A Legacy of Preaching: Two-Volume Set-- Apostles to the Present Day Zondervan, 2018-12-11 A Legacy of Preaching, Two-Volume Set--Apostles to the Present Day explores the history and development of preaching through a biographical and theological examination of its most important preachers. Instead of teaching the history of preaching from the perspective of movements and eras, each contributor tells the story of a particular preacher in history, allowing these preachers from the past to come alive and instruct us through their lives, theologies, and methods of preaching. Each chapter introduces readers to a key figure in the history of preaching, followed by an analysis of the theological views that shaped their preaching, their methodology of sermon preparation and delivery, and an appraisal of the significant contributions they have made to the history of preaching. This diverse collection of familiar and lesser-known individuals provides a detailed and fascinating look at what it has meant to communicate the gospel over the past two thousand years. By looking at how the gospel has been communicated over time and across different cultures, pastors, scholars, and homiletics students can enrich their own understanding and practice of preaching for application today. Volume One covers the period from the apostles to the Puritans and profiles thirty preachers including: Origen of Alexandria by Stephen O. Presley John Chrysostom by Paul A. Forty Autumns Nina Willner 2016-10-04 In this illuminating and deeply moving memoir, a former American military intelligence officer goes beyond traditional Cold War espionage tales to tell the true story of her family—of five women separated by the Iron Curtain for more than forty years, and their miraculous reunion after the fall of the Berlin Wall. *Forty Autumns* makes visceral the pain and longing of one family forced to live apart in a world divided by two. At twenty, Hanna escaped from East to West Germany. But the price of freedom—leaving behind her parents, eight siblings, and family home—was heartbreaking. Uprooted, Hanna eventually moved to America, where she settled down with her husband and had children of her own. Growing up near Washington, D.C., Hanna's daughter, Nina Willner became the first female Army Intelligence Officer to lead sensitive intelligence operations in East Berlin at the height of the Cold War. Though only a few miles separated American Nina and her German relatives—grandmother Oma, Aunt Heidi, and cousin, Cordula, a member of the East German

Olympic training team—a bitter political war kept them apart. In *Forty Autumns*, Nina recounts her family's story—five ordinary lives buffeted by circumstances beyond their control. She takes us deep into the tumultuous and terrifying world of East Germany under Communist rule, revealing both the cruel reality her relatives endured and her own experiences as an intelligence officer, running secret operations behind the Berlin Wall that put her life at risk. A personal look at a tenuous era that divided a city and a nation, and continues to haunt us, *Forty Autumns* is an intimate and beautifully written story of courage, resilience, and love—of five women whose spirits could not be broken, and who fought to preserve what matters most: family. *Forty Autumns* is illustrated with dozens of black-and-white and color photographs.

The report represents the first comprehensive

look from UNICEF at the different ways digital technology is affecting children, identifying dangers as well as opportunities. Handbook of Transnational Families Around the World Javiera Cienfuegos 2023-01-01

This handbook compiles the most up-to-date research on transnational families. It employs a dialogue between classical approaches and cutting-edge directions in transnational family research to identify continuities and changes in terms of socioeconomic disparities and actors, and to analyze coexistence. Further, the volume adopts a twofold global and international comparative perspective. On the one hand, it focuses on different migratory flows around the world and describes their entangled logics; on the other, it is written by an international group of contributors, with a diverse range of professional backgrounds. Their contributions are based on sound empirical research, and explore geographical regions around the world. The handbook presents different thematic perspectives on transnational families, including an analytical focus on gender, global sociodemographic inequalities, power asymmetries, and border- and mobility regimes, as well as the organization of transnational care, transnational fatherhood, ageing, family reunions and return. It also includes a variety of methodological approaches to transnational family research, ranging from ethnography, biographical research, and life-course methods, to multi-sited approaches and quantitative surveys. Investigating an emergent debate, it sheds new light on migratory fluxes, their common and specific determinants, the types of actors involved, and ways to empirically and methodologically approach them. This is a must-read reference for social scientists interested in family research, migration, and gender studies. Chapter 7 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

A Song For Kresy Helen Bitner-Glindzicz 2017-01-11 This is the story of one of the thousands of Polish Families who were deported to Siberia and Kazakhstan by the Soviets in 1940. The Glindzicz family had their roots in the Eastern Borderlands of Poland known as Kresy. The family held their lands in this region since before the Polish Lithuanian Commonwealth (1569-1648). The Glindzicz men supported all the major Polish uprisings against Czarist Russia. Mieczysław Glindzicz was a local commander in the 1863 Uprising. Despite having fought loyally side by side with Britain throughout the Second World War, when it ended, the Poles of Kresy lost their homes and lands to the Soviet Union. Kresy was the territory Russia took when she was an ally of Germany. The mother of two young boys, Maria Bitner-Glindzicz as a deportee, escaped the hardships of work on the Akmolinsk-Kartaly railway, made her way to Guzar in Uzbekistan, crossed the Caspian Sea to Persia, and via Teheran journeyed to Palestine where she joined the Polish Arm in 1943. When the war ended she was demobbed in England and met up with her sister Helena Litynska. Helena had fought with the Polish Underground forces since 1940 and in August 1944 took a part in the Warsaw 'Rising. She was wounded during the fighting, captured by the Germans and imprisoned in various POW camps in Germany. Maria's husband and her father were killed by the Russians sometime in 1940 around the time the family was deported. Their names are on the controversial Belarusian Katyń List. Maria lost her three brothers in the war; Julian the youngest was arrested with his

father and was never hear of again, Roman died during the Polish Campaign in 1939, and Stanisław died after joining the Polish Army in Uzbekistan. When the family arrived in England in 1947 no adult male from either side of Maria's family had survived the war.

