

Guilty Without Trial Women In The Sex Trade In Calcutta

Codes of Misconduct Ashwini Tambe 2009

Across the nineteenth and twentieth centuries, legislators in Bombay passed a series of repetitive laws seeking to control prostitution. During the same time, Bombay's sex industry grew vast in scale. Ashwini Tambe explores why these remarkably similar laws failed to achieve their goal and questions the actual purpose of such lawmaking.

Poverty, Gender and Migration Sadhna Arya

2006-03-09 This volume studies the new migratory flows among Asian women, focusing particularly on poverty and the attendant issues of powerlessness that mediate women's migration. While gender provides the conceptual tool for mapping differential experiences of social reality, by identifying poverty and migration as significant axes around which social relations and processes unfold, the volume unravels the complex layers of needs, networks and choices that come into play in poverty-driven migration.

Young Muslim Women in India Kabita

Chakraborty 2015-12-14 This book, based on extensive, original research, details the changing lives of youth living in slum communities (bustees) in Kolkata (formerly Calcutta). Using young people's own photos, art and narratives, the book explores how Muslim girls and young women are contributing to, and impacted by, changing youth culture in India. We are invited into the risky world of mixed-sex dance taking place in clandestine spaces in the

slums. We join young people on their journeys to find premarital romance and witness their strategic and savvy risk taking when participating in transgressive aspects of consumer culture. The book reveals how social changes in India, including greater education and employment opportunities, as well as powerful middle class Muslim reform discourses, are impacting youth the very local level. More than just fantasy we see that Bollywood is an important role model which young people consult. By carefully negotiating risks and performing multiple identities inspired by modernity, globalization and, most of all, Bollywood culture, young people actively participate in a changing India and disrupt dominant discourses about slum youth as poor victims who are excluded from social change.

Globalization and Third World Women

Ligaya Lindio-McGovern 2016-04-22 Adopting the notion of 'third world' as a political as well as a geographical category, this volume analyzes marginalized women's experiences of globalization. It unravels the intersections of race, culture, ethnicity, nationality and class which have shaped the position of these women in the global political economy, their cultural and their national history. In addition to a thematically structured and highly informative investigation, the authors offer an exploration of the policy implications which are commonly neglected in mainstream literature. The result is a must have volume for sociological academics, social policy experts and professionals working within non-governmental organizations.

This book was published as a special issue of South Asian History and Culture.

Modern Babylon? Heather Kate Montgomery 2001 Child prostitution became one of the key concerns of the international community in the 1990s. World congresses were held, international and national laws were changed and concern over "commercially sexually exploited children" rose dramatically. Rarely, however, were the children who worked as prostitutes consulted or questioned in this process, and the voices of these children brought into focus. This book is the first to address the children directly, to examine their daily lives, their motivations and their perceptions of what they do. Based on 15 months of fieldwork in a Thai tourist community that survived through child prostitution, this book draws on anthropological theories on childhood and kinship to contextualize the experiences of this group of Thai child prostitutes and to contrast these with the stereotypes held of them by those outside their community.

From Outrage to Courage Anne Firth Murray 2013 From half a million women who die in pregnancy and childbirth to one out of three women suffering domestic violence worldwide, from 90 million girls who do not go to school to HIV/AIDS spreading fastest among adolescent girls, women around the world face unique health challenges. In this searing cradle-to-grave review, Anne Firth Murray tackles health issues

from sex selective abortion and unequal access to food and health care to the challenges faced by aging women. Murray makes clear that the issues are social, ethical, and political much more than they are medical, and she goes further to provide hope that positive change can happen.

Human Trafficking Bandana Purkayastha 2018-12-14 The last few decades have seen a huge increase in attention paid to the trafficking of human beings, often referred to as modern-day slavery. International and national policies and protocols have been developed and billions of dollars spent to combat the issue and protect trafficking victims. Yet it continues to flourish and human beings, in both the Global North and the Global South, continue to be degraded to the level of commodities and smuggled across borders for profit. Drawing upon feminist and human rights approaches to trafficking, this book links the worlds of policy, protocols, and social structures to the lived experience and conditions of trafficked people. Recognizing that trafficking for sex, labor, and body parts often overlaps in a broader context shaped by poverty, violence, and shrinking access to rights, the authors offer a more thoroughgoing account of this social problem. Only with such an integrated approach can we understand the exploitative conditions that make people vulnerable to trafficking, and the progress - as well as gaps - in initiatives seeking to address it.

Language and HIV/Aids Christina Higgins 2010 This volume focuses on the role of language in the construction of knowledge about HIV/AIDS. The authors draw on discourse analysis, ethnography, and social semiotics to interpret meaning-making practices in formal and informal HIV/AIDS education in Australia, Cambodia, Burkina Faso, Hong Kong, India, South Africa, Tanzania, Thailand, and Uganda.

The Changing Status of Women in West Bengal, 1970-2000 Jasodhara Bagchi 2005-01-24 This important and comprehensive volume vividly depicts the current status of women and girls in West Bengal. The analysis has been conducted in the framework of the socio-economic and politico-cultural ambience that has characterized the state in recent decades. The contributors highlight both areas of strength and vulnerability and clearly

demonstrate that the status of women cannot be conceived as monolithic or static--it has many facets and is in a state of constant flux. The analysis of macro data is supported by revealing micro studies based on field surveys and an examination of cultural trends.

