Educating About Social Issues in the 20th and 21st Centuries Vol 1 Samuel Totten 2012-04-01

Educating About Social Issues in the 20th and 21st Centuries: A Critical Annotated Bibliography, is comprised of critical essays accompanied by annotated bibliographies on a host of programs, models, strategies and concerns vis-à-vis teaching and learning about social issues facing society. The primary goal of the book is to provide undergraduate and graduate students in the field of education, professors of education, and teachers with a valuable resource as they engage in research and practice in relation to teaching about social issues. In the introductory essays, authors present an overview of their respective topics (e.g., The Hunt/Metcalf Model, Science/Technology/Science, Genocide Education). In doing so, they address, among other concerns, the following: key theories, goals, objectives, and the research base. Many also provide a set of recommendations for adapting and/or strengthening a particular model, program or the study of a specific social issue. In the annotated bibliographies accompanying the essays, authors include those works that are considered classics and foundational. They also include research- and practice-oriented articles. Due to space constraints, the annotated bibliographies generally offer a mere sampling of what is available on each approach, program, model, or concern. The book is composed of twenty two chapters and addresses an eclectic array of topics, including but not limited to the following: the history of teaching and learning about social issues; George S. Counts and social issues; propaganda analysis; Harold Rugg's textbook program; Hunt and Metcalf's Reflective Thinking and Social Understanding Model; Donald Oliver, James Shaver and Fred Newmann's Public Issues Model; Massialas and Cox' Inquiry Model; the Engle/Ochoa Decisionmaking Model; human rights education; Holocaust education; education for sustainability; economic education; global education; multicultural education; James Beane's middle level education integrated curriculum model; Science Technology Society (STS); addressing social issues in the English

classroom; genocide education; interdisciplinary approaches to incorporating social issues into the curriculum; critical pedagogy; academic freedom; and teacher education.

Social Studies for Secondary Schools Alan J.

Singer 2024-05-23 Now in its fifth edition, this

popular text for secondary social studies methods courses integrates discussions of educational goals and the nature of history and social studies with ideas for organizing social studies curricula, units, lessons, projects, and activities. Advocating an inquiry and activity-based view of social studies teaching that respects the points of view of students and teachers, it offers systematic support and open, honest advice for new teachers. Based in practice and experience, lesson ideas and materials in the book and online are designed to help new teachers address Common Core learning standards, to work in inclusive settings, and to promote literacy and the use of technology in social studies classrooms.

Chapters include highlighted Learning Activities, Teaching Activities, and Classroom Activities designed to provoke discussion and illustrate different approaches to teaching social studies and conclude with recommendations for further reading. Features of the fifth edition include: Activities called "Think it over," "Add your voice to the discussion," "Try it yourself," and "It's your classroom" at the end of each chapter New topics such as the 1619 Project controversy, Stop WOKE campaigns, academic freedom, and legal restraints on 7-12 teachers New content on teaching literacy, including writing, reading, media, computer, and oral literacies Approaches to teaching advanced placement, international baccalaureate, and dual enrollment classes Multi-disciplinary and project-based teaching that combines history and social studies with the social sciences and other academic disciplines

Links to the NCSS 3-C framework Information on becoming a professional leader through involvement in organizations like the NCSS and teacher unions Designed for undergraduate and graduate pre-service social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice. This text is supported by online materials, including discussion questions, lesson ideas, and links to lesson materials and activity sheets. You can find the resources here:

Encyclopedia of Humor Studies Salvatore

Attardo 2014-02-25 The Encyclopedia of Humor: A Social History explores the concept of humor in history and modern society in the United States and internationally. This work's scope encompasses the humor of children, adults, and even nonhuman primates throughout the ages, from crude jokes and simple slapstick to sophisticated word play and ironic parody and satire. As an academic social history, it includes the perspectives of a wide range of disciplines, including sociology, child development, social

psychology, life style history, communication, and entertainment media. Readers will develop an understanding of the importance of humor as it has developed globally throughout history and appreciate its effects on child and adult development, especially in the areas of health, creativity, social development, and imagination. This two-volume set is available in both print and electronic formats. Features & Benefits: The General Editor also serves as Editor-in-Chief of HUMOR: International Journal of Humor Research for The International Society for Humor Studies. The book's 335 articles are organized in A-to-Z fashion in two volumes (approximately 1,000 pages). This work is enhanced by an introduction by the General Editor, a Foreword, a list of the articles and contributors, and a Reader's Guide that groups related entries thematically. A Chronology of Humor, a Resource Guide, and a detailed Index are included. Each entry concludes with References/Further Readings and cross references to related entries. The Index, Reader's Guide themes, and cross references between and among related entries combine to provide robust search-and-browse features in the electronic version. This two-volume, A-to-Z set provides a general, non-technical resource for students and researchers in such diverse fields as communication and media studies, sociology and anthropology, social and cognitive psychology, history, literature and linguistics, and popular culture and folklore.
