

Family Law Cases Text Problems

Family Law Leslie J. Harris
2010 Offering interdisciplinary and comprehensive coverage in a manageable size, the popular casebook *Family Law*, now in its Fourth Edition, continues its commitment to offering current and revealing cases and dynamic materials, supported by engaging problems and notes. A leading casebook in its field, *Family Law*, Fourth Edition, features: complete coverage of key family law topics, including Marriage (Part I), Divorce (Part II), and the Balance of Power among Parents, Children, and the State (Part III) a broad selection of interdisciplinary materials that address such topics as finance principles, genetics and statistics, psychology, social history, and legal and policy responses to domestic violence a balanced presentation that addresses cutting-edge issues while maintaining a focus on family

and the state, the role of various groups involved in family law issues, and the effectiveness of law and law enforcement well-crafted problem exercises through which students practice applying legal principles to real-world situations Teacher's Manual that offers advice on how to teach the survey course effectively Updated throughout, the Fourth Edition offers: recent developments regarding same-sex relationships, including new material on the same-sex marriage, comparison of marriage with civil unions and domestic partnerships, and interstate recognition of same-sex marriage, civil unions and domestic partnerships updated and expanded coverage of domestic violence issues, including the Supreme Court decision in *City of Castle Rock v. Gonzales*, the impact of *Crawford* on criminal prosecution in domestic

violence cases, and new materials on restraining orders and other civil remedies updated review of the debate over the causes and consequences of changes in family composition expanded materials on polygamy that discuss the various ways polygamy is practiced in the U.S. today and consider anew the constitutionality of bans on the practice revised materials on bankruptcy that reflect the changes brought about by the Bankruptcy Abuse Prevention and Consumer Protection Act of 2005 new cases and materials on legal parentage and assisted reproduction, addressing the status of sperm donors, surrogacy, and unmarried partners

Comprehensively updated, *Family Law*, Fourth Edition, offers balanced coverage of both mainstream and cutting-edge topics, a stimulating selection of cases and interdisciplinary materials, strong problems, and lucid text.

Family Law Ira Mark Ellman
1998

Relocation Issues in Child Custody Cases Philip M. Stahl
2013-04-03 Find out how evaluators, mediators, and judges deal with the issues of relocation in divorced families In the past, the relocation of a parent or child in custody cases was rarely a problem for divorced families—there was little conflict and little need for court intervention. But with the growth of shared custody, more fathers involved in parenting after divorce, and an increase in litigation between conflicted parents, relocation has become a complex issue that’s difficult for evaluators, judges, and public policymakers to resolve.

Relocation Issues in Child Custody Cases offers a firsthand look at how evaluators investigate, predict, and make recommendations; how judges reach decisions based on those recommendations; and how individual states deal with relocation cases. *Relocation Issues in Child Custody Cases* examines how evaluators, mediators, and judges can best

facilitate an environment where a child has an ongoing relationship with two parents, regardless of where each parent lives. This unique book looks at how the landscape in relocation cases has changed since the California Supreme Court's landmark 2004 ruling in the LaMusga move-away case, examining relevant topics, including individual state statutes on relocation; a survey of courts in the United States; the functions of an evaluator; how a judge analyzes data before reaching a decision; parental conflict; domestic violence; change of circumstances; primary residence; and the process of developing parenting plans. *Relocation Issues in Child Custody Cases* examines: whether negative outcomes of parental relocation after divorce were a result of pre-existing conflict and domestic violence whether the "best interests of the child" is an acceptable standard in relocation cases investigative models for evaluators "for the move" and "against the move"

biases—and how to reduce them a format for analyzing evidence in relocation cases the risks and benefits of presumptions in family law matters and much more *Relocation Issues in Child Custody Cases* is an essential resource for evaluators, mediators, judges, caseworkers, child psychologists, family therapists, and child advocates. *Family Law* Ira Mark Ellman 2011-07 Family law is an interdisciplinary area, and the materials in this newest edition of *Family Law: Cases, Text, Problems* reflect the numerous components, influences and issues under the family law umbrella. This book is policy-oriented, with non-legal social science featured in the extensive note materials to provide a rich and varied learning experience and a practice resource tool. Notes do more than call attention to difficult questions of legal doctrine and policy; they illuminate them. The authors use a problem approach throughout, in addition to

comprehensive case law sources. Problems provide an ideal mechanism for students to acquire the ability to apply legal rules to concrete fact patterns. The Revised Fifth Edition features: More concise treatment of property and alimony Expanded coverage of same-sex couples, including Lawrence v. Texas and several recent state court decisions Substantially updated treatment of premarital agreements, featuring both the latest decisions construing the Uniform Premarital Agreement Act, including the California Supreme Court's decision in the Barry Bonds case, and coverage of the alternative approach favored by the American Law Institute. A Teacher's Manual is available to professors. This book also is available in a three-hole punched, alternative loose-leaf version printed on 8.5 x 11 inch paper with wider margins and with the same pagination as the hardbound book.

