

First In His Class The Biography Of Bill Clinton 16 Cassettes

Bill Clinton Michael Schuman 1999 Although he still awaits the judgment of time and historians, Bill Clinton will surely rank as one of America's most controversial leaders. Despite being rocked by scandal, Clinton managed to balance the federal budget, push for welfare and healthcare reforms, and maintain a high popularity rating among the people. Author Michael A. Schuman examines the president's dramatic rise to the top, as well as the strengths and flaws of his character.

Bill Clinton Gini Holland 1997 Introduces the life and accomplishments of the Democrat who was elected president to two successive terms, 1992 and 1996.

My Life: The Early Years Bill Clinton 2005-05-31 #1 New York Times Bestseller President Bill Clinton's My Life is the strikingly candid portrait of a global leader who decided early in life to devote his intellectual and political gifts, and his extraordinary capacity for hard work, to serving the public. My Life: The Early Years (Volume I) shows us the progress of a remarkable American, who, through his own enormous energies and efforts - fueled by an impassioned interest in the political process - made the unlikely journey from his birth in hope Arkansas, to his election as the 42nd President of the United States. Also available - My Life: The Presential Years (Volume II)

Bill Clinton Carol Greene 1995 Highlights the life and the political career of President Clinton.

Bill and Hillary William H. Chafe 2012-09-04 In *Bill and Hillary: The Politics of the Personal*, the distinguished historian William H. Chafe boldly argues that the trajectory of the Clintons' political lives can be understood only through the prism of their personal relationship. Each experienced a difficult childhood. Bill had an abusive stepfather, and his mother was in denial about the family's pathology. He believed that his success as a public servant would redeem the family. Hillary grew up with an autocratic father and a self-sacrificing mother whose most important lesson for her daughter was the necessity of family togetherness. As an adolescent, Hillary's encounter with her youth minister helped set her moral compass on issues of race and social justice. From the day they first met at Yale Law School, Bill and Hillary were inseparable, even though their relationship was inherently volatile. The personal dynamic between them would go on to determine their political fates. Hillary was instrumental in Bill's triumphs as Arkansas's governor and saved his presidential candidacy in 1992 by standing with him during the Gennifer Flowers sex scandal. He responded by delegating to her powers that no other First Lady had ever exercised. Always tempestuous, their relationship had as many lows as it did highs, from near divorce to stunning electoral and political successes. Chafe's many insights—into subjects such as health care, Kenneth Starr, welfare reform, and the extent to which the Lewinsky scandal finally freed Hillary to become a politician in her own right and return to the consensus reformer she had been in college and law school—add texture and depth to our understanding of the Clintons' experience together. The latest book from one of our preeminent historians, *Bill and Hillary* is the definitive account of the Clintons' relationship and its far-reaching impact on American political life.

Tag Teaming the Press James E. Mueller 2008-06-27 *Tag Teaming the Press*, James Mueller's lively account of the evolution of the press relations of Bill and Hillary Clinton, begins with the couple's earliest student political activism in the sixties and continues through Hillary's run for the White House in 2008. Based largely on interviews with the journalists who covered them, the book explains how the most powerful political couple in America learned to handle the media—an indispensable skill for the twenty-first century politician. Mueller shows that the Clintons honed that skill through years of interacting with journalists, as campaign workers, as candidates, and as candidates' spouses. He also makes clear that it is the latter category that makes the Clintons unique among American political couples. At various times in their more than 30 years in politics, Bill and Hillary have fulfilled a number of roles for each other in dealing with reporters, including lightning rod, bad cop, good cop, and schmoozer. Mueller examines each of these roles and discusses how the Clintons played them—sometimes winning, sometimes losing, but always well worth watching. Written in an engaging style but based on thorough research, *Tag Teaming the Press* is a valuable resource for students of media and politics and an informative read for anyone who cares about American democracy and the role the press plays in it.

Our President, Bill Clinton Shelley Bedik 1997 A brief biography of the forty-second president of the United States, highlighting his political life and his successful 1992 and 1996 campaigns.

Bill Clinton's Pre-presidential Career 1994-05-19 Provides sources of information on Bill Clinton's career from his first bid for public office to the eve of his inauguration as president of the United States.

