Imagined Memories, and the Seductive Quest for a Family History Mike Hulme 2008 From accidental beginnings, Mike Hulme's interest in genealogy grew first into a hobby and then into a catalyst for re-inventing himself as he passed through the dangerous years of mid-life. The pursuit of his family origins engaged his intellect, imagination and emotions in new ways and altered the way he saw himself, others and his country's history. Imagined Memories is a memoir of this encounter with the past, an account of his discovery of the ways open to all of us for connecting with what has been. It will appeal to all those who have some first-hand experience of doing family history and to those who can't understand why anyone would want to spend thousands of hours finding out about dead people.

Hollywood Highbrow Shyon Baumann 2018-06-05 Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Hollywood Highbrow*, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.

Narratives Unfolding Martha Langford 2017-07-18 Somewhere between global and local, the nation still lingers as a concept. National art histories continue to be written - some for the first time - while innovative methods and practices redraw the boundaries of these imagined communities. *Narratives Unfolding* considers the mobility of ideas, transnationalism, and entangled histories in essays that define new ways to see national art in ever-changing nations. Examining works that were designed to reclaim or rethink issues of territory and dispossession, home and exile, contributors to this volume demonstrate that the writing of national art histories is a vital project for intergenerational exchange of knowledge and its visual formations. Essays showcase revealing moments of modern and contemporary art history in Canada, Egypt, Iceland, India, Ireland, Israel/Palestine, Romania, Scotland, Turkey, and the United Arab Emirates, paying particular attention to the agency of institutions such as archives, art galleries, milestone exhibitions, and artist retreats. Old and emergent art cities, including Cairo, Dubai, New York, and Vancouver, are also examined in light of avant-gardism, cosmopolitanism, and migration. *Narratives Unfolding* is both a survey of current art historical approaches and their connection to the source: art-making and art experience happening somewhere.

Unchained Mind Ricardo G. Williams 2017-03-15 I took a three-year break from work to explore the topic of peace, love, and success. I spent the time analyzing my thoughts and the effects my thoughts had on my emotional state of mind. The things I found out were quite intriguing. I came to the realization that many of us are not living to our full potential. We live with a measured joy. We keep our happiness in check. Our smiles are met with a restriction from our breath, which makes it short-lived. We seldom breathe fully because our breath is interrupted by the depth of our thoughts. We never really let go fully. We are bound by layers of chains that have entangled our thinkingchains from an uncertain future, chains of work, chains of relationships, chains of our finances, too many chains to mention. My time away from work gave me the opportunity to explore how to break the chains. I admit that even a broken chain is not permanently broken but can be easily reunited if old habits are not changed. My book focuses on the actions we can take to break chains and keep them broken. My book explores how our thoughts control our destiny. It teaches thought control and the importance of silence. It teaches how to overcome fear, anger, negative thoughts, stress, and hatred. You will learn how to nurture your emotions, embrace moments, and the importance of spiritual peace. I will teach you how to live in thankfulness, with compassion, while activating love.

Concerning the Jews (Annotated) Mark Twain 2016-01-18 Some months ago I published a magazine article descriptive of a remarkable scene in the Imperial Parliament in Vienna. Since then I have received from Jews in America several letters of inquiry. They were difficult letters to answer, for they were not very definite. But at last I have received a definite one. It is from a lawyer, and he really asks the questions which the other writers probably believed they were asking.

Affective Health and Masculinities in South Africa Hans Reihling 2020-04-03 *Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Yann Tiersen - Kerber Yann Tiersen 2021-07-01 (Piano Solo Songbook). "I think there is a similarity between the infinite big and the infinite smallness of everything," says Yann Tiersen. "It's the same experiment looking through a microscope as it is a telescope." Named after a chapel in a small village on the island of Ushant, Kerber marks a new chapter in critically-acclaimed composer Yann Tiersen's career. A chapter still true to Tiersen's nuanced and subtle approach but one that sets out with his most overtly electronic material to date. Beautifully textured, highly immersive and thoughtfully constructed, Tiersen creates an electronic world, providing an environment in which the piano source exists. A sense of place has often been a central theme in Tiersen's work and here that is no different. Each track is tied to a place mapping out the immediate landscape that surrounds Tiersen's home, linking back to his thoughts on the possibilities of the infinite smallness. This official, exclusive folio is beautifully printed on high-quality, uncoated paper with striking graphic artwork. All seven pieces are presented for solo piano and follow an exclusive introduction to the project.
