Musical Gentrification Petter Dyndahl 2020-09-02 Musical Gentrification is an exploration of the role of popular music in processes of socio-cultural inclusion and exclusion in a variety of contexts. Twelve chapters by international scholars reveal how cultural objects of relatively lower status, in this case popular musics, are made objects of acquisition by subjects or institutions of higher social status, thereby playing an important role in social elevation, mobility and distinction. The phenomenon of musical gentrification is approached from a variety of angles: theoretically, methodologically and with reference to a number of key issues in popular music, from class, gender and ethnicity to cultural consumption, activism, hegemony and musical agency. Drawing on a wide range of case studies, empirical examples and ethnographic data, this is a valuable study for scholars and researchers of Music Education, Ethnomusicology, Cultural Studies and Cultural Sociology. An American Singing Heritage Norm Cohen 2021-12-20 This edition brings together representative transcriptions of folk songs and ballads in the British-Irish-American oral tradition that have enjoyed widespread familiarity throughout twentieth-century America. Within are the one hundred folk songs that most frequently occurred in a methodical survey of Roud's Folk Song Index, catalogues of commercial early country (or "hillbilly") recordings, and relevant archival collections. The editors selected sources for transcriptions in a broad range of singing styles and representing many regions of the United States. The selections attempt to avoid the biases of previous collections and provide a fresh group of examples, many heretofore unseen in print. The sources for the transcriptions are recordings of traditional musicians from the 1920s through the early 1940s drawn from (1) commercial recordings of "hillbilly" musicians, and (2) field recordings in the collection of the Library of Congress's Archive of American Folk Song, now part of the Archive of Folk Culture. Each transcription is accompanied by a brief contextualizing essay discussing the song's history and influence, recording and performance information (whenever available), and an examination of the tune. The edition begins with a substantive essay about the history of folk song recordings and folk song scholarship, and the nature of traditional vocal music in the United States.

Only in the Common People Paul Long 2008-12-18 "corrupt and moronic though the common people are seemingly becoming ... only in the common people can the true work be rooted, the true tradition

rediscovered and re-informed" Charles Parker, BBC Radio Producer 1959. In 1958, in his best-selling book Culture and Society, Raymond Williams identified working-class culture as 'a key issue in our own time'. Why this happened and how this subject was thought about and acted upon is the focus of this book. Paul Long investigates a variety of projects and practices that were designed to describe, validate, reclaim, rejuvenate or generate 'authentic' working-class culture as part of the re-imagining of Britishness in the context of the post-war settlement. Detailed case studies cover the wartime cultural activities of CEMA - the forerunner of the Arts Council - the Folk Revival, the impact of Richard Hoggart's The Uses of Literacy, broadcasting and the radio work of Charles Parker, Ewan MacColl and Peggy Seeger, the roots of modern arts festivals in Arnold Wesker's Centre 42 project as well as the impact of progressive education on children's writing and the politics of the English language. 'Only in the Common People: The Aesthetics of Class in Post-War Britain' examines the assumptions, idealism and prejudices behind these projects and the terms of class as 'the preoccupation of a generation'. This approach offers a historicisation of the broader ideas and debates that informed the development of the New Left and British social history and cultural theory, offering an understanding of the rise of respect for 'the common man'.

Janacek: Years of a Life Volume 1 (1854-1914) John Tyrrell 2011-03-03 John Tyrrell's biography of the Leos Janáček is the culmination of a life's work in the field. Altogether it provides the most detailed account of Janáček's life in any language and offers new views of Janáček as composer, writer, thinker and human being. Volume 1, which goes up to the outbreak of the First World War and Janáček's sixtieth birthday in the summer of 1914, consists of chronological chapters providing a straightforward account of Janáček's life year by year and another forty contextual chapters. Topics include on-going sequences ('Music as autobiography I', etc.; 'Janáček's knowledge of

opera I', etc.) and individual chapters on Janáček as a teacher, as a theorist, as an music ethnographer, on his speech-melody theory, his relationship to particularly influential operas (Tchaikovsky's Queen of Spades, Charpentier's Louise), on his mentors (such as Antonín Dvořák) and his bêtes noires (such as Karel Kovarovic). A particular feature are the specially commissioned chapters on Janáček's health by Dr Stephen Lock (one of the editors of the Oxford Illustrated Companion to Medicine, OUP 1994 and 2001, editor of the British Medical Journal, 1975-91, and a Janáček enthusiast since the early postwar broadcasts on the Third Programme), and on Janáček's earnings and finances by Dr Jirí Zahrádka (curator of the Janáček archive in Brno, and editor of authentic editions of Sárka and The Excursions of Mr Broucek).

Perspectives on Korean Music Keith Howard 2017-05-15 As Korea has developed and modernized, music has come to play a central role as a symbol of national identity. Nationalism has been stage managed by scholars, journalists and, from the beginning of the 1960s, by the state, as music genres have been documented, preserved and promoted as 'Intangible Cultural Properties'. Practitioners have been appointed 'holders' or, in everyday speech, 'Human Cultural Properties', to maintain, perform and teach exemplary versions of tradition. Over the

last few years, the Korean preservation system has become a model for UNESCO's 'Living Human Treasures' and 'Masterpieces of the Oral and Intangible Heritage of Mankind'. In this volume, Keith Howard provides the first comprehensive analysis in English of the system. He documents court music and dance, Confucian and shaman ritual music, folksongs, the professional folk-art genres of p'ansori ('epic storytelling through song') and sanjo ('scattered melodies'), and more, as well as instrument making, food preparation and liquor distilling - a good performance, after all, requires wine to flow. The extensive documentation reflects considerable fieldwork, discussion and questioning carried out over a 25-year period, and blends the voices of scholars, government officials, performers, craftsmen and the general public. By interrogating both contemporary and historical data, Howard negotiates the debates and critiques that surround this remarkable attempt to protect local and national music and other performance arts and crafts. An accompanying CD illustrates many of the music genres considered, featuring many master musicians including some who have now died. The preservation of music and other performance arts and crafts is part of the contemporary zeitgeist, yet occupies contested territory. This is particularly true when the concept of 'tradition' is invoked. Within Korea, the recognition of the fragility of indigenous music inherited from earlier times is balanced by an awareness of the need to maintain identity as lifestyles change in response to modernization and globalization. Howard argues that Korea, and the world, is a better place when the richness of indigenous music is preserved and promoted.
