Six television series were made, including four by the BBC--1950, 1958, 1970, and 2017. The 2017 BBC series was supported by PBS, and aired in 2018 as part of the Masterpiece anthology. A musical version opened on Broadway in 2005. An American opera version in 1998 was performed internationally and filmed for broadcast on US television in 2001. What makes this book so popular? The four girls are 16, 15, 13 and 12 when the book starts. It seems the girls love their mother and want to protect her. Is this the natural condition? Do not girls usually fight with their mothers through their teen age years. In America all girls of a certain age have read Little Women. Now, we are able to reach countries in Eastern Europe and Asia where the little girls grew up without having had the opportunity to read Little Women. Imagine that! There is an increased tendency among some publishers to print books with excessively small type so you need to use a

magnifying glass to read the book. We are trying to go in the opposite direction, providing a book in large print that is easier to read. Four teenaged sisters and their mother, Marmee, live in a new neighborhood based in genteel poverty. Having lost all his money, their father is acting as a pastor, miles from home, involved in the American Civil War. The women face their first Christmas without him.

Nepantla Familias Sergio Troncoso 2021-04-19 "A deeply meaningful collection that navigates important nuances of identity."—Kirkus Reviews, starred review 2021 Texas Book Festival Featured Book Nepantla Familias brings together Mexican American narratives that explore and negotiate the many permutations of living in between different worlds—how the authors or their characters create, or fail to create, a cohesive identity amid the contradictions in their lives. Nepantla—or living in the in-between space of the borderland—is the focus of this anthology. The essays, poems, and short stories explore the in-between moments in Mexican American life—the family dynamics of living between traditional and contemporary worlds, between Spanish and English, between cultures with traditional and shifting identities. In times of change, family values are either adapted or discarded in the quest for self-discovery, part of the process of selecting and composing

elements of a changing identity. Edited by award-winning writer and scholar Sergio Troncoso, this anthology includes works from familiar and acclaimed voices such as David Dorado Romo, Sandra Cisneros, Alex Espinoza, Reyna Grande, and Francisco Cantú, as well as from important new voices, such as Stephanie Li, David Dominguez, and ire'ne lara silva. These are writers who open and expose the in-between places: through or at borders; among the past, present, and future; from tradition to innovation; between languages; in gender; about the wounds of the past and the victories of the present; of life and death. *Nepantla Familias* shows the quintessential American experience that revives important foundational values through immigrants and the children of immigrants. Here readers will find a glimpse of contemporary Mexican American experience; here, also, readers will experience complexities of the geographic, linguistic, and cultural borders common to us all. Includes the work of David Dorado Romo Reyna Grande Francisco Cantú Rigoberto González Alex Espinoza Domingo Martinez Oscar Cásares Lorraine M. The Family Judith Leet 1993

The Broadview Anthology of Expository Prose: Second Edition Tammy Roberts 2011-05-25 A substantial selection of classic essays allows readers to trace the history of the essay from Swift to Woolf and Orwell and beyond. A selection of the finest of contemporary essays—from Witold Rybcynski to David Sedaris and Elizabeth Kolbert—provides a broad sample of the genre in the late twentieth and early twenty-first centuries. The academic essays begin with classic selections from such writers as Darwin and Charles Lyell, but the emphasis is on recent decades. Emphasized as well are academic papers or essays that have been especially influential or controversial, from Luis and Walter Alvarez's suggestion that an asteroid caused the extinction of the dinosaurs to Judith Rich Harris's argument that the influence of peers may be at least as influential in the formation of personality as that of parents. Works of different lengths, levels of difficulty and subject matter are all represented, as are narrative, descriptive and persuasive essays. Also included in the text is a range of questions and suggestions for discussion. The text selections are numbered by paragraph for ready reference. Added to the second edition are new selections by Malcolm Gladwell, Doris Lessing, Eric Schlosser, Binyavanga Wainaina, and over twenty others. This new edition also provides pairings of informal and academic articles that address the same topic, allowing readers to consider contrasting approaches.

Grammar Anthology Fatimah, M.Appl.Ling.; Emy Sudarwati, M.Pd.; Scarletina Vidyayani, M.Hum.; Tantri R. Indhiarti, M.A. 2021-01-11
Grammar Anthology is a collection of students' essays as the outcome of Grammar in Discourse course taught in 5 classes. This writing project is assigned to provide opportunity for students to practice composing academic writing while applying theories of Grammar in Discourse. Moreover, as designed in the Outcome- Based Curriculum, this anthology can be a media for the students to express their opinions and map ideas based on contemporary facts they found in everyday life contexts. As we are reading and editing the anthology, we cannot help but be profoundly impressed by the perspectives our students have brought up in their writings. In this book, you would see how English grammatical units which are adapted from *Grammar and Beyond* book 3 (Blass et al., 2013) are rooted. The grammatical units such as subordinators and prepositions, transition words and phrases, adverb clauses, comparatives, parallel structure, the passives, and 'it' constructions are studied and implemented to express ideas on cause-effect, comparison-contrast, classifications and definitions, and problem solution. Those units are employed to discuss factual life subjects such as cultural values, inventions, human motivation, millennials and media in short essays. These essays are then classified in accordance to the following categories: Social Responsibility, Human Behaviour, Business dan Nutrition and Health. We do not think we would be able to produce such interesting essays without the help and support from our colleagues in the Faculty of Cultural Studies and Department of Languages and Literature at Brawijaya University. Therefore, we would also like to

express our gratitude to Faculty of Cultural Studies and Department of Languages and Literature Brawijaya University.

Paths of Fear, Large Print 2017-12 Connie Kerbs and Pebbled Lane Books presents this collection of stories, poems, essays, and expert advice on a universal theme. Most of all, Paths of fear is a deeper look at all that fear can teach us, especially in our triumph over it, as we find the fortitude to replace it with hope, and determination. "Feed your faith and your fears will starve to death." ~ Max Lucado Paths of Fear is an inspirational reflection on the facing, enduring and overcoming of one of the most basic human emotions. Fear. It is an experience we all have at one time or another, to one degree or another, and one of which the lasting aftershocks can be as devastating as the original event in our life. Fear is the most primal emotion. Sometimes it is a scream of sheer terror, an alarm of mortal danger, or a simple cry for help. Sometimes it is silent, imagined, the stuff nightmares are made of. It can be a

discouraging whisper saying "you will fail" or "you're not good enough." Sometimes our fears are cultivated by others, or an environment that would extinguish us, if not on the outside, than bit by bit, excruciatingly, on the inside. Through these pages, we learn it is sometimes about the enduring of fear on our own terms, with dignity, even if imperfectly. The heartfelt essays also speak to how others breached their fears to become wiser, stronger and able to give and receive more love. There are no werewolves, vampires, or maniacs in masks in this light inspirational. The only monsters here are those of circumstance and innermost demons we face sometimes. Most of all, Paths of Fear shows us how others understand and have experienced fear...and how they have turned it into hope and strength.
