Take a Hike: San Diego County Priscilla Lister 2016-02-23 Few places on the planet can boast the diversity of natural landscape found in San Diego County. From the enormous Anza-Borrego desert to the Peninsular Range of mountains to the coastal wetlands of the Pacific Ocean, the breadth of San Diego County's environment is truly remarkable. Priscilla Lister, seasoned journalist, former newspaper columnist and avid hiker, guides others down 260 trails that offer beautiful scenery, physical challenges and an up-close experience with natural flora and fauna. You'll find trail directions as well as historical tales about the natives and pioneers who once hiked the region. She also identifies trees, wildflowers and birds you'll find on every trail. Included with each entry are driving directions, mileage and difficulty of each hike, whether dogs or horses are allowed and information on how to download trail maps. *Take a Hike: San Diego County* is a comprehensive hiking guidebook that shares advice, tips, and tools that will entice exploration of one of America's most diverse and beautiful regions.

The Definitive Guide to Fishing Northern California Chris Shaffer 2005-04-30 The most thorough guide to fishing in Northern California ever written. More than 525 listings of lakes, rivers, streams, ponds, and reservoirs.

Fly Fishing California Stillwaters Bill Sunderland 2003-11-01 The inclination of most fly-line anglers is to fish moving water. That's a mistake, because there are bigger trout in California's lakes and reservoirs. Stillwater trout don't have to work as hard fighting currents as those in streams and rivers. And many lakes are extremely rich in food for fish so trout just cruise around slurping up dinner and getting bigger and bigger and bigger. *Fly Fishing California Stillwaters* tells anglers where the best fishing can be found, offering directions, full-color maps and so much detail you'll never again arrive at a lake wondering what fly to use or where to start your search for trout. Interested? Then come join the hunt for big fish in California stillwaters. Book jacket.

The Quest for the World Record Bass Bart Crabb 1997-06 Bart Crabb's "The Quest for the World Record Bass" includes profiles on the individual states that stock the Florida Largemouth Bass, along with their stocking programs and State Record catches. There is also a summary of lakes for the individual states that have the potential to land a world, state or line classification record. Additional topics include rules and regulations, biological information, interviews with bass anglers who have caught as many as 50 bass over 12 pounds and an explanation of why the big lure concept works. This book contains numerous photos of bass, a fully documented list of the "Top 25 Bass" of all time and tips to give every fisherman a fighting chance to catch the World Record.

Fly-Fishing for Sharks Richard Louv 2002-06-19 For three years, journalist Richard Louv listened to America by going fishing with Americans. Doing what many of us dream of, he traveled from the Atlantic to the Pacific, from trout waters east and west to bass waters north and south. *Fly-Fishing for Sharks* is the

result of his journey, a portrait of America on the water, fishing rod in hand. To explore the cultures of fishing, Louv joined a bass tournament on Lake Erie and got a casting lesson from fly-fishing legend Joan Wulff. He angled with corporate executives in Montana and fly-fished for sharks in California. He spent time with fishing-boat captains in Florida, the regulars who fish New York City's Hudson River, and a river witch in Colorado. He teamed secrets of fishing and living from steelheaders in the Northwest, Bass'n Gals in Texas, and an ice-fisher in the North Woods. Along the way, he heard from one of Hemingway's sons what it was like to fish with Papa and from Robert Kennedy, Jr., how fishing changed his life. As he describes the eccentricities, obsessions, and tribulations of dedicated anglers, he also uncovers the values that unite them. He reveals the healing qualities of fishing, how it binds the generations, how the angling business has grown, and how the future of fishing is threatened. But most of all, *Fly-Fishing for Sharks* is about the unforgettable characters Louv meets on the water and the stories they tell. From them, Louv learns about our changing relationship with nature, about a hidden America -- and about himself.

Beneath the Surface Jake Bussolini 2009-11-10 *Beneath the Surface* is an extension of the author's two previous books that offer the unique blend of science and sport. This book focuses on Lake Norman North Carolina but all of its information is useful to any fresh water fisherman. The author is considered a Sonar expert and this book is full of Sonar image photo interpretations to help those fishermen who have not developed the skill of using Sonar fish finders to improve their catch rate. The tips presented on catching the various species of fish resident to Lake Norman are useful for these species wherever they reside. Several myths about fishing are discussed and some of these myths are crushed by the Author with detailed back up information to support his contentions.
