China's Great Train Abrahm Lustgarten 2009-05-12 A vivid account of China's unstoppable quest to build a railway into Tibet, and its obsession to transform its land and its people In the summer of 2006, the Chinese government fulfilled a fifty-year plan to build a railway into Tibet. Since Mao Zedong first envisioned it, the line had grown into an imperative, a critical component of China's breakneck expansion and the final maneuver in strengthening China's grip over this remote and often mystical frontier, which promised rich resources and geographic supremacy over South Asia. Through the lives of the Chinese and Tibetans swept up in the project, Fortune magazine writer Abrahm Lustgarten explores the "Wild West" atmosphere of the Chinese economy today. He follows innovative Chinese engineer Zhang Luxin as he makes the train's route over the treacherous mountains and permafrost possible (for now), and the tenacious Tibetan shopkeeper Rinzen, who struggles to hold on to his business in a boomtown that increasingly favors the Han Chinese. As the railway—the highest and steepest in the world—extends to Lhasa, and China's "Go West" campaign delivers waves of rural poor eager to make their fortunes, their lives and communities fundamentally change, sometimes for good, sometimes not. Lustgarten's book is a timely, provocative, and absorbing first-hand account of the Chinese boom and the promise and costs of rapid development on the country's people.

Tibet Phil Borges 2011 "Photographer Phil Borges introduces Tibetans as individuals rather than as an anonymous element of a remote ethnic group. His first-hand interviews and portraits illustrate how dramatic development, climate change, and the deep devotion of the people are interacting to transform Tibetan culture—for better or for worse."--Jacket.

Buddhism in Contemporary Tibet Melvyn C. Goldstein 1998 Following the upheavals of the Cultural Revolution, the People's Republic of China gradually permitted the renewal of religious activity. Tibetans, whose traditional religious and cultural institutions had been decimated during the preceding two decades, took advantage of the decisions of 1978 to begin a Buddhist renewal that is one of the most extensive and dramatic examples of religious revitalization in contemporary China. The nature of that revival is the focus of this book. Four leading specialists in Tibetan anthropology and religion conducted case studies in the Tibet autonomous region and among the Tibetans of Sichuan and Qinghai provinces. There they observed the revival of the Buddhist heritage in monastic communities and among laypersons at popular pilgrimages and festivals. Demonstrating how that revival must contend with tensions between the Chinese state and aspirations for greater Tibetan autonomy, the authors discuss ways that Tibetan Buddhists are restructuring their religion through a complex process of social, political, and economic adaptation. Buddhism has long been the main source of Tibetans' pride in their culture and country. These essays reveal the vibrancy of that ancient religion in contemporary Tibet and also the problems that religion and Tibetan culture in general are facing in a radically altered world.

Sky Burial Blake Kerr 1997-01-01 This is a riveting firsthand account by Blake Kerr, an American doctor who inadvertently walked into one of the grimmest scenes of political oppression in the world. Kerr was visiting

Tibet with his old college friend John Ackerly. They were enjoying the sights and sounds of Lhasa, the capital of Tibet, and hitchhiking to Everest, where they "humped loads" for an American expedition assaulting the mountain. Upon returning to Lhasa, Kerr and Ackerly witnessed a series of demonstrations by Tibetan monks greater than anything witnessed by foreigners since China entered Tibet in 1949.

