**The ACTFL Foreign Language Education Series** American Council on the Teaching of Foreign Languages 1976

**Issues and Innovations in Foreign Language Education** Jacqueline Benevento 1985 Studies indicate that American students have an inadequate understanding of world affairs, with implications for United States national security, business interests in foreign markets, and education in general, and specific recommendations have been made for the improvement of foreign language instruction. Foreign language education in the 1980s reflects fundamental changes in philosophy and objectives, and leaders in foreign language education agree that the fundamental objective is the ability to use language in meaningful ways. With this shift in approach, changes are necessary in program content, instructional materials, and learning activities. Innovations include elementary school programs emphasizing language use in real-life situations, immersion, exploratory programs, schools of international studies, the international baccalaureate, and instruction beyond the classroom. The global education movement in social studies has been especially relevant for foreign language study, and technological applications in foreign language instruction are being updated to emphasize communication. Another current emphasis is on assessment of language proficiency. Improvement in preservice teacher education, while indicated, has been difficult, but a variety of inservice development options are available, and professional associations are an important source of assistance. A need exists for additional research and promotion of public awareness of foreign language study. (MSE)

*Intercultural Learning in Language Education and Beyond* Troy McConachy 2022-04-12 This book provides a contemporary and critical examination of the theoretical and pedagogical impact of Michael Byram's pioneering work on intercultural communicative competence and intercultural citizenship within the field of language education and beyond. The chapters address important theoretical and empirical work on the teaching, learning, and assessment of intercultural learning, and highlight how individual language educators and communities of practice enact intercultural learning in locally appropriate ways. The book offers comprehensive, up-to-date and accessible knowledge for researchers, teachers, teacher-trainers and students.

*Introducing Applied Linguistics* Susan Hunston 2009-10-16 Introducing Applied Linguistics provides in-depth coverage of key areas in the subject, as well as introducing the essential study skills needed for academic success in the field. Introducing Applied Linguistics: • is organised into two Sections: the first introducing Key Concepts in Applied Linguistics; and the second devoted to the Study Skills students need to succeed. • features specially commissioned chapters from key authorities who address core areas of Applied Linguistics, including both traditional and more cutting edge topics, such as: grammar, vocabulary, language in the media, forensic linguistics, and much more. • contains a study skills section offering guidance on a range of skills, such as: how to structure and organise an essay, the conventions of referencing, how to design research projects, plus many more. • is supported by a lively Companion Website, which includes interactive exercises, information about the contributors and why they've written the book, and annotated weblinks to help facilitate further independent learning. Ideal for advanced undergraduate and postgraduate students of Applied Linguistics and TEFL/TESOL, Introducing Applied Linguistics not only presents selected key concepts in depth, but also initiates the student into the discourse of Applied Linguistics. Susan Hunston is Professor of English Language and Head of the School of English, Drama, and American & Canadian Studies, at the University of Birmingham, UK. David Oakey is an Assistant Professor in the Applied Linguistics Program at Iowa State University, USA. Contributing authors: Svenja Adolphs, Aileen Bloomer, Zoltán Dörnyei, Adrian Holliday, Alison Johnson, Chris Kennedy, Almut Koester, Ruby Macksoud, Kirsten Malmkjaer, Kieran O'Halloran, David Oakey, Juup Stelma, Joan Swann, Geoff Thompson, Dave Willis, Jane Willis and David Woolls.

**Foreign Language Education** Dale L. Lange 1972 This book reviews the record of the foreign language teaching profession over the past several years and examines the successes and determines the reasons for failures.

**To Advanced Proficiency and Beyond** Newel Anthony Brown 2015-01-02 Due to the pressures of globalization, American society increasingly needs citizens who can carry out Superior level functions in languages other than English. Instructors, researchers, and students of second language acquisition seek scholarly resources to help satisfy this demand. In this volume, leading experts in second language acquisition and language planning supply cutting-edge research on working memory and cognition and empirical studies of effective teaching. The theoretical and empirical work in these pages is complemented by descriptions of successful pedagogical practices that take students from the Advanced to the Superior levels and beyond. With examples ranging across a number of languages, including Russian, Chinese, and Arabic, the volume will serve a broad audience. This practical handbook will help seasoned instructors improve outcomes, while it can also be used for training new instructors in methods courses.

