Problems of Homeless Mentally Ill United States.

Congress. Senate. Committee on Finance. Subcommittee on Health for Families and the Uninsured 1991

Homelessness, Health, and

Human Needs Institute of Medicine 1988-02-01 There have always been homeless people in the United States, but their plight has only recently stirred widespread public reaction and concern. Part of this new recognition stems from the problem's prevalence: the number of homeless individuals, while hard to pin down exactly, is rising. In light of this, Congress asked the Institute of Medicine to find out whether existing health care programs were

ignoring the homeless or delivering care to them inefficiently. This book is the report prepared by a committee of experts who examined these problems through visits to city slums and impoverished rural areas, and through an analysis of papers written by leading scholars in the field.

Homelessness In America

National Coalition for the Homeless (U.S.) 1996-10-07 Jonathan Kozol describes "Homeless in America" as ". . . a valuable collection of

enlightened writings by those who know the challenges and realities first-hand". An authoritative work on a compelling subject, this comprehensive title offers investigative essays on key policy-related issues surrounding homelessness. It also answers hundreds of questions about the magnitude and implications of this complex social issue. Illus. The ... Annual Report of the Interagency Council on the Homeless United States. Evaluating the Impact of Prevention and Early Intervention Activities on the Mental Health of California's Population Katherine E. Watkins 2012-10-09 In 2004, California voters passed the Mental Health Services Act, which was intended to

transform California's community mental health system from a crisis-driven system to one that included a focus on prevention and wellness. The vision was that prevention and early intervention (PEI) services comprised the first step in a continuum of services designed to identify early symptoms and prevent mental illness from becoming severe and disabling. Twenty percent of the act's funding was dedicated to PEI services. The act identified seven negative outcomes that PEI programs were intended to reduce: suicide, mental health-related incarcerations, school failure, unemployment, prolonged suffering, homelessness, and removal of children from the home. The Mental Health Services Oversight and Accountability Commission (MHSOAC) coordinated with the California Mental Health Services Authority (CalMHSA), an independent administrative and fiscal intergovernmental agency, to seek development of a statewide framework for

evaluating and monitoring the short- and long-term impact of PEI funding on the population. CalMHSA selected the RAND Corporation to develop a framework for the statewide evaluation. This report describes the approach, the data sources, and the frameworks developed: an overall approach framework and outcome-specific frameworks.

Homelessness Ann M. Cibulskis 1986

Homelessness Martha R. Burt 2007 Homelessness prevention is an essential element of any effort to end homelessness either locally or nation-wide. To close the front door of entry into homelessness, the central challenge of prevention is targeting our efforts toward those people that will become homeless without the

intervention. This book identifies elements of community homelessness prevention strategies that seem to lead to reductions in the number of people who otherwise would become homeless. The contributing elements include targeting through control of the eligibility screening process; developing community motivation; maximising mainstream and private resources; fostering leadership; and ensuring the availability and structure of data and information used to track progress, improve on prevention efforts, and facilitate outcome-based contracting. Evidence from the six communities studied indicates that those employing the most elements seem to be more successful at prevention and better able to document their achievements. This book also identifies four promising homelessness prevention activities that may be used alone or in combination as part of a coherent community-wide strategy: (1) supportive

services coupled with permanent housing, particularly when combined with effective discharge from institutions, especially mental hospitals; (2) mediation in Housing Courts; (3) cash assistance for rent or mortgage arrears; and (4) rapid exit from shelter. This study provides insight into approaches that will help prevent homelessness. It is an important contribution to our understanding of how to help homeless Americans.

Homelessness Barry V. Coyne 2007 This guide to the literature presents descriptions of books, reports and articles dealing with all aspects of Homelessness including: economic aspects; issues on substance abuse and homelessness; mortality rates; treatment preferences; homeless programs: public opinion; community care; and many more. The book is completely indexed for easy axis.

Homelessness, Housing, and Mental Health Cheryl Forchuk 2011 Some say mental illness is the last great stigma remaining in our communities. This book is a collection of twenty articles written by researchers, scholars, practitioners of nursing, social work, and community health, and survivors of mental illness and homelessness. Each piece speaks to a specific aspect of the linkages among housing/homelessness, poverty, and mental illness.

