The Serpents of Paradise Edward Abbey 1995 From boyhood in Home, Pennsylvania, to his death in Tucson, Arizona, in 1989, this book offers - in Abbey's own words - the world of an American original. Whether writing fact or fiction, Abbey was always an autobiographer. Each of the thirty-five selections presented here, arranged chronologically by date of incident (not of publication), demonstrates that Abbey was passionately, insistently his own man. As poet-farmer Wendell Berry puts it: "He remains Edward Abbey, speaking as and for himself, fighting, literally, for dear life ... for the survival not only of nature, but of human nature, of culture, as only our heritage of works and hopes can define it". To speak for the voiceless was his mission. He was a virtuoso of the well-phrased thought in which style and content, symbol and meaning - each imbued with humor - come together to defy the powerful, reminding us always that preservation of wild nature is a key to a free spirit. And along with Emerson and Thoreau, Abbey, the uncompromising stylist, knew that the corruption of language follows the corruption of man. "Language", Abbey wrote, "seeks to transcend itself, 'to grasp the thing that has no name.'"

Roe V. Wade N. E. H. Hull 2010 This up-to-date history of Roe v. Wade covers the complete social and legal context of the case that remains the touchstone for America's culture wars.

Before Roe V. Wade Reva B. Siegel 2012 "As the landmark Roe v. Wade decision reaches its 40th anniversary, abortion remains a polarizing topic on America's legal and political landscape.

Blending history, culture, and law, *Before Roe v. Wade* explores the roots of the conflict, recovering through original documents and first-hand accounts the voices on both sides that helped shape the climate in which the Supreme Court ruled. Originally published in 2010, this new edition includes a new Afterword that explores what the history of conflict before Roe teaches us about the abortion conflict we live with today. Examining the role of social movements and political parties, the authors cast new light on a pivotal chapter in American history and suggest how Roe v. Wade, the case, because Roe v. Wade, the symbol. "--Cover, p. 4.

Daft 2010-08-02 Lessons for leaders on resolving the ongoing struggle between instinct and the creative mind Kings, heads of government, and corporate executives lead thousands of people and manage endless resources, but may not have mastery over themselves. Often leaders know that right action is important, but have little (if any) understanding of what prevents them from acting in accordance with their intentions. In this important book, leadership expert Richard Daft portrays this dilemma as a struggle between instinct (elephant) and intention (the executive) using the most current research on the intentional vs. the habitual mind to explain how this phenomenon occurs. Based on current research and real-life examples Offers leaders a method for directing themselves more productively Written by an expert in leadership, organizational performance, and change management Through real-life examples and recent studies in psychology, management and Eastern spirituality Daft provides guidance to all of us who struggle finding our own balance and cultivating the behavior of others.

So Great Salvation Steven Barabas 2005-05-05 From the Preface: Every year, during the month of July, thousands of Christians from all parts of the world gather for a Convention for the deepening of the spiritual life, lasting one week, in the little town of Keswick, which nestles at the foot of Skiddaw mountain and beside beautiful

Lake Derwentwater, in the Lake District of northern England, a region famous by association with the Lake poets - Wordsworth, Coleridge, and Southey - and for picturesque and fascinating scenery unsurpassed in all England, if not in all Europe. Since 1875, when the first of these Conventions was held, the influence of what is taught there has been increasingly felt in the Christian world, until Keswick teaching has come to be regarded as one of the most potent spiritual forces in recent Church history. The 'Keswick movement' has become historic.... Here, then, we have the teaching of Keswick, one of the most interesting religious phenomena of our time.

Country Life and the Country School Mabel Carney 1912

The Dictator Pope Marcantonio Colonna 2018-04-23 Marcantonio Colonna's *The Dictator Pope* has rocked Rome and the entire Catholic Church with its portrait of an authoritarian, manipulative, and politically partisan pontiff. Occupying a privileged perch in Rome during the tumultuous first years of Francis's pontificate, Colonna was privy to the shock, dismay, and even panic that the reckless new pope engendered in the Church's most loyal and judicious leaders. *The Dictator Pope* discloses that Father Mario Bergoglio (the future Pope Francis) was so unsuited for ecclesiastical leadership that the head of his own Jesuit order tried to prevent his appointment as a bishop in Argentina. Behind the benign smile of the "people's pope" Colonna reveals a ruthless autocrat aggressively asserting the powers of the papacy in pursuit of a radical agenda.

Handbook on Abortion Jack C. Willke 1973

Suffering and Hope Ian Gibson 2017 "As soon as Ian Gibson began meeting Christians in the Nepali city of Bhaktapur, he noticed the importance of a particular type of story in their lives. When he asked someone "How did you become a Christian?" they would usually give a long and fluent answer, a narrative that had been told with minor or major variations many times before. This book grows out of these conversion narratives: it is a study of Christians in Bhaktapur, and of the Christian church in Nepal. It seeks to explain why Nepali

Christianity is growing so rapidly, and to depict the lives of individual Christians."-- from publisher's website.

