Figuring Shit Out Amy

Biancolli 2014-09-29 "Your life isn't over." My dad says this. "I mean, YOUR life isn't over.

Beyond the kids. You'll go on living, doing things. This isn't it." I know, I assure him. I have the kids. They need me.

They're my life now. "OK," he replies, then grunts—more of a brief hum. He only hums when he thinks I'm full of shit.

Shockingly single. Amy Biancolli's life went off script more dramatically than most after her husband of twenty years jumped off the roof of a parking garage. Left with three children, a three-story house, and a pile of knotty psychological complications, Amy realizes the flooding dishwasher, dead car battery, rapidly growing lawn, basement sump pump, and broken doorknob aren't going to fix themselves. She also

realizes that "figuring shit out" means accepting the horrors that came her way, rolling with them, slogging through them, helping others through theirs, and working her way through life with love and laughter.

Amy Biancolli is an author and journalist whose column appears in the Albany Times Union. Before that, Amy served as film critic for the Houston Chronicle where her reviews, published around the country, won her the 2007 Comment and Criticism Award from the Texas Associated Press Managing Editors Association. Biancolli is the author of *House of Holy Fools: A Family Portrait in Six Cracked Parts*, which earned her Albany Author of the Year. Amy lives in Albany, New York, with her three children.

Children of Amarid David B

Coe 2016-06-22 For a millenium, the Children of Amarid have served the people of Tobyn-Ser. Drawing upon

the Mage-Craft, which flows from the psychic bond they forge with their avian familiars, the Mages of the Order have fulfilled their oaths by healing the injured and ill, repelling invasions by the land's enemies, and caring for the people in times of crisis. They are governed by laws handed down by Amarid, the first of their kind, who committed the Mage-Craft to the people's protection. Only once in a thousand years has a mage defied those laws. Theron, a contemporary of Amarid, sought to use his powers to gain wealth and glory. For that he was punished, though not before he brought down a terrible curse on his fellow mages and all who would come after them. Recently, dark rumors have spread across Tobyin-Ser. Children of Amarid have been seen destroying crops, vandalizing homes, massacring men, women, and children. Have the mages forsaken their oaths? Has Theron returned from beyond death to take his vengeance? Or does Tobyin-Ser face a new

threat, one it is ill-prepared and ill-equipped to face? With the land in turmoil and faith in the Mage-Craft badly shaken, it falls to Jaryd, a young mage with extraordinary potential, but little knowledge of the power he wields, to find and destroy Tobyin-Ser's enemies before they destroy all he holds dear. CHILDREN OF AMARID is the first volume of the LonTobyin Chronicle, David B. Coe's Crawford Award-winning debut series. This is the Author's Edit of the original book.

Greetings from Asbury Park
Daniel H. Turtel 2022-04-05
Winner of the Faulkner Society Award for Best Novel In a small seaside city on the Jersey Shore, three half-siblings confront the death of a distant and bullying patriarch. They now have the chance to imagine new relationships and

new futures, ones that would have been near-unthinkable while their father was alive. Caught in their crossfire are the conservative religious communities that border Asbury Park, the longtime locals who have been pushed to the fringe by the shore's revitalization, and the legendary town upon which the whole world seems to converge. Slowly, however, they come to understand that everything—their future, their happiness—depends on whether they can face themselves. Wise, perceptive, and provocative, *Greetings from Asbury Park* is a remarkable literary debut in the tradition of great American novels such as Sherwood Anderson's *Winesburg, Ohio*. It is a deep interrogation of place that depicts flawed characters as they break through to adulthood, truth, and to a moral relationship with the world.

Greetings, Leroy Itah Sadu 2017-05-01 Moving can be scary, but by the end of his first day at his new school, Roy is happy to find a piece of his old home, Jamaica, in his new home. The first day at a new school is nerve-wracking enough, never mind when it's in a new country! In this lively picture book from award-winning storyteller Itah Sadu, Roy realizes he may come to love his new home as much as he loves his old home. Written as an email to a friend back home, this picture book tells

the story of Roy, whose family has just moved to North America from Jamaica. His new home is different from his old home — even the sun feels cold! His nerves ease, though, as welcome reminders of home follow him through his day. His neighbor gives him a button as a gift for his first day of school. The principal tells him about the soccer team and his new class makes him feel welcome. Everything is looking up until Roy goes to show his classmates his new button and he can't find it! He rushes back to the principal's office where they look up and down and all around for the button. Thanks to his powers of observation, Roy finds it in an unexpected place and is able to show it to his new friends. The friendly people he meets, and their shared love of Bob Marley, make for a good start at his new school. Sadu captures the voice of a young boy in a new country in this story about finding a new home while still staying proud of where you're from. Harlem-based artist Alix Delinois shows the joy of

Wanderlust Rebecca Solnit
2001-06-01 A passionate, thought-provoking exploration of walking as a political and cultural activity, from the author of *Orwell's Roses*. Drawing together many histories--of anatomical evolution and city design, of treadmills and labyrinths, of walking clubs and sexual mores--Rebecca Solnit creates a fascinating portrait of the range of possibilities presented by walking. Arguing that the history of walking includes

walking for pleasure as well as for political, aesthetic, and social meaning, Solnit focuses on the walkers whose everyday and extreme acts have shaped our culture, from philosophers to poets to mountaineers. She profiles some of the most significant walkers in history and fiction--from Wordsworth to Gary Snyder, from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja--finding a profound relationship between walking and thinking and walking and culture. Solnit argues for the necessity of preserving the time and space in which to walk in our ever more car-dependent and accelerated world.

the bittersweet nature of growing up. When Ellie is very small, she finds a lovable newborn dragon on a carton of eggs in the grocery store. Her mother can't see Scratch, and her teacher doesn't notice when Ellie brings Scratch to preschool, yet her friends are amazed. Ellie is lucky to have an affectionate, house-trained dragon like Scratch! But dragons get quite large as they grow. And Ellie is growing, too, moving from dollhouses to dance parties, not noticing that Scratch's brilliant green scales are beginning to fade a little. . . . Beloved picture-book creator Bob Graham illustrates the joys of imagination and friendship in this touching story. In the early 1960s Emma Tennant's parents, on a cruise, spotted a magical bay and decided to build a house there. This book is the story of that house, Rovinia, set above the bay in Corfu where legend has it Ulysses was shipwrecked and found by Nausicaa, daughter of King Alcinous. It is also the story of the couple who have been at Rovinia since the feast

in the grove that followed the roof-raising-Maria, a miraculous cook and the presiding spirit of the house, and her husband, Thodoros-and of the inhabitants of the local village, high on the hill above the bay. Tennant offers us the delights of quotidian adventures-salt water in the well, roads to nowhere, collapsing walls-all hilariously presented. That the house is still lived in and loved, with new generations coming to understand the delights of Corfu, is a tribute to the people and a special landscape which is distinctly Greek. Full of color and contrast, *A House in Corfu* shows the huge changes in island life since the time of the Tennants' arrival, and celebrates, equally, the joy of belonging to a timeless world: the world of vine, olive, and sea.

from working class Boston to the romantic streets of Rome, from morbidly obese to half her size, from seeking comfort in anything that came cream-filled and two-to-a-pack to finding balance in exquisite (but modest) bowls of handmade pasta. This story is about much more than a woman who loves food and abhors her body. It is about someone who made changes when her situation seemed too far gone and how she discovered balance in an off-kilter world. More than anything, though, it is the story of her finding beauty in acceptance and learning to love all parts of herself.
