The Rise and Fall of the Dinosaurs Steve Brusatte 2018-04-24 "THE ULTIMATE DINOSAUR BIOGRAPHY," hails Scientific American: A thrilling new history of the age of dinosaurs, from one of our finest young scientists. "A masterpiece of science writing." —Washington Post A New York Times Bestseller • Goodreads Choice Awards Winner • A BEST BOOK OF THE YEAR: Smithsonian, Science Friday, The Times (London), Popular Mechanics, Science News "This is scientific storytelling at its most visceral, striding with the beasts through their Triassic dawn, Jurassic dominance, and abrupt demise in the Cretaceous." —Nature The dinosaurs. Sixty-six million years ago, the Earth's most fearsome creatures vanished.

Today they remain one of our planet's great mysteries. Now *The Rise and Fall of the Dinosaurs* reveals their extraordinary, 200-million-year-long story as never before. In this captivating narrative (enlivened with more than seventy original illustrations and photographs), Steve Brusatte, a young American paleontologist who has emerged as one of the foremost stars of the field—naming fifteen new species and leading groundbreaking scientific studies and fieldwork—masterfully tells the complete, surprising, and new history of the dinosaurs, drawing on cutting-edge science to dramatically bring to life their lost world and illuminate their enigmatic origins, spectacular flourishing, astonishing diversity, cataclysmic extinction, and startling living legacy. Captivating and revelatory, *The Rise and Fall of the Dinosaurs* is

a book for the ages. Brusatte traces the evolution of dinosaurs from their inauspicious start as small shadow dwellers—themselves the beneficiaries of a mass extinction caused by volcanic eruptions at the beginning of the Triassic period—into the dominant array of species every wide-eyed child memorizes today, T. rex, Triceratops, Brontosaurus, and more. This gifted scientist and writer re-creates the dinosaurs' peak during the Jurassic and Cretaceous, when thousands of species thrived, and winged and feathered dinosaurs, the prehistoric ancestors of modern birds, emerged. The story continues to the end of the Cretaceous period, when a giant asteroid or comet struck the planet and nearly every dinosaur species (but not all) died out, in the most extraordinary extinction event in earth's history, one full of lessons for today as we confront a "sixth extinction." Brusatte also recalls compelling stories from his globe-trotting expeditions during one of the most exciting eras in dinosaur

research—which he calls "a new golden age of discovery"—and offers thrilling accounts of some of the remarkable findings he and his colleagues have made, including primitive human-sized tyrannosaurs; monstrous carnivores even larger than T. rex; and paradigm-shifting feathered raptors from China. An electrifying scientific history that unearths the dinosaurs' epic saga, *The Rise and Fall of the Dinosaurs* will be a definitive and treasured account for decades to come. Includes 75 images, world maps of the prehistoric earth, and a dinosaur family tree. Collected Poems Philip Larkin 1990 Since its publication in 1988, Philip Larkin's *Collected Poems* has become essential reading on any poetry bookshelf. This new edition returns to Larkin's own deliberate ordering of his poems, presenting, in their original sequence, his four published books: *The North Ship*, *The Less Deceived*, *The Whitsun Weddings* and *High Windows*. It also includes an appendix of poems that Larkin published in other places, from his

juvenilia to his final years - some of which might have appeared in a late book, if he had lived. Preserving everything that he published in his lifetime, this new Collected Poems returns the reader to the book Larkin might have intended.

Farewell the Trumpets Jan Morris 2010-12-22
Farewell the Trumpets: An Imperial Retreat traces the momentous decline and fall of the

greatest of empires - from Queen Victoria's Diamond Jubilee to the death of Winston Churchill in 1965. With characteristic balance, this masterpiece of narrative history describes the long retreat and final dissolution of the British Empire. The Pax Britannica Trilogy includes *Heaven's Command: An Imperial Progress* and *Pax Britannica: The Climax of an Empire*. Together these three works of history trace the dramatic rise and fall of the British Empire, from the accession of Queen Victoria in 1837 to the death of Winston Churchill in 1965. Jan Morris is also world-renowned for her collection of travel writing and reportage, spanning over five decades and including such titles as *Venice*, *Coronation Everest*, *Hong Kong*, *Spain*, *A Writer's World* and most recently, *Contact!* 'The British Empire is fortunate in having found in Morris a chronicler and memorialist who can do it justice. . . Morris writes with inspired gusto, firmly rooted in erudition, which carries the book into the realms

of literature.' Sunday Telegraph 'One of our finest writers on Empire - alive to its glory, yet with a beady eye for the corruptions and failures which were at its heart, along with the dreams.' Observer

