Erdogan's Empire Soner Cagaptay 2019-09-19
Gradually since 2003, Turkey's autocratic leader Recep Tayyip Erdogan has sought to make Turkey a great power -- in the tradition of past Turkish leaders from the late Ottoman sultans to Ataturk, the founder of modern Turkey. Here the leading authority Soner Cagaptay, author of *The New Sultan* -- the first biography of President Erdogan -- provides a masterful overview of the power politics in the Middle East and Turkey's place in it. Erdogan has picked an unorthodox model in the context of recent Turkish history, attempting to cast his country as a stand-alone Middle Eastern power. In doing so Turkey has broken ranks with its traditional Western allies,

including the United States and has embraced an imperial-style foreign policy which has aimed to restore Turkey's Ottoman-era reach into the Arabian Middle East and the Balkans. Today, in addition to a domestic crackdown on dissent and journalistic freedoms, driven by Erdogan's style of governance, Turkey faces a hostile world. Ankara has nearly no friends left in the Middle East, and it faces a threat from resurgent historic adversaries: Russia and Iran. Furthermore, Turkey cannot rely on the unconditional support of its traditional Western allies. Can Erdogan deliver Turkey back to safety? What are the risks that lie ahead for him, and his country? How can Turkey truly become a great power, fulfilling a dream shared by many Turks, the sultans, Ataturk, and Erdogan

himself?

M. Mole 2021-03-08 Europe is a popular destination for LGBTQ people seeking to escape discrimination and persecution. Yet, while European institutions have done much to promote the legal equality of sexual minorities and a number of states pride themselves on their acceptance of sexual diversity, the image of European tolerance and the reality faced by LGBTQ migrants and asylum seekers are often quite different. To engage with these conflicting

discourses, *Queer Migration and Asylum in Europe* brings together scholars from politics, sociology, urban studies, anthropology and law to analyse how and why queer individuals migrate to or seek asylum in Europe, as well as the legal, social and political frameworks they are forced to navigate to feel at home or to regularise their status in the destination societies. The subjects covered include LGBTQ Latino migrants' relationship with queer and diasporic spaces in London; diasporic consciousness of queer Polish, Russian and Brazilian migrants in Berlin; the role of the Council of Europe in shaping legal and policy frameworks relating to queer migration and asylum; the challenges facing bisexual asylum seekers; queer asylum and homonationalism in the Netherlands; and the role of space, faith and LGBTQ organisations in Germany, Italy, the UK and France in supporting queer asylum seekers. **Picturing the True Form** Shih-shan Susan Huang 2020-03-17 "Picturing the True Form

investigates the long-neglected visual culture of Daoism, China's primary indigenous religion, from the tenth through thirteenth centuries with references to both earlier and later times. In this richly illustrated book, Shih-shan Susan Huang provides a comprehensive mapping of Daoist images in various media, including Dunhuang manuscripts, funerary artifacts, and paintings, as well as other charts, illustrations, and talismans preserved in the fifteenth-century Daoist Canon. True form (zhenxing), the key concept behind Daoist visuality, is not static, but entails an active journey of seeing underlying and secret phenomena. This book's structure mirrors the two-part Daoist journey from inner to outer. Part I focuses on inner images associated with meditation and visualization practices for self-cultivation and longevity. Part II investigates the visual and material dimensions of Daoist ritual. Interwoven through these discussions is the idea that the inner and outer mirror each other and the boundary

demarcating the two is fluid. Huang also reveals three central modes of Daoist symbolism—aniconic, immaterial, and ephemeral—and shows how Daoist image-making goes beyond the traditional dichotomy of text and image to incorporate writings in image design. It is these particular features that distinguish Daoist visual culture from its Buddhist counterpart."

Be Always Converting, be Always Converted

Rob Wilson 2009 Wilson's reconceptualization of the American project of conversion begins with the story of Henry 'Ōpūkaha'ia, the first Hawaiian convert to Christianity, torn from his Native Pacific homeland and transplanted to New England. Wilson argues that 'Ōpūkaha'ia's conversion is both remarkable and prototypically American.