Family Law in the Twentieth Century Stephen Michael Cretney 2003 The law

governing family relationships has changed dramatically in the course of the 20th century and this book - drawing extensively on both published and archival material and on legal as well as other sources - gives an account of the processes and problems of reform.

Family Law Judith Areen 2019 More than forty years since its initial publication in 1978, the Seventh Edition of Cases and Materials on Family Law gives students an introduction to Family Law that follows the field's traditional and emerging forms in ways that are entirely fresh. Like earlier editions, the Seventh Edition weaves together cases, statutes, model codes, policy, narrative, history, transnational sources, and theory, in highly accessible ways, as it illuminates Family Law's dynamic relationship with the highly variegated social landscape on which it rests. The well-known strengths of earlier editions' treatment of Family Law's many equality themes have been updated and expanded to

feature deep engagements at Family Law's intersection with different axes of inequality, including race, ethnicity, gender, gender identity and expression, sexual orientation, and class.

Family Law Joanna Miles 2019 Presented in an accessible format, this text provides a detailed and authoritative exposition of the law, illustrated by carefully selected materials and complemented by clear and engaging commentary drawing on a range of critical and theoretical perspectives.

Family Law Judith C. Areen 2006 Part of the popular University Casebook Series, *Cases and Materials on Family Law* provides an overview of family law, addressing traditional family law issues with an updated family model. The book covers three important themes: the tension between private ordering and state supervision in family law; constitutional doctrines invoked to limit state regulation of family law; and ethical questions unique to the

field of family law.

Substantially revised and updated, the fourth edition provides enriching discussion by linking key issues to important cases.

Psychological Problems, Social Issues, and Law

Murray Levine 2007 The much-anticipated Second Edition of "Psychological Problems, Social Issues, and Law" offers updated research, legal cases, and new examples. The text uses historical and systems perspectives to examine the interaction between the social science community and the law. Each chapter contains a historical or a philosophical introduction to a problem, followed by discussion of the major legal issues and reviews of a wide range of research, including experimental literature. In addition to addressing many topics typically covered in psychology and law texts, Levine emphasizes social problems, dealing with issues such as abortion, intimate partner violence, divorce and custody, child protection, and more."

Philosophy, Law and the

Family Laurence D. Houlgate 2017-01-21 This textbook uses cases in family law to illustrate both traditional philosophical problems in the law as well as problems that are unique to family law. In the beginning chapters family law cases are employed to introduce the reader to philosophical debates about the relationship between law and morals, about how one ought to interpret the U.S. Constitution and its amendments, about the conditions under which individual liberty is justifiably limited by law, about the justification of punishment, and about the justification of remedies and standards of care in determining negligence in tort cases. Later chapters are devoted to contemporary issues unique to family law, including justifiable limits of access to marriage, alternatives to marriage, the rights of children, child custody disputes involving surrogate births, quasi-property disputes involving custody of frozen embryos, and the justifiable

limits of the right not to procreate. The book reflects current movements, contemporary debates, and recent research on the philosophical problems in family law.

Family Law Ira M. Ellman 1999-05 Family Law is an interdisciplinary area, & the materials in this work reflect the numerous disciplines which influence this field of law. The book is policy-oriented, with non-legal social science features in the extensive note materials to provide a rich & varied learning experience & a practice resource tool. Notes do more than call attention to difficult questions of legal doctrine & policy; they illuminate them. Casebook also available electronically.

Family Law Stories Carol Sanger 2008 Sanger's Family Law Stories presents the historical, procedural, personal, and political background of 11 significant family law cases. The essays, written by leading family law scholars, cover four main areas: Marriage Parenting and

custody Separation and divorce
The definition of family Other
essays investigate well-known
state and federal cases on such
topics as child kidnapping, the
intentional infliction of
emotional distress, the Indian
Child Welfare Act, and frozen
embryos.