Lark Rise to Candleford Flora Thompson 2009
Flora Thompson (1876 to 1947) wrote what may be the quintessential distillation of English country life at the turn of the twentieth century. In 1945, the three books *Lark Rise* (1939), *Over to Candleford* (1941), and *Candleford Green* (1943) were published together in one elegant volume, and this new omnibus Nonpareil edition, complete with charming wood engravings, should be a cause for real rejoicing. The books have inspired two plays that ran in London, and the trilogy has been adapted into a multi-part, long-running television drama series by the BBC. The first series of ten episodes is scheduled to be syndicated on various PBS stations throughout the United States. A second series of twelve episodes, currently being broadcast in

the United Kingdom, will follow in the United States shortly after.

In Search of the Dark Ages Michael Wood
2015-05-14 Updated with the latest archaeological research new chapters on the most influential yet widely unrecognised people of the British isles, *In Search of the Dark Ages* illuminates the fascinating and mysterious centuries between the Romans and the Norman Conquest of 1066. In this new edition, Michael Wood vividly conjures some of the most important people in British history such as Hadrian, a Libyan refugee from the Arab conquests and arguably the most important person of African origin in British history, to Queen Boadicea, the leader of a terrible war of resistance against the Romans. Here too, warts and all, are the Saxon, Viking and Norman kings who laid the political foundations of England: Offa of Mercia, Alfred the Great, Athelstan, and William the Conqueror, whose victory at Hastings in 1066 marked the end of Anglo-Saxon

England. Reflecting the latest historical, textual and archaeological research, this revised and updated edition of Michael Wood's classic book overturns preconceptions of the Dark Ages as a shadowy and brutal era, showing them to be a richly exciting and formative period in the history of Britain.

The Best Short Stories of Fyodor Dostoevsky Fyodor Dostoevsky 2012-07-11 This collection, unique to the Modern Library, gathers seven of Dostoevsky's key works and shows him to be equally adept at the short story as with the novel. Exploring many of the same themes as in

his longer works, these small masterpieces move from the tender and romantic *White Nights*, an archetypal nineteenth-century morality tale of pathos and loss, to the famous *Notes from the Underground*, a story of guilt, ineffectiveness, and uncompromising cynicism, and the first major work of existential literature. Among Dostoevsky's prototypical characters is Yemelyan in *The Honest Thief*, whose tragedy turns on an inability to resist crime. Presented in chronological order, in David Magarshack's celebrated translation, this is the definitive edition of Dostoevsky's best stories.

What Shall I Read Next? F. Seymour Smith 1953-01-02 Originally published in 1953, *What Shall I Read Next?* lists nearly 2000 works published after 1900, with the compiler's own appreciatory comments on selected items. It was a companion volume to Mr Seymour Smith's *English Library*. Both books are published on behalf of the National Book League. In his introduction, explaining the scope and purpose

of the book, Mr Seymour Smith wrote: 'Some will find it useful merely as a shopping list, reminding them of books they know something about already, and serving as a remembrancer. To others, and particularly to younger readers, it may introduce books which have so far escaped their notice. It is hoped, too, that for booksellers and librarians it will have a practical use as a desk-book, for answering enquiries, for serving as a check list for stock, and for use as a reference book when memory fails'.

Love Poems Carol Ann Duffy 2010 Whether writing of longing or adultery, seduction or simple homely acts of love, Carol Ann Duffy brings to her readers the truth of each experience. Her poetry speaks of tangled, heated passion; of erotic love; fierce and hungry love; unrequited love; and of the end of love. It recognises too the way that love can make the everyday sacred. As with all her writing, these poems are alive to the sounds of modern life, but

also attuned to - and rich with - the traditions of love poetry. *Love Poems* contains some of Carol Ann Duffy's most popular poems. Always imaginative, heartfelt and direct, Duffy finds words for our experiences in love and out of love, and displays all the eloquence and skill that have made her one of the foremost poets of her time.

Agincourt Juliet Barker 2010-09-02 Agincourt took place on 25 October 1415 and was a turning-point not only in the Hundred Years War between England and France but also in the history of weaponry. Azincourt (as it is now) is in the Pas-de-Calais, and the French were famously defeated by an army led by Henry V. Henry V's stunning victory revived England's military prestige and greatly strengthened his territorial claims in France. The exhausted English army of about 9,000 men was engaged by 20,000 Frenchmen, but the limited space of battle favoured the more compact English forces. The undisciplined charges of the French combined

with the exceptional skill of the English archers contributed to a pivotal moment in European warfare. Not more than 1,600 English soldiers died; the French probably lost more than 6,000 men. Juliet Barker's shimmeringly brilliant narrative commemorates and analyses a canonical battle in British history.