Reckoning Linda Hirshman 2019 The first history—incisive, witty, fascinating—of the fight against sexual harassment, from the author of the New York Times bestseller *Sisters in Law* Linda Hirshman, acclaimed historian of social movements, delivers the sweeping story of the struggle leading up to #MeToo and beyond: from the first tales of workplace harassment percolating to the surface in the 1970s, to the Clinton/Lewinsky scandal—when liberal women largely forgave Clinton, giving men a free pass for two decades. Many liberals even resisted the movement to end rape on campus. And yet, legal, political, and cultural efforts, often spearheaded by women of color, were quietly paving the way for the takedown of abusers and harassers. *Reckoning* delivers the stirring tale of a movement catching fire as pioneering women in the media exposed the Harvey Weinstens of the world, women flooded the political landscape, and the walls of male privilege finally began to crack. This is revelatory, essential social history.

Bill and Hillary Clinton Jeff Mapua 2014-07-15 Few political figures are as polarizing as Bill and Hillary Clinton. This power couple has generated fiercely mixed reactions since their first appearance on the political stage. A new Clinton era may be dawning, as Hillary again tests the waters for a presidential bid. Uncovering all the layers of myth, rumor, spin, and talk-radio takedowns, this examination is clear-eyed and calm, objectively reviewing the origins, rise, near fall, and reemergence of the world's most influential couple. It is a fascinating tale of hard work, ambition, idealism and calculation, political might and human weakness and, ultimately, the enduring strength of family.

The Comeback Kid Charles Flynn Allen 1992 Reveals the character and accomplishments of Clinton, based on four years of research and interviews.

Bill Clinton Robert Cwiklik 1997 Chronicles the life of Bill Clinton from his childhood in Arkansas to his governorship of that state and his first term as president of the United States, including highlights from the 1996 presidential campaign.

Clinton's Elections Michael Nelson 2020-02-21 In the presidential elections of 1980, 1984, and 1988, the three Democratic nominees won an average of about 10 percent of the Electoral College vote—a smaller share than any party in any three consecutive presidential elections in US history. In the next seven elections, Democrats won the popular vote in all but one (2004), a feat not achieved by a political party since the Democratic Party's inception in the 1820s. What separated these record-setting runs was the election and presidency of Bill Clinton, whose pivotal role in ushering in a new era of American politics—for better and for worse—this book explores. Perhaps because Clinton's presidency was hobbled by six years of divided government, ended in a sex scandal and impeachment, and was sandwiched between Republican administrations, it is easy to forget that he revived a presidential party that had become nearly moribund. In *Clinton's Elections* Michael Nelson describes how, by tacking relentlessly to the center, Clinton revived the Democrats' presidential fortunes—but also, paradoxically, effectively erased the center, in the process introducing the new political reality of extreme partisan divisiveness and dysfunctional government. Tracing Clinton's place in American politics from his emergence as a potential nominee in 1988 to his role in political campaigns right up to 2016, Nelson draws a deft portrait of a savvy politician operating in the midst of divided government and making strategic moves to consolidate power and secure future victories. With its absorbing narrative and incisive analysis, his book makes sense of a watershed in the modern American political landscape—and lays bare the roots of our current era of political dysfunction.

Bill Clinton: Great expectations 2003

Hillary Clinton Michael Woodford 2017-08-22 *HILLARY CLINTON: The Almost President - A Biography of Hillary Clinton* For the better part of three decades, Hillary Clinton has been a name to take heed of. Initially, the people of the United States knew her as the sharp, attractive wife of sharp, attractive Bill Clinton as he ran for president in 1992. We all remember her as the embattled first lady when she became the center of

