

Family Therapy With Hispanics Toward Appreciating Diversity

Substance Abusing Latinos Shulamith L A Straussner 2012-11-12

Discover the role culture, family, and environment have in the prevention of Latino substance abuse. Information about the substance abuse behaviors among Latino populations has been limited. *Substance Abusing Latinos: Current Research on Epidemiology, Prevention, and Treatment* fills this void by presenting the latest research on the epidemic of substance abuse now afflicting the Latino community. Ethnic differences are reviewed, including specific studies covering gang members, low-income urban women, risky behaviors, and language preference indicators of acculturation. This book does more than simply present the research—it discusses effective treatment strategies to help practitioners provide quality, culturally competent care to lacking Latino populations. Latinos, the largest minority in the United States, have an increasing alcohol and illicit drug use problem. Culture, acculturation, and language hold powerful sway in the research of Latino/a substance abuse. *Substance Abusing Latinos: Current Research on Epidemiology, Prevention, and Treatment* delves deeply into troubling issues such as gang membership, sexual abuse, the lack of healthy family role models, the effects of different levels of acculturation, the lack of health insurance, and rampant involvement with the criminal system. The research is used as a foundation to focus on the latest advances of substance abuse prevention and culturally competent intervention programs. Each chapter is extensively referenced to reinforce research. *Substance Abusing Latinos: Current Research on Epidemiology, Prevention, and Treatment* explores: substance abuse among gang members in a small city childhood sexual abuse and drug use among low-income Puerto Rican women a comparison of risky behaviors of African-American and Cuban-American adolescent juvenile offenders acculturation status and substance use prevention with Mexican and Mexican-American youth culturally competent intervention with families of Latino youth at risk for drug abuse psychiatric, family, and ethnicity-related factors that can impact treatment among Hispanic substance abusing adolescents HIV/AIDS prevention practice with substance abusers *Substance Abusing Latinos: Current Research on Epidemiology, Prevention, and Treatment* is essential reading for educators, students, practitioners working with Latino/a populations, and substance abuse researchers.

Trauma-Focused CBT for Children and Adolescents Judith A. Cohen 2016-10-11 Featuring a wealth of clinical examples, this book facilitates the implementation of Trauma-Focused Cognitive-Behavioral Therapy (TF-CBT) in a range of contexts. It demonstrates how assessment strategies and treatment components can be tailored to optimally serve clients' needs while maintaining overall fidelity to the TF-CBT model. Coverage includes ways to overcome barriers to implementation in residential settings, foster placements, and low-resource countries. Contributors also describe how to use play to creatively engage kids of different ages, and present TF-CBT applications for adolescents with complex trauma, children with developmental challenges, military families struggling with the stresses of deployment, and Latino and Native American children. See also Cohen et al.'s authoritative TF-CBT manual, *Treating Trauma and Traumatic Grief in Children and Adolescents, Second Edition*.

Social Workers' Desk Reference Kevin J. Corcoran 2015 People all over the world are confronted by issues such as poverty, a lack of access to quality education, unaffordable and/or inadequate housing, and a lack of needed health and mental services on a daily basis. Due to these issues, there is a need for social workers who have access to relevant and timely scholarly materials in order to meet the needs of those facing these issues. This third edition responds to the changes occurring in society and how they are impacting the education, research, and practice of social work as a whole. Each chapter is short and contains practical information in addition to websites and updated references. Social work practitioners, educators, students, and other allied professionals can utilize the *Social Workers' Desk Reference* to gain interdisciplinary and interprofessional education, practice, and research.

Family Violence Rose Fife 2012 Family violence is a major public health concern that often goes undiagnosed and untreated. *Family Violence: What Health Care Providers Need to Know* provides the tools and information that healthcare providers need to identify victims, communicate with victims and perpetrators, and take action. Comprehensive yet concise, it provides an in-depth overview of the three major forms of family violence—child abuse, domestic violence, and elder abuse—including incidence, clinical management, and prevention strategies. An important resource for students, health professionals, social workers, and public health professionals, *Family Violence* addresses etiology, societal impact, and legal and public health policy considerations. It is an ideal text for undergraduate and graduate courses, continuing medical education courses, conferences, and seminars that deal with interpersonal violence.

