Whitaker's Book List 1991

We'll Always Have Paris Harvey Levenstein 2010-03-15 For much of the twentieth century, Americans had a love/hate relationship with France. While many admired its beauty, culture, refinement, and famed joie de

vivre, others thought of it as a dilapidated country populated by foul-smelling, mean-spirited anti-Americans driven by a keen desire to part tourists from their money. *We'll Always Have Paris* explores how both images came to flourish in the United States, often in the minds of the same people. Harvey Levenstein takes us back to the 1930s, when, despite the Great Depression, France continued to be the stomping ground of the social elite of the eastern seaboard. After World War II, wealthy and famous Americans returned to the country in droves, helping to revive its old image as a wellspring of sophisticated and sybaritic pleasures. At the same time, though, thanks in large part to Communist and Gaullist campaigns against U.S. power, a growing sensitivity to French anti-Americanism began to color tourists' experiences there, strengthening the negative images of the French that were already embedded in American culture. But as the century drew on, the traditional positive images were revived, as many Americans again developed an appreciation for France's cuisine, art, and urban and rustic charms. Levenstein, in his colorful, anecdotal style, digs into personal correspondence, journalism, and popular culture to shape a story of one nation's relationship to another, giving vivid play to Americans' changing response to such things as France's reputation for sexual freedom, haute cuisine, high fashion, and racial tolerance. He puts this tumultuous coupling of France and the United States in historical perspective, arguing that while some in Congress say we may no longer have french fries, others, like Humphrey Bogart in *Casablanca*, know they will always have Paris, and France, to enjoy and remember.

Franco Sells Spain to America N. Rosendorf 2014-02-18 A

groundbreaking study of the Franco regime's utilization of Hollywood film production in Spain, American tourism, and sophisticated public relations programs - including the most popular national pavilion at the 1964-65 New York World's Fair - in a determined effort to remake the Spanish dictatorship's post-World War II reputation in the US.

Charm Offensive Kelly Ricciardi Colvin 2023-03-30 In the aftermath of the Second World War, the French government cultivated images of sensual and sophisticated white French women in an attempt to reestablish its global image as a great nation. They promoted the beauty, sexual appeal, and general allure of French women, all while shrinking the boundaries of what was considered beautiful. Charm Offensive explores how this elevation of French femininity created problems on both sides of the equation: the pressure on French women to conform to an exacting physical standard was immense, while the inability of anyone else to access that standard resulted in a sense of failure. Drawing on cultural figures like Air France hostesses, tourism workers, and celebrities such as Brigitte Bardot, Charm Offensive offers an innovative understanding of a tumultuous time of decolonization.

New York Magazine 1992-08-31 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Fodor's 91 Hawaii 1990-09-30 Provides information on Hawaiian history and culture, and shares advice on sightseeing, shopping, and entertainment.
