English Jewellery from the Fifth Century A. D. To 1800

Joan Evans 2012-01-01 Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they

deserve to be made available for future generations to enjoy.

In this scintillating book, journalist Victoria Finlay embarks on her own globe-circling search for the real stories behind some of the gems we prize most. Blending adventure travel, geology, exciting new research, and her own irresistible charm, Finlay has fashioned a treasure hunt for some of the most valuable, glamorous, and mysterious substances on earth. With the same intense curiosity and narrative flair she displayed in her widely-praised book *Color*, Finlay journeys from the underground opal churches of outback Australia to the once pearl-rich rivers of Scotland; from the peridot mines on an Apache reservation in Arizona to the remote ruby mines in the mountains of northern Burma. She risks confronting scorpions to crawl through Cleopatra's long-deserted emerald mines, tries her hand at gem cutting in the dusty Sri Lankan city where Marco Polo bartered for sapphires, and investigates a rumor that fifty years ago most of the world's amber was mined by prisoners in a Soviet

gulag. *Jewels* is a unique and often exhilarating voyage through history, across cultures, deep into the earth's mantle, and up to the glittering heights of fame, power, and wealth. From the fabled curse of the Hope Diamond, to the disturbing truths about how pearls are cultured, to the peasants who were once executed for carrying amber to the centuries-old quest by magicians and scientists to make a perfect diamond, *Jewels* tells dazzling stories with a wonderment and brilliance truly worthy of its subjects.

Treasures of the Ferrell Collection Jeffrey Spier 2010
This volume publishes over 200 works of art belonging to the American collector, James Ferrell. The focus of the collection is jewelry, engraved gems and cameos, medallions, and silver plate primarily of the late Roman and early Byzantine periods (3rd-7th centuries AD). Much of the material derives from imperial workshops and served as official gifts. The catalogue opens with a small

selection of Hellenistic jewelry, including a group composed of a necklace, earrings, and rings probably of Ptolemaic origin. The second chapter is composed primarily of late Roman jewelry, gems and cameos, and other objects in precious metal, including necklaces, bracelets, rings, fibulae, and belts, most of which date between the third and fifth centuries AD. The third and fourth chapters are devoted to the jewelry and other objects of the sort found in Gothic tombs of the fifth and sixth centuries AD. Chapter Five presents an outstanding selection of Byzantine jewelry of the sixth and seventh century, including pendants, crosses, bracelets, earrings, and rings, many set with precious gems and pearls. The final chapter is devoted to Byzantine ecclesiastical silver of the sixth century AD. The publication will be of considerable interest to a variety of scholars, museums, and collectors. Historians of late antiquity will find many objects with important imperial

associations. The rich selection of Byzantine jewelry and silver, including many pieces decorated with unusual iconography, will be of importance to Byzantinists. The Gothic objects include many pieces of particularly high quality. Jewelry historians and collectors will be delighted with the superb color photography.

20th Century Jewelry & the

Icons of Style Stefano Papi

2016-09-27 “Worthwhile, both for the sumptuous jewelry and for the stunning lifestyle photographs.” —Society of Jewelry Historians For many centuries, collecting precious jewels was the province of kings and queens, emperors, and maharajas. But in the aftermath of the First World War, royal gems passed into the hands of a different kind of elite that included celebrities and a coterie that reveled in a nouveau riche whirl. Changes in fashion and the rise of Art Deco style led them to reset pieces or commission exquisite contemporary designs. Authors Stefano Papi and Alexandra Rhodes explore this dazzling era via profiles of eleven glamorous women who built up astonishing jewelry collections in the mid-twentieth century. This revised and updated edition includes two new chapters that explore the lives and jewels of Ganna Walska and Hélène Rochas. The authors reveal the remarkable stories behind the jewels and

their collectors. Not only do they bring to life the worlds in which these women moved, but they also describe the gems in detail and chronicle the work of the leading jewelers of the day, including Cartier, Van Cleef & Arpels, and Harry Winston. The book is illustrated with gorgeous close-up photography of the jewels as well as drawings of the original designs, and includes portraits of the collectors by Beaton, Horst, and other leading photographers of the time.

Brazil Thomas E. Skidmore
2010 This second edition offers an unparalleled look at Brazil in the twentieth century, including in-depth coverage of the 1930 revolution and Vargas's rise to power; the ensuing unstable democratic period and the military coups that followed; and the reemergence of democracy in 1985. It concludes with the recent presidency of Luiz Inacio "Lula" da Silva, covering such economic successes as record-setting exports, dramatic foreign debt reduction, and improved

income distribution. The second edition features numerous new images and a new bibliographic guide to recent works on Brazilian history for use by both instructors and students. Informed by the most recent scholarship available, *Brazil: Five Centuries of Change, Second Edition*, explores the country's many blessings-- ethnic diversity, racial democracy, a vibrant cultural life, and a wealth of natural resources.