Japanese Tales Royall Tyler 2012-08-22 Two hundred and twenty tales from medieval Japan—tales that welcome us into a fabulous faraway world populated by saints, scoundrels, ghosts, magical healers, and a vast assortment of deities and demons. Stories of miracles, visions of hell, jokes, fables, and legends, these tales reflect the Japanese civilization. They ably balance the lyrical and the dramatic, the ribald and the profound, offering a window into a long-vanished culture. 2009-04-30 A survey of the development of the novel since 1900, with detailed information about individual novels, themes and subgenres. **Selected Poems of Edward Thomas** Edward Thomas 2011-08-04 When Edward Thomas was killed at the Battle of Arras in 1917 his poems were largely unpublished. But in the years since his death, his work has come to be cherished for its rare, sustained vision of the natural world and as 'a mirror of England' (Walter de la Mare). This edition, drawn from Thomas's manuscripts and typescripts as well as from his published works, offers an accessible introduction to this most resonant - and relevant - of poets. 'In his lifetime, he was known and loved by a very, loving few. Now, since his death, he is known and loved by very many, and yearly this is more so. There is in his poems and unassumingly profound sense of permanence. A war came and ditched him, but his poems stay with no other wounds than those which caused them.' Dylan Thomas 'A very fine poet. And a poet all in his

own right. The accent is absolutely his own.'
Robert Frost 'The one hundred and forty poems
he wrote in the last two years of his life are a
miracle. I can think of no body of work in
English that is more mysterious.' Michael
Longley

Bomber Command Max Hastings 2013-09-15
This award-winning classic of WWII military
history chronicles the Royal Air Force's bombing
campaign against Germany. RAF Bomber
Command's air offensive against the cities of
Nazi Germany was one of the most epic
campaigns of World War II. The struggle began
meekly in 1939 with only a few
aircraft—Whitleys, Hampdens, and
Wellingtons—flying blindly through the night on
their ill-conceived bombing runs. It ended six
years later with 1,600 Lancasters, Halifaxes, and
Mosquitoes, equipped with the best of British
wartime technology, blazing whole German
cities in a single night. In Bomber Command,
originally published to critical acclaim in the UK,
famed British military historian Sir Max
Hastings offers a captivating analysis of the
strategy and decision-making behind one of
World War II's most violent episodes. With
firsthand descriptions of the experiences of
aircrew from 1939 to 1945—based on one

hundred interviews with veterans—and a harrowing narrative of the experiences of Germans on the ground during the September 1944 bombing of Darmstadt, Bomber Command is widely recognized as a classic account of one of the bloodiest campaigns in World War II history. Winner of the Somerset Maugham Prize The Stories of English David Crystal 2005-09-06 A groundbreaking history of worldwide English in all its dialects, differences, and linguistic delights: “Informative . . . distinctive . . . a spirited celebration.” —The Guardian In this “well-informed and appealing” work (Publishers Weekly), David Crystal puts aside the usual focus on “standard” English, and instead provides a startlingly original view of where the richness, creativity, and diversity of the language truly lies—in the accents and dialects of nonstandard English users all over the world. Whatever their regional, social, or ethnic background, each group has a story worth telling, whether it is in Scotland or Somerset,

South Africa or Singapore. He reminds us that for several hundred wonderful years, there was no such thing as “incorrect” English—and traces the evolution of the language from a few thousand Anglo-Saxons to the 1.5 billion people who speak it today. Moving from Beowulf to Chaucer to Shakespeare to Dickens and the present day, Crystal puts regional speech and writing at center stage, giving a sense of the social realities behind the development of English. This significant shift in perspective enables us to understand for the first time the importance of everyday, previously marginalized, voices in our language—and provides an argument too for the way English should be taught in the future. “A work of impeccable scholarship [that] could easily serve as a standard textbook for students of linguistics, but Mr. Crystal, reaching out to a more general audience, recognizes that even the most avid reader might flinch at the sections on Old Norse grammatical influence. Cleverly, he

has sprinkled the book with little digressions, set apart in boxes, that address historical mysteries, strange loanwords, interesting etymologies and the like.” —The New York Times “Learned and often provocative . . . demonstrates repeatedly that common conceptions about language are often historically inaccurate—split infinitives bothered no one until recently (likewise sentence-ending prepositions).” —Kirkus Reviews (starred review) “Simply the best introductory history of the English language family that we have. The plan of the book is ingenious, the writing lively, the exposition clear, and the scholarly standard uncompromisingly high.” —J.M. Coetzee, winner of the Nobel Prize in Literature

