Why I Have So Many Names Saul Henry Bethay 2019-03-21 Saul will be taking you on an eighty-year verbal trip. You must fasten your reading seat belt because as you vicariously take this reading trip with him, some of the paths, lanes, dirt roads, highways, and expressways will be very bumpy; however, the scenes will be historically interesting. Billy, no Saul, no Mr. Bethay, no Airman Bethay, no Dean Bethay, no Big Ears, no the Dancer are a few of the names he is known by; what one calls him lets him know where he knows them from. When you finish reading *Why I Have So Many Names*, you may want to call him something else yourself too because he will take you back with him to the Cook County Training School, to Fort Valley State College, to Michigan State College, to Teachers College Columbia University, to Jersey City State College, and to the University of Hawaii. Airman Bethay will let you experience being in the Air Force for four years. The typist taught himself to type sixty-five words per minute on a manual typewriter. Mr. Saul will show you what it is like to teach high school boys and adults how to become better farmers. Dean Bethay will let you know what it is like to be an appreciated advisor in colleges and universities; counseling in junior high schools and colleges was Mr. Bethay's claim to fame. The professor ran workshops. The coordinator will share with you the personality it takes to work with different groups at the same time. The director was in charges of many programs for children and adults. The evaluator inspected summer camp programs for youth. The proofreader was in charge of editing books. "Honey" was noted for his great parties. The cook could hold his own in the kitchen. Watch out for the dancer when he is shooting pool. Doc spends most of his retirement time playing billiards and bid whist. The weekends are spent in the off and on Broadway theaters, concerts, and museums. The model at eighty-three-plus is still being asked to participate in fashion shows. Monday nights are reserved

for Scrabble. Your generous purchasing donations will be used to help some needy students at Fort Valley State University, not the author. The author tries to live up to Fort Valley State (College) University's motto: If I have helped somebody as I traveled these eighty years, then my travel has not been in vain.

A Bridge to the Other Side Michael Berman 2012 *A Bridge to the Other Side* is a collection of articles and traditional folk tales that deal with our feelings about and attitudes towards Death, both our own death and that of those nearest and dearest to us. A bridge between earth and heaven, this world and the next, features in the mythology of many different peoples. For example, in Norse legends, Bifröst or Bilröst is a burning rainbow bridge between Midgard, the world, and Asgard, the realm of the gods. The bridge is known as Bilröst in the Poetic Edda; compiled in the 13th century from earlier traditional sources, and as Bifröst in the Prose Edda; written in the 13th century by Snorri Stureuson. Both the Poetic Edda and the Prose Edda alternately refer to the bridge as Asbrú (Old Norse Æsirs means bridge). The Persians believed in a bridge between earth and paradise too. In his prayers the penitent in his confession would say: I am wholly without doubt in the existence of the Mazdayaçnian faith; in the coming of the resurrection of the latter body; in the stepping over the bridge Chinvat; as well as in the continuance of paradise.

mid-1980s: Chernobyl has set Geiger counters thrumming across the globe, HIV/AIDS is cutting a deadly swath through the gay population worldwide, and locally, tempers are flaring over the recent codification of French as the official language of Quebec. Hiding out in a seedy apartment near campus, Alex Fratarcangeli (“Don’t worry. . . I can’t even pronounce it myself”), an awkward, thirty-something grad student, is plagued by the sensation that his entire life is a fraud. Scarred by a distant father and a dangerous relationship with his ex Liz, and consumed by a floundering dissertation linking Darwin’s theory of evolution with the history of human narrative, Alex has come to view love and other human emotions as “evolutionary surplus, haphazard neural responses that nature had latched onto for its own insidious purposes.” When Alex receives a letter from Ingrid, the beautiful woman he knew years ago in Sweden, notifying him of the existence of his five-year-old son, he is gripped by a paralytic terror. Whenever Alex’s thoughts grow darkest, he recalls Desmond, the British professor with dubious credentials whom he met years ago in the Galapagos. Treacherous and despicable, wearing his ignominy like his rumpled jacket, Desmond nonetheless caught Alex in his thrall and led him to some life-altering truths during their weeks exploring Darwin’s islands together. It is only now that Alex can begin to comprehend these unlikely life lessons, and see a glimmer of hope shining through what he had thought was meaninglessness.