Pastoral Care and Counseling with Latino/as R. Esteban Montilla 2006 To equip ministry professionals in their work with and for Latino/as, the largest minority and fastest-growing group in the U.S., Montilla and Medina center their presentation on families and rituals as the heart and soul of the Hispanic community and the key to caregiving. In that context they unfold a variegated picture of the particular cultural guideposts for Hispanics in the U.S. today, especially their symbols and rituals, attitudes toward health and healing, abiding faith, and contemporary quest for creative agency and dignity. Family Therapy with Ethnic Minorities Man Keung Ho 2004 The classic and critically acclaimed book *Family Therapy with Ethnic Minorities*, Second Edition has now been updated and revised to reflect the various demographic changes that have occurred in the lives of ethnic minority families and the implications of these changes for clinical practice. *Family Therapy with Ethnic Minorities* provides advanced students and practitioners with the most up-to-date examination yet of the theory, models, and techniques relevant to ethnic minority family functioning and therapy. After an introductory discussion of principles to be considered in practice with ethnic minorities, the authors apply these principles to working with specific ethnic minority groups, namely African Americans, Latinos, Asian/Pacific Americans, and First Nations People. Distinctive cultural values of each ethnic group are explored as well as specific guidelines and suggestions on culturally significant

family therapy strategies and skills. Key Features: The revised text reflects advances in family therapy scholarship since the first edition thus ensuring for readers an up-to-date treatment of the topic Accents and extends current critical constructionist theories and techniques and applies them within a culturally specific perspective Pays special attention to the issues of 'historical trauma' (referred to as 'soul wound'), especially in work with First Nations Peoples and African American families /span

Family Therapy Janice M. Rasheed 2010-07-29 This text will provide a comprehensive overview of traditional and evolving theoretical models of family therapy and intervention techniques. The objective of this text is to enable a student to gain beginning proficiency as a family therapist along with understanding the impact of a client's race, ethnicity, religion, sexual orientation, disability, gender issues, age, socioeconomic status, disability, and differences from the "traditional" family on family assessment and intervention. The book has six goals, as follows: (1) acquaint students with the theoretical underpinnings of various approaches to assessing and intervening with families (2) assist students in understanding the similarities, differences and strategies of change among the major models of family therapy (3) introduce the student to the current available research on the effectiveness of different approaches to family intervention (4) help students assess family functioning from a life cycle perspective and make a valid plan, taking into account client's race, ethnicity, religion, sexual orientation, disability, gender issues, age, socioeconomic status, disability, and differences from the "traditional" family (5) help students develop techniques and strategies related to stages of the intervention in family therapy (6) enable the student to critique the appropriateness of the theoretical models and its intervention techniques according to family developmental factors as well as the particular needs of the family.

Features: (1) Comprehensive coverage of family therapy theory and research (2) Presentation of clinical process issues unique to family therapy (3) Inclusion of family life cycle and development issues and the impact on family assessment and treatment planning (4) Interventions in diverse family structures (5) Interventions with special family issues such as substance abuse, domestic violence and poverty (6) An emphasis throughout on helping students to develop beginning competencies in family therapy practice (7) Numerous case examples

