Final Four Records, 1939-1993 National Collegiate Athletic Association 1993
Bill & Dave Michael Shawn Malone 2007 The definitive history of Hewlett-Packard and its legendary founders, based on unprecedented access to private archives This is the most authoritative version ever of the most famous start-up story in business history. In 1938, working out of a small garage in Palo Alto, California, two young Stanford graduates named Bill Hewlett and Dave Packard built their first product, an audio oscillator. It was the start not only of a legendary company but of an entire way of life in Silicon Valley and, ultimately, our modern digital age. Others have written about the rise of Hewlett-Packard, including Packard himself in a bestselling

memoir. But acclaimed journalist Michael S. Malone is the first to get the full story, based on unlimited and exclusive access to corporate and private archives, along with hundreds of employee interviews. Malone draws on his new material to show how some of the most influential products of our time were invented, and how a culture of innovation led HP to unparalleled success for decades. He also shows what was really behind the groundbreaking management philosophy 'the HP Way' that put people ahead of products or profits. There have been attempts in recent years to discredit the HP Way as soft and outdated. But Malone argues that the HP Way was a hard-nosed business philosophy that combined simple objectives, trust in

employees to make the right choices, and ruthless self-appraisal. It created an innovative and ferociously competitive company'arguably the world's greatest company. This business adventure story will be perfect for entrepreneurs, young managers, and students, not to mention the tens of thousands of current and former HP employees.

Morality for Humans Mark Johnson 2015-09-04 "A welcome renewal and defense of John Dewey's ethical naturalism, which Johnson claims is the only morality 'fit for actual human beings.'" —Notre Dame Philosophical Reviews What is the difference between right and wrong? This is no easy question to answer,

yet we constantly try to make it so, frequently appealing to absolutes, whether drawn from God, universal reason, or societal authority. Combining cognitive science with a pragmatist philosophical framework, Mark Johnson argues that appealing solely to absolute principles is not only scientifically unsound but even morally suspect. He shows that the standards for the kinds of people we should be and how we should treat one another are frequently subject to change. Taking context into consideration, he offers a nuanced, naturalistic view of ethics that sees us creatively adapt our standards according to given needs, emerging problems, and social interactions. Ethical naturalism is not just a revamped form of relativism. Indeed, Johnson attempts to overcome the absolutist-versus-relativist impasse that has been one of the most intractable problems in the history of philosophy. Much of our moral thought, he shows, is automatic and intuitive, gut feelings that we

attempt to justify with rational analysis and argument. However, good moral deliberation is not limited to intuitive judgments supported after the fact by reasoning. Johnson points out a crucial third element: we imagine how our decisions will play out, how we or the world would change with each action we might take. Plumbing this imaginative dimension of moral reasoning, he provides a psychologically sophisticated view of moral problem solving, one perfectly suited for the embodied, culturally embedded, and ever-developing human creatures that we are.

"The Good War" Studs Terkel 2011-07-26 Winner of the Pulitzer Prize: "The richest and most powerful single document of the American experience in World War II" (The Boston Globe). "The Good War" is a testament not only to the

experience of war but to the extraordinary skill of Studs Terkel as an interviewer and oral historian. From a pipe fitter's apprentice at Pearl Harbor to a crew member of the flight that dropped the atomic bomb on Nagasaki, his subjects are open and unrelenting in their analyses of themselves and their experiences, producing what People magazine has called "a splendid epic history" of WWII. With this volume Terkel expanded his scope to the global and the historical, and the result is a masterpiece of oral history. "Tremendously compelling, somehow dramatic and intimate at the same time, as if one has stumbled on private accounts in letters locked in attic trunks . . . In terms of plain human interest, Mr. Terkel may well have put together the most vivid collection of World War II sketches ever gathered between covers." —The New York Times Book Review "I promise you will remember your war years, if you were alive then, with extraordinary

vividness as you go through Studs Terkel's book. Or, if you are too young to remember, this is the best place to get a sense of what people were feeling." —Chicago Tribune "A powerful book, repeatedly moving and profoundly disturbing." —People

Five Came Back Mark Harris
2014-02-27 Now a Netflix original documentary series, also written by Mark Harris: the extraordinary wartime experience of five of Hollywood's most important directors, all of whom put their stamp on World War II and were changed by it forever Here is the remarkable, untold story of how five major Hollywood directors—John Ford, George Stevens, John Huston, William Wyler, and Frank Capra—changed World War II, and how, in turn, the war changed them. In a move unheard of at the time, the U.S. government farmed out its war propaganda effort to Hollywood, allowing these directors the freedom to film in combat zones as never before. They were on the scene at almost every major moment of America's war, shaping the public's collective consciousness of what we've now come to call the good fight. The product of five years of scrupulous archival research, *Five Came Back* provides a revelatory new

understanding of Hollywood's role in the war through the life and work of these five men who chose to go, and who came back. "Five Came Back . . . is one of the great works of film history of the decade." --Slate "A tough-minded, information-packed and irresistibly readable work of movie-minded cultural criticism. Like the best World War II films, it highlights marquee names in a familiar plot to explore some serious issues: the human cost of military service, the hypnotic power of cinema and the tension between artistic integrity and the exigencies of war." --The New York Times

It Came from the 80s!

Francesco Borseti 2016-08-16

From their heyday in the 1950s and 1960s, B movies declined in popularity through the 1970s. As the big Hollywood studios began to make genre films with sky-high budgets, independent producers of low-budget movies could not compete in theaters. The sale of American International Pictures in 1979 and New World Pictures in 1983 marked the end of an era. The emergence of home video in the 1980s marked the beginning of a new phase, as dozens of B movies were produced each year for the small screen, many becoming cult classics of science fiction, horror and fantasy. Through numerous interviews with

producers, directors, photographers and actors, this book sheds light on an overlooked corner of film history with behind-the-scenes stories of 28 low-budget favorites from the 1980s.