Treasures of the Mughals and the Maharajas Amin Jaffer
2018-02 Published on the occasion of the extraordinary exhibition in Venice, the book allows readers to immerse themselves in the jewellery traditions of the Indian subcontinent, from the Mughal period to the modern day, installed within an evocative and ethereal setting. The evolution of gem-setting and jewellery is shown through over two hundred and seventy exceptional pieces from The Al Thani Collection, together with major works on loan from

prestigious institutions and private collections. Famous historic Indian diamonds, spectacular precious objects and legendary pieces of jewellery are brought together to represent the evolution of taste and technique in India's jewelled arts over five centuries. From the Great Mughals to the Maharajas: Jewels from The Al Thani Collection also presents the major developments in Indian jewellery traditions, from the peak of 17th century Mughal imperial patronage through years of political chaos and colonisation from the 18th century onwards, to the age of the Durbar , great ceremonies that provided Indian sovereigns with a new setting in which to show off their jewels during the time of the British Raj.

Five Centuries of British

Painting Andrew Wilton

2001-01-01 "Britain has played a key part in the history of the

last five centuries, and its art reflects this in absorbing and complex ways. Andrew Wilton, Keeper and Senior Research Fellow at Tate Britain, traces the story of British painting from its hesitant beginnings under the influence of Holbein through its maturity in the time of Hogarth and Reynolds, when it reflected a prosperous society with growing imperial influence. He then explores the pioneering role of Constable and Turner in the revolutions of the Romantic period, and the enigmatic position of artists in Victorian England, when a stiff moral code came into conflict with the uncertainties of the age of Darwin. A consistent undercurrent has been Britain's preference for the real world (landscape, portraiture) as against 'high' art and abstraction. Andrew Wilton offers new insights into the great personalities of British painting, and assesses afresh the latest flowering, in which many threads of modern art come together in sometimes startling guises."--BOOK

Jewelry Talks Richard Klein 2012-02-15 Campy, bitchy, outrageous, and quite a bit more than over the top, Abby Zinzo describes himself as “a cross between Auntie Mame and Louis the Sun King.” Abby has lived a life dedicated to pleasure, and nothing has given him more pleasure than owning, wearing, or merely contemplating the lustrous objects with which women and men have always adorned themselves. In this sexy, funny book that is part novel and part thesis on jewelry, Abby sits down to record everything he has learned over a lifetime, planning to leave this story along with his collection of valuable stones to his beloved niece, Zeem. He recounts the history of famous gems-like the fabulous Koh-i-Noor and the brilliant blue Hope diamond-and regales us with naughty tales of the women who made the beautiful jewelry their own, including Coco Chanel, the Duchess of

Windsor, and Elizabeth Taylor. He also narrates his own sensational life, from Harvard undergraduate to dancer in a notorious Paris drag cabaret to his twilight as a man for whom gender is just another glittering ornament. Sharp, fascinating, and sparkling with its own inner fire, Jewelry Talks is precious gem in and of itself.

Maker and Muse Elyse Zorn Karlin 2015-02-10 A new perspective on woman's role in the world of art jewelry at the turn of the twentieth century—from Art Nouveau in France and the Arts and Crafts movement in Britain, to Jugendstil in Germany and Austria, Louis Comfort Tiffany in New York, and American Arts and Crafts in Chicago—and the most extensive survey to date of the sheer diversity and beauty of art jewelry during this period. Accompanying a groundbreaking exhibition at The Richard H. Driehaus Museum in Chicago, this lavishly illustrated catalog showcases nearly two hundred stunning pieces from the Driehaus Collection and prominent national collections, many of which have never been seen by the public. Women were not only the intended wearers of art jewelry during

the early twentieth century, but also an essential part of its creation. Their work—boldly artistic, exquisitely detailed, hand wrought, and inspired by nature—is now widely sought after by collectors and museums alike. From the world's first independent female jewelry makers, to the woman as artistic motif, this jewelry reflected rapid changes in definitions of femininity and social norms. Essays by noted scholars explore five different areas of jewelry design and fabrication, and discuss the important female figures and historic social milieu associated with these movements—from the suffragists and the Rational Dress Society in England; to the Wiener Werkstätte and Gustav Klimt; and the Art Nouveau masters René Lalique and Alphonse Mucha, who depicted otherworldly women in jewelry for equally fascinating patrons like Sarah Bernhardt. The essays are illustrated by historic photographs and decorative arts of the period as well as the extraordinary pieces

themselves: hair combs, bracelets, brooches, and tiaras executed in moonstones, translucent horn, enamel, opals, aquamarines, and much more. As Driehaus writes in his introduction to *Maker & Muse*, “Essential as these elements are, the metal and gemstones of a necklace—or a brooch or a bracelet—are like a canvas. It is the designer who evokes true greatness, beauty, and value from them. Neither monumental nor mass-produced, the object contains a memory of a particular artist’s skilled hand.”

Chinese Jade of Five Centuries Joan M. Hartman
2012-10-09 Chinese Jade of Five Centuries was originally published in print form by Tuttle Publishing in 1969. In Chinese Jade of Five Centuries, Mrs Hartman provides an encompassing look at one of the minor arts which must be considered vital to a judgement of artistic achievements of any civilization. Magnificently illustrated with 45 black and white photographs and 10 color plates, the book displays

many museum examples which have not been previously published for general readership. Written for the layman, the text should satisfy the more discerning and knowledgeable reader as well, particularly for its information on the quality and location of jade rough, on dating, and techniques of carving.
