Strip Show Katherine Liepe-Levinson 2003-09-01 This book offers an account of an unprecedented North American study of contemporary female and male strip shows. It particularly focuses on the contradictory sex roles, cultural positions, and performance practices of 'straight' strip shows during their second heyday in the early 1990s. Katherine Liepe-Levinson's research took her to over seventy different strip bars, clubs, theatres and sex emporiums ranging from elaborate lap-dancing and couch-dancing 'gentlemen's' clubs in New York, Houston, and San Francisco; to Peoria's onetime duplex cabaret where women strip for men downstairs, and men for women upstairs; to the nightclubs of Montreal where female and male performers displayed the 'Full Monty'. Liepe-Levinson's intriguing, comprehensive study concentrates on the cultural and theatrical elements of the strip shows themselves including the geographic locations and interior designs of the clubs, the choreography and costumes of the dancers and the all-important participation of the audience. She draws upon a variety of methodologies as well as interviews with performers to explore how the strip show's cultural and theatrical aspects simultaneously uphold and break traditional sex roles. Her findings readily complicate several of the most prominent and prevalent theories about sexual representation, gender and desire.

American Representations of Post-Communism Andaluna Borcila

2014-07-11 With the televised events of 1989, territories of Eastern and Central Europe that had been marked as impenetrable and inaccessible to the Western gaze exploded into visibility. As the narratives of the Cold War crumbled, new narratives emerged and new geographies were produced on and by American television. Using an understudied archive of American news broadcasts, and tracing their flashes and echoes through travel guides and narratives of return written by Eastern European-Americans, this book explores American ways of seeing and mapping communism's disintegration and the narratives articulated around post-communist sites and subjects.

Music and Tourism Chris Gibson 2005-02-22 Music and Tourism is the first book to comprehensively examine the links between travel and music. It combines contemporary and historical analysis of the economic and social impact of music tourism, with discussions of the cultural politics of authenticity and identity. Music tourism evokes nostalgia and meaning, and celebrates both heritage and hedonism. It is a product of commercialisation that can create community, but that also often demands artistic compromise. Diverse case studies, from the USA and UK to Australia, Jamaica and Vanuatu, illustrate the global extent of music tourism, its contradictions and pleasures.