Cult of the Spiral Dawn Peter Fehervari 2018-03-20 Intrigue and horror abound in a tale of dark cults and the corrupting power of false faith. The galaxy is vast, and worship of the God-Emperor by His faithful takes many forms. The Spiral Dawn is one of the countless sanctioned sects of the Imperial cult. When a gathering of Spiralytes makes their holy pilgrimage to the sect's home world, Redemption, instead of the haven of enlightenment they are expecting, they

find a soot-choked hellhole where their order's founders and an unorthodox regiment of Astra Militarum maintain an uneasy coexistence. As tensions between the pilgrims and the superstitious Guardsmen mount, the new arrivals begin to unravel the dark secrets concealed at the heart of their faith... This paperback edition contains a bonus short story, 'Cast a Hungry Shadow', available in print for the first time.

Singled Out Andrew Maraniss 2021-03-02
*" [An] excellent exercise in narrative nonfiction."
--Booklist (starred review) From New York Times bestselling author Andrew Maraniss comes the remarkable true story of Glenn Burke, a "hidden figure" in the history of sports: the inventor of the high five and the first openly gay MLB player. Perfect for fans of Steve Sheinkin and

Daniel James Brown. On October 2nd, 1977, Glenn Burke, outfielder for the Los Angeles Dodgers, made history without even swinging a bat. When his teammate Dusty Baker hit a historic home run, Glenn enthusiastically congratulated him with the first ever high five. But Glenn also made history in another way--he was the first openly gay MLB player. While he did not come out publicly until after his playing days were over, Glenn's sexuality was known to his teammates, family, and friends. His MLB career would be cut short after only three years, but his legacy and impact on the athletic and LGBTQIA+ community would resonate for years to come. New York Times bestselling author Andrew Maraniss tells the story of Glenn Burke: from his childhood growing up in Oakland, his journey to the MLB and the World Series, the joy in discovering who he really was, to more difficult times: facing injury, addiction, and the AIDS epidemic. Packed with black-and-white photographs and thoroughly researched, never-

before-seen details about Glenn's life, *Singled Out* is the fascinating story of a trailblazer in sports--and the history and culture that shaped the world around him. Praise for *Singled Out*: "A compelling narrative . . . This is a meticulously researched history of the ways queer culture in the '70s intersected with baseball, Blackness, and larger culture wars, with one man at their center." --Kirkus Reviews

[The Young Turks' Crime Against Humanity](#)

Taner Akçam 2013-08-04 An unprecedented look at secret documents showing the deliberate nature of the Armenian genocide. Introducing new evidence from more than 600 secret Ottoman documents, this book demonstrates in unprecedented detail that the Armenian Genocide and the expulsion of Greeks from the late Ottoman Empire resulted from an official effort to rid the empire of its Christian subjects. Presenting these previously inaccessible documents along with expert context and analysis, Taner Akçam's most authoritative work to date goes deep inside the bureaucratic machinery of Ottoman Turkey to show how a dying empire embraced genocide and ethnic cleansing. Although the deportation and killing of Armenians was internationally condemned in 1915 as a "crime against humanity and civilization," the Ottoman government initiated a policy of denial that is still maintained by the Turkish Republic. The case for Turkey's "official history" rests on documents from the Ottoman

imperial archives, to which access has been heavily restricted until recently. It is this very source that Akçam now uses to overturn the official narrative. The documents presented here attest to a late-Ottoman policy of Turkification, the goal of which was no less than the radical demographic transformation of Anatolia. To that end, about one-third of Anatolia's 15 million people were displaced, deported, expelled, or massacred, destroying the ethno-religious diversity of an ancient cultural crossroads of East and West, and paving the way for the Turkish Republic. By uncovering the central roles played by demographic engineering and assimilation in the Armenian Genocide, this book will fundamentally change how this crime is understood and show that physical destruction is not the only aspect of the genocidal process.