When Red Is Black Qiu Xiaolong 2005-08-01 When the murder of a woman is reported to the Shanghai police while Inspector Chen is on vacation, Sergeant Yu is forced to take charge of the investigation. The victim, Yin Lige, a novelist known for her banned book, has been found dead in her tiny, humble room off the stairwell of a converted multi-family house. It seems that only a neighbor could have committed the crime, for the building is kept locked at night. But there is no apparent motive. Sergeant Yu tries to unravel the reclusive woman’s past and begins to realize it may have larger political implications. The Cultural Revolution might be more than 30 years in the past, but its effects can still be felt at every level of Chinese society.

Guyana: From Slavery to the Present Ramesh Gampat 2015-04-15 It is common knowledge that slavery and indenture were characterized by long hours of physical labor, restriction of movement and other basic human freedoms, and severe punishment for violations of draconian labor laws. Less well known is the fact that nutrition was very deficient and a range of infectious diseases maimed, debilitated and killed on a large scale. In trying to narrow the knowledge gap with respect to Guyana, Ramesh Gampat shows that extremely poor sanitary conditions, hygiene and nutrition hastened infections and created a vicious cycle. The British protected its own soldiers, officials and colonists by establishing a medical enclave that lasted until Emancipation in 1838. Former slaves were “quarantined” to neglected and decaying villages and Indians to plantations. Concern with health conditions appeared only during periods of epidemics and even then it was essentially for the

protection of Europeans. Colonial medicine opened the way for stereotyping, labeling, racialization of disease, neutralization of potential leaders in the struggle for justice, and crystallization of the view that Europeans were superior to Blacks and Indians. Shorter stature and life expectancy are good indications that slaves and indentured immigrants fared considerably less well than Europeans. Several infectious diseases sickened and fell Blacks and Indians, including malaria and undefined fevers, pneumonia and bronchitis, diarrhea, and enteritis, tuberculosis, pneumonia and hookworm. The conquest of malaria in the early 1950s initiated the epidemiological transition from communicable to chronic diseases, and today NCDs account for some three-quarters of all deaths in Guyana. Malaria has reemerged, fueled by a gold boom that consumes huge amount of mercury. The potentially adverse public health consequences of the trio have been neglected.

“Aid and Comfort” Henry Mark Holzer 2015-08-13 Jane Fonda’s visit to Hanoi in July 1972 and her pro-North Vietnamese, anti-American conduct, especially her pose with an anti-aircraft gun used to shoot down American planes and her propaganda broadcasts directed toward American troops, angered many Americans. In their eyes, she was guilty of treason, but she was never charged by the American legal system. Instead, she has made millions, been the recipient of countless awards, and remained an honored American icon. This work investigates Fonda’s activities in North Vietnam and argues that she could have been indicted for treason, that there would have been enough evidence to take the case to a jury, that she could have been convicted, and that a conviction probably would have been upheld on appeal. It also considers Fonda’s early life and the effect it had on her behavior and beliefs in her later years, her audience of American POWs who were forced by the Vietnamese to listen to her broadcasts condemning them as war criminals, her arrival in Vietnam and how it was viewed by American servicemen and civilians, the crime of treason throughout history, and the only Congressional inquiry into her actions, which resulted in the government’s decision to take no legal action against her. Texts of Fonda’s radio broadcasts to American servicemen comprise the appendix.

Season of the Gar Mark Spitzer 2012-07-01 Season of the Gar is a fang-infested, monster-headed, armor-plated romp through the prehistoric swamps and murky rivers of America's most feared and demonized fish. Follow Mark Spitzer on his lengthy and often frustrating quest from Texas and Louisiana, Missouri, and Arkansas to catch his own gar. Read about his sometimes bizarre angling adventures in search of this air-breathing freshwater giant (up to ten feet in length and well over three hundred pounds) as he separates fact from fiction. Spitzer draws on folklore, science, history, his own pet gar, and even gar recipes to tell this unique and exciting literary eco-tale about a fish that has inspired imaginations for centuries, a fish many have hated, a fish many have thrown on the shore to die.