one of the United State's worst presidential scandals. But, that's not the full view available when it comes to Hillary Clinton. There is so much to unpack and digest--it feels silly that the world-at-large sees her as this stock figure. In reality, she is very much like the rest of us. She has flaws, misgivings, and deceits. However, she may be one of the most powerful women of all time. You could say the rest of it just comes with the job. In 2008, when she ran for president opposite Barack Obama, she gathered the most votes for a woman in a primary...ever. Clinton, as we all know, lost that battle to the eventual two-term president. However, she took on the prestigious role of Secretary of State and served honorably for many years. Fresh in the minds of everyone, however, must be the 2016 election. This time, Clinton came into the race as an undisputed front-runner. She was eventually opposed by Bernie Sanders in one of the more divisive primary cycles to date for the Democrats. However, by the time Summer 2016 rolled around, she had become the first woman to ever be nominated to run for president by a major American political party (read: Republicans or Democrats). However, she lost the scandal-plagued presidential election to a very unpopular presidential candidate and she has now decided to become simply, "an activist citizen". Hers is a tale of democracy, triumph, and plenty of tragedy. However, there are lessons to be learned at every turn. No one has looked so squarely into the maw of politics and been turned away quite so extravagantly--save, maybe, the inimitable William Jennings Bryan. But, with any good politician (or bad, if you so choose) the best way to really surmise their impact is to look at their record before it became obscured by black limos and secret service members. This biography looks at the life, career and times of Hillary Clinton, America's Almost-President, to uncover the driving forces that make here nonetheless one of the most important icons of the 21st century.

Hillary Rodham Clinton Gil Troy 2006 Chronicles the life of former first lady Hillary Rodham Clinton, focusing on her activities during the ten years leading up to her national prominence and her influence on her husband's presidential administration.

Bill Clinton: An American Journey Nigel Hamilton 2003-09-30 Bill Clinton, forty-second president of the United States, is the quintessential baby boomer: on the one hand blessed with a near-genius IQ, on the other, beset by character flaws that made his presidency a veritable soap opera of high ideals, distressing incompetence, model financial stewardship, and domestic misbehavior. In an era of cultural civil war, the Clinton administration fed the public an almost daily diet of scandal and misfortune. Who is Bill Clinton, though, and how did this baby-boom saga begin? Clinton's upbringing in Arkansas and his student years at Georgetown, Oxford, and Yale universities help us to see his life not only as a personal story but as the story of modern America. Behind the closed doors of the house on the hill above Park Avenue in Hot Springs, the struggle between Clinton's stepfather and mother became ultimately unbearable, causing Virginia to move out and divorce Roger Clinton. Dreading confrontation, Bill Clinton excelled in almost every field save athletics. But the fabled success of the scholarship boy would be marred by the decisions he came to make regarding Vietnam and military service—choices that haunt him to this day. We watch with a mixture of alarm, fascination, and awe as Bill Clinton does so much that is right—and so much that is wrong. He sets his cap for the star student at Yale, young Hillary Rodham, seducing her with his dreams of a better America and an aw-shucks grin. Wherever he goes, he charms and disarms—young and old, men and women...and more women. He becomes a law professor straight out of college; he contests a congressional election in his twenties—and almost wins it. He becomes attorney general of his state and within two years is set to become the youngest-ever governor of Arkansas, at only thirty-two. Yet, always, there is a curse, a drive toward personal self-destruction—and with that the destruction of all those who are helping him on his legendary path. His affair with Gennifer Flowers strains his marriage and later nearly scuttles his bid for the presidency. He is thrown out of the governor's office after only one term and suffers a life-shaking crisis of confidence. Though with the stalwart help of a female chief of staff he regains his crown, it is clear that Bill Clinton's charismatic career is a ceaseless tightrope walk above the forces that threaten to pull him down—the most potent of them residing in his own being. Imbued with sympathy, deep intelligence, and the storyteller's art, this extraordinary biography helps us, at last, to understand the real Bill Clinton as he stumbles and withdraws from the 1988 presidential nomination race but enters it four years later, to make one of the most astonishing bids for the presidency in the twentieth century: the climax of this gripping political, social, and scandalous journey.

First In His Class David Maraniss 2008-06-30 Who exactly is Bill Clinton, and why was he, of all the brilliant and ambitious men in his generation, the first in his class to reach the White House? Drawing on hundreds of letters, documents, and interviews, David Maraniss explores the evolution of the personality of our forty-second president from his youth in Arkansas to his 1991 announcement that he would run for the nation's highest office. In this richly textured and balanced biography, Maraniss reveals a complex man full of great flaws and great talents. *First In His Class* is the definitive book on Bill Clinton.

Bill Clinton: 42nd U.S. President Joeming Dunn 2011-09-01 Graphic Planet is bringing the Presidents of the United States to BioGraphics! World-class art presents young readers a pictorial chronology of Bill Clinton's life, background on his campaign to be president, major influences on the country, and his influence on history. A timeline, Fast Facts, the president's cabinet, and a glossary provide report information for young readers. Bring the Oval Office to your classroom!