Prophet's Daughter Erin Prophet 2008-09-24 In early 1990, in response to apocalyptic prophecies given by her mother, Elizabeth Clare Prophet, Erin Prophet entered a network of underground bunkers in Montana along with members of her mother's Church Universal and Triumphant, a controversial New Age sect. Emerging to find the world still intact, Erin was forced into a radical reassessment of her life and her beliefs. She had spent her adolescence watching her mother vilified as a dangerous cult leader even while attempting to meet her expectations by becoming a "prophet" herself. *Prophet's Daughter* describes Erin's search for her mother's origins and motivations. With the craft of a storyteller, she describes the combination of health crises and external pressure that drove her mother's ever-more dire prophecies. She reveals how the allure of infallibility led her mother to a conspicuous downfall, and how her mother's rapidly progressing Alzheimer's disease truncated any hope of resolution. A remarkable memoir with implications for the dialog about power, group behavior and the future of religion.

Practical Theology Richard R. Osmer 2008-07-02 Every church congregation encounters challenging situations, some the same the world over, and others specific to each church. Richard Osmer here seeks to teach congregational leaders -- including, but not limited to, clergy -- the requisite knowledge and skills to meet such situations with sensitivity and creativity. Osmer develops a framework for practical theological interpretation in congregations by focusing on four key questions: What is going on in a given context? Why is this going on? What ought to be going on? and How might the leader shape the context to better embody Christian witness and mission? The book is unique in its attention to

interdisciplinary issues and the ways that theological reflection is grounded in the spirituality of leaders. Useful, accessible, and lively -- with lots of specific examples and case studies -- Osmer's Practical Theology effectively equips congregational leaders to guide their communities with theological integrity.

Recalling Our Own Stories Edward P. Wimberly 2019-02-01 How religious caregivers can find spiritual renewal in their own story Recalling Our Own Stories, which author Edward P. Wimberly describes as "a spiritual retreat in book form," is designed to help clergy and religious caregivers face the challenges of ministry. It is also a valuable resource for practitioners who assist these clergy and caregivers in meeting the challenges of their work. Wimberly enables caregivers to map out and come to grips with cultural expectations of their profession. He also helps readers explore and edit the mythologies that make up their self-image, attitudes toward others, expectations about their performance and role, and convictions about ministry. Finally, he provides a model for spiritual and emotional review grounded in narrative psychology and spiritual approaches. As Wimberly explains, this book offers a way to renew our motivation for ministry by reconnecting to our original call, visualizing again how God has acted and remains intricately involved in our lives. Wimberly demonstrates how religious caregivers, often facing burnout, can tap the sources of renewal that reside in the faith community.

It serves as preparation for prayer-the unadulterated meeting place between human soul and Divinity. God is infinite and we are finite. Much as a lamp holds the fuel and flame that illumine darkness, guided meditation creates a sacred space for listening, prayer, and reflection-a time for finding God."--Debra Donnelly-Barton

Formations of the Secular Talal Asad 2003-02-03 "A dark but brilliantly original work . . . one of the most important books on religion and the modern in recent years." —H-Net Reviews Opening with the provocative query "what might an anthropology of the secular look like?" this book explores the concepts, practices, and political formations of secularism, with emphasis on the major historical shifts that have shaped secular sensibilities and attitudes in the modern West and the Middle East. Talal Asad proceeds to dismantle commonly held assumptions about the secular and the terrain it allegedly covers. He argues that while anthropologists have oriented themselves to the study of the "strangeness of the non-European world" and to what are seen as non-rational dimensions of social life (things like myth, taboo, and religion), the modern and the secular have not been adequately examined. The conclusion is that the secular cannot be viewed as a successor to religion, or be seen as on the side of the rational. It is a category with a multi-layered history, related to major premises of modernity, democracy, and the concept of human rights. This book will appeal to anthropologists, historians, religious studies scholars, as well as scholars working on modernity. "A difficult if stunningly eloquent book, a response both elusive and forthright to the many shelves of 'books on terrorism' which this country's trade publishers are rushing into print." —Bryn Mawr Review of Comparative Literature "This

wonderfully illuminating book should be read alongside the author's Genealogies of Religion." —Religion "One of the most interesting scholars of religious writing today." —Christian Scholar's Review "Asad's brilliant study remains a defining piece of intellectual and scholarly contribution for all of those interested in exploring the religious and the secular in the modern era." —The American Journal of Islamic Social Sciences

Putting an End to Worship Wars Elmer L.