Fish Heads and Dirty Rice Patrick Nolan 2002-03-01 This is the story of an American teenager who was, incredibly, caught up in the events of the Second World War in Asia following the Japanese attack on Pearl Harbor in 1941. This book is based on a true story, but it has been fictionalized because the author does not know the actual details of the man's daily experiences, just the core of his nearly inconceivable story. However, every effort was made to accurately report the actual events of the war and the names of the real people who experienced those events. The details of the USS Nevada's heroic and successful dash to escape being sunk in Pearl Harbor are real as are the names of the officers and crewmembers who battled so bravely to save their stricken ship on that infamous morning in the Territory of Hawaii. The names and activities of the Japanese High Command and the brutalities they endorsed are all accurate. The unheralded, dramatic and world-altering inspiration that

General Douglas MacArthur had when he persuaded the Emperor to publicly renounce his divinity was, the author believes, the most important diplomatic declaration of the Twentieth Century. This work can best be described as an historic novel, telling the extraordinary story of a young American who was forced to join, and fight for, the army of his enemy, even though at the time he wasn't able to speak more than a few words of the Japanese language. Imagine: alone, thousands of miles from your home, your family and your friends and suddenly you are stripped of your own identity and forced, at gunpoint, to fight for your enemy. That is actually what happened to Kenji Kasamatsu. The fact that he survived the war is miracle enough, but when you consider that he lived a long, productive life after the war is truly amazing. Enter now a Japanese garden on the Island of Oahu and listen as an old man tells his curious granddaughter the story of fish heads & dirty rice.

Bringing together the best of his previously uncollected nonfiction--and including new, never-before-published material--*The Nasty Bits* is a rude, funny, brutal and passionate stew for fans and the uninitiated alike.

Fish Head Jean Fritz 1954 Fish Head was a scratched-up, patched-up, proud waterfront cat, who did just what he liked to do, when he liked to do, how he liked to do it. One day, he chased a fat grandfather rat onto the deck of a big white sail boat, and before he knew it, Fish Head was at sea, and seasick, and he didn't like it!

Stir the Pot Marcelle Bienvenu 2005 "Despite the increased popularity of Cajun foods such as gumbo, crawfish etouffee, and boudin, relatively little is known about the history of this cuisine. Stir the Pot explores its origins, its evolution from a seventeenth-century French settlement in Nova Scotia to the explosion of Cajun food onto the American dining scene over the past few decades. The authors debunk the myths surrounding Cajun food - foremost that its staples are closely guarded relics of the Cajuns' early days in Louisiana - and explain how local dishes and culinary traditions have come to embody Cajun cuisine both at home and throughout the world." -- from the publisher.

Dirty Rice Gerald Duff 2012 In the midst of the Great Depression, minor league baseball thrives in small-town South Louisiana, where the Evangeline League, named in honor of Longfellow's heroine, draws hundreds to dirt fields and grandstands in places like Jeanerette, Abbeville, and Opelousas. In 1935 Gemar Batiste, a talented young pitcher from Texas, is recruited to try out for the Rayne Rice Birds, makes the roster, and immediately begins garnering fame for himself, his team, and the league. But Gemar is not the same as his teammates and opponents, and his skills on the diamond cannot erase those differences. He grew up on a reservation in Texas, an Alabama-Coushatta Indian dreaming of hurling strikes in the big leagues. During his season with the Rice Birds, Gemar is asked to play the stereotypical Indian and enticed to cheat, which goes against his view of the diamond as a sacred place of honor. Constantly challenged as he tries to protect his identity as an Alabama-Coushatta and uphold the integrity of the game, Gemar like the Evangeline League's namesake comes to embody loss, perseverance, and commitment. Much like minor league baseball itself, the story of Gemar Batiste's season in the Evangeline League is a work of satire, humor, tragedy, and triumph.

A Doctor's Sword Bob Jackson 2016-08-01 'There followed a blue flash accompanied by a very bright magnesium-type flare ... Then came a frighteningly loud but rather flat explosion, which was followed by a blast of hot air ... All this was followed by eerie silence.' This was Cork doctor Aidan MacCarthy's description of the atomic bomb explosion

above Nagasaki in August 1945, just over a mile from where he was trembling in a makeshift bomb shelter in the Mitsubishi POW camp. At the end of the war, a Japanese officer did the unthinkable: he surrendered his samurai sword to MacCarthy, his enemy and former prisoner. This is the astonishing story of the wartime adventures of Dr Aidan MacCarthy, who survived the evacuation at Dunkirk, burning planes, sinking ships, jungle warfare and appalling privation as a Japanese prisoner of war. It is a story of survival, forgiveness and humanity at its most admirable.