The Clintons Charles River Charles River Editors 2018-02-09 *Covers the remarkable lives of the Clintons in one educational and entertaining narrative. *Includes pictures of Bill, Hillary, and other important people, places, and events in their lives. "Sometime in my sixteenth year, I decided I wanted to be in public life as an elected official. I loved music and thought I could be very good, but I knew I would never be John Coltrane or Stan Getz. I was interested in medicine and thought I could be a fine doctor, but I knew I would never be Michael DeBakey. But I knew I could be great in public service." - Bill Clinton "I suppose I could have stayed home and baked cookies and had teas, but what I decided to do was to fulfill my profession which I entered before my husband was in public life." - Hillary Clinton It would be impossible to sum up the life and legacy of Bill Clinton in one sentence or even one paragraph, as the former president represents many different things to many different people. Indeed, the yin and yang of Clinton's life and career are inescapable. Widely hailed as the greatest politician of his era, Clinton proved to be his own worst enemy, creating unnecessary scandals through his womanizing. Clinton was one of the first politicians to truly connect with young adults, yet in the process he provided ludicrous soundbytes like "I did not inhale." Long considered the Democratic Party's greatest spokesman and surrogate, Clinton's presidency was defined by centrist "triangulation." And though he is still publicly popular and considered a great president, Clinton became just the second president to be impeached in the House of Representatives. Regardless of what Americans think of him, one thing Clinton does represent is the American Dream. Born to a single mother in Hope, Arkansas, Clinton used his ambition, hard work and intelligence to become a Rhodes scholar. As a teenager, a meeting with President Kennedy helped drive him toward politics, which he pursued after getting his law degree at Yale, where he met future wife Hillary Rodham. During the presidential campaign in 1992, Democratic challenger Bill Clinton announced that by voting for him, Americans would get two presidents "for the price of one." The reference to his wife Hillary signified that she would be no ordinary First Lady, and indeed she was employed frequently by her husband in the White House to try to push legislation through Congress, most notably universal healthcare. While that proved to be one of the Clinton Administration's greatest failures, Hillary and her staff continued to act as a political surrogate for the president during his two terms. Of course, describing Hillary Clinton as just a First Lady belittles all of her accomplishments. Today she is the most powerful woman in the world and one of the most recognizable, working so seamlessly with her former rival Barack Obama that her popularity has easily eclipsed his within a year of his victory over her in the Democratic primaries. In addition to the stirring Democratic primaries of 2008, Hillary was a U.S. Senator from New York for nearly 8 years before becoming Obama's Secretary of State. Recognized as one of the sharpest minds in Washington and a complete policy wonk, Hillary has been one of the few bright spots in Obama's Cabinet during his first term. The Clintons looks at the amazing lives and careers of America's most powerful political couple, including their unprecedented highs and their notorious controversies, but it also humanizes the duo who have overcome considerable personal and political hurdles along the way. Along with pictures of important people, places, and events in her life, you will learn about Bill and Hillary Clinton like you never have before, in no time at all.

Hillary Rodham Clinton Joanne Mattern 2007-08-15 This book introduces young readers to the life of Hillary Clinton, beginning with her childhood outside of Chicago, Illinois, and her years at Wellesley College and Yale Law School. Readers will become familiar with her determination as they learn about her career as a lawyer, her service on

the Richard Nixon impeachment inquiry committee, her marriage to Bill Clinton, and her life in Arkansas. Details of Mrs. Clinton's time as First Lady, including her advocacy for children and healthcare, as well as her current term as New York senator and candidate for the 2008 presidential election are also discussed. Informative sidebars and full-color photos accompany easy-to-read, engaging text. Includes timeline, fun facts, index, and glossary.