Family Law in a Nutshell Harry
D. Krause 2003 Family law
draws from constitutional law
as well as from criminal law,
conflict laws, and the laws of
contracts, torts, property,
inheritance, and even taxation.
This comprehensive review
inspects the creation of
marriage relationships, spousal
rights and obligations, parent
and child relationships,
marriage termination, and the
economic consequences of
divorce.

Family Law, Sixth Edition is a modern and teachable casebook, offering comprehensive coverage and a mix of interdisciplinary materials. It compares innovative developments in some states with the reaffirmation of traditional principles in others, and does so in the context of a wider focus on family and the state, the role of mediating institutions, and the efficacy of law and particular methods of enforcing the law. The casebook deals with the complexity of family law both in the organization of the chapters—separate units on family contracts, jurisdiction, and practice, for example, can be shortened, skipped, or taught in almost any order—and the diversity of material within each chapter. Each unit combines primary

cases with comprehensive notes, supplemented with academic and policy analyses that provide a foundation for evaluation. Detailed problems extend the coverage or apply the commentary to real world examples. Key Features: A streamlined and updated chapter on the legal significance of being married, including an updated section on reproductive rights to reflect the potential influence of Whole Woman’s Health v. Hellerstedt Major revisions to the chapters on marriage and informal domestic partnerships to reflect the impact of Obergefell v. Hodges A complete update of the parentage cases to incorporate the latest developments on same-sex partners, three parent recognition, third party visitation, adoption, and assisted reproduction Revised sections on the role of settlement agreements and out-of-court processes in divorce and the dissolution of relationships Coverage of cross-disciplinary topics, including financial principles,

genetics/statistics, clinical psychology, social history, policy discussions, counseling, negotiation, ADR, and ethics Families and the Law Mary Jane Mossman 2019 "The third edition of Families and the Law continues to focus on "families" and "law": exploring how families experience law in relation to family formation, interventions in intact families, and family dissolution. The authors have tried to continue to focus on issues of diversity among families and to explore critical and interdisciplinary literature about families and family law. This third edition deals with many new challenges for families, as well as new legal developments relating to family relationships. In this context, the book tries to explore how 'families' and 'law' have changed since the previous edition in 2015, and to identify the most important emerging and issues for families and law. In doing so, the book remains committed to exploring how law stays significant for families, and how families and family lives

intersect with legal regulation. Or not."--

The Contested Place of Religion in Family Law Robin Fretwell Wilson 2018-05-31

Like many beliefs, religious views matter across an individual's life and the life cycle of a family - from birth to marriage, through child-rearing, and, eventually, death. This volume examines clashes over religious liberty within the personal realm of the family. Against swirling religious beliefs, secular values, and legal regulation, this volume offers a forward-looking examination of tensions between religious freedom and the state's protective function. Contributors unpack some of the Court's recent decisions and explain how they set the stage for ongoing disputes. They evaluate religious claims around birth control, circumcision, modesty, religious education, marriage, polygamy, shared parenting, corporal punishment, faith healing, divorce, and the end of life. Authors span legislators, attorneys, academics,

journalists, ministers, physicians, child advocates, and representatives of minority faiths. The Contested Place of Religion in Family Law begins an overdue conversation on questions dividing the nation.

Family Law James Dwyer 2012
 Family Law emphasizes the issues and skills most relevant to domestic relations practice. The text employs a novel and dramatic organization with three substantive units that compare the legal treatment of the parent-child relationship vs. adult intimate relationships at stages of formation, regulation, and dissolution. In keeping with the modern reorientation of the field, Family Law reflects the transition "From Partners to Parents" beginning with the creation of parent-child relationship rather than marriage. Its geographical breadth delivers more comparative materials than other texts, using examples from a variety of cultures to provoke "why don't we do this?" considerations. Each student-friendly chapter and

section begins with a clear summary of current law that orients the reader before examining legal texts in detail. This structure invites theoretical critique only after a solid foundation is laid. Statutes are core to the text which gives proper emphasis to the vital skill of statutory interpretation in today's practice. Up-to-date material provides more recent cases than any other textbook. With an empirical emphasis, Family Law draws from the significant literature in sociology, psychology, anthropology and other fields so that legal analysis is grounded in real-life application. Focused questions direct students to the heart of the analysis, often using headings before questions to alert readers to the type of analysis required, for example: statutory interpretation, policy, client counseling, and moral theory. Features: Novel organization three substantive units compares legal treatment of parent-child relationship vs. adult intimate relationships considers stages of formation,