Waterbury Irish Janet Maher 2015-09-07 The hard work of nineteenth-century Irish immigrants in Waterbury helped place the city on the map as the Brass Capital of the World. In

the early years of immigration, the Irish still had a hard road before them, filled with prejudice and social exclusion. Irish Catholics would hold Mass in secret, but eventually beautiful churches were built, attracting the most revered clergy in Connecticut. Soon Irish and Irish Americans established themselves as city leaders and professionals in the community. Dr. Charles A. Monagan was a founding member of St. Mary's Hospital, while his son John later became mayor. Some achieved fame through their excellence in sports, such as Roger Connor, whose long-standing record for career home runs was unbeatable until finally broken by the one and only Babe Ruth. Detailed research and oral histories from living descendants bring to light the remarkable Waterbury Irish legacy.

Triangular UFOs David Marler 2013-06-17 For years, serious researchers have known that triangular-shaped UFOs are one of the most common types observed. The phenomenon has sparked intense debate among many and excited the imagination of many others. But until now, there has never been a book-length treatment of this fascinating subject. Finally, we have one. David Marler has provided a comprehensive analysis of "the triangles." He has collected, collated, and analyzed hundreds of reports. In the process, he has created a detailed profile of these objects and written a rich narrative of their history. Marler is well-suited to the task,

having at his disposal an enormous collection of newspaper archives, declassified military reports, UFO books and journals, and the transcripts of many first-hand interviews he has conducted. He has also received input from many prominent individuals from within the military, FAA, Aerospace, and UFO research field. He tackles the arguments made by skeptics that dismiss these triangular UFO reports outright. He also address the claims of so-called insiders who claim these objects are a creation of the U.S. military. The results of his years of research are documented in his book, Triangular UFOs: An Estimate of the Situation. It is a book that has long been needed, not only by the UFO research community, but the general public, as it opens up an entirely new discussion that has long been ignored: who is making the triangles?

The Air Force Role in Low-Intensity Conflict

David Dean 2002-04-01 This book grew from an opportunity to study a third world air force fighting an externally supported insurgency. The

players were the Royal Moroccan Air Force and the Polisario, the latter trying to wrest control of the Western Sahara from the Kingdom of Morocco. The United States has also been a player in the Morocco-Polisario war as the source of much of Morocco's war material, especially the weapons used by the Royal Moroccan Air Force. Help from the United States was especially important when the Polisario deployed Soviet-built SA-6 surface-to-air missiles to counter the growing effectiveness of the Royal Moroccan Air Force. For many reasons, the United States and the US Air Force were not able to assist the Moroccans effectively. The Moroccan-Polisario-US scenario that provides the basis for this study was a tiny aspect of US foreign and military policy in the early 1980s. But it shows a political-military problem that deserves a good deal of thought now. That problem simply stated is: How is the United States going to exert political-military influence in the third world during the next

twenty years? Clearly, overall US influence in the third world will be a combination of political, military, economic, and social activity. But the military, in many cases, will be the most visible form of assistance, and one upon which the recipient nation will depend for immediate results. Are the military components as instruments of national policy able to act effectively in the third world? If not, what needs to be done? Colonel Deans study makes a significant contribution to the growing body of literature on low-intensity conflict.

Creating an American Identity Stephanie Kermes 2008-06-15 Creating an American Identity examines the relationship between

regionalism and nationalism in New England between 1789 and 1825. During that period New Englanders and their neighbors in New York and Pennsylvania used trans-Atlantic symbols at the same time as a model and an antithesis in the creation of their own national identity. In inventing their collective identity, Northerners not only excluded Europeans, but also Southerners from their vision of America. Widely used visual representations of New England landscapes, virtues, and people created a strong loyalty to the region. Surprisingly, New Englanders utilized their regionalism to forge an American nationalism.

