Islands of Privacy Christena E. Nippert-Eng 2010-09-15 Everyone worries about privacy these days. As corporations and governments devise increasingly sophisticated data gathering tools and joining Facebook verges on obligatory, concerns over the use and abuse of personal information are undeniable. But the way privacy functions on the virtual frontier of the Internet is only a subset of the fascinating ways we work to achieve it throughout our everyday lives. In *Islands of Privacy*, Christena Nippert-Eng pries open the blinds, giving us an intimate view into the full range of ordinary people's sometimes extraordinary efforts to preserve the border between themselves and the rest of the world. Packed with stories that are funny and sad, familiar and strange, *Islands of Privacy* tours the myriad arenas where privacy battles are fought, lost, and won. Nippert-Eng explores how we manage our secrets, our phone calls and e-mail, the perimeters of our homes, and our interactions with neighbors. She discovers that everybody practices the art of selectively concealing and disclosing information on a daily basis. This important balancing act governs a wide range of behaviors, from deciding whether to give our bosses our cell phone numbers to choosing what we carry in our wallets or purses. Violations of privacy and anxiety about how we grant it to each other also come under Nippert-Eng's microscope as she crafts a compelling argument that successfully managing privacy is critical for successfully maintaining our relationships with each other and our selves. Roaming from the beach to the bank and from the bathroom to the bus, Nippert-Eng's keenly observed and vividly told book gives us the skinny on how we defend our shrinking islands of privacy in the vast ocean of accessibility that surrounds us.

Reimagine Home Sarabeth Galimba 2023-11-21 Simplify your home and experience the peace God wants for you in every season with twenty-

eight encouraging devotions, practical decorating tips, and stunning photography. Home—whether a camper van, mansion, or anything in between—is where we recharge and rest, where we learn and grow, and where we welcome others. And for Christians, our home should be a small reflection of God's kingdom on earth. Unfortunately, our homes often feel anything but peaceful, ordered, or representative of who we are. If this sounds familiar, consider Reimagine Home a gift of inspiration and your personal invitation to quiet all voices of comparison and tune in to what really matters when it comes to your home—creating a space where you can know the love of God and share that love with others. With twenty-eight devotions that span the four seasons of the year, Reimagine Home encourages you to begin creating the home you want on a schedule that works for you, offering customizable tactics, helpful tips, and an undated format. Accompanied by beautifully inspiring, full-color photographs that inspire peace instead of perfection, this devotional provides a sense of calm to each day. As you read each short reflection and explore the practical home styling tips, you will be inspired to curate a home that reflects who you are and welcomes others the moment they walk in the door.

Scrapbooking for the Time Impaired Kerry Arquette 2007 It's a fast-paced world out there, and nobody knows it better than moms. With all their "must-dos," finding a moment to enjoy their scrapbooking can be a problem. Here's the solution: a book that speaks directly to these busy mothers, offering support, information, and really fabulous ideas for creating great scrapbook art. Women will love the narrator's voice (a mom, of course) that runs through the guide in the form of sticky notes and messages to herself. Honest and humorous, she represents the typical "scrapper," and with her, readers can explore ideas for time management, discover scrapbooking inspiration in everyday objects, learn clever tips for journaling on the go, and see how technology can become their best friend.

168 Hours Laura Vanderkam 2011-05-31 It's an unquestioned truth of modern life: we are starved for time. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or if we don't make excuses, we make sacrifices- taking time out from other things in order to fit it all in. There has to be a better way...and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. When plans go wrong and they run out of time, only their lesser priorities suffer. Vanderkam shows that with a little examination and prioritizing, you'll find it is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter.

Bottom Line, Personal 1997

Managing Employees in Foodservice Operations David K. Hayes 2024 "Professional foodservice operators in all segments of the industry recognize that providing high-quality menu items and excellent service is essential to their long-term success. These same operators must recognize that providing excellence in product and service quality is impossible without the efforts of a highly qualified, well-trained, and committed team of employees. The purpose of this book is to teach foodservice operators what they must know, and do, to attract, train, and retain work teams that allow the operators to reach their financial goals, while at the same time allowing employees the ability to achieve their own personal and professional goals. A major premise of this book is that

the best interests of foodservice employers are nearly always in alignment with the best interests of their employees. Many segments of the foodservice industry have historically faced challenges in securing the needed number of qualified employees. The COVID-19 pandemic of the early 2020s, however, which affected the foodservice industry in many ways, lead to a significant decline in the workforce available to many foodservice operators. As a result, even those operators who had not faced serious labor shortage challenges in the past were forced to reassess the importance of employees to the successful operation of their businesses. As a result, the successful management of employees has now taken on more importance than ever before"--