Encyclopedia of Bilingual Education Josue M. Gonzalez 2008-06-05 "With articles on Spanglish and Spanish loan words in English as well as Southeast Asian refugees and World Englishes, this encyclopedia has a broad scope that will make it useful in academic and large public libraries serving those involved in teaching and learning in multiple languages. Also available as an ebook." — Booklist The simplest definition of bilingual education is the use of two languages in the teaching of curriculum content in K-12 schools. There is an important difference to keep in mind between bilingual education and the study of foreign languages as school subjects: In bilingual education, two languages are used for instruction, and the goal is academic success in and through the two languages. The traditional model of foreign-language study places the emphasis on the acquisition of the languages themselves. The field of bilingual education is dynamic and even controversial. The two volumes of this comprehensive, first-stop reference work collect and synthesize the knowledge base that has been well researched and accepted in the United States and abroad while also taking note of how this topic affects schools, research centers, legislative bodies, advocacy organizations, and families. The *Encyclopedia of Bilingual Education* is embedded in several disciplines, including applied linguistics, politics, civil rights, historical events, and of course, classroom instruction. This work is a compendium of information on bilingual education and related topics in the United States with select international contributors providing global insight onto the field. Key Features Explores in a comprehensive, non-technical way the intricacies of this subject from multiple perspectives: its history, policy, classroom practice, instructional design, and research bases Shows connections between bilingual education and related subjects, such as linguistics, education equity issues, socio-cultural diversity, and the nature of demographic change in the United States Documents the history of bilingual education in the last half of the 20th century and summarizes its roots in earlier periods Discusses important legislation and litigation documents Key Themes · Family, Community, and Society · History · Instructional Design · Languages and Linguistics · People and Organizations · Policy Evolution · Social Science Perspectives · Teaching and Learning The *Encyclopedia of Bilingual Education* is a valuable resource for those who wish to understand the polemics associated with

this field as well as its technical details. This will be an excellent addition to any academic library.

Counseling and Family Therapy with Latino Populations Robert L. Smith 2013-02-01 For the Latino population, the family bond is powerful and enduring. Family serves as the primary source of support, care, guidance, and healing; all difficulties that arise for an individual are surmounted together. Therefore, a practitioner working with a Latino client must gain the trust and respect of the family in order to carry out treatment efficiently. He or she must essentially become a part of that family to encourage members to share their issues without the concern of breaching the confidence of the family. *Counseling and Family Therapy with Latino Populations* helps the therapist to join the Latino family in order to identify and explore the difficulties that threaten their welfare. With this fundamental principle as the basis, the book's editors and contributors write chapters that focus on work with children and adolescents, group counseling and substance abuse counseling. They incorporate specific case studies, methods, and strategies for intervention and provide insight into the cultural relevance behind each example. This book is a necessary resource for therapists working with Latino clients who wish to offer effective techniques while continuing to value the integrity of family tradition.

The Church Leader's Counseling Resource Book Cynthia Franklin Ph.D. 2011-02-01 This all-in-one guide is designed to better equip clergy and the church leaders to meet their congregations' needs in a spiritually grounded and scientifically sound manner. Succinct, easy-to-read chapters summarize all a pastor needs to know about a given problem area, including its signs or symptoms, questions to ask, effective helping skills, and, most importantly, when to refer to a mental health professional. Synthesizing what research says about treatment approaches for mental health issues, this user-friendly reference is filled with guidelines, case scenarios, key points to remember, resources for further help, advice on integrating scripture and theology with the best available research, and tips on partnering with others to provide the best possible care for each church member. Each chapter is designed for quick lookup by problem area, empowering church leaders to understand and help meet the challenges facing the children, adults, families, and communities that they serve.

Spiritual Resources in Family Therapy Froma Walsh 2008-12-04 Exploring the role of spirituality in couple and family relationships, this successful text and practitioner guide illustrates ways to tap spiritual resources for coping, healing, and resilience. Leading experts in family therapy and pastoral care discuss how faith beliefs and practices can foster personal and relational well-being, how religious conflicts or a spiritual void can contribute to distress, and what therapists can gain from reflecting on their own spiritual journeys. The volume is rich with insights for working with multi-faith and culturally diverse clients.