regulation, and dissolution

Contemporary Family Law
 Douglas Abrams 2023-07-06
 This popular family law
 casebook engages students by
 presenting core family law
 doctrine while exploring
 significant transformations in
 American families and cutting-
 edge policy debates. It
 highlights the important role of
 constitutional law--and other
 areas of state and federal law--
 in shaping family law. The book
 invites students to consider
 questions of family definition
 and governmental regulation of
 families in light of family law's
 purposes. It charts family law's
 evolving approach to adult-
 adult and parent-child (and
 other caretaker-dependent)
 relationships, emphasizing that
 contemporary families take a
 variety of forms. The Sixth
 Edition updates all chapters to
 reflect the latest family law
 developments, such as the
 legal treatment of nonmarital
 families (including plural
 relationships) and
 nonbiological parenting as well
 as recent Supreme Court

decisions. It integrates material previously covered in separate chapters on ethical issues in family law practice and jurisdiction into the contexts in which they arise, such as divorce, child custody, and division of marital property. The Sixth Edition has new material highlighting the intersection of family law with race, gender, class, immigration, sexual orientation, and gender identity. As with previous editions, the casebook contains ample problems for students to apply doctrine to realistic factual contexts and highlights practical dynamics of family law practice. The 6th edition: Thoroughly examines the impact of recent Supreme Court cases on family law, including *Dobbs v. Jackson Women's Health Organization* (and provides teachers with shorter and longer versions of that case), and *Golan v. Saada*. Includes attention to the role of race and racism in laws that shape and regulate the family, with case law addressing marriage, divorce, and

inheritance rights of formerly enslaved persons and a post-*Loving v. Virginia* case challenging the continued requirement that couples disclose race on a marriage license. Provides a restructured chapter on the legal consequences of marriage, spousal roles within marriage, and the gender revolution within family law and related fields. Includes new developments on marriage requirements, including state minimum age laws and common-law marriage rules, and addresses First Amendment challenges, post-*Masterpiece Cakeshop*, to civil marriage equality and state antidiscrimination laws. Includes new coverage of the intersection of immigration and family law. Addresses changes in legal approaches to nonmarital families, including multi-adult domestic partnerships and the Uniform Cohabitants' Economic Remedies Act. Provides updated treatment of custody and parenting time issues, including parenting gender-

expansive children Provides a restructured chapter on intimate partner violence (IPV), including updates on various factors impacting IPV and shifting gun control statutes and caselaw affecting civil protection orders Provides new consideration of child support issues, including joint custody and subsequent families Provides revised problems in anticipation of the NextGen Bar Exam

Landmark Cases in Family Law

Stephen Gilmore 2011-07-01

There are a number of important (landmark) cases in the development of Family Law in England and Wales that deserve detailed examination and lend themselves particularly well to historical examination. Family law cases tend to raise highly controversial issues, often on striking facts, frequently provoking wider social debate and/or extensive publicity. Consequently, the landmark cases chosen for this collection provide considerable scope, not only for doctrinal analysis and explanation of the importance

and impact of the decisions, but also for in-depth examination of the social or policy developments that influenced them. The stories behind the cases provide a fascinating insight into the complexities of family life and the drama that can be found in the family courts. In recent years, Family Law has seen enormous changes in law's engagement with the notion of 'family', with the enactment, for example, of the Civil Partnership Act 2004, the Gender Recognition Act 2004 and, more recently, the Human Fertilisation and Embryology Act 2008. As we begin to move forward into the new millennium, this is an excellent time to engage in detailed analyses and 'stock-taking' of the landmark decisions, many of which were decided in the 1970s, and which have shaped modern Family Law. This book provides a series of in-depth studies of the key leading cases, and will be of interest to students and lecturers alike.

Family Law from Multiple Perspectives Lynn D. Wardle

*Downloaded from
activistcash.com on

2019-04-08 This concise casebook introduces students to basic family law doctrines in the context of moral and policy debates. The 24 chapters discuss family law regulation of the formation, continuation, and dissolution of horizontal (adult) and vertical (parent-child) family relationships. Each chapter includes cases, statutes, short notes (emphasizing the variations among state laws), problems, and a review of multiple perspectives that have influenced the development of the relevant family law doctrines, rules and policies. The second edition has been updated to include cases and perspectives that reflect the continued evolution of family law doctrines, practice, and policy.