Police Practices in Global Perspective John Eterno 2010 In an ever changing complex world, law enforcement must readily adapt to fight criminals/terrorists. In this work, Eterno and Das bring experts from all over the globe to explain policing in a way that only they can do. These experts are well-versed in law enforcement methods and operations in their respective countries. Nearly every part of the globe is represented in a cornucopia of nations:

Australia, Brazil, China, India, Nigeria, Russia, and the United States. Many of the contributors are world renowned scholars with practical policing experience. Each chapter brings a unique viewpoint explaining the country's police from the perspective of that country's culture. The focus of the book is on transnational crime and terrorism; however, each chapter provides a basic understanding of policing in that nation. Additionally, a chapter on current legal practices throughout the world develops a global understanding of the difficulties faced by law enforcement. To combat crime and terrorism on a global scale requires an understanding of other nations: their cultures, their laws, their viewpoints. This book, written by indigenous authors, provides unique insights into the countries being examined. The wide range of countries combined with native experts make this book a necessary first step toward properly handling international crime and terrorism.

Under the Raj Sumanta Banerjee 1998 Like other pre-colonial socio-economic formations, the profession of prostitution underwent a dramatic change in Bengal soon after the British take-over. Under the Raj explores the world of the prostitute in nineteenth century Bengal. It traces how, from the peripheries of pre-colonial Bengali rural society, they came to dominate the center-stage in Calcutta, the capital of British India--thanks to the emergence of a new clientele brought forth by the colonial order. Sumanta Banerjee examines the policies the British administration implemented to revamp the profession to suit its needs, as well as to

screen its practitioners in a bid to protect its minions in the army from venereal diseases. He also analyzes the class structure within the prostitute community in nineteenth century Bengal, its complex relationship with the Bengali bhadralok society--and, what is more important and fascinating for modern researchers in popular culture--the voices of the prostitutes themselves, which we hear from their songs, letters, and writings, collected and reproduced from both oral tradition and printed sources.

Guilty Without Trial Carolyn Sleightholme 1996 Carolyn Sleightholme and Indrani Sinha write with rare perception and sensitivity about the lives of sex workers in Calcutta who have shared their stories with them. Through interviews, surveys, and case studies, they interrogate the double standards of sexual morality that govern the lucrative sex trade in India, thus making visible the more than twenty thousand mothers, heads of households, and community members whose activities and voices have been silenced so that others may profit from their activities. Linking the social and economic vulnerability of sex workers to the trade's supply, the authors reveal the harassment, economic insecurity, health hazards, and stigmatization these women face, and they offer recommendations for intervention programs by government and other organizations so that their needs may be addressed and their exploitation halted.

Sex Workers and the Cost of Safe Sex Vijayendra Rao 2000 Prostitution is often called the world's oldest profession, yet economists almost never study it. The practice of safe sex by commercial sex workers is considered central to preventing the transmission of AIDS in Developing countries, yet sex workers in Calcutta who regularly use condoms suffer a 79 percent loss in their average earnings per sex act.

Policing Pleasure Susan Dewey 2011-12-01 Mónica waits in the Anti-Venereal Medical Service of the Zona Galactica, the legal, state-run brothel where she works in Tuxtla Gutiérrez, Mexico. Surrounded by other sex workers, she clutches the Sanitary Control Cards that deem her registered with the city, disease-free, and able to work. On the other side of the world, Min stands singing karaoke with one of her regular clients, warily eyeing the door lest a raid by the anti-trafficking Public Security Bureau disrupt their evening by placing one or both of them in jail. Whether in Mexico or China, sex work-related public policy varies considerably from one community to the next. A range of policies dictate what is permissible, many of them intending to keep sex workers themselves healthy and free from harm. Yet often, policies with particular goals end up having completely different consequences. *Policing Pleasure* examines cross-cultural public policies related to sex work, bringing together ethnographic studies from around the world—from South Africa to India—to offer a nuanced critique of national and municipal approaches to regulating sex work. Contributors offer new theoretical and methodological perspectives that move beyond already well-established debates between

“abolitionists” and “sex workers’ rights advocates” to document both the intention of public policies on sex work and their actual impact upon those who sell sex, those who buy sex, and public health more generally.

Gender and Sexuality in India Salla Sariola 2009-12-16 India has one of the highest numbers of HIV carriers in the world. HIV has remained associated with sex work, and large sums of money provided to fund public health interventions have come from global institutions such as UNAIDS, the World Bank and USAID. In the midst of these processes, however, sex workers and their everyday lives have been hidden behind the rhetorics of control and prevention. This book offers a detailed analysis of the experiences of sex workers in Chennai. Based on ethnographic fieldwork, it draws out themes of agency; notions of gender and sexuality; and the HIV prevention industry. While the women’s experiences are closely knit into the medical discourse regarding sex workers, sex work emerges as a complicated knot of poverty, desire, women’s oppression, love, co-option, and motherhood. The author examines how the sex workers actively negotiate the risks of their industry and suggests alternative discourses on women’s sexuality, sexual behaviour and desire, arguing that unless the power imbalances affecting women are addressed, such policies and activities will have little impact. She brings attention to the problems of current policies, discourses and attitudes regarding HIV, sexuality and sex work, and shows how new policies could help to reduce vulnerabilities not only for sex workers, but perhaps for all women in India.

