**The First 20 Hours** Josh Kaufman 2013-06-13 Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In The First 20 Hours, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, The First 20 Hours will help you pick up the basics of any skill in record time . . . and

have more fun along the way.

**Tough Things First: Leadership Lessons from Silicon Valley's Longest Serving CEO** Ray Zinn 2015-11-06 Silicon Valley pioneer Ray Zinn, CEO of top microchip company Micrel for 37 years, shows entrepreneurs and executives how to lead and succeed by tackling the Tough Things First In high school, Ray Zinn's track coach told him he was too short to run the hurdles. Ray took this as a challenge and, after months of hard training, became the fastest hurdler on the team. That drive and self-discipline is, to Zinn, the essence of the entrepreneurial spirit. It's what pushed him to achieve the impossible, founding a Silicon Valley microchip company—without venture capital—and turning it into a global empire with an enviable 37-year track record as CEO. Tough Things First, the distillation of Ray Zinn's astonishing career as CEO of Micrel, is a comprehensive head-to-toe training program for entrepreneurs and leaders—based on hard-won lessons in business and in life. Zinn's tough-love approach gives you the guidance you need to:

- Find your vision, set your goals, and make them happen
- Build your business like you'd train your body: with heart, soul, mind, and passion
- Master the psychological disciplines that will sharpen your focus and drive
- Create a corporate culture that engages employees and inspires confidence
- Put people first and push them to achieve their personal best
- Tackle the tough jobs today—and ensure your success tomorrow

Zinn tells you what it takes to succeed in a world where markets are constantly changing, new technologies are emerging, and small startups are going head to head with industry giants. He shows you how to be a good leader and what you can do to make yourself even better. He reveals why discipline is the first and most important step—for the entrepreneur and the organization—and why people are your single most valuable resource. He offers practical, no-nonsense advice on processes and procedures, finances and growth creation, changing markets and new technology. But that's not all. The key to your success, Zinn explains, lies in your mind, your body, your vision, and your heart. This book shows you how to develop these interconnected skills, how to integrate them into your life and work, and how to handle the tough things first. As the trailblazing founder and CEO of Micrel, Inc., one of the world's leading microchip companies, Ray Zinn bootstrapped his company, achieved consistent profitability, and delivered a total equity value of more than \$800 million at its acquisition. In 37 years of leading this publicly traded microchip empire, he saw it through the dot-com bust and Great Recession—with only one unprofitable year—relying on his discipline as a leader, passion as an inventor, and training as an athlete. In 2015, Zinn stepped down as Micrel's CEO and is in the process of launching a Silicon Valley accelerator that will help business visionaries build profitable, enduring companies.

"My hope is that you will find something of value in the experiences and reflections I share with you on these pages and, more important, that they will help you realize how much there is of value in you ... "I am dedicating these pages to some very important people in my life, my teachers. I gave them ulcers. They gave me love. They taught me never, never to give up on anybody, including myself. I can never repay them. All I can do is strive to honor them by passing along to others the help and encouragement they gave me".

**The Nightmare Feast** Andrew Klavan 2020-03-03 "As screenwriter Austin Lively plunges back and forth between two dark, strange places—the fantasy kingdom of Galiana and the weirdness of contemporary Los Angeles—I turned the pages faster, faster, with growing delight. Scary, suspenseful, funny, wonderfully imaginative, *Another Kingdom* is pure, unadulterated fun." — Dean Koontz, #1 New York Times Bestselling author "This is a journey you won't want to miss." Gregg Hurwitz, New York Times Bestselling author of the Orphan X series Austin Lively, once just an out-of-luck Hollywood screenwriter, is now a chosen hero

caught between two worlds and dual quests in both Los Angeles, California, and the magical medieval world of Galiana. Tasked with taking a talisman across the Eleven Lands to restore the rightful queen to her throne, Austin must evade a murderous, vengeance-seeking wizard who seems to have the Eleven Lands under his control. But just how far does his influence reach, and how can Austin defeat him if the wizard also has access to his darkest memories? Austin's only hope is to find a missing manuscript by the title, *Another Kingdom*, but his sister Riley, the one person who may hold the key has gone missing too. With a deranged billionaire set on creating a "utopia" of anarchy and death also on the hunt for the manuscript, Austin must get to Riley before the billionaire's assassins. Trapped in a house of horrors in one world and a game of cat and mouse in the other, time is running out in both of Austin's realities as he struggles to piece together the clues and find *Another Kingdom*. With higher stakes, darker secrets, and bigger monsters, there is no going back for Austin Lively and no guarantee he will escape the nightmare feast.