The Snow Lion and the Dragon Melvyn C. Goldstein 1997-11-03 Tensions over the "Tibet Question"—the political status of Tibet—are escalating every day. The Dalai Lama has gained broad international sympathy in his appeals for autonomy from China, yet the Chinese government maintains a hard-line position against it. What is the history of the conflict? Can the two sides come to an acceptable compromise? In this thoughtful analysis, distinguished professor and longtime Tibet analyst Melvyn C. Goldstein presents a balanced and accessible view of the conflict and a proposal for the future. Tibet's political fortunes have undergone numerous vicissitudes since the fifth Dalai Lama first ascended to political power in Tibet in 1642. In this century, a forty-year period of de facto independence following the fall of the Qing dynasty in 1911 ended abruptly when the Chinese Communists forcibly incorporated Tibet into their new state and began the series of changes that destroyed much of Tibet's traditional social, cultural, and economic system. After the death of Mao in 1976, the rise to power of Deng Xiaoping quickly produced a change in attitude in Beijing and a major initiative to negotiate with the Dalai Lama to solve the conflict. This failed. With the death of Deng Xiaoping, the future of Tibet is more uncertain than ever, and Goldstein argues that the conflict could easily erupt into violence. Drawing upon his deep knowledge of the Tibetan culture and people, Goldstein takes us through the history of Tibet, concentrating on the political and cultural negotiations over the status of Tibet from the turn of the century to the present. He describes the role of Tibet in Chinese politics, the feeble and conflicting responses of foreign governments, overtures and rebuffs on both sides, and the nationalistic emotions that are inextricably entwined in the political debate.

Ultimately, he presents a plan for a reasoned compromise, identifying key aspects of the conflict and appealing to the United States to play an active diplomatic role. Clearly written and carefully argued, this book will become the definitive source for anyone seeking an understanding of the Tibet Question during this dangerous turning point in its turbulent history.

Greater Tibet P. Christiaan Klieger 2015-12-24 The concept of Greater Tibet has surfaced in the political and academic worlds in recent years. It is based in the inadequacies of other definitions of what constitutes the historical and modern worlds in which Tibetan people, ideas, and culture occupy. This collection of papers is inspired by a panel on Greater Tibet held at the XIIIth meeting of the International Association of Tibet Studies in Ulaan Baatar in 2013. Participants included leading Tibet scholars, experts in international law, and Tibetan officials. Greater Tibet is inclusive of all peoples who generally speak languages from the Tibetan branch of the Tibeto-Burman family, have a concept of mutual origination, and share some common historical narratives. It includes a wide area, including peoples from the Central Asian Republics, Pakistan, India, Nepal Bhutan, Bangladesh, Myanmar, People's Republic of China, Mongolia, Russia, and Tibetan people in diaspora abroad. It may even include practitioners of Tibetan Buddhism who are not of Tibetan origin, and Tibetan peoples who do not practice Buddhism. Most of this area corresponds to the broad expansion of Tibetan culture and political control in the 7th-9th centuries AD, and is thus many times larger than the current Tibet Autonomous Region in China—the Tibetan "culture area." As a conceptual framework, Greater Tibet stands in contrast to Scott's concept of Zomia for roughly the same region, a term which defines an area of highland Asia and Southeast Asia characterized by disdain for rule from distant centers, failed state formation, anarchist, and "libertarian" individual proclivities.

[Tibet, Tibet](#) Patrick French 2009-09-09 At different times in its history Tibet has been renowned for pacifism and martial prowess,

enlightenment and cruelty. The Dalai Lama may be the only religious leader who can inspire the devotion of agnostics. Patrick French has been fascinated by Tibet since he was a teenager. He has read its history, agitated for its freedom, and risked arrest to travel through its remote interior. His love and knowledge inform every page of this learned, literate, and impassioned book. Talking with nomads and Buddhist nuns, exiles and collaborators, French portrays a nation demoralized by a half-century of Chinese occupation and forced to depend on the patronage of Western dilettantes. He demolishes many of the myths accruing to Tibet—including those centering around the radiant figure of the Dalai Lama. Combining the best of history, travel writing, and memoir, *Tibet, Tibet* is a work of extraordinary power and insight.

Contemporary Tibet Barry Sautman 2017-03-02 The subject of Tibet is highly controversial, and Tibet, as a political entity, is defined differently from source to source and audience to audience. The editors of this path-breaking, multidisciplinary study have gathered some of the leading scholars in Tibetan and ethnic studies to provide a comprehensive analysis of the Tibet question. "Contemporary Tibet" explores essential themes and issues concerning modern Tibet. It presents fresh material from various political viewpoints and data from original surveys and field research. The contributors consider such topics as representations and sovereignty, economic development and political conditions, the exile movement and human rights, historical legacies and international politics, identity issues and the local society. The individual chapters provide historical background as well as a general framework to examine Tibet's present situation in world politics, the relationship with China and the West, and prospects for the future.

