A Dictionary of Green Ideas John Button 2019-06-21 First published in 1988. A Dictionary of Green Ideas collects together the concepts which go to make up a green view of the world. Ecology and the environment, conservation and appropriate technology, politics and philosophy, peace and health, spirituality and world development - all these areas and more are reflected in nearly 1500 entries. The entries range from the very short to full-length essays, reflecting the diversity of the subject matter. All

give a clear definition of the meaning of the term and an indication of its etymology and earliest use. But the Dictionary of Green Ideas is much more than simply a list of definitions. The concepts discussed are elaborated upon, interpreted, set in context, exemplified by quotations from a wide range of sources, and related to other entries by means of an extensive network of cross-references. The result is a fascinating and immensely readable book which successfully fulfils a double role as an accessible introduction to green thought, and as a source of reference offering new insights to green thinkers of long standing.

The Negro Motorist Green Book Victor H. Green

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Especially important Georgia books have their own entries: works of social significance such as Lillian Smith's *Strange Fruit*, international publishing sensations like Margaret Mitchell's *Gone With the Wind*, and crowning artistic achievements including Jean Toomer's *Cane*. The literary culture of the state

is also covered, with information on the Georgia Review and other journals; the Georgia Center for the Book, which promotes authors and reading; and the Townsend Prize, given in recognition of the year's best fiction.