Bill Clinton Nigel Hamilton 2007-07-10 A decade-and-a-half after President William Jefferson Clinton first took the oath of office, biographer Nigel Hamilton tells the riveting story of what was possibly the greatest self-reinvention of a president in office in modern times. The Clinton presidency began disastrously -- kicking off with the worst transition in living memory and deteriorating through a series of fiascos, from gays in the military to Hillary Clinton's failed health care reform. How Bill Clinton faced up to his failures and refashioned himself in the White House thereafter is an epic, hitherto unwritten story -- a story that climaxes with the trouncing of Bob Dole in the landslide presidential election in 1996. Clinton began his second term as the undisputed and tremendously popular leader of the Western world. In vivid prose, Hamilton charts Clinton's dramatic reversal of fortune and his ultimate triumph over himself -- and his foes. *Bill Clinton: Mastering the Presidency* is a riveting narrative of American politics, an incisive character portrait, and powerful reminder of what a great president can accomplish.

BILL CLINTON KAREN HEATH. CLARK 2018

Bill Clinton Michael Tomasky 2017-01-24 The president of larger-than-life ambitions and appetites whose term defined America at the close of the twentieth century Bill Clinton: a president of contradictions. He was a Rhodes Scholar and a Yale Law School graduate, but he was also a fatherless child from rural Arkansas. He was one of the most talented politicians of his age, but he inspired enmity of such intensity that his opponents would stop at nothing to destroy him. He was the first Democrat since Franklin Roosevelt to win two successive presidential elections, but he was also the first president since Andrew Johnson to be impeached. In this incisive biography of America's forty-second president, Michael Tomasky examines Clinton's eight years in office, a time often described as one of peace and prosperity, but in reality a time of social and political upheaval, as the culture wars grew ever more intense amid the rise of the Internet (and with it, online journalism and blogging); military actions in Somalia, Iraq, Bosnia, and Kosovo; standoffs at Waco and Ruby Ridge; domestic terrorism in Oklahoma City; and the rise of al-Qaeda. It was a time when Republicans took control of Congress and a land deal gone bad turned into a constitutional crisis, as lurid details of a sitting president's sexual activities became the focus of public debate. Tomasky's clear-eyed assessment of Clinton's presidency offers a new perspective on what happened, what it all meant, and what aspects continue to define American politics to this day. In many ways, we are still living in the Age of Clinton.

Bill Clinton Elaine Landau 1993-01-01 Details the life of Bill Clinton, from his formative years to his tenure as governor of Arkansas, and focuses on his 1992 presidential campaign.

The Clinton Tapes Taylor Branch 2010-09 The Clinton Tapes was a secret project, initiated by Clinton, to preserve for future historians an unfiltered record of presidential experience. During his eight years in office, Clinton met with Taylor Branch in the White House, usually late at night, to answer questions and tell stories. Branch recorded seventy-nine of their dialogues to compile a trove of raw information about a presidency as it happened. Branch then recorded his own detailed recollections immediately after each session, covering not only the subjects discussed but also the look and feel of each evening with the president. Their discussions were unpredictable, intense, and candid. At any given moment the president could leap from memories to a current crisis or problems with his daughter's homework. The resultant text captures Clinton from many angles. Branch's firsthand narrative is confessional, unsparing, and personal. What should an objective prompter say when the President of the United States seeks advice, argues facts, or lodges complaints against the press? The relationship that emerges from these interviews is dynamic, both affectionate and charged, with flashes of anger and humor. President Clinton drives the history, but this story is also about two friends.

Presidents Who Shaped the American West Glenda Riley 2018-02-08 Generations of Americans have seen the West as beyond federal control and direction. But the national government's presence in the West dates to before Lewis and Clark, and since 1789 a number of U.S. presidents have had a penetrating and long-lasting impact on the region. In

Presidents Who Shaped the American West, noted historians Glenda Riley and Richard W. Etulain present startling analyses of chief executives and their policies, illuminating the long reach of presidential power. The authors begin each chapter by sketching a particular president's biography and explaining the political context in which he operated while in office. They then consider overarching actions and policies that affected both the nation and the region during the president's administration, such as Thomas Jefferson's augmentation of the West via the Louisiana Purchase, and Andrew Jackson's removal of American Indians from the Southeast to "Indian Country" in the West. Abraham Lincoln's promotion of the Homestead Act, a transcontinental railroad, and western territories and states free of slavery marked further extensions of presidential power in the region. Theodore Roosevelt's conservation efforts and Jimmy Carter's expansion of earlier policies reflected growing public concern with the West's finite natural resources and fragile natural environment. Franklin D. Roosevelt's New Deal, Dwight D. Eisenhower's highway program, and Lyndon B. Johnson's Great Society funneled federal funding into the West. In return for this largesse, some argued, the West paid the price of increased federal hegemony, and Ronald Reagan's presidency arguably curbed that power. Riley and Etulain also discuss the most recent presidential terms and the region's growing political power in Congress and the federal bureaucracy. With an accessible approach, *Presidents Who Shaped the American West* establishes the crucial and formative nature of the relationship between the White House and the West—and will encourage readers to continue examining this relationship.

