Crayons and iPads Debra Harwood 2017-04-24 Crayons and iPads examines the use of digital technology in the early stages of child development, and the way in which learning techniques have evolved in classrooms across the world. Harwood explores how tablets can be used to provoke, ignite and excite children's interest in the world around them, performing as accessible learning and instructional tools, and argues that it is through this engagement with technology that new discoveries are made and learning takes place. Guiding readers through research-based insights into children's thinking, interactions and being, Crayons and iPads offers an important starting point upon which to build play and inquiry-based learning opportunities within early learning programs, and will appeal to both educators and researchers across child development, early years education, and digital literacy.

The Wizard of Osborne Nuri Shafii 2005-04 The Wizard of Osborne takes place in a Basic Combat Training camp in Fort Knox during the harsh fall and winter of 1977, when Kentucky remained under a few feet of snow between November and March. Osborne lives in his own slow and distant world. His hanging lower lip makes him appear idiotic. Other soldiers ridicule him. They think of him as "touched by the spirits," or just dumb and lazy, while the rest of the men are convinced that Osborne is bucking for an early discharge. Although he takes pride in the American sense of fair play, he becomes dismayed at the ongoing bigotry and exclusion in the ranks. Osborne has a unique talent of making statuettes, busts, and reliefs with ice and snow of everything he sees. He makes ice-figures of his drill sergeants, his friends, birds on a chain link fence, and even a poodle to cheer up a fellow soldier. In the end, Osborne becomes the boot camp hero simply by building a grand scale monument with ice and snow, and saves the day.

Reading Joss Whedon Rhonda V. Wilcox 2014-05-16 In an age when geek chic has come to define mainstream pop culture, few writers and producers inspire more admiration and response than Joss Whedon. From Buffy the Vampire Slayer to Much Ado About Nothing, from Dr. Horrible's Sing-Along Blog to The Avengers, the works of Whedon have been the focus of increasing academic attention. This collection of articles represents some of the best work covering a wide array of topics that clarify Whedon's importance, including considerations of narrative and visual techniques, myth construction, symbolism, gender, heroism, and the business side of television. The editors argue that Whedon's work is of both social and aesthetic significance; that he creates "canonical television." He is a master of his artistic medium and has managed this success on broadcast networks rather than on cable. From the focus on a single episode to the exploration of an entire season, from the discussion of a particular narrative technique to a recounting of the history of Whedon studies, this collection will both entertain and educate

those exploring Whedon scholarship for the first time and those planning to teach a course on his works.

creeps. Soon Will is part of the act and Clarrie is scared that Frozen Billy is taking over their family. Can she find the determination and courage to break free from their uncle and help her family set off for a new life in Australia?

Frozen Billy Anne Fine 2010-08-24 'I hate Frozen Billy - his painted, staring wooden eyes, the way his eyelids click when Uncle Len pulls a string, his long thin legs and his bright red wooden mouth . . . ' Clarrie and Will live with their Uncle Len - a brilliant ventriloquist in the nearby music hall. But though Len loves his act almost as much as he loves his beer, Top Billing is out of his grasp until Will thinks up a way to double the drama with a new act and some extraordinary new patter that he and Frozen Billy can share on stage. It's a grand idea, hatched in hope and excitement. But, to Clarrie's horror, soon it begins to turn terribly sour . . . Anne Fine's novel combines her trademark humour, engaging characters and flawless prose to produce a spooky adventure set in the late-Victorian world of the music hall.

Thanks Billy Grinslott & Kinsey Marie Books *Making Friends with Billy Wong* Augusta Scattergood 2016-08-30 A powerful story set in small-town Arkansas in the 1950s that illuminates the friendship surrounding the arrival of Chinese immigrants in the segregated south. Azalea is not happy about being dropped off to look after Grandmother Clark. Even if she didn't care that much about meeting the new sixth graders in her Texas hometown, those strangers seem much preferable to the ones in Paris Junction. Talk about troubled Willis DeLoach or gossipy Melinda Bowman. Who needs friends like these! And then there's Billy Wong, a Chinese-American boy who shows up to help in her grandmother's garden. Billy's great-aunt and uncle own the Lucky Foods grocery store, where days are long and some folks aren't friendly. For Azalea, whose family and experiences seem different from most everybody she knows, friendship has never been easy. Maybe this time, it will be. Inspired by the true accounts of Chinese immigrants who lived in the American South during the civil rights era, these side by side stories--one in Azalea's prose, the other in Billy's poetic narrative--create a poignant novel and reminds us that friends can come to us in the most unexpected ways.

5 Survivors Tracy Stecker 2011-09-06 First-person accounts by five PTSD survivors bring hope to the millions suffering from but not yet diagnosed with this affliction—and their loved ones. First-person accounts by five PTSD survivors bring hope to the millions suffering from but not yet diagnosed with this affliction--and their loved ones. Each year millions of people are afflicted by Post-Traumatic Stress Disorder (PTSD). Most struggle to simply make it through the day as sights, sounds, and smells bring their life's most harrowing experience front and center, to be relived again and again. And many are unaware of the root problem of these symptoms or are unwilling to admit one exists. Through moving firsthand accounts 5 Survivors sheds an intimate light on the impact of PTSD on three veterans of war, a survivor of Hurricane Katrina, and a victim of childhood sexual abuse. With courage and honesty, they tell their stories of trauma, revealing the struggles they faced later in life, and how they eventually worked toward positive change and healing. With the guidance of PTSD expert and researcher Tracy Stecker, Ph.D. who outlines the symptoms and progress of each survivor, those living untreated with PTSD may see themselves in these stories, realize

they are not alone, and take action to get help. Friends and family of those who have been greatly impacted by trauma will gain a more intimate understanding of a loved one's struggle and pain. About the author Tracy Stecker, Ph.D., is a psychologist at the Dartmouth Psychiatric Research Center. She developed a curriculum titled Using a Brief Intervention to Motivate Clients to Get Help in collaboration with Hazelden. Her focus is on treating veterans of Iraq and Afghanistan returning with PTSD and/or substance abuse issues. Several of these projects have been funded by the National Institute of Mental Health and the National Institute for Alcoholism and Alcohol Abuse.
