The Multiverse is a Nice Place to Visit, But I Wouldn't Want to Live There Ira Nayman 2017-06-16 In the fifth novel in Ira Nayman's Multiverse series (aka the Transdimensional Authority series, which is misleading because book four in the series was mostly about the Time Agency - honestly, if you blinked, you would have missed the appearance of the Transdimensional Authority, and if you didn't blink, well, Elsewhen Press accepts no responsibility for the cost of the surgery to rehydrate your eyes), we once again follow the intricate web of events that unfold in a Transdimensional Authority investigation (oh! - so we could have stayed

with the other series name after all - it's not easy keeping track when these sentences can be the size of a Sherman tank!). Why would someone, apparently chosen at random, have their consciousness swapped with someone else in another reality? How would someone, apparently chosen at random, have their consciousness swapped with someone else in another reality? Why would another three persons, apparently chosen at random, have their consciousness swapped with three other someone elses in another reality? Why would the entire bridge crew of a starship, apparently... well, you get the picture. What will happen to all these very confused people? How does the Alternate Reality News Service get scoops on these events so quickly? Why are their reporters acting so dodgy - do they have something to hide, or just issues? Who are the Pops, and can they help? Does the editor know what's going on, and if she does would she even tell Noomi (our favourite TA investigator)? What was that noise from her office when Noomi was 'interviewing' her? Why am I asking you these questions when you haven't even read the story yet? Or have you? Why are you reading this blurb if you've already read the story? Are you looking for an alternate reality, or just alternative facts? This is fiction you know, we tell it like it is. If you want alternative facts you better try a news service...or a politician. Oh, and if you're looking for a news service, you could always consider the Alternate Reality News Service.

Black Cat Weekly #114 Norman Spinrad 2023-11-04 This issue features original mysteries by O'Neil De Noux and Shannon Taft (thanks to our Acquiring Editors, Michael Bracken and Barb Goffman), a Gil Brewer crime classic, and another entry in the Biff Brewer mystery series by Andy Adams. And what issue would be complete without a solve-it-yourself puzzler from Hal Charles? On the more fantastic side of things, you might say things have gone to the birds...we have a pair of classic avian-themed stories by Cordwainer Smith and Richard McKenna. But we also have a terrific Norman Spinrad short, about the effects of virtual entertainment on actors, and Darrell Schweitzer contributes a poignant tale of a man whose father has delusional battles against the dreaded Zeppelin Gang. Or are they delusions? And a few issues ago, I promised more of the humorous Toffee tales from Charles F. Myers. Well, in my research through the pulps, I only looked at titles...imagine my surprise when The Shades of Toffee turned out to be a novel, instead of a short story! Here it is. More Toffee shorts (I assume they're short) will follow in future issues. Here's the complete lineup: Mysteries / Suspense / Adventure: "The James Mason Effect," by O'Neil De Noux [Michael Bracken Presents short story] "The Clue in the Conservatory," Hal Charles [Solve-It-Yourself Mystery] "A Tail of Justice," by Shannon Taft [Barb Goffman Presents short story] "The Gesture," by Gil Brewer [classic short story] The Mystery of the Caribbean Pearls, by Andy Adams [novel, Biff Brewer series] Science Fiction & Fantasy: "A Man of the Theater," by Norman Spinrad "Fighting the Zeppelin Gang," by Darrell Schweitzer "The Night of Hoggy Darn," by Richard McKenna [classic short story] "From Gustible's Planet," by Cordwainer Smith [classic short story] The Shades of Toffee, by Charles F. Myers [novel, Toffee series] Biff Bill Eddy 2011-05 This little book gives more than 20 examples of

BIFF responses--brief, informative, friendly, and firm--for all areas of life, plus additional tips to help readers deal with high-conflict people anywhere. 158 pp.

California Property Law for Paralegals D. Patrick O'Laughlin

2010-12-20 Designed to simplify material while maximizing student interest, California Property Law for Paralegals is a well-organized, clearly written, practical text. This concise yet comprehensive book will provide students the tools they need but will not overwhelm them because it is geared specifically to the needs of paralegal students. Written so that class lectures can be prepared with ease, this text features: Practical problem solving exercises and hypotheticals presented in an interesting and attention-grabbing style with an eye to engaging the reader Ethical issues discussed throughout the text that challenge the students and prepare them for practice An option for instructors to encourage students to draft assignments in IRAC form to better prepare students for the workplace and to make grading easier for instructors Chapters ending with a review of important terms, concepts, definitions, and chapter review questions. The author engages both students and instructors with four special features intended to facilitate mastering the law through practical application: Judge for a Day uses a paraphrased judicial opinion or fact pattern that does not reveal the holding of the case. Students are asked to predict the judge's ruling. These can be used to trigger classroom discussion or used in a mock trial. The Client Comes Calling presents a challenge or task that a paralegal may encounter in the course of an ordinary day in a law firm. This feature spotlights ethical considerations and also introduces students to the business side of the practice of law. Sharpening the Saw: An Exercise in Issue Spotting trains paralegals to think like legal professionals. Students are asked to read a set of facts and then to

identify and effectively convey the issue in writing. This feature is presented in such a way that an instructor can determine how much emphasis to place on legal writing. Out of the Ivory Tower reminds students that clients use law firms to solve problems. This feature encourages creative thinking and a focus on the "big picture." Without a doubt, California Property Law for Paralegals is your best alternative for an easy to teach, focused, California-specific property text aimed specifically at paralegals.
