Analysis Frank J. Travers 2011-08-31 Praise for Investment Manager Analysis "This is a book that should have been written years ago. It provides a practical, thorough, and completely objective method to analyze and select an investment manager. It takes the mystery (and the consultants) out of the equation. Without question, this book belongs on every Plan Sponsor's desk." —Dave Davenport, Assistant Treasurer, Lord Corporation, author of *The Equity Manager Search* "An insightful compendium of the issues that challenge those responsible for hiring and firing investment managers. Frank Travers does a good job of taking

complicated analytical tools and methodologies and explaining them in a simple, yet practical manner. Anyone responsible for conducting investment manager due diligence should have a copy on their bookshelf." —Leon G. Cooperman, Chairman and CEO, Omega Advisors, Inc. "Investment Manager Analysis provides a good overview of the important areas that purchasers of institutional investment management services need to consider. It is a good instructional guide, from which search policies and procedures can be developed, as well as a handy reference guide." —David Spaulding, President, The Spaulding Group, Inc. "This book is the definitive work on the investment manager selection process. It is comprehensive in scope and well organized for both the layman and the professional. It should be required reading for any organization or individual seeking talent to manage their assets." —Scott Johnston, Chairman and Chief

Investment Officer, Sterling Johnston Capital Management, LP "Investment Manager Analysis is a much-needed, comprehensive review of the manager selection process. While the industry is riddled with information about selecting individual stocks, comparatively little has been written on the important subject of manager selection for fund sponsors. This is a particularly useful guide for the less experienced practitioner and offers considerable value to the veteran decisionmaker as well." —Dennis J. Trittin, CFA, Portfolio Manager, Russell Investment Group Managed Trading Jack D. Schwager 1996-09-06 An in-depth investigation into the increasingly popular investment: managed futures—written by one of the world's leading authorities "Jack Schwager has written the definitive book on managed futures investing. It is exhaustive in coverage, and the analysis is exceptionally rigorous. The writing is

refreshingly candid and sure to provoke discussion on many important topics in the managed futures industry. This book should be required reading for anyone considering investing in managed futures." —Scott Irwin Professor, The Ohio State University "Jack continues to be both an educator and a portfolio manager. Managed Trading is a wonderful book and much needed in the industry. I consider it required reading for investors and financial industry professionals. Finally, a road map which outlines and explores investment issues succinctly." —M. Elaine Crocker President, Moore Capital Management, Inc. "This book is a 'must-read' for anyone thinking of investing in managed futures. Schwager combines the best of academic research on managed futures investments with his own practitioner experience to provide a comprehensive and insightful analysis of the managed futures industry." —Franklin R. Edwards Arthur F. Burns, Professor, Finance

Business School "The futures markets will continue to grow worldwide. You should read Jack Schwager whether you are contemplating such investments or are already investing, or even if you just want to understand what is happening." —Jim Rogers Author, Investment Biker "Schwager puts managed futures in its proper perspective as a portfolio investment, providing the reader a complete and enlightening tour of the managed futures world. His writing style makes for easy reading and his common sense and good judgment shine through as he surveys the academic literature, linking the practical and the theoretical in evaluating these investments. New investors and old hands alike will find this a 'must buy and hold' book." —Mark J. Powers President, Powers & Dubin Asset Allocation and Management Co. Editor, The Journal of Futures Markets
