The Hidden Flame Sylvia Engdahl 2016-06-27 Book One: Stewards of the Flame When burned-out starship captain Jesse Sanders is seized by a dictatorial medical regime and detained on the colony planet Undine, he has no idea that he is about to be plunged into a bewildering new life that will involve ordeals and joys beyond anything he has ever imagined, as well as the love of a woman with powers that seem superhuman. Still less does he suspect that he must soon take responsibility for the lives of people he has come to care about and the preservation of their hopes for the future of humankind. This controversial novel, winner of a bronze medal in the 2008 Independer Publisher (IPPY) Book Awards, deals with government-imposed health care, with end-of-life issues, and with the so-called paranormal powers of the human mind. Despite being set in the distant future on another world, it appeals not just to science fiction fans but to a wide range of readers who question the dominant medical philosophy of today's society, or who value personal freedom of choice. Book Two: Promise of the Flame Three hundred people, isolated on a raw new planet in the hope of fulfilling a dream, the dream that their psi powers will become the foundation of a culture that can someday shape the future of humankind. If they don't starve first. If they don't lose heart in the face of hardships beyond any they imagined. And if their kids can be reared to believe in the dream and advance both their technology and their psi powers from one generation to the next. Starship captain Jesse Sanders hasn't expected to be responsible for the settlement. Peter is the leader, the visionary on whose inspiration they all depend. But Peter has his hands full, not only with maintaining morale but with grueling

ordeals of his own. So the job of ensuring the colony's survival falls on Jesse. And in the end, he must stake his life in a desperate attempt to prevent the loss of all they have gained.

Hailed as a hero and embraced by the community, Nick finds himself drawn to Takis, a young bartender who becomes his primary suspect, which is a problem because they're having an affair. There is not the only complicated romance in the community and Takis isn't the only suspicious character on the island. Dying Flames Robert Barnard 2006-05-16 From Robert Barnard, the internationally acclaimed Diamond Dagger-winning crime writer . . . Some memories are better left buried in the past. Well-known author Graham Broadbent has managed to repress one particularly dangerous memory for many years, but a trip home to a school reunion brings back the shocking reality of a desperate youthful passion. It all begins with a knock on Graham's hotel door. His visitor is nineteen-year-old Christa, who read in the newspaper that he would be in town. She introduces herself as his long-lost daughter. His daughter? It's true that many years ago Graham had a fling with Christa's mother, an exquisitely alluring school actress named Peggy Somers. The dates don't work, though. Graham maintains he was out of the country when Christa was conceived. He couldn't be her father. He's almost sorry that he can't claim Christa, a lively young woman who intrigues him in a strange way. And what about Christa's mother, the formidable Peggy, who made such an impression when she portrayed Saint Joan in the school play all those years ago? Why would she have lied to Christa about her paternity? Why name Graham as the girl's father? Separated from his wife, at loose ends in his writing, Graham takes the fateful step of searching out Peggy. It's a big mistake. Peggy's life, which started with such promise, has been a major disappointment. Now it's about to become a disaster. Peggy lies. She fabricates. She fantasizes. She is the kind of person who will destroy Graham if he lets her. As Graham finds himself drawn increasingly into the turmoil surrounding this woman and her children, he must deal with deception and, ultimately, with murder. The sins of the past return to haunt the living, and the lives of those who survive will never be the same. Writing with the piercing insight and wit for which he is renowned, Robert Barnard creates a poignant masterpiece of mystery, as thoughtful as it is entertaining.

Force of Fire (The Fire Queen #1) Sayantani DasGupta 2021-06-01 From New York Times bestselling author Sayantani DasGupta comes the story of a demon who must embrace her bad to serve the greater good. Pinki hails from a long line of rakkhosh resistors, demons who have spent years building interspecies relationships, working together to achieve their goal of overthrowing the snakey oppressors and taking back their rights. But she has more important things to worry about, like maintaining her status as fiercest rakkhosh in her class and looking after her little cousins. There is also the teeny tiny detail of not yet being able to control her fire breathing and accidentally burning up school property. Then Sesha, the charming son of the Serpentine Governor, calls on Pinki for help in defeating the resistance, promising to give her what she most desires in return -- the ability to control her fire. First she'll have to protect the Moon Maiden, pretend to be a human (ick), and survive a family reunion. But it's all worth it for the control of her powers . . . right?

Defender of the Flame Sylvia Engdahl 2013-04-20 Starship pilot Terry Radnor's life is transformed by the discovery that he possesses psi powers such as ESP, and that others are working to spread them throughout the worlds of humankind. But this means danger. Most people don't want to know that "paranormal" powers exist; they have a deep innate fear having to admit that their conception of reality is false. And some will go to any lengths to suppress their emergence. A few will even resort to terrorism. Terry vows to defend the world that is spearheading the spread of new human capabilities, a world where for the first time in his life he has found happiness. He has no idea of how far that aim will take him from everything else he cares about--his promising career as a Fleet officer, his wife and soulmate, his unborn child. Torn away against his will, he is forced into exile from all that has previously mattered to him, seeing no chance to fulfill the commitment he has made. Yet a mysterious and extraordinary destiny has been predicted for Terry, and fate leads him to an even stranger one than anybody could have imagined. This is the first book in the Rising Flame series. Although it follows the two books in the Hidden Flame series, *Stewards of the Flame* and *Promise of the Flame*, it is an independent story set two hundred years later that doesn't depend on having read them.

Of Flame and Light Cecy Robson 2016-10-18 "[This series is] on my auto-buy list." - USA Today Taran Wird holds the unique ability to conjure fire and lightning. She is mated to Gemini, Second in Command to the Squaw Valley Pack of the Lake Tahoe Region, and the sole werewolf to possess the ability to split into two wolves. And although they are mates, Taran's insecurities have driven them apart. Devastated by an injury that left her with a zombie-like limb, Taran struggles to regain command over her magic. But when her arm and her power turn against her, lashing out on those she most loves, she knows she can no longer carry this burden alone. Not that she likes the alternative. The only way to regain control of her magic is to align and learn from the local coven of witches, the very ones who sought to banish her when she and her three unique sisters first moved to the mystical region. But although Taran is trying, the teachings don't come easy, and the tasks leave her weak and emotionally shattered. Yet Taran must learn and learn fast. Time is running out. The fire she once mastered so easily has become her greatest adversary and is now slowly burning her alive . . .