Philip Larkin James Booth 2014-08-28 Philip Larkin was that rare thing among poets: a household name in his own lifetime. Lines such as 'Never such innocence again' and 'Sexual intercourse began / In nineteen sixty-three' made him one of the most popular poets of the last century. Larkin's reputation as a man, however, has been more controversial. A solitary librarian known for his pessimism, he disliked exposure and had no patience with the literary circus. And when, in 1992, the publication of his Selected Letters laid bare his compartmentalised personal life, accusations of duplicity, faithlessness, racism and misogyny were levelled against him. There is, of course, no requirement that poets should be likeable or virtuous, but James Booth asks whether art and life were really so deeply at odds with each other. Can the

poet who composed the moving 'Love Songs in Age' have been such a cold-hearted man? Can he who uttered the playful, self-deprecating words 'Deprivation is for me what daffodils were for Wordsworth' really have been so boorish? A very different public image is offered by those who shared the poet's life: the women with whom he was romantically involved, his friends and his university colleagues. It is with their personal testimony, including access to previously unseen letters, that Booth reinstates a man misunderstood: not a gaunt, emotional failure, but a witty, provocative and entertaining presence, delightful company; an attentive son and a man devoted to the women he loved. Meticulously researched, unwaveringly frank and full of fresh material, Philip Larkin: Life, Art and Love definitively reinterprets one of our greatest poets.

Heaven's Command Jan Morris 2010-12-22 Jan Morris tells the epic story of the rise of the British Empire, from the accession of Queen Victoria in 1837 to her Diamond Jubilee in 1897. In this celebrated masterwork she vividly evokes every aspect of the 'great adventure', ranging from ships and botanical gardens to hill stations and sugar plantations, as she traces the impact of empire on places as diverse as Sierra Leone and Fiji, Zululand and the Canadian prairies. The

Pax Britannica Trilogy also includes Pax Britannica: The Climax of an Empire and Farewell the Trumpets: An Imperial Retreat. Together, these three works of history trace the dramatic rise and fall of the British Empire, from the accession of Queen Victoria in 1837 to the death of Winston Churchill in 1965. Treasures of 19th and 20th Century Painting

James N. Wood 1997-10-01 This Tiny Folio book highlights some of the most celebrated European and American paintings from the nineteenth and twentieth centuries that are part of the permanent collection at The Art Institute of Chicago. Included in this collection are numerous masterpieces of Realism, Impressionism, Post-Impressionism, Surrealism, Cubism, Abstract Expressionism, and other aspects of Modernism. Today a number of these paintings are revered as icons of modern Western culture, emblems of the inspired experimentation that has taken place on both sides of the Atlantic. For the last century, the Art Institute has supported the achievements of the most distinguished artists from Europe and America, acquiring and exhibiting now-beloved works of Edgar Degas, Henri Matisse, Georgia O'Keeffe, Jackson Pollock, and others. This folio

is presented as both an introduction to this collection and as a survey of the styles, subjects, and themes of Western art of the last two centuries, from the linear classicism of Jean-Auguste-Dominique Ingres through the optical studies of Claude Monet and the Impressionists; from the lyrical, colorful abstractions of Vasily Kandinsky to the fractured picture planes of Pablo Picasso and the Cubists; from the enigmatic compositions of Salvador Dali and the Surrealists to the media-appropriated Pop-art portraits of Andy Warhol. These magnificent paintings eloquently narrate the discussions of the nature of art, quality, innovation, style, and form that have defined the modern era in art history.

Shakespeare's First Folio Emma Smith

2016-03-24 This is a biography of a book: the first collected edition of Shakespeare's plays printed in 1623 and known as the First Folio. It begins with the story of its first purchaser in London in December 1623, and goes on to explore the ways people have interacted with this iconic book over the four hundred years of its history. Throughout the stress is on what we can learn from individual copies now spread around the world about their eventful lives.

From ink blots to pet paws, from annotations to wineglass rings, First Folios teem with evidence of their place in different contexts with different priorities. This study offers new ways to understand Shakespeare's reception and the history of the book. Unlike previous scholarly investigations of the First Folio, it is not concerned with the discussions of how the book came into being, the provenance of its texts, or the technicalities of its production. Instead, it reanimates, in narrative style, the histories of this book, paying close attention to the details of individual copies now located around the world - their bindings, marginalia, general condition, sales history, and location - to discuss five major themes: owning, reading, decoding, performing, and perfecting. This is a history of the book that consolidated Shakespeare's posthumous reputation: a reception history and a study of interactions between owners, readers, forgers, collectors, actors, scholars, booksellers, and the book through which we understand and

recognize Shakespeare.