**Beyond the Boundaries: Changing Contexts in Language Learning**

Roberta Z. Lavine 2001-03-15 McGraw-Hill World Languages is pleased to announce our collaboration with the Northeast Conference on the Teaching of Foreign Languages in the publication of their annual conference report, commencing with the 2001 report. The chapters in *Beyond the Boundaries* reflect and comment on the new contexts for language learning that continue to emerge in this country. These changes, motivated by factors such as changing societal attitude towards language learning, globalization of U.S. economy, and increased global awareness, include a growing interest in study-abroad opportunities, community-based outreach programs, and life-long learning. *Beyond the Boundaries* is ideal for use in teacher education and methods courses, or for undergraduate and graduate seminars that deal with issues in language education or language acquisition.

*Proficiency, Curriculum, Articulation* 1985

*ACTFL 2005-2015* American Council on the Teaching of Foreign Languages 2006 The eleven chapters of this ACTFL volume approach language education from a variety of perspectives including the history and current status of language policies; language needs of our government and our international businesses; teachers, teaching, and learning; assessment; instructional technology; heritage learners; less commonly taught languages; and special learners. This volume's authors accepted the challenge of answering the following basic questions related to their topic, as well as that of expanding upon their themes. Where are we now? Where should we be? or Where could we be? How do we realize our vision of languages for all?

**ADFL Bulletin** Association of Departments of Foreign Languages (U.S.) 2000

*Developing Professional-Level Language Proficiency* Betty Lou Leaver 2002-09-26 This 2002 book examines approaches to teaching students making the transition from 'advanced' or 'superior' proficiency in a foreign language to 'near-native' ability.

**Foreign Language Proficiency in Higher Education** Paula Winke 2018-12-18 This volume comprises of chapters that deal with language proficiency relating to a wide range of language program issues including curriculum, assessment, learners and instructors, and skill development. The chapters cover various aspects of a broad-based proficiency initiative, focusing on numerous aspects of foreign language learning, including how skills develop, how assessments can inform curriculum, how learners and instructors view proficiency and proficiency assessment, and how individual use of technology furthers language learning. The concluding chapter points the way forward for issues and questions that need to be addressed.

The Relationship of Foreign Language Achievement and Proficiency to Field Dependence/independence in Beginning-level College Spanish Students

Language beyond the Classroom Jann Purdy 2018-04-18 Language beyond the Classroom is an edited volume of essays that offers detailed, how-to guides for developing, implementing, and evaluating service-learning programs for a variety of languages. Contributions here present civic-engagement programs for several languages, including French, German, Russian, and Spanish, with curricula that can be adapted to any language program. The authors of each essay engage with the growing pedagogical emphasis on experiential learning, providing theoretical and practical advice, including syllabi, for language educators. Language beyond the Classroom is a timely exploration of the variety and richness of service-learning in language instruction, and contributes to a 21st-century emphasis on community engagement and cultural contextualization in second-language pedagogy.