Latino Families in Therapy, Second Edition Celia Jaes Falicov 2015-04-10 "Since its initial publication, this acclaimed work has provided a comprehensive conceptual framework and hands-on strategies for culturally competent clinical practice with Latino families and individuals. Practitioners and students gain an understanding of the family dynamics, migration experiences, ecological stressors, and cultural resources that are frequently shared by Latino families, as well as variations among them. Through in-depth case illustrations, the author shows how to apply a multicultural lens to assessment and intervention that draws on each client's strengths. Creative ideas are presented for addressing frequently encountered clinical issues and challenges at all stages of the family life cycle. New to This Edition

Clinical Issues with Interracial Couples Volker Thomas 2014-02-25 Go beyond cookie-cutter therapy and interventions to provide culturally

relevant therapy that works for your clients in interracial relationships! With this book, you'll explore an array of relational issues faced by various configurations of interracial couples. Then you'll learn specific intervention strategies for treating these couples in therapy. The first section presents research and theoretical chapters on issues faced by interracial couples who are heterosexual; the second focuses on issues facing racially mixed gay and lesbian couples; and the third provides you with specific interventions to use with couples in interracial relationships. *Clinical Issues with Interracial Couples: Theories and Research* is an important addition to the collection of any therapist who counts an interracial couple among his or her clients. From the editors: "Although interracial couples face challenges related to differences in their racial backgrounds, couple and family theories have had little to say about how to work with these differences. Not all couples are white, married, and heterosexual, and there is a growing understanding that clinical practices based on these assumptions may not be adequate when working with interracial couples. Recognizing the diversity of our clients, the intent of this book is to contribute to more respectful and inclusive clinical practices that can address the treatment issues we face in the first decade of the twenty-first century." The first section of this book examines challenges faced by heterosexual interracial couples, focusing on: how black/white couples experience and respond to racism and how they negotiate the racial and ethnic differences they face in their relationships the significance of race—or lack of it—in white women's relationships with black men, with suggestions on how to create a therapeutic space for discussing race without over-determining its significance marriages where one partner is of Latino/a descent and the other of non-Latino/a white descent—a pilot study of a rarely investigated population! approaches, interventions, and strategies to use when treating multicultural Muslim couples Hawaii's unusual history of interracial ties and relationships, the common challenges that face interracial couples there, and therapeutic interventions that can benefit them The second section of *Clinical Issues with Interracial Couples* looks at the issues faced by same-sex interracial couples. Here is a sample of what you'll find: clinical considerations for working with interracial/intercultural lesbian couples pitfalls to avoid in therapy as well as suggestions for a conceptual approach for gay Latino men in cross-cultural relationships The book's final section presents interventions for use with interracial couples. Here you'll find: assessment techniques and interventions geared toward black-white couples information on doing effective therapy with Latino/a-white couples a case study of the therapeutic process as applied to an Asian-American woman married to a white man seven therapists' perspectives on working with interracial couples—focusing on the historical context of intermarriage, specific concerns and issues that interracial couples experience in their relationships, and the experiences of therapists working with this diverse and challenging client population

Strategies for Deconstructing Racism in the Health and Human Services Alma Carten 2016-06-07 Building on the successful outcomes of a five-year initiative undertaken in New York City, Alma Carten, Alan Siskind, and Mary Pender Greene bring together a national roster of leading practitioners, scholars, and advocates who draw upon extensive practice experiences and original research. Together, they offer a range of strategies with a high potential for creating the critical mass for change that is essential to transforming the nation's health and human services systems. *Strategies for Deconstructing Racism in the Health and Human Services* closes the gap in the literature examining the role of interpersonal bias, structural racism, and institutional racism that diminish service access and serve as the root cause for the persistence of disparate racial and ethnic outcomes observed in the nation's health and human services systems. The one-of-a-kind text is especially relevant today as population trends are dramatically changing the nation's demographic and cultural landscape, while funds for the health and human services diminish and demands for culturally relevant evidence-based interventions increase. The book is an invaluable resource for service providers and educational institutions that play a central role in the education and preparation of the health and human service workforce.