ULYSSES (Modern Classics Series) James Joyce 2024-01-10 This carefully crafted ebook: "ULYSSES (Modern Classics Series)" is formatted for your eReader with a functional and detailed table of contents. Ulysses is a modernist novel by Irish writer James Joyce. It is considered to be one of the most important works of modernist literature, and has been

called "a demonstration and summation of the entire movement". Ulysses chronicles the peripatetic appointments and encounters of Leopold Bloom in Dublin in the course of an ordinary day, 16 June 1904. Ulysses is the Latinised name of Odysseus, the hero of Homer's epic poem Odyssey, and the novel establishes a series of parallels between its characters and events and those of the poem (the correspondence of Leopold Bloom to Odysseus, Molly Bloom to Penelope, and Stephen Dedalus to Telemachus). Joyce divided Ulysses into 18 chapters or "episodes". At first glance much of the book may appear unstructured and chaotic; Joyce once said that he had "put in so many enigmas and puzzles that it will keep the professors busy for centuries arguing over what I meant", which would earn the novel "immortality". James Joyce (1882-1941) was an Irish novelist and poet, considered to be one of the most influential writers in the modernist avant-garde of the early 20th century. Joyce is

best known for Ulysses, the short-story collection Dubliners, and the novels A Portrait of the Artist as a Young Man and Finnegans Wake. **Strange Lands and Friendly People** William O. Douglas 2007-03 PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will

meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream-fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-

fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a

beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we don't deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

The Art of Ancient India Susan L. Huntington
2014-01-01 To scholars in the field, the need for
an up-to-date overview of the art of South Asia
has been apparent for decades. Although many
regional and dynastic genres of Indic art are
fairly well understood, the broad, overall
representation of India's centuries of splendor
has been lacking. The Art of Ancient India is the
result of the author's aim to provide such a
synthesis. Noted expert Sherman E. Lee has
commented: -Not since Coomaraswamy's
History of Indian and Indonesian Art (1927) has
there been a survey of such completeness."
Indeed, this work restudies and reevaluates
every frontier of ancient Indic art _ from its
prehistoric roots up to the period of Muslim rule,
from the Himalayan north to the tropical south,
and from the earliest extant writing through the

most modern scholarship on the subject. This
dynamic survey-generously complemented with
775 illustrations, including 48 in full color and
numerous architectural ground plans, and
detailed maps and fine drawings, and further
enhanced by its guide to Sanskrit, copious notes,
extensive bibliography, and glossary of South
Asian art terms-is the most comprehensive and
most fully illustrated study of South Asian art
available. The works and monuments included in
this volume have been selected not only for their
artistic merit but also in order to both provide
general coverage and include transitional works
that furnish the key to an all encompassing view
of the art. An outstanding portrayal of ancient
India's highest intellectual and technical
achievements, this volume is written for many
audiences: scholars, for whom it provides an up-
to-date background against which to examine
their own areas of study; teachers and students
of college level, for whom it supplies a complete
summary of and a resource for their own deeper

investigations into Indic art; and curious readers, for whom it gives a broad-based introduction to this fascinating area of world art.

Spain's African Colonial Legacies Yolanda Aixelà-Cabré 2022 "The African cities of Bata and Al-Hoceima were created during the Spanish colonial rule of Equatorial Guinea and Morocco. This book constructs their local history to analyse how Spanish colonialism worked, what its legacies were and the imprints it left on their national histories. The work explains the revision of collective memories of the past in the present as a form of decolonisation that seeks to build different foundations for the future in a transnational and glocal framework. The result is an exciting puzzle of individual and collective memories in which Africans contest their colonial cultural heritage and shape their identities at a global level"--

Gods, Guardians, and Lovers Vishakha N. Desai

1993 Celestial lovers, guardian deities, gods, goddesses, semidivine and human forms bedeck the magnificent, elaborately sculpted medieval temples of northern India. This handsome catalog of an exhibition at the Asia Society in New York City explains that each temple, rich in symbolism and sacred geometry, was viewed as a microcosmic model of cosmic creation and order. Led by Desai, director of the Asia Society Galleries, and Mason of Boston's Museum of Fine Arts, six scholars discuss the historical background, patterns of royal patronage, architectural placement of images and Hindu stories and hymns as keys to the cult of temple images and to the medieval worship service, "an elaborate multisensory experience." Nearly 200 color and black-and-white plates document a major architectural and sculptural legacy.