Family Law Ira Mark Ellman
1986

Family Law Harry D. Krause
1993

Family Law Peter N. Swisher
2012 Family Law addresses contemporary family law issues and analyzes the public and private dichotomy in

contemporary family law relationships. Current family law topics addressed in this book include: Marriage and marriage alternatives Support and property rights Conception and reproduction issues Domestic violence and intrafamily torts Care and supervision of children Adoption and termination of parental rights Legitimacy and paternity Divorce or dissolution of marriage Economic consequences of divorce, including spousal and child support, equitable distribution of marital and community property and a discussion of the American Law Institute's proposed principles of the law of family dissolution Child custody and visitation, including a discussion of the Uniform Child Custody Jurisdiction and Enforcement Act and the Uniform Interstate Family Support Act Premarital and postmarital agreements Alternative dispute resolution Ethical issues for the family lawyer While addressing many cutting-edge family law issues, this family law casebook still

maintains a realistic balance between theory and practice. The format is manageable, condensed, and user-friendly. Each topic includes a general introduction, a current or landmark illustrative judicial decision, relevant notes and questions analyzing, extending, or questioning each topic, and problems allowing students to analyze particular family law issues and disputes as practitioners, legislators, or jurists would. A Teacher's Manual is available to professors.

Contemporary Family Law

Douglas E. Abrams 2006

Contemporary Family Law is the first family law casebook entirely conceived and written in the twenty-first century. The text captures the rapid evolution of doctrine, introduces students to emerging policy debates, and explores issues that arise in family law practice including the importance of collaborating with professionals from other disciplines. The book emphasizes that families take a variety of forms, including

marital and nonmarital relationships, and that constitutional considerations play an increasingly important role in family law.

Contemporary Family Law includes several chapters that do not appear in most other family law casebooks. For example, it devotes separate chapters to lawyering, private ordering, and alternative dispute resolution. And, in contrast to the usual approach, the book treats property distribution and alimony in separate chapters to emphasize each topic's distinctive theoretical and practical aspects. Moreover, because child custody arrangements lead to some of the most acrimonious legal disputes, this casebook devotes two separate chapters to custody: the first treats the initial custody decision, and the second explores disputes that arise over visitation, custody, and key childrearing decisions after the initial disposition. In addition, the book emphasizes the importance of legal practice issues by placing the

lawyering chapter at the beginning of the book, and by using problems that enable students to apply doctrine.

Family Law, Gender & the State Alison Diduck

1999-08-24 This new text, cases and materials text on family law provides not only an explication of legal principle but also explores, primarily from a feminist perspective, some of the assumptions relating to gender, sexual orientation, class and culture underlying the law. It examines the ideology of the family and, in particular, the role of the law in contributing to and reproducing that ideology. Structured around the themes of welfare, equality and family privacy, the book aims to offer the benefits of a textbook while also giving students a wide-ranging set of materials for classroom discussion, using the case method to demonstrate how various issues might be resolved. As well as providing a firm grounding in family law, the text sets the law in its social and historical context and encourages a critical

approach by students to the subject. It provides an ideal introduction to family law for undergraduates, but will be equally helpful for postgraduate students of family law for whom it provides a challenging set of materials accompanied by a theoretically rich set of ideas and arguments.

Modern Family Law D. Kelly Weisberg 2024-02-12 Exploring the conflict between respect for privacy and deference to state authority in the context of family law today, each chapter in the Eighth Edition of this popular Family Law casebook provides a lens to explore the appropriate role of the state in family decision making, and helps equip students to handle current and emerging family law issues. The book features riveting well-edited cases, notes, interdisciplinary materials, and problems that highlight issues of gender, sexuality, race, and class. Integrating legal developments with perspectives from history, psychology, sociology, medicine, and philosophy, this

decision, relevant notes and questions analyzing, extending, or questioning each topic, and problems allowing students to analyze particular family law issues and disputes as practitioners, legislators, or jurists would. A Teacher's Manual is available to professors.