William J. Clinton Ann Gaines 2001-08 From our nation's founding to the current presidency of George W. Bush, the *Our Presidents* series offers an unparalleled education in American democracy. Each of these forty-two books is as unique as the man it portrays, featuring personal recollections of his childhood and explaining how crucial decisions made history. This collection is a complete library of all the presidents—not just familiar leaders—for middle and upper elementary students and will help foster pride, patriotism, and in-depth knowledge of American history.

Boy Clinton R. Emmett Tyrrell, Jr. 1996-07-01 An unflattering biography describes Bill Clinton's influences as a child, the politicians who were his mentors in Arkansas, and his alleged personal wrong-doings while in the White House

Hillary Rodham Clinton Donnie Radcliffe 2009-09-26 Covering all aspects of America's controversial former President's wife, this comprehensive biography offers an unprecedented view of our first baby boomer First Lady, and provides a better understanding of lawyer, board member, and commission member Hillary Clinton.

First in His Class David Maraniss 1995-02 Who exactly is Bill Clinton, and why was he, of all the brilliant and ambitious men in his generation, the first in his class to reach the White House? Drawing on hundreds of letters, documents, and interviews, David Maraniss explores the evolution of the personality of our forty-second president from his youth in Arkansas to his 1991 announcement that he would run for the nation's highest office. In this richly textured and balanced biography, Maraniss reveals a complex man full of great flaws and great talents. "First in His Class" is the definitive book on Bill Clinton.

The Clinton Crack-Up R. Emmett Tyrrell 2007-03-18 With his characteristic investigative eye and Menckenesque prose, R. Emmett Tyrrell Jr. sheds new light on Bill Clinton's post-presidential emotional depression, globe trotting and international deal-making, financial ties to China and the United Arab Emirates, ongoing womanizing, vital support role in Hillary Clinton's anticipated run for the White House, and possible role as America's first "First Man."

Clinton Confidential George Carpozi 1995 Veteran newspaperman and author George Carpozi holds that Bill Clinton lusted after the presidency at an early age. Every move he made seemed to be part of a cunning strategy to attain his ultimate tenancy of the White House. This is an astonishingly frank analysis of our 42nd president and his wife. Photos.

A Complicated Man Michael Takiff 2010-10-19 "An astonishing collection of 171 interviews with Clinton's friends, foes, admirers, and detractors as well as reporters and political analysts."—Booklist (starred review). Though Bill Clinton has been out of office since 2001, public fascination with him continues unabated. Many books about Clinton have been published in recent years, but shockingly, no single-volume biography covers the full scope of Clinton's life from the cradle to the present day, not even Clinton's own account, *My Life*. More troubling still, books on Clinton have tended to be highly polarized, casting the former president in an overly positive or negative light. In this, the first complete oral history of Clinton's life, historian Michael Takiff presents

the first truly balanced book on one of our nation's most controversial and fascinating presidents. Through more than 150 chronologically arranged interviews with key figures—including Bob Dole, James Carville, and Tom Brokaw, among many others—*A Complicated Man* goes far beyond the well-worn party-line territory to capture the larger-than-life essence of Clinton the man. With the tremendous attention given to the Lewinsky scandal, it is easy to overlook the president's humble upbringing, as well as his many achievements at home and abroad: the longest economic boom in American history, a balanced budget, successful intervention in the Balkans, and a series of landmark, if controversial, free-trade agreements. Through the candid recollections of Takiff's many subjects, *A Complicated Man* leaves no area unexplored, revealing the most complete and unexpected portrait of our forty-second president published to date. "Packed with fascinating personal perspective and testimony."—Nigel Hamilton, bestselling and award-winning author of *American Caesars*

[The Clinton Tapes](#) Taylor Branch 2009-09-29 Former President Bill Clinton speaks intimately over seven years to his long-time friend, a Pulitzer Prize-winning historian, about what it's like to be president. Providing illuminating commentaries on major issues, these conversations depict Clinton as a principled man with a restless intellect. b&w photographs.