Tibetan Ritual Jose Ignacio Cabezon 2009-12-08 Ritual is one of the most pervasive religious phenomena in the Tibetan cultural world. Despite its ubiquity and importance to Tibetan cultural life, however, only in recent years has Tibetan ritual been given the attention it deserves. This is the first scholarly collection to focus on this important subject. Unique in its historical, geographical and disciplinary breadth, this book brings together eleven essays by an international cast of scholars working on ritual texts, institutions and practices in the greater Tibetan cultural world - Tibet, Nepal, Bhutan, and Mongolia. While most of the chapters focus on Buddhism, two deal with ritual in Tibet's indigenous Bon religion. All of the essays are original to this volume. An extensive introduction by the editor provides a broad overview of Tibetan ritual and contextualizes the chapters within the field of Buddhist and Tibetan studies. The book should find use in advanced undergraduate courses and graduate seminars on Tibetan religion. It will also be of interest to students and scholars of ritual generally.

The Culture of the Book in Tibet Kurtis R. Schaeffer 2014-10-07 The history of the book in Tibet involves more than literary trends and trade routes. Functioning as material, intellectual, and symbolic object, the book has been an instrumental tool in the construction of Tibetan power and authority, and its history opens a crucial window onto the cultural, intellectual, and economic life of an immensely influential Buddhist society. Spanning the fourteenth to the eighteenth centuries, Kurtis R. Schaeffer envisions the scholars and hermits, madmen and ministers, kings and queens who produced Tibet's massive canons. He describes how Tibetan scholars edited and printed works of religion, literature, art, and science and what this indicates about the interrelation of material and cultural practices. The Tibetan book is at once the embodiment of the Buddha's voice, a principal means of education, a source of tradition and authority, an economic product, a finely crafted aesthetic object, a medium of Buddhist written culture, and a symbol of the religion itself. Books stood at the center of debates on the role of libraries in religious institutions, the relative merits of oral and written teachings, and the economy of religion in Tibet. A meticulous study that draws on more than 150 understudied Tibetan sources, *The Culture of the Book in Tibet* is the first volume to trace this singular history. Through a single object, Schaeffer accesses a greater understanding of the cultural and social history of the Tibetan plateau.

Tibet's Great Yogi Milarepa W.Y. Evans-Wentz 2002-06-01 Despite the many sectarian differences among Tibetan Buddhists, they all unite in holding the Great Yogi Milarepa in the highest reverence and esteem, considering him the prototype of a great saint. However a disciple of Milarepa, suspecting that his teacher may have been a fully enlightened buddha, once asked the religious leader his true identity. Not flattered, Milarepa explained that there could be no greater insult than to suggest that he was an emanation of a buddha.

Undeclared Paljor Thondup 2021-01-26 The active resistance to the Chinese invasion of Tibet coalesced into a guerrilla army of freedom fighters, the Chushi Gangdruk. In the 1950s, China's Red Army and communist cadres systematically slaughtered hundreds of thousands of Tibetans in Amdo and Kham, seeking to enslave the survivors. The freedom fighters waged war against overwhelming odds, losing to greater numbers, airplanes, and artillery. Fleeing to central Tibet, they helped their beloved Dalai Lama escape the 1959 massacre of Lhasa, to speak for his people in exile. Paljor Thondup's diehard Khampa family also rose up to repel the invaders. They fought their way west through the whole thousand-mile length of Tibet, withdrawing to sanctuary in the Mustang region of Nepal. The Chushi Gangdruk, with modest CIA support, also regrouped their guerrilla army in Mustang. Eventually, certain new leaders became corrupt and gave up the fight, content with inaction to keep supplies coming. They hated the ongoing heroic raiding by Paljor's family, and finally slaughtered them all — only Paljor and his close cousin Dupa survived. Hearing his father's dying wishes, Paljor put down his weapons and changed his life, migrating to India to seek help from the Dalai Lama. Paljor and Dupa then began a modern education, to continue the struggle for Tibet as businessmen. Inspired by the Dalai Lama, Paljor renounced his tribal duty of blood vengeance, became a peace warrior, and conquered the inner enemy. He brings help to Tibet in its agony, sustaining the livelihoods of his long-suffering compatriots.