First Things First Tom Iselin 2011-06 All proceeds (100%) from the sale of First Things First go to hunger relief organizations, and organizations that rehabilitate wounded veterans. To see a list of these organizations, or to buy hardcopies of First Things First, visit: [www.tomiselin.com](http://www.tomiselin.com). Lined with bold messages and practical advice, First Things First (Pelican Lake Press, \$25.00, 223 pp.) takes readers on an insightful journey of how to build a high-performance nonprofit. "Too often early stage nonprofits want to do what's convenient, not what's important," says Iselin, who has spent the last 20 years building some of the nation's most innovative nonprofits. "The nonprofit world is filled with passionate people eager to make a difference. Their intentions are noble, but most leaders of early stage nonprofits lack the experience needed to build a quality organization. They tend to take short cuts, penny pinch, and make hasty decisions. The result is costly disruptions, operational migraines, and in some cases, failure." First Things First is a guidebook for leaders of early stage nonprofits (0-6 years old) and small nonprofits (budgets less than \$3 million). It focuses on a set of governing principles, operational structures, and practical tactics board members, executives, and managers should adopt and apply early on in their business lifecycle if they are serious about fulfilling their missions and building sustainable nonprofits of superior quality. Each chapter provides a case study example that relates chapter topics to experiences Iselin had during the five years he spent as chief executive at SVAS. Readers see how the SVAS staff and board overcame a host of challenging situations to create a pathway for the organization to develop pioneering programming and effective operations that propelled SVAS to national recognition and acclaim. What makes First Things First different from other "getting started" and "growing your nonprofit" books is that the principles and tactics found in this book are often overlooked and understated, or leaders wait too long to adopt and apply them. Iselin notes, "Seasoned leaders know costly mistakes made early on can have long-term consequences that can derail the dreams and momentum of fulfilling a worthy mission. First Things First shows leaders how to avoid common mistakes and how critical it is to make important decisions early on that might not seem obvious or intuitive." In the book, readers learn how to hire the best staff and nominate the best board members by identifying a set of uncommon attributes. They learn how to efficiently leverage their human capital, how to unravel the mysteries of developing a healthy relationship between board members and a chief executive, how to develop an engaging culture, how to build a brand that captures the attention of national media, how to raise big money from major donors using rarely applied fundraising techniques, how to dodge the traps of "lip service" passion, and much, much more. The book provides dozens of practical tactics and tips that leaders can quickly put into practice. Most importantly, First Things First teaches leaders how to think about the process of building and operating a high-performance nonprofit. They learn how they do what they do is more important than what they do, and just because they can do something doesn't mean they should do it. First Things First is receiving praise for its hard-hitting, yet inspiring analysis. Iselin says what many in the nonprofit industry are too afraid to say. He addresses sensitive issues such as personal accountability and moral obligations, yet his encouraging words and useful advice give readers hope that their nonprofits can become triumphant successes if they are willing to do the right things, right from the start.

One of These Things First Steven Gaines 2016-08-09 From New York Times–bestselling author Steven Gaines comes a wry and touching memoir of his trials as a gay teen at the famed Payne Whitney Psychiatric Clinic. One of These Things First is a poignant reminiscence of a fifteen-year-old gay Jewish boy's