Mental Health Services, Delivery and Financing Warren T. Vaughan 1976 412 entries to journal articles, books, papers presented, proceedings, and government publications that appeared up to Aug., 1976. Emphasis on the United States. 1893-1992 Rodney Van Whitlock 1994-04-21 This definitive bibliography on homelessness in America from 1893 to the present is the only one that is currently available on the subject. This useful research tool points to 1703 sources in books, articles, and dissertations and provides descriptive annotations for 717

entries. The materials are organized under 11 subject areas: early research, mental health, alcohol and drug abuse, single homeless, health and health care, families and children, legal issues, social and historical perspectives, special populations, programs and services, and housing. Author and subject indexes makes the guide easily accessible for inter-disciplinary use in the fields of sociology, social work, history, psychology, and political science.

Mental Health and Rural America, 1980-1993 Morton O. Wagenfeld 1996-07 A comprehensive single-source book about rural mental health and substance abuse. Provides the latest information and results from research concerning these two topics. Covers: mental disorders in rural areas; alcohol and other drug abuse in rural areas: a review of epidemiologic evidence; mental health service delivery in rural areas: organizational and clinical issues; human resource issues

for rural mental health; the future of mental health and rural America; and a comprehensive annotated resource guide to rural mental health-related information.

American Homelessness

Mary Ellen Hombs 2001-07-23 With 50 percent new material, this third edition breaks this complex topic into key elements, examining the roots of the problem, programs that address it, current research, and public perceptions of homelessness. American

Homelessness covers who the homeless are and why they are in such a situation; important events that have contributed to the problem; and a who's who of homelessness activism including people such as MacArthur Fellow Robert M. Hayes, the former securities lawyer who filed the landmark New York City right-to-shelter case in 1979. It also includes a chronology; facts and statistics; key documents and reports; a discussion of the International Bill of Rights; a directory of organizations, associations, and government agencies; and an annotated bibliography.

Clinical Guide to the Treatment of the Mentally Ill Homeless Person

American Association of Community Psychiatrists 2007-05-03 A case-based, clinical guide applicable to a variety of settings, this book offers evidence-based expert

advice on the difficult challenges inherent in working with underserved homeless populations. The American Association of Community Psychiatrists' Clinical Guide to the Treatment of the Mentally Ill Homeless Person is a concise, practical work that gives busy clinicians the information they need; it not only is more up-to-date than existing publications, but also offers case- and site-based content that provides more hands-on, practical advice. Written by clinicians, for clinicians, it offers approaches to therapy and rehabilitation from the vantage point of the treatment environment, from street to housing and everything in between. The book reflects approaches to the clinical care of homeless people refined over two decades, building not only on the work of academic research but more importantly on the firsthand experience of clinicians. Its organization by treatment setting or specific subpopulation allows readers quick access to the chapters

most relevant to their work.

The first five chapters follow a sequence of naturalistic settings -- such as shelters and the work of Assertive Community Treatment Teams -- that demonstrate a model of engagement, intensive care, and ongoing rehabilitation. Subsequent chapters define specific scenarios that depict patients at various points on the engagement-rehabilitation continuum. Each chapter contains a clinical case example; guides to differential diagnosis, treatment planning, and accessing entitlements; and a flow chart for rehabilitation, including opportunities for student/resident or community involvement. The book emphasizes: A real-world orientation that provides a nuts-and-bolts approach to such cases as families, homeless children, veterans -- even individuals in rural settings. Cases that enable readers to follow the progress of individuals as they progress through the network of care. The importance of Assertive

Community Treatment and "housing first" models of rehabilitation. Data supporting the importance of Critical Time Intervention, particularly with regard to homeless families. Examples of clinical interviewing techniques for engagement and treatment of challenging individuals who are being seen in community settings. These illustrated techniques can be incorporated into educational curricula. This is an indispensable resource for any mental health professional working with homeless populations and is also useful for medical students' clinical rotation in community psychiatric settings. Its examples of clinically engaging the homeless person are equally instructive for teaching interviewing skills to any professionals -- whether in law enforcement, social work, substance abuse treatment, or the clergy -- who encounter these forgotten members of society.