Ask a Mexican Gustavo Arellano 2008-04-22 DEAR MEXICAN: WHAT IS ASK A MEXICAN ? Questions and answers about our spiciest Americans. I explore the clichés of lowriders, busboys, and housekeepers; drunks and scoundrels; heroes and celebrities; and most important, millions upon millions of law-abiding, patriotic American citizens and their illegal-immigrant cousins who represent some \$600 billion in economic power. WHY SHOULD I READ ASK A MEXICAN ? At 37 million

strong (or 13 percent of the U.S. population), Latinos have become America's largest minority -- and beaners make up some two-thirds of that number. I confront the bogeymen of racism, xenophobia, and ignorance prompted by such demographic changes through answering questions put to me by readers of my Ask a Mexican column in California's OC Weekly. I challenge you to find a more entertaining way to immerse yourself in Mexican culture that doesn't involve a taco-and-enchilada combo. OKAY, WHY DO MEXICANS PARK THEIR CARS ON THE FRONT LAWN? Where do you want us to park them? The garage we rent out to a family of five? The backyard where we put up our recently immigrated cousins in tool-shack-cum-homes? The street with the red curbs recently approved by city planners? The driveway covered with construction materials for the latest expansion of la casa? The nearby school parking lot frequented by cholos on the

prowl for a new radio? The lawn is the only spot Mexicans can park their cars without fear of break-ins, drunken crashes, or an unfortunate keying. Besides, what do you think protects us from drive-bys? The cops?

American Popular Culture

Organized by types of information sources, the book selectively covers guides to the literature of popular culture, including general and subject encyclopedias; subject dictionaries; handbooks and manuals; biographical compilations; directories, indexes, and abstracts; bibliographies, discographies, and videographies; and supplemental sources (e.g., periodicals, research centers, associations). Each section is arranged by subject: general; popular arts (e.g., music, fine arts); mass media (e.g., radio, computers); folkways/oral tradition; and fads, events, trends, and other social phenomena. Selective rather than comprehensive, the book offers entries with descriptive

and sometimes evaluative annotations. Essential as a research tool in academic and public libraries, this guide will also be useful in collection development.

the heart of historic Los

where real and imagined

narratives overlap and provide

as many questions as answers

about the development of the

city and what it means to be an

Angeleno. The author, a social

and cultural historian who specializes in nineteenth- and early twentieth-century Los Angeles, is well suited to explore the complex history and modern-day relevance of the Los Angeles Plaza. From its indigenous and colonial origins to the present day, Estrada explores the subject from an interdisciplinary and multiethnic perspective, delving into the pages of local newspapers, diaries and letters, and the personal memories of former and present Plaza residents, in order to examine the spatial and social dimensions of the Plaza over an extended period of time. The author contributes to the growing historiography of Los Angeles by providing a groundbreaking analysis of the original core of the city that covers a long span of time, space, and social relations. He examines the impact of change on the lives of ordinary people in a specific place, and how this change reflects the larger story of the city.

Entrepreneur Extraordinary
Anthony Cekota 1968-01-01

This book is a story of a great adventure arising from a business where adventures could be least expected. Although it's hero, the late Tomas Bata, kept his eyes focused sharply on the ground (in the shoe business-he has to) his mind was soaring high in dreams of a mission to make all mankind well shod. How he did it and what his motives and accomplishments were is presented in this biography of the man and his time with considerable detail and first hand knowledge. We see a man, who having run away from home at the age of fourteen to start his own business, was continuously impatient with both time and environment visualizing the opportunities which, although at hand, were never noticed by his competitors during his life. He was man who could visualize such opportunities even in the most difficult situations as indicated from his attitude toward the Great Depression of 1929: "Half of mankind is barefoot and only a fraction of the world's

population is well shod," he said at the time of world-wide unemployment. "Look how little we've done so far and how much work is waiting for all shoemakers every-where in the world." And when the difficulties continued, he growled into their faces in 1930: "I would rather work for nothing than do nothing. Only when you work, can you keep hoping to find a way."

Shoemaker, salesman and organizer of many industries, Tomas Bata was a man among men, changing the simple folk in and around his birthplace into modern industrial workers and managers of business and salesmen resembling a now almost extinct type of man who, in their pursuance of their business, have discovered in former centuries new territories and lifted up the standard of life and living everywhere. Necessity made him a politician to obtain the right to rebuild a whole city, a teacher pioneering new methods of education, a builder who combined building of factories and houses with a

businessman type of social service. However, he was first and always an entrepreneur extraordinary. As such, he attacked every problem with gusto of a prize fighter, and the zeal of a missionary, transferring an ideal into ideas--and these again into plans and actions. Ideal? What ideal and ideas? Some of them can be discerned from the pages of this book, others in the fierce loyalty and performance of the men whom he brought up to spread his message of entrepreneurship to the four corners of the world. In some ways, and perhaps indirectly, a reader could take this book as a challenge. If its hero succeeded in turning a simple business into a real adventure of service and a powerful way of life, why not you? Today's world needs men of Tomas Bata's caliber as much as his world needed them several decades ago, and perhaps nowadays even more. It is this type of man who provides the answers to the crucial questions of our time, i.e., whether our society, enjoying

the good things of life, will survive as a home of free men. This, in the author's concept, is a final message arising from the biography of this extraordinary man, Tomas Bata: "He only earns his freedom and existence who daily conquers them anew."