[The Clinton Enigma](#) David Maraniss 1999-01-08 Pulitzer Prize-winning journalist David Maraniss, regarded by his peers as the nation's leading expert on Bill Clinton, sat in a darkened television studio in New York on the night of August 17 and watched the president deliver his curious apologia confessing that he had misled the nation about his relationship with Monica Lewinsky. As Maraniss, the author of *First in His Class*, the highly acclaimed Clinton biography, listened to the president's words that night, it struck him that he had heard them all before, though never in one speech, and that in those four and a half minutes Clinton had revealed all the contradictory qualities of his tumultuous life and political career. In this insightful new book, drawing from the biography and his writings for *The Washington Post*, Maraniss dissects the speech as a revelation of the president's entire life. Alternately reckless and cautious, righteous and repentant, evasive and forgetful, relying on family and friends to protect him, affirming his faith in God and then turning to polls to tell him what the public would tolerate, communicating with the public over the heads of pundits and professionals, transforming his personal trauma into a political cause by attacking his and his wife's enemies, asking us all to put his troubles behind us, Clinton combined all his weaknesses and strengths in that one brief address. In the first section of *The Clinton Enigma*, Maraniss reflects as a biographer on his curious but revealing dealings with Clinton over the years. Then, after Clinton has spoken, Maraniss dissects the words and interprets the deeper meaning paragraph by paragraph, to show the roots and echoes from the president's past and to explain why Clinton acts and speaks as he does. With Bill Clinton, Maraniss writes, past is always prologue.

[Bill Clinton](#) BreAnn Rumsch 2020-08-01 This biography introduces readers to Bill Clinton including his early political career and key events from Clinton's administration including the North American Free Trade Agreement, 2000 Camp David Summit, and his impeachment by the House of Representatives. Information about his childhood, family, personal life, and retirement years is included. A timeline, fast facts, and sidebars provide additional information. Aligned to Common Core Standards and correlated to state standards. Checkerboard Library is an imprint of Abdo Publishing, a division of ABDO.

[The Presidency of Bill Clinton](#) Mark White 2012-05-15 The presidency of Bill Clinton has an intrinsic historical significance: a marker of generational change, as he was the first 'baby boomer' to reach the White House; the first president whose personal life received no less attention than his policies; and the first elected Democrat President to win re-election since Franklin Roosevelt. This book provides wide-ranging coverage of Clinton's career, addressing the salient aspects of Clinton's life in politics: his governorship; the 1992 presidential campaign; the battle for health care reform; his economic policies; the issue of character, including the Monica Lewinsky scandal; his foreign policy - specifically his role in the peace process in Northern Ireland and in authorizing an aerial war in Kosovo; his handling of the issue of gay rights; and his relationship with the Hollywood film industry. Based on the latest research, this volume provides important new perspectives on Clinton's life in politics. It will be essential reading for anyone interested in American History, Politics and International Relations.

[American Voices](#) Bernard K. Duffy 2005-08-30 Contemporary public speaking remains an important part of our national life and a substantial

force in shaping current events. Many of America's most important moments and issues, such as wars, scandals, election campaigns, September 11, 2001, have been defined by oratory. Here, over 50 essays cover a substantial and interesting group of major American social, political, economic, and cultural figures from the 1960s to the present. Each entry explains the biographical forces that shaped a speaker and his or her rhetorical approach, focuses mainly on a discussion of the orator's major speeches within the context of historical events, and concludes with an appraisal of the speaker and his or her contribution to American political and social life. All entries incorporate chronologies of major speeches, bibliographies including primary sources, biographies, and critical studies and archival collections or Web sites appropriate for student research. Entries include high profile individuals such as: John D. Ashcroft, Elizabeth Dole, Jerry Falwell, Anita Hill, Ralph Nader, Ronald Reagan, Janet Reno, Gloria Steinem, Malcolm X; and many others. Excerpts of major speeches and sidebars complement the text. Ideal for researchers and students in public speaking classes, American history classes, American politics classes, contemporary public address classes, and rhetorical theory/criticism classes.

Words on Cassette 1999