Multicultural Perspectives in Working with Families Elaine Piller Congress 2005 This book addresses cutting edge issues in the assessment and treatment of families from diverse cultural backgrounds. It covers a wide array of related family issues and skills which are important for human service practitioners in the helping disciplines. *Culturally Competent Practice with Immigrant and Refugee Children and Families* Rowena Fong 2004-01-01 Meeting a crucial need for social

workers and other practitioners, as well as students, this authoritative text covers the breadth of issues involved in working with immigrant and refugee children and families. Within an innovative conceptual framework, essential knowledge is presented to guide culturally competent practice with clients from over 14 immigrant groups whose numbers are growing in the United States today. Expert authors review the history of each group's migration to the U.S. and discuss key issues facing families, including cultural conflicts, trauma associated with refugee experiences and/or illegal status, and the effects of poverty and discrimination. Particular attention is given to ways that the practitioner can help families draw on culturally based resources for coping and resilience as they navigate the challenges of their new lives. Throughout, recommendations for strengths-based assessment and intervention are brought to life in detailed case examples.

Multicultural Counseling and Psychotherapy Leroy G. Baruth 2016-01-22 Multicultural Counseling and Psychotherapy, 6th ed, offers counseling students and professionals a distinctive lifespan approach that emphasizes the importance of social justice and diversity in mental health practice. Chapters include case studies, reflection questions, and examinations of current issues in the field. Each chapter also discusses the ways in which a broad range of factors—including sexuality, race, gender identity, and socioeconomic conditions—affect clients' mental health, and gives students the information they need to best serve clients from diverse backgrounds.

Multicultural Perspectives In Social Work Practice with Families, 3rd Edition Elaine P. Congress, MSSW, DSW 2012-10-01 Multicultural Perspectives in Social Work Practice with Families is in its third edition and continues to expand the depth and breadth with which culture may be understood and the impact of culture in working with families. Congress, Gonzalez, and their contributors have updated this text to include a focus on evidence-based practice, 10 additional chapters, revision of a valuable assessment tool, and a culturagram. This book clearly is an essential resource for social workers committed to culturally sensitive practice."--Journal of Teaching in Social Work Encompassing the most current issues faced by multicultural families across the lifespan and the social workers who serve them, this popular textbook contains ten new chapters and provides content that has been significantly expanded throughout. These new and reconceived chapters offer professors and social work graduate students a broader and more comprehensive take on the key issues that arise when treating families from diverse cultural backgrounds and current, evidence-based models for assessment and treatment. New chapters include: Evidence-based models of care for ethnically-diverse families Practice with Asian-American families Practice with Native American and indigenous families Practice with Hispanic families Practice with Arab families Practice with adolescents Practice with families when there is risk of suicide Practice with families dealing with substance use and abuse Practice with families around health issues Legal issues with immigrants Contributors to the text are leaders in the field of multicultural issues that encompass a wide range of racial and ethnic populations. Updated case studies, vignettes, and statistical data illustrate the book's content.

Voices of Color Mudita Rastogi 2005 Using real cases, narratives, and biographical material, this text examines issues related to the mental health intersect with race and ethnicity. It draws on the experiences of ethnic minority therapists.

The Group Therapist's Notebook Dawn Viers 2012-03-07 Get innovative ideas and effective interventions for your group therapy Group work requires facilitators to use different skills than they would use in individual or family therapy. The Group Therapist's Notebook: Homework, Handouts, and Activities for Use in Psychotherapy offers facilitators effective strategies to gather individuals who have their own unique needs together to form a group where each member feels comfortable exploring personal—and often painful—topics. This resource provides creative handouts, homework, and activities along with practical ideas and interventions appropriate for a variety of problems and population types. Each chapter gives detailed easy-to-follow instructions, activity contraindications, and suggestions for tracking the intervention in successive meetings. Every intervention is backed by a theoretical or practical rationale for use, and many chapters feature a helpful illustrative clinical vignette. Group work has several benefits, including the ability to treat a greater number of clients with fewer resources. Group therapy work also relies on various theories that may seem to be difficult to apply to clinical practice. The Group Therapist's Notebook is a practical guide that builds a bridge between theory and practice with ease. The text provides help for psychotherapists who are

