The Error World Simon Garfield 2009 From the author of *Mauve*, an obsessively readable memoir that brings the mania for stamp collecting to life From the Penny Red to the Blue Mauritius, generations of collectors have been drawn to the mystique of rare stamps. Once a widespread pastime of schoolboys, philately has increasingly become the province of older men obsessed with the shrewd investment, the once-in-a-lifetime find, the one elusive beauty that will complete a collection and satisfy an unquenchable thirst. As a boy, Simon Garfield

collected errors--rare pigment misprints that create ghostly absences in certain stamps. When this passion reignited in his mid-forties, it consumed him. In the span of a couple of years he amassed a collection of errors worth upwards of forty thousand pounds, pursuing not only this secret passion, but a romantic one as his marriage disintegrated. In this unique memoir, Simon Garfield twines the story of his philatelic obsession with an honest and engrossing exploration of the rarities and absences that both limit and define us. The end result is a thoughtful, funny, and enticing meditation on the impulse to possess.

Postage stamps have evolved quite a bit since Great Britain's 1840 Penny Black, the world's

first adhesive postage stamp.

With so many stamps to collect from so many countries, a philatelist's choices are virtually unlimited--which can be both a blessing and a curse, especially if you're a newcomer to the art of stamp collecting. Interested in starting a stamp collection, but not sure where to begin? This is the guide for you. Expert Richard Sine fills you in on everything you need to know about selecting, finding, buying, presenting and caring for stamps. An internationally recognized collector and author on stamp collecting (he used to write the New York Times stamp column) he also has much wisdom to impart to collectors who've been at it for a while.