The Jesuits Markus Friedrich 2022-03-01 The most comprehensive and up-to-date exploration of one of the most important religious orders in the modern world Since its founding by Ignatius of Loyola in 1540, the Society of Jesus—more commonly known as the Jesuits—has played a critical role in the events of modern history. From the Counter-Reformation to the ascent of Francis I as the first Jesuit pope, *The Jesuits* presents an intimate look at one of the most important religious orders not only in the Catholic Church, but also the world. Markus Friedrich describes an organization that has deftly walked a tightrope between sacred and secular involvement and experienced difficulties during changing times, all while shaping cultural developments from pastoral care and spirituality to art, education, and science. Examining the

Jesuits in the context of social, cultural, and world history, Friedrich sheds light on how the order shaped the culture of the Counter-Reformation and participated in the establishment of European empires, including missionary activity throughout Asia and in many parts of Africa in the sixteenth and seventeenth centuries. He also explores the place of Jesuits in the New World and addresses the issue of Jesuit slaveholders. The Jesuits often tangled with the Roman Curia and the pope, resulting in their suppression in 1773, but the order returned in 1814 to rise again to a powerful position of influence. Friedrich demonstrates that the Jesuit fathers were not a monolithic group and he considers the distinctive spiritual legacy inherited by Pope Francis. With its global scope and meticulous attention to archival sources and previous scholarship, *The Jesuits* illustrates the heterogeneous, varied, and contradictory perspectives of this famed religious organization.

Making Home(s) in Displacement Luce
Beeckmans 2022-01-17 Making Home(s) in
Displacement critically rethinks the relationship
between home and displacement from a spatial,
material, and architectural perspective. Recent
scholarship in the social sciences has
investigated how migrants and refugees create
and reproduce home under new conditions,
thereby unpacking the seemingly contradictory
positions of making a home and overcoming its
loss. Yet, making home(s) in displacement is also
a spatial practice, one which intrinsically relates
to the fabrication of the built environment
worldwide. Conceptually the book is divided
along four spatial sites, referred to as camp,
shelter, city, and house, which are approached
with a multitude of perspectives ranging from
urban planning and architecture to
anthropology, geography, philosophy, gender
studies, and urban history, all with a common

focus on space and spatiality. By articulating
everyday homemaking experiences of migrants
and refugees as spatial practices in a variety of
geopolitical and historical contexts, this edited
volume adds a novel perspective to the existing
interdisciplinary scholarship at the intersection
of home and displacement. It equally intends to
broaden the canon of architectural histories and
theories by including migrants' and refugees'
spatial agencies and place-making practices to
its annals. By highlighting the political in the
spatial, and vice versa, this volume sets out to
decentralise and decolonise current definitions
of home and displacement, striving for a more
pluralistic outlook on the idea of home.

Freedom in the World 1997-1998 Roger Kaplan
1998-04 The Comparative Survey of Freedom is an institutional effort by Freedom House to monitor the progress and decline of political rights and civil liberties in 191 nations and 59 related territories. These year-end reviews of freedom began in 1955, when they were called the Balance Sheet of Freedom and, still later, the Annual Survey of the Progress of Freedom. This program was expanded in the early 1970s, and has appeared in Freedom Review since 1973. It has also been issued in a more developed context as a yearbook since 1978. Since 1989, the Survey project has been a year-long effort produced by regional experts, consultants and human rights specialists. The

Survey derives its information from a wide range of sources. Most valued of these are the many human rights activists, journalists, editors and political figures around the world who keep us informed of the human rights situation in their countries. Throughout the year. Freedom House personnel regularly conduct fact-finding missions to gain more in-depth knowledge of the vast political transformations affecting our world. During these week-to-month-long investigations, we make every effort to meet a cross-section of political parties and associations, human rights monitors, religious figures, representatives of both the private sector and trade union movement, academics and journalists. During the past year. Freedom House staff traveled to numerous countries throughout most of the world's geographical and political regions. The Survey project team also consults a vast array of published source materials, ranging from the reports of other human rights organizations to often rare,

regional newspapers and magazines. This year's Survey team includes: Adrian Karatnycky, Martin Edwin Anderson, Kristen Guida, Marshall Freeman Harris, Thomas R. Lansner, Arch Puddington, Leonard R. Sussman, and George Zarycky. The general editor of Freedom in the World is Roger Kaplan; the managing editor is Tara Kelly. This year's research coordinator was Charles Graybow.