either beginning group practice or already utilizing groups as part of their practice and need a fresh set of ideas. The workbook framework allows group specialists to generate approaches and modify exercises to fit the varying needs of their clients. This guide offers a wide variety of valid approaches that effectively address client concerns. The book provides therapists with tips and ideas for starting and facilitating a group, assists them through sets of interventions, activities, and assignments, then showcases a variety of interventions for needs-specific populations or problems. Special sections are included with interventions for teens, young adults, couples, and family groups. Interventions in The Group Therapist's Notebook include: anger management skills ease feelings of shame and guilt substance use and abuse grief and loss positive body image guidance through change independence and belonging interpersonal skills coping skills crisis intervention strategies much, much more! The Group Therapist's Notebook is an essential resource for both novice and more experienced practitioners working in the mental health field, including counselor educators, social workers, guidance counselors, prevention educators, and other group facilitators. Every nonprofit agency, counseling center, private practice, school, hospital, treatment facility, or training center that organizes and implements therapy groups of any type should have this guide in their library.

Developmental Psychopathology, Volume 1 Dante Cicchetti 2006-03-24 Developmental Psychopathology, Second Edition, contains in three volumes the most complete and current research on every aspect of developmental psychopathology. This seminal reference work features contributions from national and international expert researchers and clinicians who bring together an array of interdisciplinary work to ascertain how multiple levels of analysis may influence individual differences, the continuity or discontinuity of patterns and the pathways by which the same developmental outcomes may be achieved. This volume addresses theoretical perspectives and methodological issues, including cross-cultural perspectives, developmental epidemiology, self-determination theory, and gender issues.

Counseling Latinos and la Familia Azara L. Santiago-Rivera 2002 Counseling Latinos and la familia provides an integrated approach to understanding Latino families and increasing competency for counselors and other mental health professionals who work with Latinos and their families. Grief Therapy with Latinos Carmen Vazquez, PhD 2011-01-28 "We recommend this work for both bilingual counselors and for mono-lingual counselors in schools and clinical settings. The grief counseling techniques are clearly explained and are accessible even to those who have not been extensively trained in the areas of loss and grief."--*Illness, Crisis and Loss* "Grief Therapy with Latinos: Integrating Culture for Clinicians advances the field of grief therapy by offering a culturally sensitive model for Latino/as. Rich in theory and practice, this book offers a culturally congruent approach to grief therapy. The authors present an effective model that teaches therapists how to comprehend Latino/as' mourning in Spanish." *Grief Therapy with Latinos: Integrating Culture for Clinicians* can serve as a graduate textbook as well as a reference for novice and seasoned clinicians."--Lillian Comas-Diaz, PhD, in *Psychoanalytic Psychology* This book serves as both a graduate textbook and clinical reference that helps in the understanding of

relevant cultural values and their effect on the grieving process. *Grief Therapy with Latinos* also addresses the application of specific interventions in a culturally appropriate manner, including the importance of language in grief therapy, psychology, and counseling with a Latino population. The main focus of this book is to identify underlying pathologies, depressions, or anxieties that could have existed before, and the relevance of the cultural components that can interfere with the adaptation to and the resolution of grief. Written in three parts-specific cultural and psychological components of Latino grief, the many faces of grief, and grief within the family context-each part demonstrates a clear hands-on approach to how to respond to Latino patients and addresses aspects universally related to grief and psychological points of view. Key features: Addresses culturally specific and diverse narratives of loss to illustrate cultural revelations in the grief process and the clinical assessment of denial and spirituality Discusses the relevance of language in the expression of grief, assessment, and treatment Presents clear and easy-to-read grief therapy approaches and methods Includes adaptations of traditional psychotherapeutic techniques, incorporating relevant cultural values

Counseling Multicultural and Diverse Populations Nicholas A. Vacc 2003-02-04 Professionals in helping occupations hold the key to reducing social, economic, and emotional barriers that often prevent members of America's subgroups from becoming secure citizens.

