*Swim the Fly* Don Calame 2010-08-10 Three adolescent boys with a single goal: see a real live naked girl. The result? Razor-sharp, rapid-fire, and raunchy, of course. And beyond hilarious. Fifteen-year-old Matt Gratton and his two best friends, Coop and Sean, always set themselves a summertime goal. This year's? To see a real-live naked girl for the first time -- quite a challenge, given that none of the guys has the nerve to even ask a girl out on a date. But catching a girl in the buff starts to look easy compared to Matt's other summertime aspiration: to swim the 100-yard butterfly (the hardest stroke known to God or man) as a way to impress Kelly West, the sizzling new star of the swim team. In the spirit of Hollywood's blockbuster comedies, screenwriter-turned-YA-novelist Don Calame unleashes a true ode to the adolescent male:

characters who are side-splittingly funny, sometimes crude, yet always full of heart.

**Papa, PhD** Mary Ruth Marotte 2011 A collection of personal essays from men who wrestle with what it means to be a father in academia today. Organized in three sections, the stories of the contributors depict not merely a balancing act of parenting, teaching, and writing, but also the revelatory collision and occasional fusion of competing identities. Essays in the first section, "Fathers in Theory, Fathers in Praxis," focus on challenges related to merging work and parenting. The authors contemplate to what degree we engage our children in the academy, while also allowing them to grow independently, recognizing the challenge of keeping the roles of parent and teacher distinct. The second section, "Family Made," explores fatherhood against the grain and includes narratives of single dads, fathers raising children with disabilities, biracial families, and other "non-traditional" parenting situations. "Forging New Fatherhoods," the third section, articulates the strategies created by men to "balance diapers and a doctorate" or to

reconcile fatherhood with professional ambition. The contributors' reflections reveal how fatherhood is instrumental to their successes and failures in the workplace, and demonstrate that the relationship between fatherhood and academia is a rich and legitimate subject for study.

Stella's fate is linked with the fate of two human children, Mitchell and Sarah, who don't even believe in witches. That is, they didn't believe in witches until they found themselves whisked out of their own world and into a completely different one, into the land of Wystovia. Mitchell and Sarah soon find themselves running from an evil wizard who thinks nothing of enslaving dwarves in the mountain mines, turning giants to stone, and terrorising innocent merchildren that his eagles catch frolicking in the sea. Mitchell and Sarah will need a lot of luck and the help of friends to survive.