unexpected trajectory from a life behind a rack of dresses in his grandmother's Brooklyn bra-and-girdle store to Manhattan's infamous Payne Whitney Psychiatric Clinic, whose alumni includes writers, poets, and madmen, as well as Marilyn Monroe and bestselling author Steven Gaines. With a gimlet eye and a true gift for storytelling, Gaines captures his childhood shtetl in Brooklyn, and all its drama and secrets, like an Edward Hopper tableau: his philandering grandfather with his fleet of Cadillacs and Corvettes; a giant, empty movie theater, his portal to the outside world; a shirtless teenage boy pushing a lawnmower; and a pair of tormenting bullies whose taunts drive Gaines to a suicide attempt. Gaines also takes the reader behind the walls of Payne Whitney—the "Harvard of psychiatric clinics," as Time magazine called it—populated by a captivating group of neurasthenics who affect his life in unexpected ways. The cast of characters includes a famous Broadway producer who becomes his unlikely mentor; an elegant woman who claims to be the ex-mistress of newly elected president John F. Kennedy; a snooty, suicidal architect; and a seductive young contessa. At the center of the story is a brilliant young psychiatrist who promises to cure a young boy of his homosexuality and give him the normalcy he so longs for. For readers who love stories of self-transformation, *One of These Things First* is a fascinating memoir in the vein of Susanna Kaysen's *Girl, Interrupted* and Augusten Burroughs's *Running with Scissors*. With its novelistic texture and unflinching narrative, this book is destined to become one of the great, indelible works of the memoir genre.

*First Things First!* Ruby Takanishi 2016-08-19 This book draws on a half century of efforts (1960s to the present) to forge a consensus that early education is a public responsibility in the United States. While that consensus has not yet been achieved, recent progress provides a platform for identifying new strategies, based on lessons learned. Transforming the American primary school, starting with threes and fours and ending at age ten (PreK-5) is the focus of *First Things First*. This book calls attention to the relative neglect of primary or elementary education in the recurring waves of education reform that have targeted middle and high schools. *First Things First* also points to the chaos generated when PreK is added onto the K-12 grades without attention to its ramifications for the later grades, especially Kindergarten. The book will also briefly address what should happen before PreK (Birth to Three) and after Grade 5, including middle and high school reform, to position the new primary school in an educational enterprise that is committed to life-long learning.

When fifteen-year-old Harris moves with his family from California (home of beautiful-but-inaccessible beaches) to

New Jersey (home of some much-hyped pizza and bagels), he's determined to be known as more than just the kid in the powered wheelchair. Armed with his favorite getting-to-know-you question ("What's your favorite color?"), he'll weed out the incompatible people—the greens and the purples, people who are too close to his own blue to make for good friends—and surround himself with outgoing yellows, adventurous oranges, and even thrilling reds. But first things first: he needs to find a new nurse, stat, so that his mom doesn't have to keep accompanying him to school. Enter Miranda, a young nursing student who graduated from Harris's new high school. Beautiful, confident, and the perfect blend of orange and red, Miranda sees Harris for who he really is—funny, smart, and totally worthy of the affections of Nory Fischer, the cute girl who's in most of his classes. With Miranda at his side, Harris soon befriends geeky Zander (yellow) and even makes headway with Nory (who stubbornly refuses to reveal her favorite color). But Miranda is fighting her own demons, and Harris starts to wonder if she truly has his best interests at heart.

**God's Law of First Things** Mike Hayes 2004 Although finances are a practical place to start, God's law of first things goes far beyond money. Hayes reveals how and why God opens windows of blessings in people's lives.

**First Things First** Ken Kamau 2016-05-31 As the young Ken Kamau devoured books on leadership, he became increasingly aware that they were written by and for people who were way ahead of where he was in his life and ministry. He needed to know how one begins to be a leader, not how one continues to lead a large and successful ministry. He has now written the book he would have wanted to read as a young pastor. His key thesis is that if you want to be a blessing to the kingdom, you have to get the basics right. Before you step into the spotlight of ministry life, you need to work on the backstage of your life. So he writes about learning from mistakes and from successes, learning how to be led as well as how to lead, and building and safeguarding a strong marriage. He also deals with the practical issues involved in building and nurturing a strong support team, even in a small church with few resources. The book is infused with humour and practical wisdom acquired the hard way, and also with a passion to fulfil the Great Commission. It thus speaks even to those who are not pastors, for we too are called to serve God faithfully, listen to his word, and use the lessons God has been teaching us to reach out to those who need to hear the message of God's love. We too need to live out that message with integrity in our day-to-day lives.