Handbook of Group Counseling and Psychotherapy Janice L. DeLucia-Waack 2004 The *Handbook of Group Counseling and Psychotherapy* is a comprehensive reference guide for group practitioners and researchers alike. Each chapter reviews the literature and current research as well as suggestions for practice in the psycho educational arena, counselling, and therapy groups. The *Handbook* encourages the notion that the field is improved through increased collaboration between researchers and practitioners. Through a review of cutting-edge research and practice, the *Handbook* includes } 48 articles by renowned experts in group work } the history and theory of group work } topics across the lifespan } an entire section on multicultural issues } a variety of clinical problems and settings } appendices include the Association for Specialists in Group Work Training Standards, Best Practice Standards, and Principles for Diversity-Competent Group Workers The *Handbook* is divided into seven sections: Current and Historical Perspectives on the Field of Group Counselling and Psychotherapy, reviews and analyzes the many contributions and contributors that have made group counselling and psychotherapy a vital and potent treatment method. The chapter outlines review articles spanning four decades, and outlines the evolution of group themes over the last 100 years. *Best Practices in Group Counselling and Psychotherapy* uses research, theory, and group counseling experience to provide group leaders and researchers with the most current and best practices in conducting group counseling and psychotherapy. *Multicultural Groups* follows the ASGW Principles for Diversity-Competent Group Workers and is intended to provide group leaders with essential information about different cultural groups and their world views, perceptions of groups, naturalistic healing methods, suggested group interventions, and implications for groups. Chapters cover Native-Americans, Latinos, Asians, and African-Americans, disabled persons, and gender and sexuality. *Groups Across Settings* includes examples of psycho-educational, counseling, and psychotherapy groups in a variety of settings. This section presents readers with theoretical and empirical support for group work in such settings as the Veterans Administration system, university counselling centers, and more. *Groups Across the Lifespan* consist of chapters across many age groups. For children and adolescents, cognitive and developmental issues are addressed. For adults, socialization and interpersonal issues are addressed, including separate chapters for male and female groups. Finally, a chapter on the elderly deals with cognitive, health, and life review issues. *Special Topics Groups* presents a continuum of different types of groups used to treat people with interpersonal and developmental issues, such as grief, substance abuse, depression, and others. Each chapter in this section provides definitions and descriptions of the issues along with theoretical and empirical support. Finally, *Critical Issues and Emerging Topics* attempts to reflect the zeitgeist and provide a glimpse into group interventions for the future. Emerging issues, such as online groups, prevention groups, and peer-led mutual help groups receive careful attention and analysis. The *Handbook of Group Counseling and Psychotherapy*, the first reference devoted to this emerging and rapidly growing field, is essential for academics, researchers, professionals, and librarians serving the group therapy community. There is no similar reference available, and it will prove a

landmark volume for years to come.

Culturally Diverse Counseling Elsie Jones-Smith 2018-10-09 Culturally Diverse Counseling: Theory and Practice by Elsie Jones-Smith adopts a unique strengths-based approach in teaching students to focus on the positive attributes of individual clients and incorporate those strengths, along with other essential cultural considerations, into their diagnosis and treatment. With an emphasis on strengths as recommended in the 2017 multicultural guidelines set forth by the American Psychological Association (APA), this comprehensive text includes considerations for clinical practice with twelve groups, including older adults, immigrants and refugees, clients with disabilities, and multiracial clients. Each chapter includes practical guidelines for counselors, including opportunities for students to identify and curb their own implicit and explicit biases. A final chapter on social class, social justice, intersectionality, and privilege reminds readers of the various factors they must consider when working with clients of all backgrounds.

Community Mental Health Jessica Millet Rosenberg 2006 An interdisciplinary resource for students preparing to become mental health professionals, those functioning as practitioners in community mental health settings, and policy planners engaged in the evaluation and development of programs in the human services.

