Mustang and the Pony Car Revolution Michael W. R. Davis 2014-04-07 Introduced at the opening of the New York World's Fair in April 1964, the Ford Mustang was based on mechanicals from the earlier Ford Falcon compact car. It quickly established a new motorcar category—the "pony car"—which was widely copied by domestic and overseas competitors. From the outset, the Mustang represented inspired product planning and design, followed by brilliantly executed marketing. Ford's Mustang team effort used every tool in the vehicle-

marketing toolbox: clever teasers long before the new product went on sale, unprecedented publicity, simple but effective advertising, the stage at the World's Fair, movie placement, distribution of toy plastic models, and even a replica pedal car for the young drivers of the future. With a measure of luck, it became a classic case of releasing the right product at the right time, and Ford sold one million units in less than two years. *The Official Ford Mustang 5.0* Al Kirschenbaum 2000 The essential Mustang resource for rebuilding, researching, restoring, and upgrading 1979 through 1993 V-8 models, including GT, LX, Cobra, Cobra-R, police cars and limited editions

Mustang Boss 302 Donald Farr 2011-08-29 Of the legendary names in the history of the Ford Mustang, one stands apart: Boss. Originally created to homologate the new Boss 302 engine for SCCA Trans-Am racing, the Boss 302 Mustang was built in limited numbers for the street. Designed by legend Larry Shinoda, the Boss cars were easily distinguished from their less potent stable mates by their unique front and rear spoilers, rear window slats, and the omission of the standard Mustang's (fake) rear fender brake ducts. Also standard was a shaker hood scoop and bold graphics. Though Mustang performance faded to all-time lows as the 1970s rolled on, there was good news on the way. The pairing of the venerable 302 Windsor engine with the new Fox-body platform for the 1979 Mustang might not have seemed significant at the time, but it was the first edition of what would become a performance institution in the late 20th century: the 5-liter Mustang was an overwhelming force on the streets and tracks through the end of its production in 1995. With no small amount of fanfare, Ford is paying homage to its performance past with the re-introduction of the 5.0 liter powerplant in the Mustang GT for 2011.

Mustang: Fifty Years Donald Farr 2013-10-13 In the early 1960s, Lee Iacocca then director of the Ford division at Ford Motor Company convinced Henry Ford II to produce a sporty four-seat car aimed at the emerging youth market. That car, essentially a reconfigured and re-skinned Falcon economy car, became the Ford Mustang, and it changed the automotive world like no other car before or since. In *Mustang: Fifty Years*, acclaimed Mustang writer Donald Farr celebrates this unbroken lineage of muscle: its phenomenal first-year sales, the new "pony car" genre it pioneered, and subsequent models that include the Mustang GT, Shelby GT350, Shelby GT500, Super Cobra Jet, Boss 302 and Boss 429 all part of a line of American performance cars that continues on to this day.