Families in Danger Randal A. Wright 1988 Blitzkrieg Lloyd Clark 2016-09-06 A "masterly account" of the juggernaut offensive that conquered France—but also marked the beginning of the end for Nazi Germany in World War II (Kirkus Reviews). In the spring of 1940, the German forces launched an attack on France that combined superb intelligence, cutting edge strategy, and new technology—the blitzkrieg, or "lightning war." In just six weeks, it would achieve what their fathers had failed to do in all four years of the First World War. It was a stunning victory. But here, leading British military historian and academic Lloyd Clark argues that much of our understanding of this victory is based on myth. Far from being a foregone conclusion, Hitler's plan could easily have failed had the Allies been even slightly less inept or the Germans less fortunate. The Germans recognized that success depended not only on surprise, but also avoiding a protracted

struggle for which they were not prepared—making defeat a very real possibility. Their surprise victory proved the apex of their achievement; far from being undefeatable, Clark argues, the Battle of France revealed Germany and its armed forces to be highly vulnerable. And Hitler dismissed this fact as he planned his next move—and greatest blunder: the invasion of the Soviet Union. In this eye-opening reassessment, complete with maps and illustrations, Clark “presents a well-balanced narrative that highlights the knife-edge victory of the German forces” and reveals how very close the Nazi war machine came to catastrophe in the early days of World War II (New York Journal of Books).

Sisters in War Christina Asquith 2011-05-11 Caught up in a terrifying war, facing choices of life and death, two Iraqi sisters take us into the hidden world of women’s lives under U.S. occupation. Through their powerful story of love and betrayal, interwoven with the stories of a Palestinian American women’s rights activist and a U.S. soldier, journalist Christina Asquith explores one of the great untold sagas of the Iraq war: the attempt to bring women’s rights to Iraq, and the consequences for all those involved. On the heels of the invasion, twenty-two-year-old Zia accepts a job inside the U.S. headquarters in Baghdad, trusting that democracy will shield her burgeoning romance with an American contractor from the disapproval of her fellow Iraqis. But as resistance to the U.S. occupation intensifies, Zia and her sister, Nunu, a university student, are targeted by Islamic insurgents and find themselves trapped between their hopes for a new country and the violent reality of a misguided war. Asquith sets their struggle against the broader U.S. efforts to bring women’s rights to Iraq, weaving the sisters’ story with those of Manal, a Palestinian American women’s rights activist, and Heather, a U.S. army reservist, who work together to found Iraq’s first women’s center. After one of their female colleagues is gunned down on a highway, Manal and Heather must decide whether they can keep fighting for Iraqi women if it means risking their own lives. In *Sisters in War*, Christina Asquith introduces the reader to four women who dare to stand up for their rights

in the most desperate circumstances. With compassion and grace, she vividly reveals the plight of women living and serving in Iraq and offers us a vision of how women’s rights and Islam might be reconciled.

Like Family Margaret K. Nelson 2020-04-17 For decades, social scientists have assumed that “fictive kinship” is a phenomenon associated only with marginal peoples and people of color in the United States. In this innovative book, Nelson reveals the frequency, texture and dynamics of relationships which are felt to be “like family” among the white middle-class. Drawing on extensive, in-depth interviews, Nelson describes the quandaries and contradictions, delight and anxiety, benefits and costs, choice and obligation in these relationships. She shows the ways these fictive kinships are similar to one another as well as the ways they vary—whether around age or generation, co-residence, or the possibility of becoming “real” families. Moreover she shows that different parties to the same relationship understand them in some similar - and some very different - ways. Theoretically rich and beautifully written, the book is accessible to the general public while breaking new ground for scholars in the field of family studies.

Companion to Intrinsic Properties Robert M. Francescotti 2014-06-18 what makes a property intrinsic? What exactly does the intrinsic/extrinsic distinction rest upon, and how can we reasonably justify this distinction? These questions bear great importance on central debates in such diverse philosophical fields as ethics (What is the nature of intrinsic value?), philosophy of mind (Does mental content supervene on internal bodily features?), epistemology (Can intrinsic duplicates differ in the justification of their beliefs?) and philosophy of science (Do the causal powers of an object depend on its extrinsic features?) - to only name a few. Given the central relevance of the intrinsic/extrinsic distinction to philosophical research, a collection of pertinent essays on the topic is an essential addition to the literature. It helps to identify more clearly the problems and arguments that are at stake. The anthology provides a comprehensive overview of central facets of the debates, including both crucial earlier and important new contributions by leading philosophers. As such it constitutes an indispensable component of any serious study of the topic.

Resilience and Sustainability in Urban

Africa Innocent Chirisa 2021-08-02 Resilience has become a very topical issue transcending many spheres and sectors of sustainable urban development. This book presents a resilience framework for sustainable cities and towns in Africa. The rise in informal settlements is due to the urban planning practices in most African cities that rarely reflect the realities of urban life and environment for urban development. Aspects of places, people and process are central to the concept of urban resilience and sustainable urban growth. It stems from the observation that urban vulnerability is on the increase in Zimbabwe and beyond. In history, disasters have adversely affected nations across the world, inflicting wide ranging losses on one hand while on the other hand creating development opportunities for urban communities. Cooperation in disaster management is a strategy for minimising losses and uplifting the affected urban settlements. The significance of urban planning and design in the growth and development of sustainable urban centres is well documented. Urbanisation has brought with it challenges that most developing countries such as Zimbabwe are not equipped to handle. This has been accompanied by problems such as overpopulation, overcrowding, shortages of resources and the growth of slum settlements. There need is to seriously consider urban planning and design in order to come up with contemporary designs that are resilient to current urban challenges. There are major gaps in urban resilience building for instance in Harare and the local authority needs to prioritise investment in resilient urban infrastructure.