Ask a Manager Alison Green 2018-05-01 From the creator of the popular website *Ask a Manager* and New York's workplace advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on

you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you’re being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate’s loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green’s] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author’s friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers’ lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge

fan of Alison Green’s Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together* Family Law for Non-Lawyers Kerry Weil Tripp 2021-01-05 *Criminal Law* Joseph Kennedy 2021-12 Students today expect learning to be both efficient and interesting. They use online materials and study aids to supplement class-assigned materials and to “hack” the law. This textbook cuts out the middle person by integrating challenging principal cases that are aggressively edited into an engaging overview of the black letter law. The

Downloaded from
activistcash.com on

explanatory sections describe the law through lively language and colorful examples that students can readily grasp and remember. Providing students with a clear doctrinal overview permits the selection of cases that drill down deeper into fundamental or cutting-edge issues. Many of the principal cases put the old wine of the criminal law into new bottles that students will find meaningful and interesting. In addition to homicide, rape, assault, traditional property crimes and drug offenses, the cases selected include environmental and white collar crime, obstruction of justice, criminal copyright infringement, hate crimes, sex trafficking, online threats, revenge porn and computer crimes. Short discussion questions follow each case that stimulate understanding of the holding and the deeper issues at stake. Additional materials raise important critical perspectives dealing with issues of race, class and gender. Practice problems and links to online video clips allow

students to apply what they are learning, and the appendix contains numerous materials for engaging lawyering exercises.

Model Rules of Professional Conduct American Bar Association. House of Delegates 2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Family Law (Casebook) Ellman
Family Law Judith C. Areen
 1999

Family Law in the World Community D. Marianne
 Brower Blair 2009 The second edition of this casebook has been updated and trimmed, although it retains a wide range of topics and materials. It covers a variety of private international law issues, including child abduction, child custody, adoption, child support enforcement, and recognition of marriages and divorces. The book also explores the impact of public international law on both domestic and international regulation of the family, using topics such as family violence and the rights of the child. Finally, the book uses comparative law materials to examine traditional family law topics, such as the regulation of marriage, the rights of same-sex couples, adoption, reproductive freedom, and more.

Modern Family Law D. Kelly
 Weisberg 1998 This comprehensive new Family

Law casebook examines the conflict between respect for family privacy and deference to state authority. Using timely and well-chosen materials, authors Appleton and Weisberg convey an acute awareness of the impact of legal rules on people's lives. MODERN FAMILY LAW balances theory, practice, and history as it raises questions about the actual and appropriate role of the state in family decision-making. The authors concentrate on issues particular to family law, keeping their book well-focused and concise. After an introductory chapter on the constitutional right to privacy, The discussion progresses to: legal regulation of marriage definition of 'family' and nontraditional families with respect to housing, zoning, government benefits, torts, contracts, employment, and health the state's role in the regulation of divorce child custody adoption and new reproductive technologies Structured for maximum effectiveness as a teaching and

learning tool, MODERN FAMILY LAW offers: heightened sensitivity to issues of gender, class, race, disability, and sexual orientation interdisciplinary perspectives from history, psychology, social work, medicine, and philosophy realistic questions and problems, derived mainly from actual cases and current events a preview of where the law is heading Instructors will appreciate the casebook's flexibility for use in courses of varying lengths and emphasis. A superior Teacher's Manual provides answers to all problems, suggests how much time to devote to each area, and contains sample syllabi. If you want your students to carefully consider what set of personal relationships qualify for legal protection and for what purposes, adopt MODERN FAMILY LAW for your next course.

FAMILY LAW 2014
Family Law: Cases, Text, Problems 1991
Ethical Problems in the Practice of Law Lisa G.

Lerman 2018-01-31 Ethical Problems in the Practice of Law, Concise Fourth Edition is the briefer version of Lerman and Schrag's highly successful problem-based textbook that offers a contemporary and thoughtful approach to challenging ethical dilemmas, encouraging deep analysis and lively class discussion. Key Features: Succinct and accessible explanation of lawyer law in question and answer format Numerous problems based on actual cases, in which students must analyze the ethical and strategic issues as if they were practicing lawyers Focus on issues that students are most likely to face in their early years of practice Stimulating presentation of materials, including cartoons, tables, and photos New to the Fourth Edition: Updates of countless recent developments in lawyer law, including the amendments to Rules 1.6, 1.18 and 8.4 Up-to-date discussions of how the Internet is affecting law practice, including the use of e-mail and social media