Social Work Practice with Families Mary Patricia Van Hook 2019 Social Work Practice with Families uses resiliency - a strength-based perspective - to frame a collaborative approach to assessment and treatment with families. In so doing, the text aims to help counselors select a therapeutic model that effectively assists in addressing risk factors and promoting important resources. Specifically, the book gives clear examples of the elements in a strength-affirming assessment and engagement process; explains the theoretical framework and treatment techniques of major treatment models and treatment programs for specific populations; uses case illustrations to describe how treatment models could be implemented with a variety of families; discusses resiliency in terms of families belonging to various cultural groups and family structures; and identifies resiliency issues and implications for practice for families facing major problems. Including current evaluation research from US, Canadian, and global perspectives, the text serves as a helpful resource to undergraduate and graduate social work students and social work practitioners.

Mental Health and Social Problems Nina Rovinelli Heller 2010-11 Mental Health and Social Problems is a textbook for social work students and practitioners. It explores the complicated relationship between mental conditions and societal issues as well as examining risk and protective factors for the prevalence, course, adaptation to and recovery from mental illness. The introductory chapter presents bio-psycho-social and life-modeled approaches to helping individuals and families with mental illness. The book is divided into two parts. Part I addresses specific social problems, such as poverty, oppression, racism, war, violence, and homelessness, identifying the factors which contribute to vulnerabilities and risks for the development of mental health problems, including the barriers to accessing quality services. Part II presents the most current empirical findings and practice knowledge about prevalence, diagnosis, assessment, and intervention options for a range of common mental health problems - including personality conditions, eating conditions and affective conditions. Focusing throughout upon mental health issues for children, adolescents, adults and older adults, each chapter includes case studies and web resources. This practical book is ideal for social work students who specialize in mental health.

Relational Social Work Practice with Diverse Populations Judith B. Rosenberger 2013-06-25 Social work and relational theory have long been clinical comrades, given their shared goals and ideals. This close fit continues to be productive as client populations and their needs grow more diverse. Clinical Social Work Practice with Diverse Populations sorts through vital matters of race, ethnicity, sexuality, religion and social status--and addresses groups and issues often seen in practice but rarely encountered in print--with a profound understanding of the healing power of relational-based treatment. Case examples illustrate all stages of social work process, offering practice guidelines for working with members of diverse groups while emphasizing the uniqueness of every therapeutic dyad. The coverage recognizes the multiple relationships that comprise individuals' lives as well as the individuality that co-exists within group identity. And the contributors carefully show readers how to check themselves for biases and us-versus-them thinking and how to develop confidence along with clinical skills. Included in this first-of-its-kind text: · Practice technique and research support for relational therapy. · Whiteness: Deconstruction of a practice paradox. ·

Racial and ethnic diversity, including African American, Latino, Asian American, and Asian Indian clients. · Religious diversity: evangelical Christians, Muslim, and Orthodox Jewish clients. · Diversity of sexual identity: LGBT clients. · Diversity of life-altering experiences: combat veterans, reentry from incarceration, homelessness. · Plus: background chapters providing a framework for applying relational theory to social work. Bridging the knowledge gaps between the diversity literature and the practical literature, Relational Social Work Practice with Diverse Populations supplies clinical social work professionals, educators, and counselors with tools and concepts for effective, efficient practice. **Pentecostal Theology** Keith Warrington 2008-08-07 Pentecostals (traditionally) do not think theologically so much as do it practically. This book will present Pentecostal theology as well as the particular style of Pentecostal thinking and praxis that makes it different. Pentecostalism is not just distinctive because of its belief base but also because of the worldview it owns. The latter is based on a certainty that a religion that does not work is not worth much. Consequently, they look for expressions of life and vitality in their faith. These dominate, rather than an expression of the cerebral, though this is changing. Nevertheless, the sense of the immediate, the God of the now not the distant past, underlie how they do theology. Pentecostal theology tends to be seen through the eyes of people, not theologians; through the community, not traditions (though they have them); through their faith and worship, not ancient creeds. It is a theology of the dynamic, seen through the lens of experience. It is a functional theology that exists to operate; to incorporate an experiential dimension. Pentecostal theology does not operate as other theologies which often only detail a list of beliefs; it does this but also and (more) importantly, it explores them in the context of praxis. Thus, this volume incorporates praxis as part of the enquiry relating to theology.
