Using WordPerfect 6.0 for DOS Verlene

Leeburg 1994 This comprehensive software application tutorial introduces WordPerfect 6.0 for DOS word processing software for the IBM family of computers. It is intended for those at beginning to intermediate skill levels. The work can fit either a full semester course or the lab portion of an introduction to computers course. Each lesson begins with objectives, defines word processing functions and displays keystrokes and menu commands. The text's step-by-step instruction and screen displays aid student progress. A student data disk (3.5 ins IBM) and packaged with the instructor's manual allows students to complete the exercises without having to enter the data first.