**First Things First!** Ruby Takanishi 2016 Challenging policymakers, educators, reformers, and citizens to replace piecemeal reforms with fundamental redesign, *First Things First!* calls for a different way of

organizing the American primary school. Ruby Takanishi outlines a new framework for integrating early education with primary education (pre-K-5), including both short- and long-term strategies, that starts with 3- and 4-year-olds. Featuring portraits of primary schools that have successfully integrated pre-K, the book includes resources on dual-language learners, dual-generation family engagement, effective philanthropy, rethinking advocacy, and more. The book centers on four basic questions: Why should the United States design a new primary school as children's first, widely shared educational experience? How can the educators of the new primary school use new knowledge about how children learn to improve their practice? What will it take to create a new primary school that educates all children well? How can the design of the new primary school reflect demographic, social, linguistic, and cultural changes and adapt to the requirements of a global economy? *First Things First!* reframes the basic structure of traditional primary education, challenging us to get the early years of a 21st-century public education system off to a new and stronger start. "The vision of a new primary school model in this book should be studied by all workers in the fields of education, human development, and social policy. The scholarship in this book is impeccable and the arguments advanced by this leading scholar are most convincing. Further, the book is beautifully written." —Edward Zigler, Sterling Professor of Psychology Emeritus, Yale University "Takanishi makes a compelling case that enabling all American children to achieve their potential requires both expansion of high-quality preschool and fundamental changes in how our public elementary schools serve young students." —Sara Mead, Bellwether Education Partners "Dr. Takanishi has laid out a vision and approach to schooling that is comprehensive, forward-looking, and versed in strong evidence. This is must-reading for educators, leaders, policymakers, and researchers." —Arthur Reynolds, University of Minnesota **Leadership Girl** Haley Lynn Gray 2016-01-05 *Leadership Girl - Empowering Women Entrepreneurs to Achieve Extraordinary Results by Capturing Massive Sales* was written to help give small business owners the information that they need to grow their businesses. Techniques include marketing and sales both online and offline. This book focuses on teaching the specific skills that you need to grow your business. **First Things First Every Day** Stephen R. Covey 1997-06-03 Daily reflections excerpted from the authors' book *First Things First* which discusses how to balance the demands of a schedule with the desire for fulfillment.

**First Things** Hadley Arkes 2020-06-16 This book restores to us an understanding that was once settled in the "moral sciences": that there are propositions, in morals and law, which are not only true but which cannot be otherwise. It was understood in the past that, in morals or in mathematics, our knowledge begins with certain axioms that must hold true of necessity; that the principles drawn from these axioms hold true universally, unaffected by variations in local "cultures"; and that the presence of these axioms makes it possible to have, in the domain of morals, some right answers. Hadley Arkes restates the grounds of that older understanding and unfolds its implications for the most vexing political problems of our day. The author turns first to the classic debate between Abraham Lincoln and Stephen Douglas. After establishing the groundwork and properties of moral propositions, he traces their application in such issues as selective conscientious objection, justifications for war, the war in Vietnam, a nation's obligation to intervene abroad, the notion of supererogatory acts, the claims of "privacy," and the problem of abortion.

**The Confidence Code** Katty Kay 2014-04-15 Following the success of *Lean In* and *Why Women Should Rule the World*, the authors of the bestselling *Womenomics* provide an informative and practical guide to understanding the importance of confidence—and learning how to achieve it—for women of all ages and at all stages of their career. Working women today are better educated and more well qualified than ever before. Yet men still predominate in the corporate world. In *The Confidence Code*, Claire Shipman and Katty Kay argue that the key reason is confidence. Combining cutting-edge research in genetics, gender, behavior, and cognition—with examples from their own lives and those of other successful women in politics, media, and business—Kay and Shipman go beyond admonishing women to "lean in." Instead, they offer the inspiration and practical advice women need to close the gap and achieve the careers they want and deserve.