What's Love Got to Do with It? Denise Brennan 2004-05-14 *DIVAn* ethnographic case study of sex tourism in the Dominican Republic, showing how the sex trade is linked to economic and cultural globalization./div *Sex Traffic* Paola Monzini 2005-11 "The trafficking of women and girls for the purpose of prostitution is big business. It is one of the most lucrative industries in the world, particularly given the explosion of the sex industry since the 1990s. The collapse of the Soviet Union and the devastating impact of neoliberal economic policies in many parts of the world have resulted in significant numbers of women seeking income

however they can." "This book draws on a wealth of new empirical data: case studies from several countries of origin, transit and destination; research produced by NGOs, police and criminal courts; interviews and field research with the women themselves. Monzini's primary aim is to identify the mechanisms of what has truly become a global market. Most important, she assesses recent attempts to control trafficking, and strategies for resistance and change."--

Sex at the Margins Laura María Agustín

2010-08-17 This groundbreaking book explodes several myths: that selling sex is completely different from any other kind of work; that migrants who sell sex are passive victims; and that the multitude of people out to save them are without self-interest. Laura Agustín makes a passionate case against these stereotypes, arguing that the label 'trafficked' does not accurately describe migrants' lives and that the 'rescue industry' disempowers them. Based on extensive research amongst migrants who sell sex and social helpers, *Sex at the Margins* provides a radically different analysis.

Frequently, says Agustín, migrants make rational choices to travel and work in the sex industry. Although they are treated like a marginalised group they form part of the dynamic global economy. Both powerful and controversial, this book is essential reading for all those who want to understand the increasingly important relationship between sex markets, migration and the desire for social justice.

Dangerous Sex, Invisible Labor Prabha

Kotiswaran 2011-07-25 Popular representations

of third-world sex workers as sex slaves and vectors of HIV have spawned abolitionist legal reforms that are harmful and ineffective, and public health initiatives that provide only marginal protection of sex workers' rights. In this book, Prabha Kotiswaran asks how we might understand sex workers' demands that they be treated as workers. She contemplates questions of redistribution through law within the sex industry by examining the political economies and legal ethnographies of two archetypical urban sex markets in India. Kotiswaran conducted in-depth fieldwork among sex workers in Sonagachi, Kolkata's largest red-light area, and Tirupati, a temple town in southern India. Providing new insights into the lives of these women--many of whom are demanding the respect and legal protection that other workers get--Kotiswaran builds a persuasive theoretical case for recognizing these women's sexual labor. Moving beyond standard feminist discourse on prostitution, she draws on a critical genealogy of materialist feminism for its sophisticated vocabulary of female reproductive and sexual labor, and uses a legal realist approach to show why criminalization cannot succeed amid the informal social networks and economic structures of sex markets. Based on this, Kotiswaran assesses the law's redistributive potential by analyzing the possible economic consequences of partial decriminalization, complete decriminalization, and legalization. She concludes with a theory of sex work from a postcolonial materialist feminist perspective.

The Fear that Stalks Lora Prabhu 2014-03-11

This book is an attempt to understand the causes, nature and consequences of gender-based violence in public spaces. It provides a framework that locates gender based violence within the politics and dynamics of public space, and helps us to understand the commonality between these diverse forms of violence, ranging from sexual harassment, sexual assault, moral policing, 'honour' killing, acid throwing, witch hunting, parading naked, tonsuring, rape and homicide. The writers unpack and examine the idea of a 'public' space: although by and large a notional space, they begin by identifying it as the geographical space between the home and the workplace and then, go beyond this to look at the violation faced by homeless women and girls who live on the streets, as well as those who work in public spaces in the unorganised sector. Published by Zubaan.

Culture and Public Action Vijayendra Rao 2004 Led by Amartya Sen, Mary Douglas, and Arjun Appadurai, the distinguished anthropologists and economists in this book forcefully argue that culture is central to development, and present a framework for incorporating culture into development discourse. Gender issues are central to the causes and impact of the ongoing AIDS epidemic. The editors bring together cutting edge contemporary scholarship on gender and AIDS in one volume. They address questions related to gender and sexuality, how women and men live the epidemic differently and how such differences lead to different outcomes. The volume joins research on Africa, Asia and Latin America and illustrates how the epidemic has different gendered characteristics, causes and consequences in different regions. Collectively, the chapters demonstrate the fundamental ways that gender influences the spread of the disease, its impact and the success of prevention efforts. This scholarly, interdisciplinary volume provides a comprehensive introduction to the themes and issues of gender, AIDS and global public health and informs students, policy makers and practitioners of the complexity of the gendered nature of AIDS.