**Intercultural Competence in Instructed Language Learning** Paula Garrett-Rucks 2016-03-01 There is pressure on world language educators to prepare learners with 21st century skills to meet the challenges of an increasingly interconnected globalized world. The need for change was summarized in the 2007 report of the MLA Ad Hoc Committee on Foreign Languages that suggested the implementation of curricular reform by developing students' "translingual and transcultural competence" (p. 3) which allows someone "to operate between languages" (p.237). However, the integration of such a meaningful cultural component in instructed language learning is a complex topic. This book recognizes the difficulty world language educators face to achieve the goals of the MLA report, particularly at beginning levels of instruction in target language use classrooms. Accordingly, this book informs instructed language learning and teaching by bridging developmental theories from the fields of intercultural competence with second language pedagogies—particularly communicative language teaching (CLT) and literacy-based approaches—providing examples of practical applications inside the classroom and beyond. It is intended to support the many FL educators who have consistently reported that they are struggling to incorporate meaningful cultural instruction into their practice (Fox & Diaz-Greenberg 2006; Phillips & Abbott, 2011; Sercu, 2005). This book provides a framework to foster learners' deep cultural reflection at beginning levels of instruction while preserving target language use policies, bridging CLT pedagogies to intercultural communicative competence (ICC) literacy-based approaches. It starts by synthesizing prominent definitions of culture and culture learning models and then summarizes disparate sources of research findings on culture learning projects (which primarily take place at advanced levels of language learning) to the Standards-based classroom at all levels of instruction, K-16. Although research on fostering learners' intercultural competence at beginning levels of language instruction is in its infancy, it is of utmost concern given that the vast majority of U.S. language learners rarely continue to advanced levels of instruction (Zimmer-Lowe, 2008). In addition, this book challenges FL educators to advocate for their FL programs and to give greater visibility and credibility to the profession in institutional internationalization efforts. The theoretical components of this book deconstruct the connections between language, thought and culture and problematize developmental models in the IC field that neglect to consider the important role of language. This book provides K-16 FL educators with the discourse needed to 1) explain to administrators, parents and students how world language study prepares learners to compete in an increasingly global market beyond the learner's development of linguistic proficiency and 2) convince administrators of the value in and the need for world language study in order to support institutional internationalization efforts. The last chapter of this book provides guidance and suggestions on ways to expand K-12 teacher preparation programs and continuing education training to foster learners' intercultural communicative competence while preserving a Standards-based curriculum. In sum, this book is intended to 1) support all K-16 world language educators with their program advocacy and instruction; 2) serve as a reference manual or course book in teacher preparation programs; 3) serve as a reference manual or course book for research and graduate courses on the teaching and learning of languages.

**New Perspectives and New Directions in Foreign Language**

**Education** Diane W. Birckbichler 1990 The five essays in this volume address broad trends and issues in foreign language education.

"Bandwagons Revisited: A Perspective on Movements in Foreign Language Education" (Frank M. Grittner) suggests that the bandwagons flourish because of lack of standardization and centralized authority in American education. Characteristics and results of popular methods and movements are discussed. In "Language Instruction in the U.S.: Policy and Planning" (June K. Phillips), opposing views and philosophies affecting public language policy are discussed and problems in explicit and implicit language policy are examined. "Sketching the Crisis and Exploring Different Perspectives in Foreign Language Curriculum" (Dale L. Lange) looks at internal problems in foreign language education, including relationships with other fields, simplistic application of theory to practice, the role of metatheory, the cyclical nature of the field, internal professional debates, and stresses under which foreign language professionals operate. The student and his relationship to the foreign learning process is the subject of "From Student to Learner: Style, Process, and Strategy" (Vicki Galloway, Angela Labarca). Finally, "Reforming Foreign and Second Language Teacher Education" (Gilbert A. Jarvis, Sheryl V. Taylor) focuses on the need for improved teacher education in the face of current professional realities and new conceptualizations of the teacher's role. (MSE)

**Principles and Practice in Second Language Acquisition** Stephen D. Krashen 1987

Improving Foreign Language Speaking through Formative Assessment Harry Grover Tuttle 2013-10-02 Want a quick way to get your students happily conversing more in the target language? This practical book shows you how to use formative assessments to gain immediate and lasting improvement in your students' fluency. You'll learn how to: Imbed the 3-minute formative assessment into every lesson with ease Engage students in peer formative assessment successfully Teach students to give each other formative feedback Help struggling students make significant gains Create and coach small groups for differentiated speaking practice Assist students in incorporating current grammar lesson into meaningful conversations Analyze your own use of language in the classroom to avoid vague feedback that can stifle student conversations Grade oral improvement positively The authors provide formative assessments for 17 language functions with step-by-step lesson plans, aligned to ACTFL guidelines. Each plan includes a wealth of conversation and extension activities. There are ready-to-use checklists including the "I Can" log that helps students plot their own progress. Research has confirmed that when teachers use formative assessment, students can learn in six to seven months what would normally take a school year to learn. You'll find yourself using this book every day because of the gains your students will achieve in foreign language fluency.

