A Dictionary of Modern and Contemporary Art Ian Chilvers 2009

This unique and authoritative reference work contains more than 2,000 clear and concise entries on all aspects of modern and contemporary art. Its impressive range of terms includes movements, styles, techniques, artists, critics, dealers, schools, and galleries. There are biographical entries for artists worldwide from the beginning of the 20th century through to the beginning of the 21st, from the Finnish architect Alvar Aalto to the French sculptor Jacques Zwobada. With international coverage, indications of public collections and publicly sited works, and in-depth entries for key topics (for example, Cubism and abstract art), this dictionary is a fascinating and thorough guide for anyone with an interest in modern and contemporary culture, amateur or professional. Formerly the Dictionary of 20th Century Art, the text has been completely revised and updated for this major new edition. 300 entries have been added and it now contains entries on photography in modern art. With emphasis on recent art and artists, for example Damien Hirst, it has an exceptionally strong coverage of art from the 1960s, which makes it particularly ideal for contemporary art enthusiasts. Further reading is provided at entry level to assist those wishing to know more about a particular subject. In addition, this edition features recommended web links for many entries, which are accessed and kept up to date via the Dictionary of Modern Art companion website. The perfect companion for the desk, bedside table, or gallery visits, A Dictionary of Modern and Contemporary Art is an essential A-Z reference work for art students, artists, and art lovers.

W. Barns-Graham Lynne Green 2001 In an engaging and lively narrative, Lynne Green documents more than six decades of the prodigiously inventive and productive career of Wilhelmina Barns-Graham and traces the evolution of the artist's strikingly individual wisdom.

Herbert Read Robin Skelton 2015-07-24 As a poet and critic of art and literature, and as a social and political philosopher, Sir Herbert Read exerted an important influence on the culture of his time. Not only did he assist and inspire many writers and artists, but through his work for the idea of 'education through art', he greatly influenced education, in particular the teaching of art and literature in schools. For this symposium, first issued in 1969 as the ninth number of *The Malahat Review*, Professor Skelton has gathered together original essays, poems and drawings which illustrate many aspects of Sir Herbert Read's life and work.
