An Introduction To Scottish Ethnology

Alexander Fenton 2013-08-06 The publication of *An Introduction to Scottish Ethnology* sees the completion of the fourteen-volume *Scottish Life and Society* series, originally conceived by the eminent ethnologist Professor Alexander Fenton. The series explores the many elements in Scottish history, language and culture which have shaped the identity of Scotland and Scots at local, regional and national level, placing these in an international context. Each of the thirteen volumes already published focuses on a particular theme or institution within Scottish society. This introduction provides an overview of the discipline of ethnology as it has developed in Scotland and more widely, the sources and

methods for its study, and practical guidance on the means by which it can be examined within its constituent genres, based on the experience of those currently working with ethnological materials. Theory and practice are presented in an accessible fashion, making it an ideal companion for the student, the scholar and the interested amateur alike.

Middletown Borough David Ira Kagan 2009

Middletown was settled in 1752, when George Fisher arrived from Philadelphia and built a home on the west bank of Swatara Creek.

Named Middletown because it was midway between Lancaster and Carlisle, this oldest town in Dauphin County became incorporated as a borough in 1826. Through the years Middletown became noted for its Wincroft Stove Works, Standard Steel Car Company, Middletown-Royalton Brick Works, and Rough Wear Clothing Company. During World War II, Olmsted Air Force Base added greatly to the town's economy. In 1979, the Three Mile Island nuclear incident assured that Middletown would be known to the rest of the world.

The French in Singapore Maxime Pilon 2011 In 1819, when Sir Stamford Raffles founded Singapore, he was accompanied by two French naturalists. Ever since, French missionaries, merchants, planters and other pioneers have contributed to its economic, educational and cultural development. Discover the colourful stories of personalities, such as J. Casteleyns (who built the first hostelry, the Hotel de l'Europe, in 1857), Father Jean-Marie Beurel (who constructed the Cathedral of the Good Shepherd) and Alfred Clouët (who started the well-known Ayam Brand canned sardines business). Superbly illustrated with

photographs, paintings, sketches, old documents and maps, *The French in Singapore* is an invaluable resource for anyone seeking to discover the little-known history of the French in the Singapore we know today.

Scotland Dennis Smith 1998 Scotland is probably the only sovereign nation to have chosen, in a more or less free vote, to surrender its independence in order to merge with a larger, more powerful, neighbour. For most of the period since the Union of 1707 the Scots were enthusiastic partners with England in creating and administering the British Empire. Inevitably, therefore, the end of empire caused an identity crisis in Scotland. For more than a Century pressure for political home rule produced no tangible result; however, the decisive vote in favour of devolution in the referendum of September 1997 means that a restored Scottish Parliament is now likely to be in place by the millennium. Irrespective of political developments, the last two decades have seen a renaissance in Scottish culture and historiography. This bibliography fully reflects the wealth of new developments in Scottish life and culture over the past twenty years and the new vibrancy of Scottish publishing.

Crescendo of the Virtuoso Paul Metzner 2018-09-25 During the Age of Revolution, Paris came alive with wildly popular virtuoso performances. Whether the performers were musicians or chefs, chess players or detectives, these virtuosos transformed their technical skills into dramatic spectacles, presenting the marvelous and the outré for spellbound audiences. Who these characters were, how they attained their fame, and why Paris became the focal point of their activities is the subject of Paul Metzner's absorbing study. Covering the years 1775 to 1850, Metzner describes the careers of a handful of virtuosos: chess masters who played several games at once; a chef who sculpted hundreds of four-foot-tall architectural fantasies in sugar; the first police detective, whose memoirs inspired the invention of the detective story; a violinist who played whole pieces on a single string. He examines these virtuosos as a group in the context of the society that was then the capital of Western civilization.

Beyond the Lines Joshua Brown 2023-04-28 In this wonderfully illustrated book, Joshua Brown shows that the wood engravings in the illustrated newspapers of Gilded Age America were more than a quaint predecessor to our own sophisticated media. As he tells the history and traces the influence of Frank Leslie's *Illustrated Newspaper*, with relevant asides to *Harper's Weekly*, the *New York Daily Graphic*, and others, Brown recaptures the complexity and richness of pictorial reporting. He finds these images to be significant barometers for gauging how the general public perceived pivotal events and crises—the Civil War, Reconstruction, important labor battles, and more. This book is the best available source on the pictorial riches of Frank Leslie's newspaper and the only study to situate these images fully within the social context of Gilded Age America. *Beyond the Lines* illuminates the role of illustration in nineteenth-century America and gives us a new look at how the social milieu shaped the practice of illustrated journalism and was in turn shaped by it.

Perceptions of the Press in Nineteenth-Century British Periodicals E. M. Palmegiano

2013-10-15 This annotated bibliography of nineteenth-century British periodicals, complete with a detailed subject index, reveals how Victorian commentaries on journalism shaped the discourse on the origins and contemporary character of the domestic, imperial and foreign press. Drawn from a wide range of publications representing diverse political, economic, religious, social and literary views, this book contains over 4,500 entries, and features extracts from over forty nineteenth-century periodicals. The articles cataloged offer a thorough and influential analysis of their journalistic milieu, presenting statistics on sales and descriptions of advertising, passing judgment on space allocations, pinpointing different readerships, and identifying individuals who engaged with the press either exclusively or occasionally. Most importantly, the bibliography demonstrates that columnists routinely articulated ideas about the purpose of the press, yet rarely recognized the illogic of prioritizing public good and private profit simultaneously, thus highlighting implicitly a universal characteristic of journalism: its fractious, ambiguous, conflicting behavior.
