**Fodor's Canada** 2008 Get a Rocky Mountain high by the shores of a cerulean lake, walk the ocean floor among towering rocks in New Brunswick, or ski the continent's longest vertical drop in British Columbia. "Fodor's Canada" offers all these experiences and more, in this updated guide.

**Fodor's Vancouver and British Columbia 2001** 2001 "This dictionary provides essential information on the Berber (Imazighen) people, most notably through several hundred entries on significant people, places, events, institutions and aspects of culture, society, economy, and politics, past and present. The chronology traces their long and tormented history, and the introduction explains, among other things, the current predicament. The book is rounded out with an extensive bibliography and detailed maps."--BOOK JACKET. *Seattle and Vancouver '98* Fodor's 1998-01-27 "In 1942, J. Robert Oppenheimer accepted the leadership of the Manhattan Project at the Los Alamos Laboratory, which produced the first atomic bomb three years later. This book examines the ethics of Oppenheimer's choice to take that job and our judgment of his acceptance, leading to the larger question of the meaning of moral judgment itself. Through an analysis of

Oppenheimer's choice, Richard Mason explores questions of responsibility, the justification for the pursuit of scientific curiosity, the purity of research, and many other topics of interest in scientific ethics. This look at one man's choice brings out the necessary step from personal detail to abstract reflection - it may be easy to praise or condemn Oppenheimer's choice, but less easy to justify our praise or condemnation. Oppenheimer's Choice establishes the possibility of this kind of moral philosophy - neither "applied" nor "practical" ethics, but instead a sustained concentration on a single choice, and what it means."--BOOK JACKET.