The Beggar Lama Tenzin Jinba 2023-10-24 The Beggar Lama is the story of the Gyalrong Kuzhap, a Tibetan Buddhist polymath and reincarnated lama who has led a remarkable life through the vicissitudes of the twentieth century. Born in 1930 in Tsanlha, Gyalrong, on the easternmost fringes of the Himalayan-Tibetan Plateau, he would go on to become a monk, a Communist official, a professor of Tibetan studies, and a leader in the Tibetan cultural survival movement in China. Drawing on hundreds of hours of in-depth and open-ended conversations over more than a decade, Tenzin Jinba presents the Gyalrong Kuzhap's life story. The Beggar Lama chronicles his journeys—from Gyalrong to Lhasa, from steadfast Communist to critic of the Chinese regime, from scholar to activist—painting a compelling portrait of an influential and unconventional figure. In so doing, the book shows how the Gyalrong Kuzhap's tale intertwines with larger social and political developments, providing a wide-ranging history of Tibet, the Sino-Tibetan borderlands, and China over the past century. The Beggar Lama shares the Gyalrong Kuzhap's insightful and often critical views on Tibetan cultural and religious institutions, the Chinese Communist Party's social and political agendas, Tibetan studies in China, and the prospects for Tibetan cultural rebirth. Above all, it is a story of hope in dark times, as the Gyalrong Kuzhap seeks with his "last breath" to prevent Tibetan culture and memory from vanishing.

The Book of Tibetan Elders Sandy Johnson 1996 "A historically isolated people, the Tibetans have now indeed come to the land of the red man, and nearly every other country on earth. When the Chinese invaded the country in 1959 and proceeded to destroy the ancient-wisdom culture as well as nearly a sixth of the population, hundreds of thousands of Tibetans fled to India and parts west. In the 1980s, the prophecy was fulfilled, and the Dalai Lama, exiled leader of Tibet, met with Hopi and other American Indian elders in an effort to reunite the brothers." "Tibet's spiritual elders are dying off, and it is with them that so many of the secrets of survival lie. They are the ones who can find by touching someone's wrist what our medicine cannot detect; they saw the empty spaces of the atom before science considered the concept of subatomic particles; they know how to realign even severe emotional imbalances without drugs or therapy; they know what plants heal us (they have catalogued more than two thousand) and how to save them from destruction; they predicted the demise of their own country at the hands of the Chinese; they saw the coming of AIDS almost ten centuries ago. These people are dying off, and with them, the wisdom we need to make it through the next century and beyond." "After the Chinese occupation of their country, many Tibetan elders were killed in reeducation camps. Many survived, however, to escape what has now become a brutally oppressive environment. Sandy Johnson traveled around the world gathering the life stories and teachings of Tibetan doctors, the state oracle, the previous Dalai Lama's tailor, the great women masters - the entire range of the culture. An astrologer offers to produce Sandy's chart, including the date of her death; a stone carver shows her the rocks with prayers painted on them that he places in the river at the end of every day so that the water may carry blessings to everything it touches; Johnson meets a woman of indeterminate age who lives her life in a cave praying that people might be less distracted by material things and learn to care for each other again. At the same time, Johnson herself is on a spiritual quest, and interwoven with the stories of the elders comes her own physical healing as well as a long-awaited reconciliation with her family. The book is filled with predictions made by the Tibetan elders about the course of Johnson's life - most of which have already come true."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
