The Passive Programming Playbook Paula Willey 2021-05-11 This book offers 101 passive programming ideas that are extendable, adaptable, customizable, and above all, stealable-so your passive programming never runs dry. Passive programming is a cheap, quick, fun way to make all library customers feel like part of the community. It can support reading initiatives, foster family engagement, encourage visit frequency, and coax interaction out of library lurkers-while barely making a dent in your programming budget. Passive programming can be targeted at children, teens, adults, or seniors; used to augment existing programs; and executed in places where staff-led programming can't reach. It can be light-footed, spontaneous, and easily deployed to reflect and respond to current news, media,

library events, and even the weather. But even passive programming pros run out of ideas sometimes, and when that happens, they want a fresh, funny source of inspiration.

Landis 2013-01-31 In the autumn of her life, Landis harvests the stories of her seventy years. Here are stories of friendship and forgiveness, heritage and hospitality, generosity and gratitude, loss and love, and the people of a lifetime with whom she has broken bread. The memoir is a series of key words arranged alphabetically to construct a dictionary of her life. She coins the work "Kitchenary" to link the significance of food, its flavors and aromas, to memory. Because food evokes strong emotions, it recalls people and places to mind. When Landis tastes the smoky tartness of hot

bacon dressing it conjures up a picture of her mother gathering the early spring shoots of dandelion along the farm fencerows to make a green salad. Food is the theme that binds the essays together. Realizing how our need and enjoyment of food remain constant, even though many aspects of family life change, she uses this medium as the connecting point across generations. Fifty-seven recipes are included, all from the kitchens of Landis, her family and friends.

Forest and the Trees Floyd McGowin 2015-04-28
Norman Floyd McGowin Jr. was born into a prosperous family whose W. T. Smith Lumber Company dominated the small town of Chapman in Butler County in south Alabama. Family members achieved distinction in business, politics, the arts, and society. Floyd grew up, as he put it, during "periods of our region's and country's history that have encompassed

momentous social, political, economic, and technological change. More took place in the last two-thirds of the 20th century along these lines than probably during any comparable period. My life has been full and interesting, and I have been privileged to know a lot of people and be involved in situations that illustrate change in both the physical aspects of life as well as the values that affect it." Thus while in that "era of my life between active employment and impotent geezerhood, where I see things with more clarity and truth than previously," he decided to write a memoir so that his grandson Peter and other young people "might better understand what is different and what is the same with regard to the past." His story unfolds in three parts: family, early education, and surroundings; Yale University and the Marine Corps; and his years in business. "It is my hope that this book will pay adequate tribute to those people and times that have formed mine," he wrote.