Moving Beyond the Grammatical Syllabus Jason Martel 2021-12-06 In this concise and practical book, Martel advocates for a content-based approach to foreign language curriculum design that emphasizes communicative competence, cognitive engagement, and social justice. Intended primarily for busy teachers with limited preparation time, the book includes: An introduction to content-based instruction and its use to date in foreign language education Step-by-step strategies for designing content-based unit plans, lesson plans, and assessments A complete curricular unit that serves as a guiding example, including nine lesson plans and a summative assessment The book is accompanied by a website that will feature additional examples of content-based curricular materials across a range of languages and proficiency levels, available at <http://cbi.midcreate.net/movingbeyond>.

**Translation Excellence** Gaddis Rose Marilyn 1987-01-01 This inaugural volume transcends its archival value. Indeed, taken as a whole, the essays pose a provocation for both translation practice and theory. The criteria proposed and the issues examined remain the same. Absolute excellence, however, continues to move beyond the horizon, and changes in technology and taste inevitably change both the implementation of the criteria and the evaluation of the issues. The attendant ambiguities may stem from a parenthesis in the volume: does excellence lie in the "X-

factor that elusive quality which renders one translation clearly superior to others"?

**The Routledge Handbook of Language Testing** Glenn Fulcher  
2013-10-15 Winner of the SAGE/ILTA Book Award 2016 The Routledge Handbook of Language Testing will provide a comprehensive account of the area of language assessment and testing. Written by leading specialists from around the world, this volume brings together approximately 35 authoritative articles (around 8000 words each). The proposed outline for the Handbook (below) is divided into ten sections. The section titles reflect the contents of their Language Testing and Assessment -textbook in our RAL series and sketch a useful overview of the discipline. Each chapter has been carefully selected to relate to key issues raised in the respective topic, providing additional historical background, critical discussion, reviews of key research methods, and an assessment of what the future might hold.

**Creating Contexts for Second Language Acquisition** Arnulfo G. Ramirez 1995

**Critical Issues in Foreign Language Instruction** Ellen S. Silber  
2013-09-13 First Published in 1991. This is Volume 22 of the Source Books on Education series. Politically speaking the study of foreign languages and cultures helps maintain a strong competitive position in an increasingly global marketplace. It was hard to imagine in 1957 that the launching of a Soviet rocket would push the United States into its greatest investment ever in foreign language education. As American policy-makers attempted to play catch-up with our brothers and sisters behind the iron curtain, this country infused federal dollars into extensive foreign language teacher training and the creation of new foreign language educational programs. As suddenly as federal support was given, however, so was it taken away; and its withdrawal was responsible for one of the darkest periods in the history of foreign language education in America. Drawing on the expertise of a number of the nation's most experienced and creative foreign language educators, this volume, edited by Ellen S. Silber, addresses some of the crucial problems we face in foreign language education today.

**Defining and Developing Proficiency** Heidi Byrnes 1987

*Modern Media in Foreign Language Education* William Flint Smith 1987  
This book presents essays on the use of educational technology in language teaching, focusing on the use of computer-assisted language learning (CALL).

**A Challenge to Change** 1999

*Using Linguistically Appropriate Practice* Roma Chumak-Horbatsch  
2019-08-08 The presence of students for whom the school language is not their first language creates unique challenges and opportunities for teachers. This book provides an accessible guide to multilingual teaching using Linguistically Appropriate Practice (LAP) in diverse classrooms worldwide. It is firmly grounded in the latest research on multilingual learners and takes a realistic approach to teaching in linguistically diverse schools today. The author argues that successful multilingual teaching is an option for all teachers, and that it has benefits for every child in the classroom, as well as the wider school community. The book:  
- provides profiles of LAP in action around the world;  
- explains the relationship between theory and multilingual practice;  
- lays out the characteristics of the LAP teacher and the LAP classroom;  
- discusses challenges that have been identified by teachers using LAP in their classrooms;  
- provides a step-by-step guide to implementing and enriching LAP;  
- includes resources to support multilingual teaching and learning. This book is an invaluable support and inspiration for practising teachers and trainee teachers. It will help them transform their classrooms into multilingual environments where all children have equal opportunity to participate, learn and grow.
