Make Time Jake Knapp 2018-09-25 From the New York Times bestselling authors of Sprint comes “a unique

and engaging read about a proven habit framework [that] readers can apply to each day” (Insider, Best Books to Form New Habits). “If you want to achieve more (without going nuts), read this book.”—Charles Duhigg, author of *The Power of Habit* Nobody ever looked at an empty calendar and said, "The best way to spend this time is by cramming it full of meetings!" or got to work in the morning and thought, Today I'll spend hours on Facebook! Yet that's exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people's priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn't mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That's what this book is about. As creators of Google Ventures' renowned "design sprint," Jake and John have helped hundreds of teams solve important problems by changing how they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they've packaged the most effective tactics into a four-step daily framework that anyone can use to systematically design their days. *Make Time* is not a one-size-fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. *Make Time* isn't about productivity, or checking off more to-dos. Nor does it propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn't about radically overhauling your lifestyle; it's about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone who has ever thought, If only there were more hours in the day..., *Make Time* will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.

Paper also plays a purely utilitarian role, in the form of lanterns, parasols, fans, wrapping paper, or playthings such kites, dolls and origami.

They are pushing the boundaries of origami vigorously in new directions in terms of style, scale, materials, subject and scope. Lang Linda Mihara Bernie Peyton Richard Sweeney And many more... The stunning photos and brilliant essays in this book demonstrate why origami is now an international art movement—largely through the efforts and artistic genius of a few contemporary masters. The trailblazing efforts of Japanese artist Akira Yoshizawa elevated the paper folding to an art form by showing how subtle shapes and figures could be created from a single sheet of paper though a variety of non-traditional folding techniques. Artists in other parts of the world—including the United States, France, England, China and Scandinavia—took Yoshizawa's cue and pushed these techniques further and further. The result has been the emergence of many new and surprising sculptural forms created through techniques such as wet folding, curved creasing, tessellating and the application of alternative materials besides paper.

Origami Face Mask Emma Moore 2021-01-31 Origami Face Mask: Effective Origami Mask for COVID-19 and How to Make Them Masks may become a mainstay after the pandemic to help keep both viruses and pollution at bay. 63 percent of 2,200 American adults said they would continue to always or sometimes wear a mask while running errands post-pandemic. A similar number, around 64 percent, said they would turn to masks to fend off air pollution. And 67 percent said they would mask up during flu season. Anyone can make their own origami face mask and it may potentially be better at blocking microscopic coronavirus particles than commercially available ones, a new study suggests. The paper-folding technique could be used to turn widely available materials such as furnace filters into masks that fit better than surgical or N95 masks, according to lab tests carried out by scientists at the University of California, Irvine.

Shari Lewis and Lamb Chop Nat Segaloff 2022-10-04 For almost half a century, celebrated ventriloquist and entertainer Shari Lewis (1933–1998) delighted generations of children and adults with the help of her trusted sock puppet sidekick, Lamb Chop. For decades, the beloved pair were synonymous with children's television, educating and entrancing their young audience with their symbiotic personalities and their proclivity for song, dance, and the joy of silliness. But as iconic as their television personas are, relatively little inside knowledge has been revealed about Lewis herself and the life-changing moments that led her to the entertainment industry, and perhaps most importantly, to Lamb Chop. Renowned as a performer, Lewis was equally accomplished in business. Operating in an era when women were largely left out of the conversation, she was one of the few women to run her own television production company. Whether it was singing, dancing, conducting, writing, drawing, or ventriloquism—a skill in which she was virtually unmatched—Lewis spent the entirety of her sixty-five years in pursuit of performative perfection. Constantly innovating and adapting to the needs of her audience and the market, Lewis extended the longevity of her career decade after decade. Her contributions—particularly the creation of Lamb Chop and her puppet pals—forever changed the history of children's television. Now, long after Lewis and Lamb Chop graced television with their final performance, Lewis's daughter, Mallory, and author Nat Segaloff have set the record straight about the iconic pair in *Shari Lewis and Lamb Chop: The Team That Changed Children's Television*. In this seminal biography, the authors pull the veritable wool from the eyes of audiences who adore the legendary entertainer to examine the joys, sorrows, triumphs, and sheer hard work that gave Lewis and Lamb Chop their enduring star power.

Fabrigami Jill Stovall 2013-12-24 Fold decorative origami objects out of cloth with this easy-to-use origami book. Fabrigami is the Asian art of folding fabrics to create three-dimensional objects ranging from the practical to the whimsical. Like paper, there are countless beautiful fabric designs to choose from, only fabric has the virtue of being extremely durable. Fabrigami began as origami legend Florence Temko's final project. Everyone knows that origami is the art of paper folding, but Temko had begun experimenting with folding fabric to make objects that are just as beautiful but more lasting than paper. Sadly, Temko passed away before the book was completed, but her collaborator, Jill Stovall, continued their work. Now, Stovall—with the help of Scott Stern, a rising young star of origami—brings Fabrigami to print for everyone to use and enjoy. This origami book begins by presenting instructions on how to treat fabric so it holds a shape when folded. Then Stovall shares a series of fun craft projects with simple origami-style diagrams that you can use to make a range of lovely objects. Stiffening the fabric requires some practice, but the folds are all easy enough to be considered origami-for-kids projects and are a great way to learn origami. Cloth origami projects include: Fan-tastic Fold Earrings Evening Wine Coat Florence's Hexagon Box Cloth Kimono Card Pleated Peacock

The Secret Fawn Kallie George 2021-02-02 Gorgeous cut-paper art illuminates this sweet, heartfelt picture book about how special being little can be. For fans of Finding Wild and Little Fox in the Forest. A little girl is always missing out on the wonderful things her family gets to see and do, just because she is the youngest and smallest. She misses seeing shooting stars because she goes to bed too early; she can't pick the first apple of autumn because she's too short; and, this morning, everyone else got to see a deer . . . except her. She goes into her backyard in search of the deer, a sugar cube tucked in her pocket. She sees a flick of brown in the orchard -- is that the deer? No, it's just the neighbor's friendly dog (Shhhhh, Nala!). Is that it by the pond? No, that's just a bird, playing in the water. Just when she's about to give up, she spots a fawn, beautiful, quiet and small . . . just like her. The Secret Fawn beautifully captures the power of nature to inspire children and shows how connecting with animals can help kids who feel left out or overlooked.
