Rhodes in the Hellenistic Age Richard M. Berthold 1984 "Ancient history Rhodes has been inhabited since the Stone Age. In prehistoric time the island was inhabited by Cretans, who were the first settlers on the island, the Phoenicians and Dorians who must have installed themselves on the island prior to the Trojan War. (1184 BC). After the Trojan war the rapid progress and development of the ancient civilization of Rhodes commences, examples of which can be seen nowadays in the antiquities of the three largest and most powerful cities of the island, Lindos, Ialysos and Kamiros. At the end of 5th century BC these cities united into a single political force and founded Rhodes, which achieved its acme in the 3rd century BC. During that period, famous artists, philosophers and writers lived here. From 2000 BC it became an ally of Rome and was obliged to have the same friends and enemies as the Romans, but from the 1st century BC it began, slowly but surely, to go into decline. It was Diocletian who dealt its final blow into independence in 297 AD when he joined the Provincia insularum of the Roman Empire."--

Among the Gods uses archaeological evidence to explore ancient Greek religion. The book analyses cult-statues and inscriptions to provide a detailed discussion of gods and goddesses, the priesthood, and healing sanctuaries. In doing so, it highlights the external, formal nature of religious practice in ancient Greece, such as pilgrimages, offerings, and hallowed sites. Archaeological records are used to examine both the theory and practice of ancient Greek religion, and to provide context to a variety of Greek myths and Greek literature. Among the Gods will appeal to those with an interest in religious history, archaeological history, and Classical history.
